Its wonderful velocity cannot be explained, as it is far greater than could ? produced by the influence of all knows orbs in the universe, and, on the of a hand, the combined attraction of all of stars cannot ered this wunderer in its will tary flight through space with it has rushed on to the return erail to cos, here a which the inrepet tolescopes hard not metrated.

Coffee has purchased of T. T. Morgan & It has been mathematically denote ed that a hady represelving the center of our system room on infinite distance emissi-move with a prector volocity the a 25 miles a second if inducticed by the attraction of the masses in our universe alone, but here we have but considering a star moving with eight the est that velocity, and still, notwithstanding the fact that it has the greatest motion known among the stars, per gallon. It is impossible to mention it would require 185,000 years for this ro REPUBLICANS can have no objec all the items, as it would take too much markable star to complete an entire chr cuit around the heavens .- All the Year Round.

#### A Delicate Insinuation.

The dude drommer from the metrovolitan city of New York was making his first trip west, and out in Missouri he began to get quite flip. He had a fair chance on e train to take the soat next a bright fuel. Miscouri girl, and of course he took it, and it woun't long before he was doing his best to be entertaining to the young wom She couldn't help berself very wal and took it good makaredly

DRI YOU know," he said after com time, "that this is my first trip, and I an fresh from the eart?"

"Well, no." she replied, so the people around could hear, "I oblact know its-that is no say, didn't know you wave fram the east." —Detealt Frav Press.
