Evening Herald.

MONDAY, MARCH 11, 1895.

PRESIDENT CLEVELAND has left the "dead ducks" in Washington and gone to seek the live ones on the North Carolina coast.

THE bond quotations show that the public credit is first class; and they also show that Cleveland and Carlisle were badly mistaken when they thought it wasn't.

MR. BISSELL is entitled to credit as the only member of the Cabinet who has manifested a decent respect for the wishes of the people as expressed in the last election.

A CHICAGO man killed himself because of "a most complete tiredness." The term is the best description we have seen of the condition in which Mr. Cleveland's late Congress has placed the country.

THE cotton crop of Texas is the largest that has ever been produced, but at the same time the price is the lowest that has ever been known. It seems to be impossible to carry out the idea of reducing the acreage; and the next best thing, obviously, is to establish local manufactures and vote for the protective policy.

WHAT do the politicians out of a job think as they realize that the days of Congressional salaries and perquisites are over and that they have got to go out into a cold and contemptuous world to earn their own living? As they contemplate the places from which the nation in vehement disgust and wrath has ejected them, it would not be at all strange if there should percolate through the recesses of their unhappy intellects the conviction that it pays an American Congressman to be an American.

MISS LEITER, of Chicago, is also to marry the son of a titled foreigner, and a lot more of our hard earned money will flow over the ocean. The letter money came in by way of the yard stick, but its outgoing will be measured by the forty-foot pole. There are rich girls in Europe, who, outside of their wealth, are worth the wooing. It would seem to be the duty of our patriotic young men to see that the wedding dowry does not always sail from the same side of the ocean. Just now the balance of trade in this line is much against us.

THAT is an interesting announcement which we have from Bridgeport to the effect that a large manufacturing firm there, employing hundreds of girls, will reduce wages soon in order to be able to pay the income tax and meet tariff reductions. The head of the firm was a convert to Clevelandism two years ago and believed it would be a good thing for the country. As a guarantee of good faith he contributed liberally toward the election of Mr. Cleveland. It is understood that he is again ready and anxious for a change.

Six hundred million dollars are involved, it is said, in the decision of the Supreme Court of the United States of the principle involved in the case before them in the Bates Refrigerator Company. The case was one upon which depended the question of when American patents expire when foreign patents have been previously issued, and it was decided in an exhaustive opinion by Justice Harlan that when the foreign patent expires the American patent expires also. The principle involved is one that affects a large number of other patents, notably several belonging to the Bell Telephone Company. The advocates of a cheaper telephone rate are jubilant over this decision, for they claim that so many patents of the Bell Telephone Company are killed by this decision that the company, if it wants to hold its business against competition, must reduce the rates. The decision rendered by Judge Harlan was endorsed by a full court.

Washington Dispatches. BIRMINGHAM, N. Y., March 11.—During the night eight persons entered the store of William H. Miller, at Deerfield, and made a rich haul. The safe had been inadvertently left open and the thieves carried off about \$100 belonging to Mr. Vanlier, and all the newspapers and other papers belonging to Deerfield township, of which Vanlier is collector, and also some of the township's money. A quantity of goods was taken out of the store. There is no clew.

Forty of the civil guard were killed and the garrison taken, together with a large amount of arms and ammunition. Later in the day the city treasury was visited and the funds therein confiscated. Vinlas is in the Vuelta Abajo district, about thirty miles south of Havana.

Verdict Against a Robber's Estate. BIRMINGHAM, Ala., March 11.—In the circuit court at Vernon, Ala., the Southern Express company got judgment for \$4,400 against Allen H. Burrows, father and administrator of Rube Burrows, the celebrated train robber. The verdict was the amount of money of which Rube Burrows had robbed the company. Allen Burrows two days before got judgment against the company for \$294, the value of Rube's guns, pistols, a team of oxen and some money found on his person when captured and killed. Rube bought with his plunder a big farm for his child, that will now go to the company.

Attempt to Wreck a Train. VALPARAISO, Ind., March 11.—An attempt was made to wreck the midnight passenger train on the New York, Chicago and St. Louis railroad about five miles west of this city. A pile of ties had been placed on the track, which was struck with great force by the engine, knocking it from the track and plowing up the track for about two hundred yards before the train could be stopped. The passengers were all thrown from their seats, but no one was injured. It took an hour to get the ties from under the engine. It is supposed to have been the work of train robbers.

Dead Body in a Reservoir. NIAGARA FALLS, N. Y., March 11.—The badly decomposed body of an old negro, John Brown, whose disappearance for some time has been a mystery, was yesterday afternoon found in the hydraulic canal, which runs through the city, and which furnishes the larger part of the city's water supply. The drowning is believed to have been purely accidental. A great number of cases of typhoid fever have developed at Niagara Falls of late, and the discovery of this body will probably lead to a thorough examination and cleaning out of the canal.

Staves of the Padrone System. NEW YORK, March 11.—Immigration Commissioner Sener, Contract Labor Inspector McSweeney and Commissioner Stump, who were appointed by Secretary Carlisle to take testimony throughout the United States and see how extensive the padrone system had become in this country, have nearly completed their report. It will be from 25,000 to 40,000 words in length, and Commissioner McSweeney says it shows up a system infinitely worse than was slavery before the war.

Dispersing Cuban Revolutionists. MADRID, March 11.—Dispatches received here from Cuba state that after their defeat by the government troops at Baire and Los Negros the rebels occupied new positions in which the government troops again attacked and dispersed them, inflicting heavy loss. The United States cruiser Atlanta was at Bogota del Toro, and landed a force of sailors and marines to protect American interests. Though the rebel attack was unsuccessful it is believed that another attempt will be made to capture the town.

Brave Sailors Honored. NEW YORK, March 11.—There was an interesting event on the saloon deck of the big liner Teutonic yesterday when her commander, Captain John G. Cameron, presented medals to the six men comprising the crew of the lifeboat that went to the rescue and saved the lives of nine men, the crew of the foundering schooner Jessie Reeves, in midocean, on Feb. 8 last. The medals were the gift of the Life Saving Benevolent association. The men honored are Fourth Officer Orin and Seaman William Fitzpatrick, John Seed, William McLoughlin, David Jones and Alfred Hawley.

Kiernan, the defaulting insurance agent, who fled from this city on July 13, 1894, and who was arrested at Galveston, Tex., on Wednesday last, arrived here yesterday afternoon in company with Chief of Police Tenney. Kiernan looks as though he had been in hard luck for some time past, and says he is glad he is in custody. The amount of his default was \$15,000, and there are two charges of forgery against him. He will throw himself upon the mercy of the court by pleading non vult.

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY

THE ARMEAN ATROCITIES.

The Worst Details Published Corroborated Before the Commission. LONDON, March 11.—A dispatch from Moscow says that a deputation of survivors from the Sannous massacres appeared before the Turkish commission and narrated the whole story of the butchery. They presented also a written statement. One of the members of the deputation was a priest named Petros, belonging to the village of Ghelyegozan, where the pit incident occurred. The statement fully corroborates the worst details already published. The document and the evidence made a powerful impression on the commission.

Other dispatches, dated March 9 and 10, declare that 200 eye witnesses who have been examined all deny that the Armenians provoked the Sannous massacres, and exonerates the Kurds from the brutality. These witnesses give disgusting details of Turkish cruelties. The commission is working slowly, owing to the dragomans being afraid to translate the accounts of the deeds of the Turkish generals. The British, French and Russian embassies have summoned fresh dragoman interpreters.

A Condemned Murderer's Confession. ST. LOUIS, March 11.—It is now known who murdered Benjamin McMaeken McCulloch, a prominent businessman of this city, who, at the time of his death, nearly a year ago, was paying teller of the State bank of St. Louis. Jim Murray, a negro now in jail at Clayton, St. Louis county, under sentence of death for killing Edgar Fitzwilliams, made a confession yesterday in which he implicated Harry Stuart and William Hensley in the murder of McCulloch. Murray states that he took no part in the murder, but was present when it was committed. He makes this confession, hoping to gain a respite from Governor Stone.

ENTOMBED IN A MINE. Women Take

Eight Men Probably Suffocated in New Mexico. FIRE OUT OFF THE MEN'S ESCAPE.

WHITE OAK, N. M., March 11.—At 3 o'clock yesterday fire broke out in the change room of the hoist house of the Old Abe mine, and in a few minutes the structure, a large and well built one, was a mass of flames. It was completely destroyed, together with the wood and smith shops. The mill, sixty feet away, escaped without damage. The woodwork of the shaft was burned out and the hoisting machinery destroyed.

The damage runs high up into the thousands, but the most distressing feature is that some men are imprisoned in the dark depths whose fate is unknown. There is little ground for hope that they have escaped suffocation. It will not be possible to enter the mine to search for them until some time this afternoon or tomorrow. Rescuing parties have been unable as yet to get down further than the third level by the air shaft. The smoke and gas from the charred wood from the hoisting shaft has penetrated the upper level, and it is impossible to pass them.

The entombed men are: Charles Sherrick, F. J. Williams, Frank Wilson, John Davis, G. Baxter, Charles White, Jerry Conover and W. B. Mitchell.

Wilson, Davis and Baxter are married. White is a new man and was on his first shift. Williams and Sherrick are old in mining experiences, and have faced like dangers before. They are cool headed, and if any place of safety was to be found they would find it.

The fire broke out while G. E. Wilkinson was going down in the bucket to work. He had reached the ninth level when the hoist was abandoned and was shot down 200 feet to the thirteenth level, where the bucket struck, tipped and threw him into the drift. He was stunned, but recovered and climbed back to the second level and escaped by the air shaft. Coke Keith, Mike Gallagher and Anton Howgate also escaped through the air shaft. This is the only serious accident here since the burning of the South Homestake shaft several years ago, when two men were smothered.

A Deadly Railroad Crossing. ST. JOSEPH, Mo., March 11.—At the crossing where Malory and McBride were killed on Saturday night Mrs. Thomas Allen was instantly killed last night, Gertrude Allen, her 19-year-old daughter, dangerously, and Martha Deacon, 11 years old, fatally injured. The three were returning from church, and drove upon the crossing just as the Missouri Pacific fast mail from the east thundered up. Mrs. Allen's body was shockingly mutilated, and she and her daughter were carried 200 feet on the engine pilot before it could be stopped.

Train Robbers Got Nothing. STOCKTON, Cal., March 11.—The Southern Pacific coast bound overland passenger train was held up between here and Lodi by three masked men. The robbers compelled the engineer and fireman to stop the train and accompany them to the express car, which they forced open. The messenger would not open the safe and the robbers were unable to do so. After working fifteen minutes on the safe the robbers became alarmed and left the scene on the engine. The engine ran into Lodi with no one aboard, the robbers having deserted it.

Organized Boy Beggars. CLEVELAND, March 11.—At the central station police court William Thompson was fined \$50 and sent to the workhouse for thirty days. It was shown that Thompson had worked an Italian padrone system of begging here and in Chicago, Cincinnati, Pittsburg, Buffalo and various other cities. His plan seems to have been to send out boys, apparently burned or crippled, to beg. In one case acid was placed on a boy's leg until the flesh was eaten away. He was then put on the street to beg.

American Robbed by Mexican Bandits. SIERRA MOJADA, Mex., March 11.—Frank Ward and H. D. Sample, two American prospectors who left here a few weeks ago for the new mining camp of Carmen, near the Rio Grande border, were attacked by a band of Mexican outlaws and robbed of their money and horses. The outlaws escaped across the river into Texas. They are the same band of renegades who committed so many murders and robberies on both sides of the border during the past few years.

Indiana's Economical Legislators. INDIANAPOLIS, March 11.—The Indiana legislature will adjourn tonight at 12 o'clock. The session cost the state \$10,000, but the general appropriations bill shows a reduction of over \$200,000 from two years ago. Among the more important bills that have become laws is the Roly bill to prevent winter racing, the constitutionality of which is questioned.

Fireman Killed by Explosion. HARRISBURG, March 11.—The locomotive of the Pacific express was partially wrecked by the explosion of the boiler a mile west of Cova Station on Saturday. John A. Funk and John H. Peffy, the engineer and fireman, were thrown into the air. Peffy died in five minutes, and Funk is at the city hospital. The cause of the explosion is at present unknown.

Cardinal Gibbons' Trip to Rome. BALTIMORE, March 11.—Cardinal Gibbons will sail from New York for Rome the first week in May. A light attack of influenza at present affects his enjoyment. It does not, however, interfere with the performance of his episcopal duties. Rev. Cornelius F. Thomas, rector of the cathedral, will accompany the cardinal to Rome.

A Diamond Thief Confesses. NEW YORK, March 11.—Samuel Hamburger, a young sneak thief, is under arrest at police headquarters charged with robbing the house of Louis Marks of diamonds and jewelry valued at \$5,000. The prisoner has confessed his crime, and nearly all of the stolen property has been recovered.

Two Sunday Sportsmen Drowned. NEWBURYPORT, Mass., March 11.—Samuel Smith, aged 38 years, and George Leake, aged 21, both of South Lawrence, Mass., were drowned by the upsetting of a boat while gunning near one of the many islands off Newburyport yesterday afternoon. Both bodies were recovered.

a natural interest in what other women do and say; and important it is to all of them to know how to keep well, and get well. Modern civilization bears heavily on our women; they have many aches and pains that man escapes. There is no need to tell about them; every woman knows what her sex suffers. Is all this suffering necessary?
