

# EVENING HERALD

Published daily, except Sunday by  
**HERALD PUBLISHING COMPANY,**  
Publication office and mechanical department,  
North Market Street.

The Herald is delivered in Shenandoah and surrounding towns for Six Cents a week, payable to the carriers. By mail, Three Dollars a year or Twenty-five cents per month, in advance.

Advertisements charged according to space and position. The publishers reserve the right to change the position of advertisements whenever the publication of news requires it. The right is also reserved to reject any advertisement, whether paid for or not, that the publishers may deem improper. Advertising rates made known upon application.

Entered at the post office at Shenandoah, Pa., as second class mail matter.

**THE EVENING HERALD,**  
Shenandoah, Penna.

## Evening Herald

MONDAY, JANUARY 14, 1896.

NOTWITHSTANDING HIS proverbial slowness, Philadelphia made a very quick turn on the Republican majority nomination.

**PRESIDENT CLEVELAND** and Senator Hill did not agree to an arbitration until they discovered that the elections had left them nothing to arbitrate.

**STATE TREASURER TAYLOR**, of South Dakota, tried to run a bank and the state treasury at the same time and had remarkable success in "lusting" both.

If you don't want the grip keep your feet dry. If you have the grip don't neglect it. Some people seem to think that the grip is a joke—but these people have never had it.

**PRESIDENT CLEVELAND** in his Hawaiian letter to Congress says: "We have not felt at liberty to entertain the question ourselves." Apparently he has learned a heap since he tried going it alone with Paramount Blount.

**CONGRESSMAN WILSON** says that the Democratic party is hostile to trusts. In what way has it given evidence of any such hostility? The Democratic Administration and the Democratic Congress have done nothing at all to interfere with the trusts or to check the violations of law of which all the trusts have been guilty.

The position of the Democratic conspirators in Tennessee, who are scheming to prevent the Republican Governor from occupying the seat to which he was elected, is that the votes of the people don't count unless they show a Democratic majority. The situation down there simply shows the Southern Democracy in its old attitude of refusing to acknowledge the will of the people by whom it stands impeached and discredited.

EACH of the 450 priests in the Pittsburg Roman Catholic diocese has been notified of an order recently issued by Rt. Rev. Richard Phelan, bishop, prohibiting their attendance on base ball, foot ball or other games of sport, as well as attending the theaters. The order has been ratified by higher authorities and must be observed. The reason given for issuing the order is that the absence of priests attending amusements or sports has caused inconvenience to persons needing their services.

Now the Cry Baby Democracy clamors for Republican aid to repair the incalculable damage done by its Whiskey and Sugar Tariff. The answer is obvious. The Republicans would by any decent party be recognized, since the elections of November, as entitled to determine the course of legislation on the great questions which divide parties. If the Democrats wish to concede that responsibility, and to furnish votes enough in both houses to pass such measures as Republicans consider necessary to the public welfare, the Republicans will accept, reluctantly but from a sense of duty, and try to put things straight as far as they can. If the Democrats refuse, after having been kicked out of power for their incapacity, and still insist upon running things themselves, the Republicans will not interfere. The remedy, but not the moral right to share legislation rests with the Democrats. The entire responsibility goes with it, if they choose to exercise the technical right and to defy the moral obligation to respect the declared will of the people. The Republicans will not accept responsibility in fractions, picking up the share of the burden only which Democrats realize they cannot carry, and leaving the Democrats to muddle and baffle other matters. Government is a problem of infinite interdependence. The tariff and the currency cannot be separated, nor the tariff and the appropriations. If Democrats insist upon having their own foolish way about the currency and the appropriations, they must also stand responsible for the revenue they make necessary.

### Prophecies For 1895.

Mrs. Kelly Hartman of Lynn, Mass., has either been impressed or resolved out of her own head to make a series of prophecies for this year. Some of her predictions anybody without occult power could foresee—as, for instance, that there will be great rowing in congress, with "unusual excitement and discord." Unusual excitement in congress has been the usual thing for so long that we are well used to it now and don't mind it. Furthermore, she says that at least three prominent politicians will die. Heaven give them happy release! If the smaller politicians (and a good many of them) would follow suit, the country would have a happy release and a rest as well.

Royalties and rulers are going to have a bad time. Queen Victoria will be very ill and maybe die, and President Cleveland will not feel very well himself. The Prince of Wales will have much trouble, and there will be sickness in his family. Americans are sorry for this, for Wales is beginning to show that he possesses some of the good hard sense and not a little of the kindly heart of his father, Prince Albert. There will be two deaths in the British royal family in 1895, says Mrs. Hartman, and in our own reigning house little Princess Ruth Cleveland will have an illness. So much for royalties.

Bloated capitalists and millionaires may look a little out, for they will not have a good time. They will sustain great financial losses, and the death of one of them will cause considerable excitement. We doubt that the death of even a hundredfold millionaire never yet has caused any great excitement in this country. We are too much accustomed to millionaires.

Three great men are to die by violence, and an unusual number of prominent people are to quit this life also, quietly in their beds. Let us all take the best of care of ourselves.

There are going to be in 1895 enough excitement and stir to have lasted the good old times a generation. The labor agitation will continue more fiercely than ever, and at the end of the year working people will find themselves decidedly better off than they are now. Well, they can stand it. Two very influential men will be of great benefit to the cause of labor. Thousands of men who read this prophecy will thereupon ask: Is it I? It will be a bad year because of train robbing and crime, especially in the west. There will be a dreadful earthquake or two in the southwestern United States. Whether politics in Texas has anything to do with these the prophet sayeth not. Besides the earthquakes the sea tells us there will be unusual storms on land, such as we had in 1894, and a tremendous great one at sea. Three huge buildings will fall, probably some of the skyscraping hotels and apartment houses built on the new plan of economizing ground rents. A big steamer will be burned at sea, and there will be constant heresy trials and theological agitation in the church denominations.

The year 1895 will, however, be a wonderful one for the advancement of science, invention and labor reform, we are told. That lets down a little easy and gives us some small ground for hope. Mrs. Hartman says, further, that the powers of darkness are going to pull all together and make one intense, all around effort to crush out spiritualism and the spiritualists, but that they can't do it, and after a time "all will be bright and beautiful."

If half the things this seer predicts come true, 1895 will be a jolly rough old year to most of us, and we shall not lack excitement. On the whole, perhaps we cannot do better than to take to ourselves the advice given by one of the lady's spiritual advisers, "Be courageous and firm." For ourselves, that is what we are going to do. We shall stand firm as a rock and not be afraid of lions unless they get away from a circus and are running about at large.

The fatal fires that have occurred in different parts of the country this January show that not even yet has much progress been made in constructing efficient fire-escapes, with all the parade that has been made and the money that has been spent. The most tragic burning was that of the historic Delavan House at Albany. How the poor chambermaids upon the upper floor could have been roasted alive as they were can only be explained by the lack of any proper means of escape. It is to be hoped that the lesson of the Delavan will not be lost on proprietors of other hotels throughout the country that are furnished with no better fire escapes than this old structure had.

Live stock men say that the recent embargo in Europe against American cattle is not caused by pleuropneumonia at all, but by sugar, the sugar in the tariff bill. When America put a duty on imported sugar, Germany, France and Belgium found that American hogs had pleuropneumonia and American hogs had trichinosis and restricted their imports. A dose of reciprocity will cure both diseases.

"It is understood that Mr. and Mrs. W. K. Vanderbilt will occupy the marble place at Newport next summer." All's well that ends well.

The armor plating of Andrew Carnegie's cheek is thick enough to stand any ballistic test.

# MUNYON SAVED HER,

## How Mrs. Reese Became a Convert Her Arm Was Useless, and Could Not be Moved Without Pain—How She Was Cured.

Mrs. John Reese, South Pottsville, Pa., says: "It is now about a year since I was cured of one of the worst attacks of rheumatism I ever had. I had tried all kinds of remedies, and had several doctors, but nothing did me any good; so I concluded to try Munyon's Remedies. I never had any faith in homopathy; I confess now I am a firm believer in it. After taking the Rheumatism Remedy a few days I was able to raise my arm, which I had not moved for two weeks without the most intense torture. Within a short time I was completely cured, and it was permanent, for during the past year I have not had the slightest return of the disease. Munyon's Rheumatism Cure is guaranteed to cure rheumatism in any part of the body. Acute or muscular rheumatism cured in from one to five days. It never fails to cure sharp, shooting pains in the arms, legs, sides, back or breast, or soreness in any part of the body in from one to three hours. It is guaranteed to promptly cure lameness, stiff and swollen joints, stiff back, and all pains in the hips and joints. Chronic rheumatism, sciatica, lumbago or pain in the back are speedily cured. Munyon's Homopathic Home Remedy Company, of Philadelphia, put up specifics for nearly every disease, which are sold by all druggists, mostly for 25 cents a bottle.

### FINANCE AND TRADE.

**The Return to General Resumption Comes Very Slowly.**

**NEW YORK, Jan. 12.—R. G. Dun & Co.**'s weekly review of trade says: Neither the beginning of the new year nor the failure of the currency bill has brought any material change to business as yet. The idea that business would suddenly take a new start after the holidays had rather less foundation even than usual, but the hope of strong revival a little later is still cherished by many.

There has not been much time for change in the industries, but differences observed since the new year began are not in the direction of higher prices or larger demand. There are more indications than of late that stocks of different kinds of goods have been accumulating in consequence of past increase in production. The weekly output of pig iron Jan. 1, reckoning in some furnaces only temporarily out of blast for the holidays or repairs, was 108,414 tons, against 108,762 Dec. 1, showing practically no change. But stocks of unweld pig increased during the month about 20,000 tons weekly, so that actual consumption in the manufacturing sector to have been about 148,000 tons weekly against 137,000 in November. In any case the industry is doing vastly better than a year ago, when the output was less than 100,000 tons, but indications of excess of production over demand are found in further weakness of prices.

The failures for the past week have been 420 in the United States, against 374 for the same week last year, and 54 in Canada, against 57 last year.

Bradstreet's review says: The second week of the new year brings few reports of an increasing volume of orders for seasonable goods. Weather conditions in the east have been unfavorable, those west and south the reverse. Chicago, St. Louis, Boston, New York and Philadelphia report relatively greatest improvement. At some centers it is too early to judge of the outlook for trade. Production of iron and steel is going on in excess of demand, but manufacturers expect that necessary repairs, renewals and additions by railroad car manufacturers and other industrial enterprises will have a stimulating influence in the near future.

**Striking at the Whisky Trust.**  
**CHICAGO, Jan. 12.—The United States** circuit court of appeals took up the appeal of the whisky trust from the decision of Judge Grosscup, awarding \$37,000 of rebates to the general company of Baltimore. The issue that he made strikes at the foundation of the trust. In order to keep its hold upon the trade the trust granted to all dealers who handle its goods exclusively a rebate of from two to five cents a gallon. Gotschlich & Co. were distributors for the trust, and had a claim for \$30,000 rebates. The firm declined to fill out the form required by the trust, and were refused the payment of the rebates. Suit for its collection was then begun and in April last Judge Grosscup rendered judgment against the trust, for \$37,112.97, from which decision an appeal was taken.

**Accused Bank President Surrenders.**  
**NEW YORK, Jan. 12.—William W. Weston,** president of the Home State, Pa., Savings bank, surrendered himself yesterday in Recorder Goff's court on an indictment charging him with having aided and abetted the alteration of certain notes. The complainant is H. Simmons. The grand jury returned an indictment against Weston, who surrendered here before the papers in the case could be sent to Honesdale. He was bailed out by William Brookfield. P. J. Kellan is in the Tombs on a charge somewhat similar to the one against Weston.

**Urging an Increased Appropriation.**  
**HARRISBURG, Jan. 12.—Adjutant-General Greenblatt** states in his report to Governor Pattison for 1894, the advance sheets of which have just been issued, that the annual appropriation for the expenses of the National Guard of the state is not sufficient to keep it on the high plane it has attained, and recommends that the appropriation be increased from \$220,000 to \$250,000 a year. This item of pay alone was greater by \$70,000 in 1894 than in the previous year and \$100,000 in excess of 1891.

**NUGGETS OF NEWS.**

Mayor Strong, of New York, will appoint one or two women to the school board.

Albee M. Hartley has been sentenced to eleven years in prison for killing ex-Senator L. D. Foley, at Reno, Nev.

The schooner Eva L. Leonard, of Boston, was wrecked off Bateman's Point. R. J. Crew saved by the breeches buoy.

Saleon O. thinks it has a suicide club, two men having killed themselves within two weeks, and another attempted it.

By a gasoline stove explosion at Kaneohe, Mich., Mrs. Mary Perkins and son James were terribly burned, and the house was destroyed.

The proprietor of the Lindell hotel, St. Louis, refused to entertain Sissoceta Jones, the "Black Patti," and she threatened suit for damages.

# FIGHTING FIRE AND ICE.

## Sufferings of Firemen at a Conflagration in Bradford, Pa.

### THE THERMOMETER BELOW ZERO.

As a Result a Hundred of the Men Were Frostritten, the Condition of Two of Them Being Critical—The Property Loss Estimated at \$81,000.

**BRADFORD, Pa., Jan. 14.—Early yesterday** morning fire broke out in the Sheehan House, 193 Meacham street. The conflagration is said to have been caused by an overheated stove. Some of the hydrants were frozen, and before they could be used the fire had spread so rapidly that a general alarm was sent in, the whole department responding promptly. The fire raged fiercely for four hours, and before it was subdued had gutted seven buildings, including the big Columbia block and the Nashua block. The total loss is estimated at \$81,500, on which there is about \$43,000 insurance.

A high wind was blowing at the time, and the thermometer registered 8 below zero, making difficult work for the department. A hundred of the firemen were taken to places of shelter with frostritten ears and fingers, and two had to be conveyed in a carriage, being unable to walk. J. F. McQuiston had his hands badly burned and afterwards frozen. Robert Sisco and Robert Helm, of the Citizen Hose company, are so badly frozen that their condition is critical. Ice fully an inch thick froze on the firemen's clothing, placing them in armor that impeded their work materially. Owing to the fierceness of the gale it was an exceedingly hard job to fight, and for a time it seemed that this part of the town would be wiped out. An alley running back from Main street and intersecting with one from Meacham street, formed a square in which the firemen succeeded in confining the blaze.

But few of the occupants of the Meacham street house were out of bed when the fire broke out, and the inhabitants had very narrow escapes from cremation. Two of the women, Mary Callahan and Mary Dorean, jumped from the second story windows in their night clothes, and both sustained very serious injuries. Although Miss Callahan's left wrist and ankle were both fractured in the terrible fall, she dragged herself through the snow to a place of safety, almost perishing from the cold on the way.

The flames also destroyed the house, owned and occupied by Mrs. Mary Peters, and that lady, with her two daughters, saved none of their possessions but the night clothes in which they escaped. In the Smith building, when it was ablaze from foundation to roof, and it was thought everybody was out in safety, Mrs. J. F. McQuiston, one of the occupants, rushed from her rooms with her clothing and hair ablaze. The firemen saved her from cremation. Her husband was badly burned about the hands in working with the flames, and before the fire was extinguished had his hands and ears frozen.

### Panic at a Church Funeral.

**NEW HAVEN, Jan. 14.—The funeral** of the murdered Italian, Raphael Delgrasso, took place yesterday from the Italian Catholic church. During the services the pillars supporting the gallery snapped, and a panic ensued. Women and men jumped from the pews, and in their rush broke the windows and burst the doors from their hinges. Vincenzo Luigi and his wife jumped from the second story window. The man fell on his side on the pavement, breaking his arm. Several children were bruised by being trampled upon.

### Physician Charged with Infanticide.

**HONESDALE, N. Y., Jan. 14.—Sheriff** Tinkham, of Windsor county, Vt., arrived here with extradition papers for Dr. J. W. Rider, who is under arrest charged with murder in Vermont. According to the sheriff's story Rider was the attending physician at the birth of an illegitimate child in Rochester township, and that the father of the child, in the presence of a witness, hired him to make way with the child. Sheriff Tinkham says that Rider will either hang or receive a life sentence if found guilty.

### Disastrous Fire at Barnesville, O.

**WHEELING, W. Va., Jan. 14.—Early in** the morning the town of Barnesville, O., thirty miles west of this place, experienced the most disastrous conflagration in the history of the place, the loss being estimated at from \$75,000 to \$100,000. The origin is supposed to have been from a natural gas fire in the novelty store of M. T. Ward, on Main street, and it quickly spread to adjoining business houses. The fire was only stopped when it reached the fireproof Bradford block about 3 a. m.

### The Starving in St. John's.

**St. John's, N. E., Jan. 14.—Owing** to the difficulty of obtaining money to set the relief works going the government has not been able to accomplish as much as desired. They will have to make some advance the week as the number of persons without food is increasing daily. The clergyman are trying to arouse their congregations and to induce them to give more towards the local charity funds, but few are in a position to respond.

### Denunciatory and Suicide.

**PITTSBURGH, Jan. 14.—Frederick Her-**mann, a laborer, 61 years old, living at 72 Rush street, Allegheny, died at the Allegheny General Hospital from the effects of a dose of poison. He had been suffering from a cancer of the stomach, and a day or two ago his attending physician informed him that his case was hopeless. He grew very despondent and swallowed the poison.

### Derivishes Attack Egyptian Outposts.

**LONDON, Jan. 14.—A dispatch** from Cairo says that the derivishes attacked the Egyptian outpost 100 miles west of Wady Halfa. Several Egyptian detachments and a camel corps under Captain Tredway is pursuing the derivishes.

# COTTOLENE.

## Poor Pie

is responsible for many of man's (and woman's) physical woes—but the pie needn't be poor, and it may bring joy instead of woe. How? Use nothing but COTTOLENE for shortening and the pie crust will be delicate, flaky, delicious, and so healthful that even a dyspeptic can eat freely of it and be comfortable. COTTOLENE can't be equalled as a shortening, and is absolutely healthful. Genuine has this trade mark on every pail. Take no other.
