AMUSEMENTS.

"THE WHITE SQUADRON." "The White Squadron" will be seen at Ferguson's theatre to-morrow evening. Its Brazilian setting is uncollpsed. Following so close on our South and Central American embroglios, it has an especial interest for every one interested in those turmoiled localities, or having a relative or friend on board of an American man of-war in South American waters. The Congress of Navies appeals directly to Congress of Navies appears alton, and the maritime spirit of every nation, and "s the government of this country is represented as being in the breach on svery occasion there is no lack of inspiration for local patriotic outbursts. The feminine element in the play is rather unduly suppressed, but, when it does have an opportunity, there is nothing lacking in deligention.

"A BARREL OF MONEY."

season is the delightful scenic and sensational comedy drama, "A Barrel of Money," which comes next Friday even ing, February 1st. This play has been on the road now for the past four years and running all the other branches of the state has met with the greatest success. It government, executive, departmental, logtells the touching heart story in a terse manner and the more sombre portions are

relieved by comedy in the richest vein. There are several very sensational climaxes, one in particular, the rescue of a beautiful young woman from the jaws of death, evoking cheers from all the andience at every performance. As the company carries all their special scenery and mechanical effects, and as the cast is composed of some of the very best dramatic people in the profession, supple mented by a corps of comedians, singers, and dancers, it is a bright, pleasing performance that will interest all classes of theatre-goers. Popular prices, 25, 35 and 30 cents.

Late Literary News,

General Lord Wolseley makes a most important contribution to the literature of the China-Japan war. In an article for the February Cosmopolitan, he dis cusses the situation and does not mince matters in saying what China must do in this emergency. Two other noted foreign authors contribute interesting articles to this number. Rosita Mauri, the famous Parisian danseuse, gives the history of the ballet, and Emile Ollivier tells the story of the fall of Louis Philippe. From every part of the world, drawings and photographs have been ob tained of the instruments used to torture poor humanity, and appear as illustrations for a clever article, by Julian Hawthorne, entitled, "Salvation via the Rack." Mrs. Reginald de Koven, Anatole France, W. Clark Russell, Albion W. Tourgee, and William Dean Howells are among the story tellers for the February number of The Cosmopolitan.

increased. His last hours were peaceful. It is not likely that the death of M. De Giers will involve any change of policy, all of his probable successors being in ac cord with the czar in his desire for peace. Nicholas Carlovitch De Giers was born May 21, 1820. In 1887 the direction of foreign affairs was altogether confided to him during the absence of Prince Gortchakoff, and again, in 1877, for several months dur-ing the war with Turkey. While Prince Gortchakoff was attending the Berlin con gress M. De Giers for the third time took his place, and as the imperial chancello was afterward almost constantly abroad for his health, it may be said that from the conclusion of the treaty of Berlin M. De Giers was to all intents and purposes the sole guardian of the foreign affairs of Russia.
