THERE will probably be about as little left limb, which is fast disappearing. mourning for the present Congress as ever accompanied any demise in the history of mortality.

NEW YORK is developing an entirely new faculty of making the lives of new officials burdens by officious nagging. Even new brooms can be kicked into a corner.

THE Republicans made the public credit so good that money can be borrowed even and Bright's disease, it has made prowhen the necessity is the resalt of Demo cratic incapacity in the management of Dunncial affairs.

SECRETARY CARLIELE'S gold reserve is the only thing that is more depressed than the mercury nowadays. It is a hard winter for tinkering statesmen as well as for weather prophets.

WHEN for any rare emergency it has been necessary for a Republican Administration to borrow money, it has been masy enough to do it at a fair rate of nterest. But then Republican Adminisrations have always had revenues.

"WHY do the banks hoard gold ?" petulantly asks an able Democratic "journal. The answer is easy. They hoard B gold because a Democratic Congress threatens to force it to a premium, when they can sell out at a profit.

Now is the time for the well-to do and fortunate to help the poor and miserable. It has been long since so many and such argent demands were made upon the Charitable and philanthropic. "Lend a hand" is a good motto for this weather.

DEMOCRATIC journals and leaders resent sorely the suggestion that their party, its Administration and Congress, are responsible for the disasters of the last faw years. As if they hoped to make an impression NOTHING LIKE IT.

Dr. Kennedy's Favorite Remedy Makes Another Remarkable Cure.

(From the Times Union, Albany, N. Y.) Four years ago, Mrs. Markham, who resides on First street, corner of North wan, noticed a sensitive spot on her left limb. It was apparently nothing serious, but soon developed into a sore, and before long the limb was a mass of ulcers. Mrs.

Markham employed some of our best physicians, a dozen or more in all, but she obtained no relief. In fact, was told that nothing could be done for her, so for four years she suffered with these dreadful alcers, which has eaten their way to the bone.

A little less than a year ago, an ac quaintance told her about Dr. David Kennedy's Favorite Remedy, and that he believed she would find relief in using it. Mrs. Markham's four years of suffering had made her skeptical, the more so, as she had obtained no relief from any of the numerous physicians who had attended her during these years of suffer ng

The friend offered to send her a bottle of Dr. Kennedy's Favorite Remedy if she would try it. He did so, and there was such a decided improvement that she concluded to give the remedy a fair fest. To day, not quite a year after taking the first dose, the nicers have disappeared, all that is left to show what she has suffered is a swelling on the ankle of the

Mrs. Markham is naturally strong in her praises of Dr. David Kennedy's Favorite Remedy, and feels that but for it she would now be a helpless cripple, if not a corpse.

Such a straightforward endorsement needs no comment, Dr. Kennedy's Favorite Remedy cures diseases when taken according to directions, it acts directly upon the kidneys, liver and blood. In uses of nervousness, dyspepsia. rhenmatism, ulcers, old sores, blood poisoning, nounced cures, after all other treatments have failed.

DAMAGING EVIDENCE IN A DIARY.

The Ex-Queen Will Probably be Convicted, but It Is Belleved That She Will Be Allowed Her Freedom-None of the Condemned Men Executed.

SAN FRANCISCO, Fob. 10.-The steamer Mariposa, from Honolulu, arrived yester day, with news that there have been no executions yet. Ex-Queen Idluokalani's trial is still pending. William France, charged with conspiracy, was the only man deported on the Mariposa. On the Australia, leaving Feb. 23, a number of others will be deported, including Peterson and Creighton, ex-cabinet officers, and The Facts Read Like an Wurdenburg, ex-postmaster general. V. V. Ashford and John F. Bowler have

been found guilty of treason. The government, just prior to the sail

ing of the Mariposa, decided to banish Carl Wideman, convicted of treason. He is a son of Judge Wideman, one of the exqueen's commissioners to Washington. Liliuokalani, who is represented by Paul Neumann, presented a written statement donying the charges against her, and con cluding: "I must deny your right to try me in the manner and by the court which you have called together for this purpose."

The most damaging evidence to be brought against her will be her personal dlary, which was found in her residence after her arrest. Whether this is introduced and made public at her trial depends very much upon the course pursued by her counsel in defending her case. The ex-queen records her thoughts, desires and

impressions freely in her diary. Among the entries made during last summer was one stating: "J. O. Carter called today and delivered President Cleveland's pres-What this present was is not ent to me." stated.

Up to the time of the return of the special commission which went to Wash-ington to interview President Cleveland the ex-queen records herself as favoring a waiting policy, confident that the American administration would interfere in her behalf. After President Cleveland's an swer to the commission she became more aggressive, and began to listen with grow ing favor to those urging an uprising on

the part of the natives. Rudolph Spreckels called to see her often, and is represented as advising her to fight it out. She did not agree with him until, during his last stay in Honolulu, he indicated that she could get plenty of money in San Francisco to carry out a successful rebellion. He is also rep-resented as a willing agent of her ladyship. The last entry in the diary was made on Dec. 28, 1894, and closed with "Signed elever commissions today." These were the commissions for the officers of the new government, referred to in the testimony of her private secretary. The documents have been concealed or destroyed, and her attorney has endeavored to prove that they never existed.

The military court will probably bring in a verdict of guilty in the case of the exueen, notwithstanding her denial. ance will be passed, but it is not believed she will be imprisoned, but will be allowed 7:30 freedom on her own recognizance

WILKESBARGE, Pa., Feb. 16,-Trouble ins again broken out at the Wyoming eminary at Kingston. Last November a umber of students carried Herbert Braimham, a sophemore, out of the campus in a nude condition and gave him a drenching under the pump. The next day Braimham thrashed several of his The next assailants. Last Friday night, after stealing all of Braimham's clothing, a party of students broke into several rooms in the female department. It is said the boys were intoxicated. The screams of the girls attracted Professor Lake, but when he attempted to go to their rescue he found that his room door had been secured with a rope. He burst the door open, but in the meantime the students had fled to their rooms. After a hasty investigation Professor Sprague expelled the ring-leaders, F. H. Laycock, R. W. Rymer and David Reese, and it is said that more students will be expelled in a day or two.
