Quinculty in Locating the Men Who

PURSIO, Colo., March 15.-A warm wind at Walsenburg yesterday melted the snow very rapidly and dried the earth so that rching parties again set out to heat for the two Italians killed by the mob Tues day night, of whom no trace has yet been found. Quiet reigns, but the extreme closemouthedness that has characterized everybody in Walsenburg and Rouse since the mob did its fatal work still continues There is no doubt but that a very considerable number of people know thoroughly well who did the killing, but they know

hard town, with an element that occasion ally shows its teeth and uses its guns.
These men are of a more or less prominence, and as it is believed they did the work, no one dares to say so or acknowledge any cognizance of the participants for fear of being himself used as as target.

Notorious Bob Ford, slayer of Jesse James, ran a dance hall in the town of Walsenburg for several years. Six of his pals from that place are now in the state prison for various crimes, but others are still on band.

Walsenberg is a hamlet of about 1,000 people, with coal mines and miners at her doors on every side, and the turbulent ele-ment is therefore large, and especially since the strike of last summer, after which many miners who were steady and

ships have left Gibraltar in search of the missing Reina Regente. One report cur-rent here is that she was found by a British vessel in a disabled condition off the African coast.

In the chamber of deputies, replying to questions, Prime Minister Sagasta said that telegrams announcing the wreckage of vessels at various places along the const had been received, and that, though the government had no postive news regard-ing the Reina Regenta beyond the fact that she had sailed from Tangler, he feared that the vessel had been lost

The belief, which is hourly growing stronger, that the vessel will never again be heard from, has created a feeling of consternation throughout the country. In Cadiz and Carthagena, where most of the crew belonged, the excitement and anxiety

Slaughtered by Gold Prospectors. VANCOUVER B. C., March 15.—The Min-wers brings an account from the distant gold fields of western Australia of the arrest of a band of propertors who claim to have found a hill gontaining large quanti-ties of gold. They left Coolgardie on Dec. 1. A few works ago Dr. Robertson, one of the prospectors, returned and confessed to the polyce that after discovering the gold they found that a party of blacks had

FORT WAYNE, Ind., March 15.—The Street Railway Employes' union some time ago made complaint against the Citizens' street railway of this city, claiming an employe had been discharged for belonging to a labor union, which is against the state law. Yesterday Judge O'Rourke sustained a motion to quash the indict-ment. The judge holds the statute constitutional, but defective in wording and construction. The decision, if sustained, makes the state law inoperative and void.

TOPICS OF THE TIMES.

Pertinent Paragraphs From the Reporters' Pens and Pencils.

Our exchanges should give our Board of Health a chance before condemning it. It must be admitted that our streets and had accumulated some property moved alleys are in a very dirty condition, but there is hardly a town in the region that is not thus afflicted at this season of the year. For the amount of work done last year in the direction of putting the town in a good sanitary condition our Board of Health should be awarded the palm.

The Health Officer has no light task on hand for the coming spring, and he will need the assistance and encouragemen of all who want to see the town put in a condition that will charlenge the spread of contagious diseases.

There is another important thing which hould receive attention, and that is the enement house system. They should be arefully inspected and where any are ound overcrowded, or in a flithy condition, the owner should be required to comply with the law.

The numerous empty store rooms in own are causing some worriment to prop erty holders, and strangers who notice them predict that Shenandoah has seen ts best days. Fortunately those who look at the matter in that light are very few. All the empty places will again have tenants, perhaps at the same rents now prevailing, but it is doubtful if such lenants will be of the class that will remain with us. There is a remedy, and only one, we believe, namely a reduc i in of rents to reasonable figures. This would at least secure good and permanent tenants, who cannot afford to embark in business for the glory that is in it.

It is all well enough to hold rents high in expectation of renting to people who have a few hundred dollars and are itching to go into business, but in a tew months the limited capital disappears, the creditors are left unpaid, the landlord must attach the remaining stock to get his rent, and his place is again thrown vacant for several weeks or months, and the landlord is lucky if he escapes being compelled to make repairs or niterations with each change of tenancy.

The raids made on peddlers and fakirs are having the desired effect. It is driv ing them to other fields. Only those who are ignorant of the modus operandi of the law are still with us. They, too, will go when tapped upon the shoulder by an officer, hauled up to a Justice's desk and subjected to a fine and an injunction to mining the legitimate merchants,

Transfers of local real estate are not as numerous as they were a few months ago. The craze for high-priced real estate has waned and many gilt edges are wearing off. Still there is no cause for a fear that action. The court reserves the right to prices will go way down. All the proper-puss a fresh judgment after thirty nights. It is only the inflated places that will feel the effects of a big drop.

AMUSEMENTS.

"THE PAY TRAIN,"

There is not an actress before the public today who po-sesses the great versatility that Florence Bindley does. Equally a home in comedy or pathos, a cultivated voice and every step of her dancing the very poetry of motion and a perfect musician, playing on any conceivable instrument. She will produce at Fergu son's theatre, this evening, her realistic and successful comedy drama, "The Pay Train," a play full of heart interest and a plot founded on facts. Her supporting company is one of rare excellence and is the original cast in this play which was first produced in Philadelphia five years ago. To make the play more realistic and interesting, the company carries every particle of scenery used in the production and will produce it here in its entirety. "THE POLICE PATROL"

Real horses, real potro wagon, and real olicemen are a few of the inducement ifered to play go is in A. Y. Pearson' Police Patrol," which comes to Fergu on's theatre tenforrow evening. This will be refreshing news to the weary public and will no doubt be appreciated Those who have not read or seen of this excellent production have doubtless been appraised of its merits by their friends, for it has toured the continent season after season with unvarying success, and promises to retain its popularity for many years to come.

New County Chat.

Tamaque wants to join Quay county. The new Grow county movement wont atch many suckers.

Who said Shenandoah was anxious to annex itself to Quay county? Perhaps we could better ourselves by doing so. The Quay county becomers ought to suc-

There was a time when Hazleton mer chants purchased nearly all their mer chandise from Tamaqua, but that was 30 and 40 years ago. They are not doing

doah, Mahanoy City, Girardville and Ashland as the principal towns in it? Ringtown would make a capital county seat.
