Strength is Not Enough for Proper Growth.

The Young Body Fails to Get Well Nourished.

Nesds Richer Bone and Tissue Forming Food.

Body Cannot Grow Without Pure, Sturdy Blood.

Unequalled Value of Paine's Celery Compound.

From birth till past the age of 30 there is growth, some of the bones do not completely knit till 35.

All this time in addition there is the steady waste of the tissues that must be repaired. The demand upon the vitality and upon the powers of assimilation is thus enormous during these years. Without plenty of rich, nourishing blood, growth must be defective and tardy. But when it courses through all the arteries in a full, vigorous stream, growth goes on steadily and perfectly.

What countless numbers of frail youngsters physicians see whose pltiably thin wrists and bloodless faces cry out for better nourishment. All this does not escape the vigilent insight of parents. In thousands of homes it is well known that the boys and girls are somehow badly mourished.

The weak stomachs and organs of assimilation cannot extract the food for growing nerves and brain in sufficient quantities from the ordinary diet. A special nerve diet is what they need Paine's celery compound is Prof. Edward E. Phelps' great preparation for nourishing these little frames and making them grow into strong, active men and women. Dr. Phelps, upon whom colleges conferred their highest honors for his invaluable investigations in medicine, knew from ripe experience the exact needs of these little sufferers.

A chorus of gratitude has gone up all over the country, from mothers of chil dren once weakly and pale, without promise of ever growing into robust men and women, who have outgrown weakness and a lack of vitality by the use of Paine's celery compound, taken with the regularity that physicians achiere to when prescribing this wonderful nerve and blood restorative.

li is valuable in all wasting diseases, in cleansing the blood of rheumatism, neuralgia, scrofula, and supplying new and healthy vital fluid-its value can neither be weighed nor measured.

strengthener and restorer Paine's celery compound is pronounced invaluable by progressive physicians. Give this grand invigorator a fair trial, and be convinced
