FRIDAY, JANUARY (1, 1898.

THERE are worse things than an extra a selon of Congress - a continuance of the present regular session, for example,

High ab we the crash and smash of the bungling work of the currency tinkers of the Administration comes the sonorous shout that "Mr. Cleveland is a friend of sound money," The "sound" part of it that Mr. Cleveland favors is evidently the roar of the gas escaping from the rips in an over-inflated currency balloon.

IF earnest talk could clear away snow and if rosy promises could sweep the pavements from curb to curb, the streets of this town would have been models of cleanliness many days ago. The moral of this observation is that what the condition of our thoroughfares requires is less talk and more shovels, fewer promises and more brooms. All of which is respectfully submitted to whomsoever it may concern.

Now that the Philadelphia Grand Jury has found two bills charging Anarchist Mowbray with saditions utterances, that zealous English exponent of the doctrine of chaos is doubtless more than ever disgusted with the crudeness and inadequacy of American institutions. Nothing so shocks an overworked Anarchist agitator as to run up against a government which insists upon its right to punish men who went to destroy it.

WHAT Congressmen ought to have seen before the new tariff was passed some begin to see dimly now, that larger revenue from duties averaging 40 per cent, on woollens, instead of 98 per cent. in 1892, mean importations worth \$34,000,000 instend of \$37,500,000 in 1892, and that change neces arily involves the closing of American mills producing over \$50,000,000 worth of goods, and that necessarily involves smaller wages or no wages for millions of workers, and less ability to buy clothes or anything else. Events are gradually demonstrating some of these things, which any other Congress but this would have accepted as axioms. Before people can buy largely, even of goods at half price. they must earn largely.

What causes the spells of good and bad times? Crops in part, all over the world. Far more largely the speculative spirit, which often rises when crops fall. But these natural variations are at times made of no account by others which are not natural, but depend upon regulation of finances or trade between different countries. If Germany and European countries fix their laws so that they buy less meat or grain from us, that will leave our farmers less to speud. The European re striction may itself be the consequence of a stupid blunder in our laws, mainly becan'e rulers were ignorant of treaty obligations, but also because they had a bra nless partisan prejudice against the reciprocity plan of a former Administra tion. Tous we sow partisan prejudice and ignorance, and in due time the crop is smaller buying of American goods by American farmers. Or we sow senseless theories of Free Trade, and they sprout in a tariff which closes hundreds of American mills in order that people may have a comple to get cheaper foreign goods, and the trainage is a decrease of buying all around, because the people have not as much as before to spend. The worst times this country has seen for fifty years came with the decision of the people; for a change of National policy in 1892. They came just when husiness, reviving dorer and usurper will cause a British exwonderfully in 801 and 1895, had reached position to be sent to punish and expel the highest point ever attained, yet seemed certain to go much nigher. Because things looked so oright, everybody had jail Thomas Grant, a prisoner held on susmade ready to do a big business, and the shrinkage lavolved prostration for many. What the country voted for it is getting: It is the simplifiest kind of foolishnes to pretend that the world has somehow arrived at producing more wheat and more cotton and more cloth than it can use. Double the production, with pros perity, and the world would readily con-sume it all.

OPPOSING REDUCTIO L

The Pittsburg Miners' Convention Insisting Upon Arbitration.

PITTSBURG, Pa., Jan. 11.—The miners' district convention developed a strong so-timent against allowing the miners to work for anything they pleased until the annual meeting at Columbus next month, and the result of the day's discussion was the adoption of a resolution announcing surrounding towns for Six Cents | that the miners were ready and willing to abide by the decision reached by the joint convention of miners and operators two

woolen ngo. The resolution adopted at that meeting was one presented by W. P. Rend, calling for an arbitration board composed of three miners, three operators and three reputa-ble citizens to investigate the condition of the district.

South Dakota's Thieving Treasurer.

PIRMIR, S. D., Jan. 11.—The attorned eneral loss brought suit on the bond of Treasurer Taylor. It is understood that the bond will be contested. It is believed Taylor is hiding in the east. It is known that he had when he left here fully \$250, 000 in cosh, and he could have drawn in New York \$100,000 more. It is believed that he has certain confederates here who are keeping him advised of the proceed A strong attempt is being made here to throw doubt on the validity of the bonds, and it is suspected that the plan is to force the state into a compromise with the bondsmen for a moderate sum, and then when a settlement is completed and Taylor is promised immunity he will make good the losses of his bondsmen.

WASHINGTON, Jan. 11.—The postoffice department received official notification that Cape Colony, regarded as the most important acquisition in Africa for the universal postal union, owing to its posttion as the entrance for all African mails, had joined the union on Jan. 1. The arrangement, however, will not reduce the postage rates for that country, owing to the recent order of Postmaster General Bissell making uniform rates for the world. The only countries not now em braced in the union are China, Orange Free State, Matabela and Washonaland, and Samoa, Friendly, St. Helena, Ascencion, Comora, Pitcairn, Roratonga and

Mr. Quay (Pa.) also gave notice of several amendments he intends to offer to the bill, one to repeal the income tax and the others to insert the McKinley tariff and the woolen schedule. Mr. Caffery (La.) commenced his speech on the Nicaraguan canal bill, but had not completed it when the senate adjourned.

Senator Vest's Pinance Bill.

WASHINGTON, Jan. 11.—The meeting of the senate committee on finance was en tirely devoid of results. The Republican members made the point that talk was of comparative little value as long as there was no legislative proposition before them. The Domocrats explained that they had considered it a waste of time to formulate a bill until there should be some comparison of notes. The committee was in-formed during the meeting that Senator Vost had a bill in contemplation, and there was a partial promise that it would be completed in time to be introduced in the senate for the use of the committee or
