JAPANESE FAVOR PEACE.

The Victors Dasire to Bring the | How Mrs. Reese Became a Convert War to an End.

OPPOSED BY THE MILITARY CLASS

The Latter Pavor Extravagant Demands Which Will Not be Insisted Upon by the More Conservative Chinese Merchants Seeking Japanese Registration.

SAN FHANCISCO, Jan. 7.—The steamship China brings the following advices from Tokio, Japan, dated Dec. 21: All trust worthy signs now point to a speedy peace Events have marched with great rapidity in the last two weeks. The Chinese topes of resistance have broken down, and a format offer of direct negotiations has

Little progress was made until after the apture of Port Arthur, when the Chines it has appeared to realize the necessity o immediate action, and they declared their readiness to appoint a representative of sufficient mink and to invest him withfull powers from the central government. The choice of an appropriate place of meeting remains to be considered. The Chinese have designated one of their own ports, Shanghat, as a desirable rendezvous, but to this Japan will not consent and considerable time has been lost in discussing the locality, but the movement towards the peace is proceeding, however, in apparently good faith on the Chinese part, and with sincerity by the Japanese.

The Japanese ministers are thoroughly

aware that the interests of their country will be most warthily served by bringing the war to an end with the least possible delay. The task before them is not an easy one, for the strong and active military class is bent on further conquest on a large scale, and the public feeling is all in favor of inflicting additional punishme on the enemy and demanding inordinate terms of settlement.

General Yamagata has returned from Manchuria, leaving the command of the first army to Lieutenant General Nozu, and is now in attendance on the emperor at Hiroshima. Although undoubtedly suffering from illness, it is believed that the main purpose of his recall was to secure his influence in restraining the in-temperate arder of the military faction and facilitating the arrangements for an early restoration of peace.

early restoration of peace.

Until the proper occasion for proclaiming an armistice presents itself the military operations will continue with unabated vigor. Japan will not be tempted to relax her aggressive energy, nor will she be diplomatically maneuvered out of any of the advantages she has.

The Chinese merchants are returning in great numbers from their own country to the Japanese ports, and are seeking regis-tration on the footing of Japanese sub-jects. Wherever the Japanese fleg is raised the inhabitants signify their desire to live under its protection. Most of the osperous citizens of Port Arthur and Kin Chow, on returning to the homes from which they had fled during the last days of Chinese military occupation, have posted signs on their walls giving their names and addresses as residents in the "New Dominion of Japan."

On Dec. 9 an immense festival was held in Tokio to celebrate the capture of Port Arthur. With a single exception this was he only purely popular demonstration ever attempted in Japan, the first being in honor of General Grant during his mem-orable visit to the capital in 1879.

The Chinese Envoy Leaves Peking. PERING, Jan. 7.—The Chinese envoy to egotiate for ponce with Japan had a fare-vell audience with the emperor on Friday. Japan refuses to grant an armistice. Mr. Denby, the American minister, believes that the negotiations will be fruitless. The Japanese will withhold their terms for peace until they shall have occupied Peking. Japanese landing parties are busy exploring th province of Shantung

Death of Congressman Post,

Washington, Jan. 7.—General Philip Sidney Post, member of congress from the Tenth district of Illinois, died at the Hamilton hotel in this city yesterday after an illness of but one day. His death was from heart failure, resulting from acute gas-tritis. For some time he had been suf-fering at intervals from attacks which physicians pronounced dyspepsia, but has attended to his congressional duties un-remittingly. The Illinois delegation in congress held a meeting at il o'clock this morning and took appropriate action, and the house adjourned after the reading of the journal. General Post had a brilliant war record. He was nearly 62 years old, was serving his third term in congress, and was elected a member of the Fifty-

Five Coasters Seriously Injured Near East Norwich, L. I.

Oystan Bay, L. L. Jan. 7.—Five young men, residents of the village of East Norwich, were injured while coasting Satur-day night, and one of them is expected to die. The injured are: Harry Hayward, shoulder dislocated; Frank Simonson skull fractured, will probably die; Willtam Blauvelt, seriously injured, may be crippled for life; John Donohue, several ribs broken and injured internally; Will-iam Shaw, injured about the head and

The accident he sed on a steep hill between this will and East Norwich. The young men was on a big bob sled, which was maying along at a terrific rate of speed. Towards the bottom of the hill the steering goar got out of order in some unaccountable way, and the sled became unmanageable. It swung off the track and crashed into a tree, pitching the coasters in all directions. Several of them struck the tree, and the others were sent with terrifle force against the ice.

Tragedy Ends the Honsymoon. Utrea, N.Y., Jan. 7 .- About three weeks ago William Flint and wife came to this city from Binghamton to reside with Flint's mother. Flint is about 23 years of age, and his wife is ten years his senior and the mother of two children by a former husband. Yesterday morning Mrs. Flint leveled a revolver at her husband and fired four shots at him without pre-vious warning. Three of the shots took effect, and the man fell to the floor mor-tally wounded. Then the woman fired two shots at Flint's mother. Though seriously wounded the injured woman may recover Mrs. Flint says she was forced to the deed because of the constant interference of her mother-in-law in the affairs of the family She was placed under arrest, but her men-tal condition is such that it was deemed advisable by the authorities to send her to the hospital. THE HAWAIIAN CONSPIRACY.

i Deliberate Plan to Overthrow the Young Republic.

SAN FRANCISCO, Jan. 7 .- The steamer China has arrived here with Hawalian advices to Dec. 31. The examination of alleged conspirators at Honolulu resulted in three of the accused being held for trial without ball. The main witnesses for the prosecution were spies in the employ of the government, who wormed themselves into the confidence of the conspirators, and when the proper time came gave the whole thing away.

According to the witnesses for the gov-ernment there was a deliberate plot to obtain possession of the buildings, and all the prominent supporters of the republic were to be surrounded and arrested at their homes by details of the conspirators. The government detectives even obtained complete lists of those who were to be arrested. Among them were President Dole, his cabinet officers, members of the executive and advisory councils, newly elected members of the legislature, police officials and army officials.

The conspirators claimed to have 2,000

stands of arms and the support of the natives, but the trial developed the fact that the natives took no stock in the affair, and that the conspiracy was simply gotten up by a gang of discontented whites and half

A Big Canadian Newspaper Burned Out. Toroxro, Ont., Jan. 7. - Yesterday morning fire was discovered in the base ment of The Globe building, on the corner of Yonge and Melinda streets. The entire fire department was soon on the spot. Chief Ardagh and five men of the fire brigade mounted upon the cornice running around the first story of The Globe office and were breaking windows to introduce the hose when the northwest wall, from the cornice up, five stories, fell down with a crash. The men leaped into the pile of bricks. Chief Ardagh was badly hurt about the head, and had to be removed in a cab. Robert Bower received such injuries that he was taken to the hospital, where he subsequently died. Charles Smedley, Francis Forsyth, Robert Foster, James Davidson and Harry Saunders are severely injured. The Globe building creeted in 1889 at a cost of \$90,000, with a plant valued at \$00,000, was soon a com-plets wreck. The fire spread to adjoining buildings, causing an additional loss of \$900,000.

THE WEEK IN CONCRESS.

It Promises to be an Eventful One in the Lower House.

THE VOTE ON THE CARLISLE BILL.

Mr. Springer Believes the Debate May Run Through the Whole Week-The Oppo neuts of the Measure May Spring a Surprise-Niesragua Canal Bill in the Senate.

WASHINGTON, Jan. 7.—The present week romises to be a most eventful one in the louse of representatives. It will not only bill so far as the lower branch of congress is concerned, but in the event of the de feat of the measure it will have a far reaching effect on the currency question and on the policy of congress and the administration.

The Democratic cancus, which will con-

vene at 3 o'clock this afternoon, unless postponed on account of the death of Rep resentative Post, will be the first impor-tant step, as it is expected to test, whether any bill can command a majority, and what the form of the bill is to be. A rulfixing the future course of debate will not be introduced until tomorrow, and its terms will depend largely on the events of the caucus. It had been hoped to get a final vote by tomorrow or Wednesday, but Mr. Springer, who is in charge of the bill says it may be necessary to let the debate run through the week.

There are evidences, however, that a coup d'etat will be put in execution by to-morrow by those opposed to the bill. This will be a motion to strike out all after the enacting clause, which would be equiva-lent to a motion to kill the bill. It was by a stroke of this kind that the Morrison tariff bill was summarily killed long be fore its friends had anticipated a final vote The parliamentary leaders of the house have been consulted and have agreed that this move is regular and in accordance with the rules. They are expecting the move, although it is not known positively that it will be executed. If an early vote is thus precipitated, and all of the bill after the enacting clause struck out, it would do away with the five minute debate and put a summary end to the struggle. If, however, the motion to strike out should full to secure a majority the five should fall to secure a majority the five minute debate would proceed until the

final vote was taken.

There is no program for the week be yond the currency bill, as this measure will exclude the consideration of every-thing else until it is settled.

The senate adjourned soon after the hour of meeting today as a mark of respect to Representative Post. Tomorrow the Nicaragua canal bill will again be before the senate. The regular proceeding of the week will then begin with a speech in support of the measure by Senator Mitchell, of Oregon.

The friends of the canal bill are hopeful that a vote may be reached some time during the week, but whether it will reach that important stage will depend upon the persistence of the opposition and the interference of the business of the appro-priations committee. The pension appropriation is the only appropriation bill now before the senate, and it is not believed that its consideration will consume much time, but there is a probability that the argent deficiency bill will be reported during the week, and in case it should be and an effort is made to call it up it is to be the basis for numerous speeches on the appropriation for carrying the income tax

While the opponents of the income tax generally disavow any intention to defeat the appropriation, they openly confess their purpose of using it as a text for speeches on the general policy of imposing such a tax. The probabilities are, how ever, against any effort to revive consideration of this bill during the week.

It is likely that two or three speeches will be made against the Nicaragua bill luring the week, and there are still others so far unannounced to be made in its sup

The advocates of the canal bill are beginning to grow somewhat anxious to re ceive a vote, as they suspect an effort to hold this off until it may be possible to displace the bill entirely with some other measure, or, if this be avoided and the bill passed, that it will reach the house too late to secure consideration during the present session.

The general understanding now is that when the Nicaragua bill shall be disposed of by the senate the bankruptcy bill will be taken up for consideration, and that after that the territorial admission bills will receive attention.

The building is of brown stone, the architecture anceque, and is finely finished in light oak. The cost, including the lot, was more than \$240,000.
