DIAZ IS DETERMINED.

Guatemala Must Yield to the Demands of Mexico.

BOTH SIDES PREPARING FOR WAR.

A Clash of Arms Between the Two Republics Now Considered Inevitable—An Unconfirmed Report That Mexico's Great Military Chief has Left His Troops.

CITY OF MEXICO, Jan. 28.—After a very stormy cabinet meeting President Diaz notified Guatemala through its minister that he would not concede one iota, and that Guatemala would have to give in to Mexico's demands or suffer the consequences. Other Central American representatives here, at a meeting, made the statement to President Diaz that they understood Mexico was trying to grasp Central American territory. President Diaz denied the assertion, and stated that Mexico would have her rights and the boundary lines should be as Mexico claims, and that Mexico had all the territory that she needed. It looks as though other Central American republics were behind Guatemala.

All the government students marched the streets with bands, shouting: "Viva Mexico," "Viva Diaz," and "On to Guatemala." They assembled in front of the palace, from 18,000 to 15,000 strong, clamoring for war and pledging their support to President Diaz. The president made a speech to the students and others, stating that he would not recede from Mexico's just rights.

The answer to Mexico's ultimatum is to be received here tomorrow, but President Diaz has notified Guatemala that he will not recede from the original demands.

Mexico has been preparing for war for some time, and has about 12,000 troops on the border. All the officers that have not been on active duty have been notified to report for active marching orders. Guatemala, too, is making active preparations, and the conflict is now deemed inevitable.

An interesting story regarding the probable outbreak of war between Guatemala and Mexico is to the effect that President Diaz will take command of the forces on the frontier in person. The report is widely spread in official gossip and is not without the range of possibility. In the higher circles it is held that General Diaz will not leave his seat as chief executive in the pending difficulties—at least not until his presence is imperatively demanded at the front.

The general opinion of those close to the executive is that he will place the command in the hands of one of three men to push the Guatemalan invasion. Those three officers are: General Bernardo Reyes, governor of the state of Leon and a general of division of the Mexican army; General Jose Vicente Villado, governor of the state of Mexico and general of brigade, and General Lora Torero, governor of the state of Sonora and general of brigade. Of these three it is pretty well known that the choice of the president is General Reyes, who is also the understood favorite of General Diaz as his successor as chief executive of the republic. The Guatemalan war will give the president an excellent opportunity to bring out his protégé and push him well forward in public favor.

General Reyes is well and favorably known by his valor and fine executive abilities, and next to the president, is the most popular man in Mexico among Americans. By his friendly and encouraging attitude as governor of Nuevo Leon he has planted many large American industries in the city of Monterrey, and today, as a result, that place has a larger American population than the City of Mexico. Should anything prevent General Reyes taking command at the front, or should accident befall him, it is probable one or the other of the remaining generals would assume direction of the campaign.

Should the conflict lead into a general Central American fight, or develop into unforeseen complications, it is extremely probable that General Diaz would then take the field in person, with the probability of adding to his glory as the greatest military man of the present generation in Spanish America.

RAKED WITH PAIN.

Tortured With Rheumatism For Quarter of a Century.

Relief Came at Last to the Patient Sufferer—How She Was Cured.

Sarah H. Smith, Pineville, Bucks county, Pa., says: "I was a great sufferer from rheumatism. I had the disease for over twenty-five years, and the torture I have undergone during the past quarter of a century no pen could describe. Every attack I had, my entire body was racked with pain, and I was in a terrible condition. I tried doctor after doctor and every remedy that could be suggested, but all with the same result. None of them ever gave me the slightest relief. I had had the disease so long that it had become chronic when I began to use Munyon's Rheumatism Cure. It was not long before I felt a great deal better, and after using it a short time the rheumatism left me. I have not had a trace of it since, and am convinced that I am permanently cured."

YIELDING TO GERMANY.

Bill to Abrogate Discriminating Sugar Duty Presented.

THE NECESSITY FOR ITS PASSAGE.

The Amount of Revenue Should Not be Considered in Comparison With the Threatened Resulting Loss to Our Exporters of Cattle and Hogs.

WASHINGTON, Jan. 28.—Chairman Wilson, of the ways and means committee, reported to the house the bill to abrogate the discriminating duty of one-tenth of a cent per pound on sugar imported from countries paying a bounty on exports. The report accompanying the bill expresses the opinion that it does not believe it was the intention or desire of congress in the last tariff act in imposing the additional duty on all sugars coming from countries paying a bounty on exports, to give the ground for complaint to foreign nations of any violation on our part of long standing treaty obligations, and least of all to abrogate such treaties.

Both Germany and Austria-Hungary, have protested against the discriminating duty, holding it to be violative of the most favored nation clauses which for more than sixty years have governed their relations with the United States, and Germany is now making and enforcing trade relations which prohibit or impede the entrance of American meats into her markets.

Inasmuch as the inspection of our meat exports under existing laws, and under the regulations and supervision of the department of agriculture is now so thorough and effective as to exclude all reasonable objections to their entrance on sanitary grounds, that this unfriendly action of Germany is really a retaliation for our discriminating action against German beef sugar.

The committee believes that if the traditional treaty obligations to Germany, or more strictly to Prussia, is removed, will at once open the way for the removal of discriminations against the entry of our beef and hog products into Germany. Furthermore the example of Germany is having its influence with other nations with whom we have a large and profitable trade.

This additional duty on foreign sugars, concludes the report, is not needed, even from the point of view of protection, by American refiners and sugar growers. The amount of revenue should not be considered in comparison with the threatened and resulting loss or lessening of foreign markets for our raisers of cattle and hogs, while no amount of revenue would compensate for any merited stigma of faithlessness on our part to treaty obligations.

Convicted of Pension Fraud.

BALTIMORE, Jan. 28.—The jury in the four Garfink pension cases returned a verdict guilty in the McCree case and informed Judge Morris that they were unable to agree in the other three cases. Garfink was charged with taking an illegal pension fee of \$12 from Mrs. Hannah McCree, widow of James A. McCree. The penalty for the crime is a maximum fine of \$500 or two years' imprisonment, or both.
