"FIT FOR A KING."

THIRD EDITION

The Royal Blue Line, a Railroad That

Eclipses Regality Itself. "A royal train, believe me," Shakes peare makes one of his characters exclaim in King Henry VIII. And to one who looks for the first time upon the sumptuous glories of a Royal Blue Line train the idea of regality must instinctively suggest itself. Indeed, it may well be questioned whether any of the potentates of the Old World enjoy such superb facilities of travel as those which are at the service of the uncrowned kings of unmonarchial America, whose every citizen is a sovereign,

As an example of the pitch of perfection to which the science of transports tion has attained in this country, take the famous route of travel between New York, Philadelphia and Washington, known as the Royal Blue Line. It has been termed the highest type of the fin de siecle railroad. But it is more-it reaches a decade or two into the possibilities of the next century, a prophecy, so to speak, turned into an actuality, and a courier that moves far in advance of the main body of railway progress.

To particularize, the Royal Blue Line connects Philadelphia with New York and New England to the eastward, and with Baltimore and Washington to the south ward, with connections reaching Florida, New Orleans, and the great empire of the southwest. It is composed of portions of the Central R. R. ... New Jersey, the Philadelphia & Reading and the Baltimore & Ohio Railroads. As the Reading railroad was the first to establish twohour trains between New York and Philadelphia, so was this "triple alliance" the pieneer in giving the public four-hour trains between the Metropolis and the National Capitol. The trains are notable for their unique construction, and celebrated for their sumptuous elegance and comfort. The fast time made on the Royal Blue Line is a matter of wide notoriety, and it continues to hold the only properly anthenticated record for the highest speed ever attained by any railway train in the world.

The trains from Philadelphia to New York and to Washington comprise a schedule ample in extent and admirably adjusted as to time of departure, most of them connecting closely with trains coming in over the various lines of the Reading System from the sastern and central portions of Pennsylvania. All of these connections are made beneath the roof of the magnificent Reading Terminal, the most beautiful, as well as one of the most extensive railway stations in the world. For the further convenience of travelers, through tickets and baggage checks to all important points reached by or via the Royal Blue Liue are supplied at most of the Reading Railroad stations through out Pennsylvania and New Jersey.

Many stubborn and aggravating cases of rheumatism that were believed to be incurable and accepted as life legacies, have yielded to Chamberiain's Pain Balm, much to the surprise and gratification of the sufferers. One application will relieve the pain and suffering and its continued use insures an effectual cure. Forsale by Gruhler Bros.

FINANCE AND TRADE

The Commercial Agencies Give a Bather

Discouraging Report. NEW YORK, Jan. 26 -R. G. Dun & Co.'s weekly review of trade says: Eventa bays not helped business this week. About \$10,880,000 gold has been withdrawn from the treasury, mainly for export, and the gold reserve has been reduced to about \$58,000,000. Since Dec. 8 the trensury has lost, in thirty-nine working days, about \$63,000,000 gold, and daily increasing distrust is liable to affect markets unfavor ably. Industries have not yet found sufficient demand for their products to pre vent further decline in prices, and this week the average for all commodities has again touched the lowest point ever known. The number of hands employed does not increase, and a strike has cut off for more than a week about half the business of Brooklyn, to some extent affecting trade here.

At bottom business hesitates because the future is clouded and the consuming de-mand has not increased in January, as was expected. In belief that it would industries had enlarged production, and un-til it does the excess of producing capacity

constantly tends to depress prices The fallures for the past week have been 363 in the United States, against 430 for the same week last year, and 59 in Canada, against 55 last year.

Bradstreets' review says: Special tele-graphic and mail advices from the more important distributing centers fall to reveal any marked improvement in the movement of merchandise and products, and the conclusion is forced that the general trade situation remains as previously characterized—small volume, low prices, hand to mouth sales and the outlook favor ing a very conservative trade for some tim

A Bill to Punish Persons Giving False Re

ports to Newspapers. HARRISBURG, Jan 26.—A short session of the house was held yesterday, at which seventy-seven bills were read the first A concurrent resolution indorsing the Stone bill providing for consular in spection of immigrants and urging its speedy passage by congress was adopted. Among the bills introduced were: Amend-ing the charter of the city of Carbondale by providing for the election of poor di-rectors in each of its six wards; extending the act of May 8, 1891, by giving electrilight, heat and power companies the samprivileges in municipalities as electric street railways; to prevent the docking and mutilation of horses' tails; providing for a fine of \$500 and imprisonment of tw years, or both, for any person to wilfully procure the publication of false statements; requiring the publication in two newspapers of notice of the sale by county commissioners of lands seized by them for non-payment of taxes.

The house adjourned until Monday even

The War Against the Standard Oil Trust PITTSHURG, Jan. 26.-The war against the Standard Oil company is on in earnest The company which was projected at the Butler meeting of independent oil producers has taken decided shape, and will be formed and under charter within a month. David B. Kirk, of this city, who was one of the vice presidents of the meeting, says: "The company will embrace all independent producers and refiners in the United States. We will have a capital of \$1,000,000 to start with, and can get \$5,000,000 when it is needed. The company will be called the 'Pure Oil company of Pennsylvania,' and we will erect a plant in every city in the United States where the Standard has one. We will

THE EARTHQUAKE AT KUCHAN Latest Reports Show That Over Twelve Hundred Were Killed.

London, Jan. 26.-A dispatch from Te beran gives further details of the destruc tive earthquake at Kuchan. The first shock occurred at noon on Thursday, Jan 17. This was followed by another, and in three minutes the town was in rules. It is stated that the loss of life was enormous. Most of the victims were crushed to death by falling buildings, but many were burned to death, the ruins in which they were entangled having caught fire.

Six hundred were entombed in a mosqu while engaged in prayer. Six hundred other persons perished in the various baths The survivors could obtain neither food for water for three days, the telegraph lines having been destroyed, and many who escaped being killed by the earth quake perished from hunger and exposure Not a single building remains standing in the town.
Since the 17th the shocks have been re

peated daily. One shock, which occurred at 6 o'clock on the evening of Jan. 29, was equal in severity to the first one, which caused the destruction of the city. This shock of Jan. 22 was followed by three others at intervals of from one to four ours.

The Lynching of Treasurer Scott.

O'NEILL, Neb., Jan. 26.—Development in the Scott case have laid the whole con spiracy which resulted in the lynching be fore the authorities. Fifty men are in volved in the affair, many of them of state prominence. It is proven to be the work of an oath bound organization which has for twenty-six years held away in Holt county and defied the law. The members of the committee who were friendly to Scott knew that he was to be lynched, but they were not acquainted with the time and place at which the murderous work was to be accomplished.
