

HOMESTEAD MEN ORGANIZED.

Carnegie Workmen Not Frightened Off by Wholesale Discharges.

HOMESTEAD, Pa., Jan. 31.—The employees of the Homestead steel plant have taken a march on the company, and the Amalgamated Association has again secured a foothold in the works by the organization of at least one lodge, the first since the end of the big strike of 1892.

The organization was necessarily accomplished with much secrecy, and it is understood that only the most trustworthy in each of the departments were selected for the initial step, and through them it was hoped to regain the old-time power of the association in the mill. The original chapters of the eight lodges which expired prior to the famous strike will then be probably returned to the officers. The lodge already organized is what is termed a general lodge, which will embrace workers of all kinds. From this lodge they will be graduated into the sub-lodges to be organized in each department.

That the combination spirit is still among the men was evidenced by the attendance at the open mass meeting yesterday. Between 1,000 and 1,200 men were present. President Garland, of the Amalgamated Association, was made president of the meeting and the newspapermen secretaries. No more open meetings will be held, the work in the future being done in strictest secrecy.

Denouncing Labor Leaders.

PHILADELPHIA, Jan. 31.—A long session of the meeting of District Assembly No. 10, K. of L., was held in this city last night, and resulted in the passage of resolutions denouncing the high officials of the organization and cautioning workmen to beware of them. The attendance, which included several Knights from other New England states, was unusually large, scarcely a member being absent. The resolutions adopted declare that "J. B. Sovereign, John W. Hays, M. F. Bishop, T. B. McGuire, Henry B. Martin, J. M. Kenny and C. H. French, claiming to represent the order of K. of L., are endeavoring to collect money from the working people of this country to support themselves in idleness and enable them to barter with political leaders."

Another of Quigley's Victims.

BRIDGEPORT, Conn., Jan. 31.—The Bridgeport National bank, of this city, holds \$100,000 in bonds of the city of Danvers, Ill., as security for a loan of \$8,000 made by Edwin O. Quigley, the self confessed head forger of New York. The loan was made six months ago and is not due yet. President Forest has not yet ascertained the validity of the bonds. In 1893 Quigley made a loan of \$30,000, and by settling promptly when it was due, although the time expired in the midst of the financial depression, he gained good standing with the banks here.

Probably a Case of Suicide.

LANCASTER, Pa., Jan. 31.—The body of an unknown man, with a revolver clutched tightly in the hand, was found last night close to the railroad track, west of Mountville, a few miles from this city. The supposition is that it is a case of suicide. The name of the suicide, according to papers found on his person, is S. Winchester, of Williamsport, Pa. While in Lancaster he told a number of persons that he was J. H. Brown, of Baltimore, and under that name he had been receiving newspaper mail at an eating house where he took occasional meals.

Mr. Pattison's Eligibility.

PHILADELPHIA, Jan. 31.—The controversy over ex-Governor Robert E. Pattison's eligibility for the majority is attracting the attention of the politicians. The claim made by the Republicans is that his having voted in Harrisburg debars him from the franchise in this city is stoutly resisted by the Democrats, and each side quotes legal opinions without limit in support of their arguments. Many of the ex-governor's acceptance of the nomination is anxiously awaited, his partisans claiming that he will undoubtedly accept.

Terrible Earthquake in Persia.

LONDON, Jan. 31.—A dispatch from Teheran, the capital of Persia, states that the town of Kuchan, in the province of Khorasan, which was destroyed by an earthquake fourteen months ago, and which was subsequently rebuilt, was again destroyed by an earthquake shock on Thursday last. There was, as on the previous occasion, great loss of life. One hundred women were in a bath house, were crushed to death by the falling building.

He Was Justly Accused.

RICHMOND, Va., Jan. 31.—L. S. Ely, who was brought from New York a few days ago charged with embezzlement from C. E. Veeder & Co., his former employers, has been set at liberty. The charge arose out of the absence and misunderstanding of certain vouchers in making up Mr. Ely's account with the firm. The charge has been withdrawn. Veeder & Co. admitting that they had made a mistake in the matter.

Life Imprisonment for Theft.

MARTINSBURG, W. Va., Jan. 31.—Several days ago William Banks, colored, was found guilty in the circuit court at this place of stealing waste from the boxes of cars standing on the tracks of the Baltimore and Ohio railroad. On Saturday Judge E. Foster Walker sentenced him to the penitentiary for life, it being his third conviction before the court. This is according to a provision of the state laws.

Pugilist Visited Lawyers Flood.

BROOKLYN, Va., Jan. 31.—There was an exciting scene at the hearings conducted during the trial of a criminal case. Prosecuting Attorney Colonel John W. Hartwell, while examining a witness, got into an altercation with Captain W. W. Beckler, counsel for the defendant, which resulted in passing of blows. Court officers intervened and separated the belligerents. Judge Woods fined both parties \$50.

John L. Talks Through His Hat.

LINCOLN, Neb., Jan. 31.—John L. Sullivan, who is in Lincoln with his company, says he will re-enter the ring next year prepared to redeem his last laurels. He thought Fitzsimmons would give Corbett the tightest fight he ever had, and said he would not be surprised if he (Sullivan) would be the next man to meet the Australian in the event of Corbett being defeated.

NO CHANGE OF POLICY.

The Philadelphia Will Take No Part in the Hawaiian Revolt.

WASHINGTON, Jan. 31.—In conversation last evening the president seemed entirely willing to discuss the Hawaiian question. He said: "No information has been received in Hawaii making the presence of one of our naval vessels necessary, unless we are prepared to enter upon a policy and course of conduct violative of every rule of international law and utterly unjustifiable. All who take any interest in the question should keep in view the fact that Hawaii is entirely independent of us and that in its relations to us it is a foreign country."

"A ship has been sent to Honolulu, not because there has been any change in the policy of the administration, and not because there seems to be any imminent necessity for its presence there. The vessel has been sent in precise accordance with the policy of the administration in every case of the kind, and from motives of extreme caution, and because there is a possibility that disturbances may be renewed which might result in danger to the persons or property of American citizens entitled to the protection of the United States. This course was at once determined upon as soon as information reached the government of the recent revolt."

The instructions to Admiral Boardley are: "Your purpose as the United States senior naval officer at Honolulu will be the protection of the lives and property of American citizens. In case of civil war in the islands extend no aid or support, moral or physical, to any of the parties engaged therein, but keep steadily in view your duty to protect the lives and property of such Americans as shall not, by their participation in such civil commotions, forfeit their right in that regard to the protection of the American flag."

The Philadelphia Off for Honolulu.

SAN FRANCISCO, Jan. 31.—The flagship Philadelphia left here for Honolulu yesterday, and it is expected she will make the run to the islands in about six days. The ocean steamer Australia left at 10 o'clock this morning. She had a small passenger list, as some of those who had intended to make the pleasant ocean voyage have decided that Hawaii is a good place to keep away from at present. She carries 2,000 stands of arms and about 75,000 rounds of ammunition to representatives of the government.

Aluminum War Vessels.

WASHINGTON, Jan. 31.—Probably with a view to giving scope for the latest ideas in naval construction, Secretary Herbert has modified the advertisements for the three torpedo boats to be constructed, so as to permit of the substitution for steel of any metal or alloy in hull or machinery. It is understood that the change has been made at the instance of bidders who desire to submit proposals to build the boats of aluminum bronze. Another reason for the change may be found in some recent French experiments, wherein a great saving of weight was made by the use of aluminum for hull construction.

A British Columbia Boodler Escapes.

NANAIMO, B. C., Jan. 31.—The sensational disappearance of Police Magistrate Planta, as an outcome of the royal commission investigation, is no longer a mystery. It is now known that he has reached the American side. A hurried investigation of his affairs shows that for years he has been in the habit of using public money as well as property of intestates for his own use. It is estimated that he has gotten away with a very large sum of money.

Not Guilty of Murder.

HARRISBURG, Jan. 31.—The trial of Edward Hoppenhaver for the murder of John Englebert last October closed with a verdict of "not guilty." The evidence during the trial went to show that Englebert had been drinking, and that he appeared at Hoppenhaver's house at night and tried to get in, though warned to leave. The mother of Hoppenhaver went to the door and opened it, and when Englebert rushed in public competition had been courted. It is claimed other aldermen will have similar charges brought against them.

MICHAEL DAVITT DEFENDS US.

The Irish Leader Writes of Our Superiority Over Great Britain.

LONDON, Jan. 31.—Mr. Michael Davitt, the well known Irish leader, has written a column letter to The Chronicle protesting against the wholesale charges of corruption hurled by Mr. Benn and others against the American people. He asks whether such names as Maynard, Cleveland, Harrison and Moore must be dubbed corrupt because a few politicians of the baser kind have engaged upon their representative positions, and whether every citizen in the United States is to be a Leveller candidate, because New York and Chicago have exhibited some instances of gross municipal corruption, invariably followed by the punishment, or ostracism of the guilty persons. Mr. Davitt adds:

"It is a superlative absurdity. Seasoned ignorance and conceit make the English critic impervious to ridicule when he rides the high horse of British superiority."

He says the faults of American public life are those of popular bribery. The American government may be all that it is alleged to be, but it does not exist on an average income of forty rupees yearly, with their salt taxed in the bargain.

America's sins are small when compared with England's doings in India, Ireland and elsewhere.

The Chronicle, in an editorial, advocates the taking to heart of Mr. Davitt's warning, and says: "We would willingly give a good many British statesmen for one Abe Lincoln."

Bill Cook's Methods in Toledo.

TOLEDO, O., Jan. 31.—Shortly after 9 o'clock Saturday night two masked men entered the grocery store of William McGuthrie, on Oak street, in a populous part of the city, and pulling their revolvers on the proprietor, his wife and a customer, proceeded to help themselves to the cash till, obtaining about \$180. Warning them against an alarm, the two robbers then disappeared. The police have a clew.

BANK ROBBERS THWARTED.

They Were Met by Officers When They Went to Rob.

MOMENCE, Ill., Jan. 31.—An attempt to rob the Exchange bank, of this town, yesterday morning would have been successful had it not been for detectives from Chicago, aided by the town marshal and assistants, who after a fierce battle with the robbers, succeeded in capturing Wood Love, of Momence, who became separated from the rest of the gang in the confusion of the flight. There were two and possibly three others in the gang, and they got away in the darkness. Later one of the burglars, named Schaff, was captured and the detectives are in pursuit of the others.

Robberies in Momence have been so numerous during the past few months that the Chicago detectives had been employed recently to ferret out the perpetrators. The operative sent here gained the confidence of the gang and learned of their plan to rob the bank Saturday night. Had they succeeded they would have scored about \$100,000 in cash. None of the men arrested have been previously imprisoned on a serious charge. They have not, however, at any time been known as sober and industrious citizens.
