

OUR INLAND NAPLES.

Burlington, the Queen City of Vermont State.

Headquarters of the Great Firm of Wells, Richardson & Co.

Where Palm's Celery Compound is Prepared for the World.

Fair Burlington! Bring a song to thee, Thou lovely Naples of our inland sea.

The finest inland sea in America is Lake Champlain; the finest city on its shores is Burlington.

Hundreds of American cities could be named which have special attractions of mountain, lake or river scenery, and each of which is deemed by its inhabitants the prettiest and pleasantest of places.

"Burlington in Brief," the title of a handsomely illustrated book just issued by Chas. H. Fossum, describes many of the features of the city.

Looking westward from any of the hundred points of view along the slope, take Champlain, here 10 miles wide, stretches out to the mountain wall of the Adirondacks.

The valley of Lake Champlain is historic ground. Events have taken place in it which have again and again shaded the destinies of large portions of the American continent.

On the eastern side of this historic lake, and amid the scenes of these events, sits the city of Burlington. Its site was selected 130 years ago, on the shore of the lovely bay which bears its name, nearly midway between the Green mountain range on the east and the Adirondacks on the west, and upon the bank and near the mouth of one of the largest rivers of Vermont—once called the French river, because its valley was the route of the French in their forages on the English settlements in the Connecticut during the French and Indian wars.

As a manufacturing and commercial point Burlington occupies to-day an important position. It would be difficult to name a city that has felt the "hard times" less than Burlington.

Its public buildings are handsome, substantial structures, and its schools and charitable institutions are unsurpassed by any city of equal size. The fine building of the Young Men's Christian Association was largely the gift of the present Mayor, Mr. J. Van Patten, of the firm of Wells, Richardson & Co.

The most widely known in Burlington is, of course, Wells, Richardson & Co., one of the largest and most successful firms of manufacturing chemists in the country, which has its headquarters here, and does a tremendous business shipping diamond dyes, lactated food, and Palm's celery compound to the four quarters of the globe.

Wells, Richardson & Co. are known to millions of families. In the various departments of the house some 300 or 400 men and young women are employed, and a ton of the establishment is intensely interesting. In the various manufacturing departments, such laboratories, shipping facilities and finely appointed offices are met with in no similar establishment.

It is a great concern, and to one seeking the cause of such success in this line, Burlington people will say that it is its strategic position, and the fact that every preparation bearing the firm's name is at least all that is claimed for it.

Another institution is the Vermont university, with its famed medical college, where the great Dr. Peppis was once a lecturer.

The city is the home of Senator Edmunds, of Michigan; Philip, Dr. W. Wood and Webb, Le Grand B. Cannon, and many more men of national repute. It is well named the "Queen city."

If there ever was a real cure for chronic Coughs, Colds, Bronchial troubles and In Grippe, it is Pan-Tina. Don't fail to get the genuine; avoid substitutes. Costs only 25 cents. Pan-Tina is sold at Grubler Bros. or drug store.

Ten days loss of time on account of sickness and a doctor bill to pay, is anything but pleasant for a man of a family to contemplate, whether he is a laborer, mechanic, merchant or publisher.

Jas. O. Jones, publisher of the Leader, Mexico, Texas, was sick in bed for ten days with the grip during its prevalence a year or two ago. Later in the season he had a second attack. He says: "In the latter case I used Chamberlain's Cough Remedy with considerable success, I think, only being in bed a little over two days."

The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy. It should be borne in mind that the grip is much the same as a very severe cold and requires precisely the same treatment. When you wish to cure a cold quickly and effectually give this remedy a trial. 25 and 50 cent bottles for sale by Grubler Bros.

Fire Alarm Boxes.

The following list shows the location of the alarm boxes of the Shenandoah fire department:

- LOCATION. 15—Coal and Bowers streets. 16—Bowers and Centre streets. 24—Bridge and Centre streets. 35—Main and Centre streets. 42—Jardin and Oak streets. 34—Main and Poplar streets. 35—Main and Coal streets. 43—Gilbert and Centre streets. 43—Gilbert and Cherry streets. 44—Oak and Gilbert streets. 45—West and Poplar streets. 52—Chestnut and Coal streets. 54—West and Lloyd streets.

To send an alarm open the box, pull down the hook once and let go. When an alarm is sent in the fire bell will sound the number of the box and repeat the alarm four times.

HOW TO LOCATE ALARMS.

If the alarm is sounded from box 15 the fire bell will strike one, then pause and strike five, which will indicate that the fire is in the vicinity of No. 15 box. Every alarm is repeated four times.

O. W. O. Hardman, Sheriff of Tyler Co., W. Va., appreciates a good thing and does not hesitate to say so. He was almost prostrated with a cold when he procured a bottle of Chamberlain's Cough Remedy. He says: "It gave me prompt relief. I find it to be an invaluable remedy for coughs and colds." For sale by Grubler Bros.

Determined on Suicide.

BALTIMORE, Feb. 23.—On Dec. 2 last a man who persistently refused to give his name as a patient, in Druid Hill park by shooting. Yesterday morning he succeeded in ending his life by jumping from a third story window of the Maryland General Hospital, where he had been confined since his first attempt on his life. With his tragic death came his supposed death wish, it being announced that he had given his name in secret to a nurse as Charles E. North. This, he told the nurse, was his right name. It is believed that his home was in New York. The bullet he fired into his head on Dec. 2 was never found.

Expelled for Heterodoxy.

OAKLAND, Cal., Feb. 23.—Charles W. Woodworth, a professor at the state university, and W. C. Maxwell, a student at the same place, have been expelled from the First Baptist church of Berkeley on charges of heterodoxy professed against them by Rev. W. C. Leonard and the deacons of the church. Maxwell published a circular giving his views, the main point of which was that baptism is not pertinent to church membership, nor to partake of the Lord's supper, and the professor upheld him. Thus both offenders were expelled.

Female College Destroyed by Fire.

BRADFORD, Pa., Feb. 23.—Nearly 100 young ladies were roused from their slumbers by fire in Beaver Female college. There was a great scramble to get their clothes and a presentable appearance on the street, but many a bit of dainty feminine apparel was neglected in the wild rush to escape the flames. The college building was completely destroyed.

Divers to Board the Sunkin Elbe.

LONDON, Feb. 23.—The North German Lloyd Steamship company has engaged three German and three French divers to attempt to recover the mails from the Elbe. The vessel lies in water 120 feet deep, and two or three mail bags from her have been washed ashore on the English coast. The estimated value of the mails is \$90,000. In addition to the regular wages that the divers will be paid the company has allotted the sum of \$2,500, which will be given for the recovery of valuables from the steamer.

Our Bonds in London.

LONDON, Feb. 23.—Only during the two worst periods of the present century has the bank note remained at 2 per cent, once for thirteen and again for sixteen months. Beyond a slight hardening of rates on account of the new American loan there is no visible prospect of a change, the rash for bonds here indicating anxiety to find fair investment security. It has been estimated that had the new issue been made as gold, instead of coin bonds, the price would have been 120 instead of 119.

Discontented Pottery Workers.

TRENTON, Feb. 23.—The workmen in the pottery establishments in this city met yesterday afternoon for the purpose of discussing reductions in wages which have been made for some time past by means of individual contracts. The result of this system has been to break up the organization which at one time existed, and efforts will be made to restore it. A committee was appointed to confer with the manufacturers, in the hope that an agreement upon the wage question may be arrived at.

Cable Cars Collide.

CHICAGO, Feb. 23.—A collision on the Halsted street line yesterday afternoon caused a great deal of excitement and resulted in three women being badly bruised. The accident was caused by the gripman being unable to release his grip from the cable on account of a broken strand, and the train crashed into the one ahead. Many passengers were thrown to the floor of the cars by the collision. Those most seriously injured were Mrs. Ellen Cronin, Miss Margaret Cronin and Miss Ida Martin.

The Sultan of Muscat Fled.

LONDON, Feb. 23.—A dispatch from Calcutta reports the capture of the greater portion of the city of Muscat by insurgent Bedouins. The sultan fled from the palace, but eventually regained the eastern portion of the town. The fighting continues. [Muscat, the capital of the Imam or Sultan of Muscat, is on the Indian ocean, near the eastern angle of Arabia. It is one of the hottest places in the world, the thermometer in the shade rarely descending below 90 degrees.]

His Body Nibbled by Rats.

NEW HAVEN, Feb. 23.—David Stockbridge (colored), known to nearly every man who has attended Yale college during the past thirty years as "Old Davy," was found dead in a chair at his home yesterday afternoon. He was about 68 years of age, and had peddled candy about Yale college for more than a quarter of a century. Death was due to heart disease, and he had evidently been dead several days, as the body was horribly mutilated by rats.

Serious Fighting in Tangier.

PARIS, Feb. 23.—Despatches received here from Tangier state that rebel tribes have entered and looted Moroccan City, one of the capitals of Morocco. Serious fighting occurred before the city fell into the hands of the rebels, and many on both sides were killed. A British warship has arrived at Tangier from Constantinople.

HOWGATE ACQUITTED.

But He Remains in Jail to be Tried on Other Indictments.

WASHINGTON, Feb. 23.—Captain Henry W. Howgate, formerly distinguished clerk of the signal service, who has been on trial here since Jan. 28 on two indictments charging him with embezzlement and forgery, was yesterday acquitted of the charges. The case was given to the jury at noon on Thursday last, and it was not until yesterday noon that a verdict was reached. On the first ballot it is said that the vote stood seven to five for acquittal.

The jury reported yesterday on their inability to agree, but Judge McDonough insisted that they should remain and try again.

The Howgate case has been unusual in many ways. Fourteen years ago important frauds affecting large sums of money were discovered in the signal service accounts, and Howgate was charged with having committed them. He was arrested, but by a ruse escaped from his guards, and for thirteen years remained in New York city. Although a reward of \$5,000 was offered for his capture he was not arrested until last fall.

The jury found that the case was not barred by the statute of limitations, but held that Howgate was not guilty of the particular offenses charged.

After the verdict was rendered Howgate was sent back to jail to await trial on the seven indictments still remaining against him. It is not known which of these will first be tried.

Death of General Carr.

TROY, N. Y., Feb. 23.—General Joseph B. Carr died yesterday, aged 66. He entered the army at the outbreak of the civil war as a lieutenant colonel, and served with distinction throughout the conflict, winning his promotions by gallantry. He was breveted major general in 1865. He was elected secretary of state in 1870, was re-elected in 1881 and again in 1883. In 1886 he entered the Republican nomination for lieutenant governor, but was defeated at the polls. In 1889 the legislature of New York made him a member of the Gettysburg monument committee.

Unequal to Family Duties--No Appetite

Hood's Sarsaparilla Cures Strength and Courage to Work.

"I was in such condition I could not walk even about the house to attend to household duties and care for my children and family. I did not have the strength of a child. I was treated by several physicians, who pronounced my trouble Scrofula and Female Weakness. I could eat only a slice of bread and drink a cup of tea, three times a day. Some times I could stand a soft boiled egg for dinner. I became reduced to skin and bones; at last they had to draw me about the house seated in a rocking chair. I was in a terrible state when my husband, having noticed advertisements of Hood's Sarsaparilla, urged upon me to give it a trial. After taking one bottle I received sufficient benefit to know that I had at last found the right medicine. I have now taken several bottles and am able to attend my housework."
