FIFTY MINERS KILLED.

Terrible Explosion of Firedamp in a Mine in France.

THE BODIES BURIED IN CINDERS.

The Wounded Brought to the Surface Arrive in a Terrible Condition, Their Flesh Being frightfully Torn and Many Having Legs and Arms Broken.

PARIS, Feb. 5.—An explosion of firedamp is reported from Montceau Les Mines, Department of Saone et Loire. Five broke out in the St. Eugene Pit, and while the miners were fighting this fire an explosion occurred which wrecked the galleries and entombed the miners.

It is believed that fifty persons perished in the disaster. The work of rescuing the living and recovering the bodies of the dead is greatly impeded, owing to the fact that the explosion caused the workings to collapse, filling the galleries with tons of rock and earth and great quantities of timber that had been used for supports.

The bodies that have already been brought to the surface were so badly burned that they presented the appearance of blackened cinders. The wounded are in a terrible condition, their flesh being frightfully torn. Many of them have broken arms and legs in addition to their injuries.

MUNYON'S MANY FRIENDS.

All Approve His New Ideas. The Eminent Professor Aply Supported in His Fight for Humane Methods.

Mrs. Ray, of 792 East One Hundred and Forty-fifth street, New York city, says: "I have suffered terribly from dyspepsia in its worst form. The slightest food produced death-like sickness. Added to this I had a severe attack of Rheumatism, with swelling of the limbs and excruciating pain. My heart became affected and I was sinking so rapidly from exhaustion that my physicians gave me up as hopeless. At this time Mr. Munyon brought me some of his Remedies and encouraged me to try them. The benefit from their use was miraculous. I improved at once and was out of danger in a few days. My improvement was so firm and now I can thank Professor Munyon for a complete and wonderful cure."

Munyon's Rheumatic Cure is guaranteed to cure rheumatism in any part of the body. Acute or muscular rheumatism cured in from one to five days. It never fails to cure sharp, shooting pains in the arms, legs, sides, back or breast, or soreness in any part of the body in from one to three hours. It is guaranteed to promptly cure lameness, stiff and swollen joints, stiff back, and all pains in the hips and loins. Chronic rheumatism, sciatica, lumbago or pain in the back are speedily cured.

Munyon's Homeopathic Home Remedy Company, of Philadelphia, put up special boxes for nearly every disease, which are sold by all druggists, mostly for 25 cents a bottle.

THE DEBS CONSPIRACY.

The Government Charges its Chief Counsel Against the Defendants.

CHICAGO, Feb. 5.—The government today afternoon announced the withdrawal of its evidence in the conspiracy case against the defendants.

When Mr. Walker announced at 4 o'clock that the prosecution would rest its case there was some surprise in the courtroom. The jury was requested to retire, and counsel for the defense asked for the dismissal of the defendants.

The jury was requested to retire, and counsel for the defense asked for the dismissal of the defendants. Judge Thoman, for John E. McVean, the Cleveland member of the board of directors, asked that his client be discharged, that during the trial his name was not coupled with any of the others, save as being a fellow director.

There was no proof that he had been in Chicago during the strike. He had never been in any of the counsel's of the board of directors during the strike period.

Mr. Walker, for the government, admitted the representation, but called the attention of the court to the fact that McVean had voted in the convention to order a strike and had acted as a member of one of the committees.

Mr. Barrow asked for the peremptory discharge of Frank Dreyer, Dennis Larkin, James McDonald and John Burke, none of whom had been named as taking part in a single overt act. He asked for the discharge of John J. Hannan, against whom, he said, the government had failed to prove an overt act.

He then argued for the discharge of the members of the board of directors. Not a single one of them in the indictment, he claimed, had been proved against them. There had not been the slightest connection made between them and their defendants accused of overt acts.

The court said he would take the motion under advisement, instructing the marshal not to bring the jury into the courtroom until after he had disposed of the motions.

DUTIES TO THE PUBLIC.

Judge Gaynor's Writ Against a Street Railway. MOBS HAVE NOT RULED BROOKLYN, And Railroad Companies Are Guilty of Lawlessness When They Stop Running Cars in Order to Beat Down Prices—Aldermen Rescind Street Railroad Franchises.

BROOKLYN, Feb. 5.—Judge Gaynor, in supreme court chambers, handed down a decision on the application for a writ of mandamus against the Atlantic Avenue & Coney Island Street Railway.

The application was made by James O'Connell, a mineral water bottler, who claims to have suffered great financial loss because the company has not operated its cars as fully as they were operated prior to Jan. 14.

Judge Gaynor allowed the company twenty days in which to make an answer before a judge and jury. The decision is as follows: "To deny this application I would have to decide that this company is prevented by violence from operating its road, but that I cannot find upon the papers before me. I do not find that the city and the state have failed to fully protect its power house, its stations, its roads and its cars it has offered to run. I do not find that the government has failed in its obligation of protection. The answer to the statement that there have been instances of violence is that they were quickly suppressed. I cannot acquiesce, or even seem to acquiesce, in statements which have made it appear that mob violence has ruled in Brooklyn, and which have not only given a law abiding community a bad name, but, by exciting fear in many, must have done incalculable damage to business interests."

"To try to forcibly prevent the company from doing its public duties would be lawlessness, while on the other hand for the company to stop running cars in order to beat down the price or lawful conditions of labor would be lawlessness of a much more dangerous and far-reaching character. The company's public duty is to run its cars, and it may not lawfully cease to do so on the ground that it cannot get men to work at the price or conditions it offers."

"The law requires it to continue to run its cars to the full accommodation of the public, leaving it free to supersede its men from day to day by men who are willing to work on its terms, or to supersede them all at once when it has obtained men enough to enable it to do so."

"But the company, by its answer, having raised issues of fact, the law requires that an alternative instead of a peremptory writ be issued so that there may be a jury trial."

"This court cannot change the law, but must obey it, whether it is obeyed elsewhere or not. If it be a defect in the law that the time for the trial of such issues may not be shortened by the court the suggestion is one to be made to the legislature, not to the court."

The board of aldermen, at its yesterday afternoon meeting adopted the resolution of representatives of the striking motormen and conductors rescinding the franchises and privileges granted to the Brooklyn trolley lines which are connected with the present strike. The vote stood 10 for 8 against. The chairman voted in the negative.

To a committee of strikers who called upon him after the meeting Mayor Scherren refused to say whether he would approve the motion or not.

This morning 150 of the imported motormen who have taken the places of the strikers assembled in Mayor Scherren's office to ask Brooklyn's chief executive whether they cannot recover damages from the railroad for being brought to Brooklyn on false pretenses. Mayor Scherren listened to their stories and promised to give them an answer later.
