There was a feelling of oppression about my heart, and I was afraid to draw a full breath. I could not sweep a room without resting. My husband induced me to try

PEACEFUL OVERTURES.

Our Government May Prevent the Mexico-Guatemala War.

HOSTILITIES MAY BE AVERTED.

Message from Secretary Gresham to Mexico Results in That Government Delaying Her Intended Warlike Answer to Gustemala's Latest Diplomatic Note.

CITY OF MEXICO, Jan. 26.—The United States has undertaken to play the part of peacemaker between Mexico and Guate peacemaker between Mexico and Guille-mala, to prevent war if possible. A tele-gram has been received here from Secre-tary Gresham expressing the hope that Guatemala and Mexico would agree be tween themselves upon some method o settling the dispute over the boundary but if this should not be possible the United States trusted the two countries would agree to submit this difference to arbitration of some friendly nation.

This communication, from a nation with which Mexico enjoys such intimate with which Mexico enjoys such Intimate and friendly relations, has caused a profound impression upon the government, and undoubtedly accounts in part at least for the decision of the minister of foreign affairs to withhold for flye or six days at least the ultimatum which he was about to dispatch in much less time in answer to the note from the Guatemalan government received yesterday. It is learned that the president of the United States made sure that his appeal would be received in a good spirit before sanding it by first communicating in an unofficial minuner with Minister Bomero at Washanner with Minister Romero at Wash

That the situation had been regarded as critical is evidenced by the fact that in the Mexican arsenal at the citadel there are being manufactured weekly from 40,000 to 50,000 Remington cartridges. They are also engaged night and day upon other work in order that all the artillery shall be completely ready at a moment's no-

WASHINGTON, Jan. 28.—While the state department officials positively refuse to discuss the matter there is ground for the belief that it is exerting its good offices to settle the dispute between Mexico and Guatemala over the boundary without re-course to war. Senor Romero, the Mexican minister, has been almost daily in con-sultation with Secretary Gresham, and while he declines to tell what his purpose is, it is significant that he steadily maintains that the trouble will be adjusted

without harsh measures.

Minister Arraga, of Guatemala, is also hopeful of a penceable adjustment of the dispute. He said today that he had not heard from his government within the past four days, and had no information as o the course of events in Guatemala further than that contained in the press dispatches. He was in consultation yesterday with Senor Mendones, the Brazilian min-ister, touching the situation. It is as-serted here that the Guatemalan government has all along been ready to submit the issues between Mexico and Guatemala to arbitration, and it is believed that in case the Mexican government should look with favor upon this proposition Guate-mala would like Brazil to act as arbitrator. It might be noted in this connection that Guatemala is a party to the convention of South and Contral American na-tions, providing for the submission of all disputes to arbitration, but that Mexico ias never joined in the treaty,

Isaac P. Gray, United States minister to Mexico, arrived in Washington yesterday For the past six weeks he has been in diana on account of the Illness of his son, but undoubtedly the unsettled condition of affairs in the country which he represents influenced Mr. Gray to report here for the purpose of conferring with the secretary of state to hugen the desires of the admin istration as to the course he should pur sue in the trouble which seems on the point of precipitating Mexico and Guatemain he should return to his post. A loc

Terrible Blizzard in Kansas.

Kansas City, Kan., Jan. 20.—A severe blizzard which started in Thursday midnight still prevails all over the southwest with no sign of abatement. An average of three feet of snow had fallen at 19 c'eloek last night and a strong northerly wind is drifting it badly, blocking all kinds of traffic and causing great hardship to farmers. It is very cold, and with the thermometer still on the drop much suffering must ensue. The storm is so-verest throughout central and western Kansas and the territories. From the territories reports of many cattle freezing to death have already been received, and as the settlers are none too well provided with food and shelter probably many fatalities will be recorded

A Crazed Father's Awful Crime. Philadelphia, Jan. 26.—William H. McGrath, 31 years old, shot and killed his 8-year-old daughter Lillian at their home on South Thirty-sixth street yesterday and then put a bullet in his own brain dying soon afterward. All the evidence in the case indicates that McGrath was suffering with temporary insanity, the re-sult of grip. He was passionately fond of Lillian, his oldest child, and had often said that when he died he wanted Lillian to go with him. He leaves a young and pretty wife, a boy of 6 and a girl of 5.

How Mr. Moody Once Organized a Gren Charity In You Minutes,

On one occasion Dwight L. Moody had convened a great conference in Liverpool, writes Professor Drummond in McClure's Magazine. The theme for discussion was a favorite one, "How to Reach the Masses," One of the speakers, the Rev. Charles Gar rett, in a powerful speech, expressed his conviction that the chief want of the masses in Liverpool was the Institution of cheap houses of refreshment to counteract the saloons. When he had finished, Mr. Moody called upon him to speak for ten minutes more. That ten minutes might almost be said to have been a crisis in the social history of Liverpool. Mr. Moody spent it in whispered conversation with gentlemen on the platform.

No sooner was the speaker done than Mr. Moody sprang to his feet and an-nounced that a company had been formed to carry out the objects Mr. Garrett had advocated; that various gentlemen, whom he named—Mr. Alexander Halfour, Mr. Samuel Smith, M. P., Mr. Lockhart and others—had each taken 1,000 shares of \$5 each, and that the subscription list would be open till the end of the meeting. The capital was gathered almost before the adjournment, and a company floated under the name of the British Workmen company, limited, which has not only worked a small revolution in inverpool, but— what was not contemplated or wished for, except as an index of healthy business— paid a handsome dividend to the share-

For 20 years this company has gone on for 20 years this company has gone on increasing. Its ramifications are in every quarter of the city; it has returned 10 per cent throughout the whole period, except for one strike year, when it returned 7, and, above all, it has been copied by cities and fowns innumerable all over Great Patters.

To Mr. Garrett, who unconsciously set the ball a-rolling, the personal consemences were as enrious as they were un-You must take charge of this expected.

"That connect be," was the reply. "I am "That cannot be," was the reply. "I am a Wesleyan. My three years in Liverpool a Wesleyan. My three years in Liverpool have expired. I must pass to another circuit." "No," said Mr. Moody, "you must stay here." Mr. Garrett assured him it was quite impossible; the Methodist conference made no exceptions. But Mr. Moody would not be besten. He got up a petition to the conference. It was granted —an almost unheard of thing—and Mr. Garrett remains in his Liverpool church to this day. This last incident proves at least one thing—that Mr. Moody's audac-ity is at least equaled by his influence.

"An "Ex."

It is somewhat hard to believe this story of a Boston child of 8 years, but it is related on good authority. The child, who is a little girl named Dorothy, had been behaving very badly, as even Boston children have been known to do, and her mother said to her chidlingly:

"Dorothy, really I cannot be your mam-ma any more)" The child made no roply, but gave her

mother a quick and very arch look. and by, after a half hour of silent and well behaved play, she came with her hat in her hand to her mother and said sober

THE BROOKLYN STRIKE Mayor Schieren Says the Cars Are

Running Satisfactorily.

STRIKERS STILL TALK OF VICTORY

As Several of Their Number Have Deserted the Ranks, However, It Would Indicate That They Are Badly Beaten-An Over Zenious Princt.

BROOKLYN, Jan. 26 .- Mayor Schlerer expressed the opinion this morning that the strike was over so far as it would af feet the convenience of the public. Colo nel Appleton, of the Seventh regiment said he expected to be relieved from detail very soon. Master Workman Connelly still maintains that the strikers will but a dozen strikers applied to the Brook lyn City rallroad yesterday for reinstate ment, and were put to work. Street car officials say they will be glad to take back old men, but they will not be allowed to displace the new ones taken on. More cars were run yesterday than on any day since the strike began. Mayor Schleres declares, as a result of personal inspection that the lines are giving good service. The mandamus which it is saught to have is sued to compel the companies to run car is not of much importance under the

The most serious disturbance vesterds: occurred at Greenpoint, in opening up the Flushing and Graham avenue line. There were no militiannen stationed at that point, and the police force was not strong enough to cope with the mob of 2,000 which made rictors demonstrations and stoned the ears. Father P. T. O'Hars, of St. Authors's church, had given Mayor Schleren an assurance that he would be responsible for the maintenance of order at this point. In his zoal to keep his agree ment he persuaded a new protorman to leave his car in order to remove the causof the brouble. Then he read to the mob a message from Mayor Schleren, saying that unless order was preserved be would have to send unlittle. The growd then dispersed and the stalled ears were run back to the depot, but no further attempt to

run them was made for the day.

At Maspeth a lot of non-union motor men were taken from a car and locked up in a hall by strikers. The trouble was temporarily settled by the strikers win ning over the non-union men. All of the non-unionists subscribed to an oath tha they would not again enter the company employ while the strike lasted.

The demonstrations of the day were con fined principally to wire cutting and to small and unorganized attacks on th street car property or on the militia. An effort is being made to secure an Indict ment for murder against the militiamur who shot Thomas Carney, the tin roofer on Flicks street, who died as a result of

Messys Feeney, Robertson and Purcell comprising the state arbitration commit see which left Albany Thursday night for Brooklyn, were in secret session at th Hotel St. George yesterday afternoon and subposned Mossra. Lowis and Norton whom they examined as to the cause and status of the strike. The committee also sent a note to Mayor Schleren requesting the presence of that official at the examination, but the mayor positively decline

At 5:30 last evening the trolley wire that were cut on Fulton street near Sara toga avenus at 1:30 were repaired, and the half hundred cars which had been stalled on both tracks for four hours proceeded on their trips. Guards from the Seventy-first regiment preserved order while the re-pairs were being made.

"This is the most encouraging day we have had during the strike," said Master Workman Thomas Murry to the Assoclared Press reporter last evening as a entered the strikers' headquarters. 'T con will sit down here for a while I will show you why we are so much encour-aged. We are getting the new men away from the rallroad communica as fast they arrive. From 9 this morning until this afternoon we induced twenty not men to leave their posts at Ridgewood and so far today we have rescued thirty nothing of the number we stopped befor they reached this side of the river from York. We have done all this, re member, without any violence or intim idation, and the newcomers in every cas have yielded willingly."

While the reporter was talking with th master workman a number of non-union men were brought in by the striking scouts. One of these was a motorman named Squires, from Baltimore. He said he was an expert motorman, but coming from a warm climate, so thinly clad, and being compelled to feed on "red horse and punk" and sleep on the floor, he did not want the job bad enough to stay longer He said the company owed him \$2. Squires was the motorman who took out the first car on the Myrtle avenue and one of the other lines.

The reporter noticed many of the new conductors handing in their envelopes without money. They declared they had taken in no fares.

Judge Gaynor heard the arguments on the question whether the mandamus against the Brooklyn Heights company should be alternative or peremptory. At its conclusion he announced that he would render a decision some time today.

MINIMAPOLIS, Jan. 26.—The weary work of filling the jury box in the Hayward murder trial continues. Yesterday one more juryman was secured. Charles Pribble, a farmer.
