Evening Herald.

TUESDAY, JANUARY 22, 1895.

As a result of a baker war in Indianmpolis, the price of a loaf has gone down to 3 cents, and now the poor are wonderng where to get the 3 cents.

Nor Brisson, but Faure, is the man in France. It was Rallied Republican against Radical Republican, but so that St is a Republican it is all right.

A Socialist manifesto in France hardly amounts to more than a letter in this country from Grover Cleveland addressed to a Free Trade member of Congress.

It is within bounds of probability that President Cleveland's refusal to eliminate Secretary Carlisle is due to an inherent in an editorial about No-To-Bac, the unwillingness to jump on a man who is

SPEARER CHISP has left for North Carolina for the benefit of his health. There are a lot of other men in Congress who do not feel any too well and would be glad to get away.

THE Senate has passed the bill providng money for the collection of the inscome tax, although there was a prospect at one time that the process known as "starving out" would be undertaken as respects this feature of the Urgent Deficiency measure. It now remains for the courts to pass upon the question whether or not the income tax is constitutional and it would be well if this question could be decided before any attempt to Af those elaborate and voluminous in- the number of the box and repeat the mtractions laboriously drawn up by the Treasury Department might be of some use after all.

THE country can breathe freely again, the fire is in the vicinity of No. 15 box. A few days ago the solemn announcement was made by Mr. Pugh that the Senate Finance Committee was "pondering," At which people began to rub their hands and congratulate themselves that the worst was over. Now comes another cheering remark. This time it is Springer relieving pain in the bladder, kidneys, who speaks. And when Springer speaks back and every part of the urinary pasthe whole country listens. The House Banking and Currency Committee, he avers with the utmost gravity, is "carefully feeling its ways." If any one sup- at the City Pharmacy, 107 S. Main St., posed that the committee had fallen into next door to the post office, Shenandoah, naccuous desuctude or given up the ghost, he will see his error now. No, Mr. ringer's committee, like Mr. Springer haelf, is very much alive, and is "feeling its way"-in the dark, of course. There is no occasion for despair.

TROUBLE accumulates upon the heads sof prominent Connecticut Democrats. The whole party was turned out neck and heels at the November election; so that they have now not a single member-elect of the next Congress, not a state officer, only one lonesome State Senator whose seat is contested, a minority of the House at once melancholy and ridiculous, besides Chaving lost the city of New Haven in the ununleipal contest in December and various other things of smaller consequence. One would suppose that was trouble enough. But at the meeting of their State Committee a week or two ago the fact was brought out that the chairman Bros. of the committee at the election in November voted for a Republican for Repres entative in the Legislature who happened printed on every sack. to be his business partner, and aggravated the offence by advising other Democrats as intia hullabaloo about that which has not yet entirely subsided—the Democratic was waspapers dividing on the question, some to be his business partner, and aggravated me wspapers dividing on the question, some maintaining with ludicrous seriousness that it was quite improper, not to say a betrayal of principle, for the leader of the Democratic forces to assist in the election of a political opponent on grounds of mere personal friendship, while others have either treated it lightly or mildly approved what they called an act of friendly reciprocity. What the committee thought of it was indicated by the reelection of the chairman with but one dissenting vote. The precedent is one of which Republicans do not complain, so E ong as it is confined to the Democratic

MEAGER CAR SERVICE.

The Citizens of Brooklyn Badly Off for Transportation.

LINEMEN JOIN THE STRIKERS.

Militiamen, Ordered to "Shoot to Kill," Fire Over Two Hundred Shots Into a Mob, but It Is Not Known That Any Were Killed-Militiamen and Police Injured.

BROOKLYN, Jan. 22 .- The depot of the Third avenue railroad at Third avenue and Fiftieth street was garrisoned yesterday by Companies F, G and K of the Twenty-third regiment. Captain Thorne, of Company F, was in command. The de-tachment numbered 230 men. In the afternoon the military forces were changed, Captain Louis Wendel's First battery and two companies of the Seventh regiment. under Captain Rhoads, guarding the depot Four large cannon were planted so as to rake every avenue of approach, and the scene was quite warlike. Two other companies guarded the power house at Second avenue and Fifty-second street.

Rioting had been expected at the stables of the Atlantic avenue road at Fifth ave nue and Twenty-fourth street, but quiet prevailed during the day. The scene presented a more animated appearance than that at the Third avenue depot, as a large crowd was in evidence during the day, but no disturbance took place. The company ran twenty-eight cars, the service being considered fair. Superintendent Dawson said the cars were running on three minntes headway. In addition to the 250 mtlitiamen there was on duty a strong force of police under command of Captains

A dense fog set in during the afternoon, and at 6 o'clock it was announced that no

cars would be run after 8 p. m.

Elmer P. VanDyke, aged 25 years, a member of the Sixteenth regiment, fell from the second story of the Thirteenth regiment armory at Flatbush avenue to the roof of the Long Island railroad depot last night and sustained a compound fracture of the skull.

East New York was quiet all day. It had put on a more military appearance, however, by the addition of a battery of artillery to the infantry forces station the Alabama avenue depot of the Fulton avenue railroad.

The strikers to the number of a couple of hundred held a continuous meeting at their headquarters in the Pequod club, Third avenue and Fifty-fifth street. committee of citizens waited on all the storekeepers to ask for donations for the strikers. At 6 o'clock last evening \$550 in cash had been subscribed besides barrels of potatoes, sacks of flour, ten, coffee, bread, tomatoes and all kinds of groceries. The Pequod club resembles a large grocery store, and the citizens and committee were kept busily engaged distributing the supplies to the men and their families. The men claim they are in a position to held out for six months.

Before daybreak yesterday morning the overhead wire on the down town track vas cut. Three repair wagons came on the scene at 3 o'clock in the afternoon and after an hour's work the wire was put in working order.

The ranks of the strikers were swelled by the addition of gangs of tramps and loafers from New York. All day long, through the rain and fog, these hoodlums tramped from New York over the Brook-lyn bridge bound for the point where their instinct told them there would most likely be trouble. It is estimated that during one hour 5,000 persons crossed the bridge by way of the promenade.

The officials of the Brooklyn, Queens County and Suburban road informed Po-PISNET BEETS

County and Suburban road informed Police Captain Gorman that as soon as the men they had engaged had arrived they would open up that route. He informed them he had then no officers to place on their cars, but soon had eight taken from their much depleted force, occupying the lines beyond those fixed by the militia. One car was then brought out and sent down Fulton avenue as far as Topkins and returned about 3:30 p. m. loaded with men, some few of whom were expert mo-tormen. They were soon ready for work, and at 4 o'clock the first car for a full week and more was started down Broadway. It was unmolested, but at every switch had much difficulty in progressing, as the switches were all frozen. Large crowds assembled at these places, but beyond jeer-ing and some little verbal abuse the new men were not interfered with. Six cars in all were sent out, the instructions being to go slowly and take on no passengers. Al of them were returned safely at 6:10 o'clock and not a stone or other missile was fired at them on the route. A number of obstructions werg placed on the track, how-

As trolley cars Nos. 1,540 and 1,594 of the Gates avenue line were passing through Gates avenue and Central avenue at 6:23 last evening they were assailed by a fusillade of stones from the housetops and windows on both sides of the avenue. The crowd which lined the sidewalks joined in the attack and sent volley after volley of stones into the cars. Patrolmen George Schackelton, Donnis Busch and James L collian were severely injured. ban's nose was broken and Busch and schackelton received confused wounds about the face. The cars were stopped, when the stone throwers ran away.

A cur started from the Ridgewood station of the Brooklyn Heights company a little after 5 o'clock last evening and was assailed with volleys of stones and bricks from windows and vacant lots before it had proceeded far on its way down town. A private soldler was struck in the head with a stone and disabled. The officer in command ordered his men to shoot, and two volleys were fired in the direction of the rioters, who, however, were obscured by the dense fog. About 250 bullets were sent shricking in search of victims, but how many, if any, of them found human targets cannot at present be determined.

The militiamen's orders were that when
they shot it should be to kill. Policemen also did some shooting at this point, with what effect it is as uncertain as in the case of the militiamen

The Halsey street line also was the scene of several lively encounters. In one of them Private Ennis, of the Seventh regiment, was knocked senseless with a stone thrown by a rioter. Several shots wer fired into the crowd, and rumor has it that four men were seen to fall. If that is the case, the wounded were carried away by their friends. At the Halsey street depot a car was pelted with stones and sticks, the windows broken and the woodword smashed. The two police guards fired their pistols into the crowd, which dis-persed. Whether or not any was struck persed. Whether or not any was struct by the policemen's bullets is not known. Two police officers from the Second precinct, named Collins and Degan, were shot

nt by a mob at N: xyxes no at

ous They are in the because Captain Kitzer lessen i then the se-came from a house in the maginborne He forced his way aporairs with two of it men and arrested a woman named Kate Carney, who, it is believed, either did the shooting or is aware who did it. The woman was put in a patrol wagon, but a mob intercepted the vehicle and pelted it with stones. Mrs. Carney was hit on the head with a rock and received a severe scalp wound.

At 8:45 p. m. as car No. 1,346 of the Hal-sey street line was being taken into the depot at Broadway and Halsey street a mob of over a thousand men and boys gathered there and threw stones at the car, smashing all the windows. The two policemen on the car got off and fired their revolvers at the mob, but so far as could be learned no one was injured. Pickets of the Seventh regiment station there made repeated charges, and finally drove the crowd back.

As a result of the day's rioting it is known that at least sixteen persons were injured more or less among the po-lice, militia and "scab" employes. How the strikers and their sympathizers fared

The ranks of the strikers were recruited today by the linemen, who until now have remained in the employ of the companies They number about 600, and may be classed as experts. They have thus far responded to all calls to repair wires cut by strikers or their allies. Now, however, they say that it is evident the company is waging a merciless warfare upon those who went out, and they profess to fear that some day their turn may come to suf fer for what they call capitalistic oppression. They announced this morning that they will not go out to repair cut lines, even at the risk of dismissal. They were informed that their services were no longer

have to take the places of strikers are being engaged in other cities and from the unemployed of Brooklyn, but the companies seem to be making very slow pro gress. The hiring of inexperienced mer has given the strikers and their sym pathizers an argument which is being used to influence public opinion. With all the companies have been able to do only a small fraction of the lines, perhaps not more than one in six have been op erated at all, and on those which hav been nominally in operation the last few days not half the usual number of cars have been run. The revolt of the linemer has aided the strikers greatly.

At a meeting of the board of aldermen Alderman Leech proposed the following resolution, which was adopted:

"Every motorman employed in this city must be 21 years old or over, a citizen of the United States, having resided one year in the state and four months in Each violation to be punishable by a fine of \$25 on the company

Should Mayor Schleren sign this it will become a law and will discharge every new man employed by the railroad com panies to replace strikers

New Jersey Railroaders Talking Strike. JERSEY CITY, Jan. 22.-It is alleged that the employes of the Consolidated Traction company in this city have decided to the up the trolley roads in the event of the Brooklyn strike resulting in a victory for the men. The Jersey City conductors and notormen are members of the Knights of Labor and are well organized. The leaders say the Newark employes of the company will also strike if the Brooklyn striker win. The company employs about 1,200 men in Jersey, operating nine lines.

Against Passes in North Carotma. RALEIGH, Jan. 22.—Senator Ammons has introduced a constitutional amendment in the legislature, which will un doubtedly pass, providing that no mem ber of the general assembly, or other pub lie officer of this state, shall use free rail road or steamship passes.

Probably Perished on the Lake. SARBOYGAN, Wis., Jan. 22.—A furious Office.—120 North Jardin street, Shenandoah. blizzard is raging in this vicinity.
