Evening Herald.

WEDNESDAY, MARCH 20, 1895.

CLEVELAND and the Fifty-third Congress
will go down in the records together,
chronologically speaking, but the his-
torian will do Grover the justice to say
that few Presidents have performed bet-
ter service in damming a flood of legis-
lative mischief.

STATESMAN WILSON of West Virginia,
in reviewing the work of the late Con-
gress, declares that "a campaign of edu-
cation has been begun." We not only
agree with Professor Wilson in this view,
but are able to state that the actual
beginning of the campaign of education
was made on the 6th of last November.

When the history of the present "revolu-
tion" in Cuba is written it will probably
show that the movement was chiefly suc-
cessful in "revolutionizing" a lot of money
out of the hands of Cuban sympathizers
and into the pockets of a few ambitious
adventurers and demagogues with whom
the desire for profit was greater than the
impulse of patriotism.

While government revenue actually
improves, compared with the low aver-
age for the last five months, it is not large
enough to warrant much hopefulness. A
little more sugar comes in, and it is stated
that a large proportion of the old whiskey
has gone into consumers' hands, but com-
pared with the same week in 1893, the re-
ceipts last week showed a decrease of
\$1,100,000 in customs and \$600,000 in in-
ternal revenue, and all receipts for the
month have fallen \$1,532,000 below ex-
penditures. The demonstrated ability of
the syndicate has become the chief reli-
ance of a Democratic Administration—as
if this mighty nation, intelligently
governed, ought not to be stronger than
all the syndicates of bankers in the
world.

ALTHOUGH Brown Sequard's famous
elixir was a failure his experiment has
stimulated investigation and lighted the
way to all the important demonstrations
of the remedial power of animal extracts
which have since been made. The doc-
tors think they are only on the threshold
of discovery. Some of them also think
that the therapeutic value of some of
these discoveries has been overestimated,
and others that they are injurious and
implant morbid conditions in the con-
stitutions to which they are applied.
When doctors disagree there is no one to
decide except another doctor, and he
generally wout, and when he does is
generally wrong; so that in this case the
argument and difference are confusing to
those outside of the profession, who will
have to wait till time utters its final ap-
pellate judgment in the dispute.

The price of flour and the prices of many
articles of food and clothing have fallen
heavily within recent years. But the
people in the Eastern cities of the United
States are compelled to pay substantially
as high prices for meat of all kinds and
for fish of all kinds as they paid ten
years ago. The breeders of cattle on
Western ranches get much lower prices
for their stock than they received in 1884
and 1885. The producer everywhere is
justly bemoaning the fact that he re-
ceives inadequate and unsatisfactory
prices for his cattle. The fishermen get
low prices for their fish. Yet in regard to
meat and fish alike, the profits of the
middlemen are prodigious. A great trust
in Chicago, with branches all over the
country, levies an excessive tribute on the
consumers of beef, mutton and other
meats. The members of this insolent and
grasping trust have accumulated vast
fortunes. The Cleveland administration
takes no effort to enforce the anti-trust
laws against the meat trust, one of the
greediest trusts ever known in America.
The middlemen in the fish business pay
scanty sums to the fishermen, and impose
extravagant prices upon the consumer.
It is a radically wrong state of affairs
when meat and fish are held at so high
prices in the markets of the East, while
cattle-breeders and fishermen are in dis-
tress because they do not obtain a fair
return for their labors.

THE REPORT CONTINUED

A Spanish Gunboat Fired on the Schooner Irene.

THE VESSEL WAS DISMANTLED.

She Afterward Drifted Ashore, and Now Lies Aground Near Charlotte Harbor. Reports That the Cuban Insurgents Are Rapidly Gaining Strength.

TAMPA, Fla., March 20.—The steamer Mascotte arrived last evening direct from Havana, and brought late reports from the seat of revolution. Copies of La Lucha confirm the report of the sinking of the schooner by the Spanish gunboat off Puerto Padre, near Gibara. In the same issue there are reports of the departure of General D. Jorge Garfich and Colonel Santo Clideo, with their commands, from Jiguani, and their attack on insurgents at Los Negros, at which place a battle was fought. This confirms previous reports. A letter received from Santiago stated that thirty leading young men of that place had gone into the field under command of a prominent lawyer named Jomaya.

Other letters assert that in Los Villas the insurgents are rapidly gaining strength and confidence. Organized bands are beginning to arise in different sections of this district, and especially near Santo Spirito. This part of the uprising will cause Spain much chagrin, for it is her desire to keep the outside world ignorant of the progress of the revolution, but Los Villas is in the central portion of the island, and the chances now are that news will be more definite, now that the trouble is so much nearer Havana.

For two days uncertain and untraceable reports have reached here regarding an American schooner being fired upon by a Spanish gunboat on the southern coast of Florida. Yesterday's steamer brought news from Key West, which is said to be authentic, claiming that the schooner Irene, of Key West, had been fired upon and dismantled by the Infanta Isabella near Charlotte harbor, after which the schooner drifted ashore, where she now lies aground south of the above harbor. It is generally understood that the authorities at Washington have been notified of it. The Irene is a coasting schooner of sixty tons, commanded by Captain Carballo, and generally carried a crew of eight.

Spain Has Not Yet Answered.
MADRID, March 20.—El Correo denies the truthfulness of the report that the Spanish government has expressed to the United States its disapproval of the action of the gunboat which it is claimed fired on the American steamer Alliance off Cape Maysi, the eastern extremity of Cuba. The paper adds that Senor Groizard, the foreign minister, is awaiting an official report from Havana before definitely replying to the note presented to the government by the Hon. Hannis Taylor, the American minister.

Testing Virginia's Election Law.
PETERSBURG, Va., March 20.—In the circuit court of Brunswick county Judge B. A. Hancock rendered a decision sustaining the constitutionality of the Walton election law, which was used for the first time in Virginia last November in the election of congressmen. The case will now go up to the court of appeals for final adjudication by that tribunal of last resort. The validity of the law is questioned generally by Republicans, but this suit was instituted by Democrats, who hold that it is unconstitutional. If the law should not stand the test of the highest court no congressman elected last November will have a legal claim to his seat.

Ohio Miners on Strike.
POMEROY, O., March 20.—The coal miners' strike here yesterday was quite unexpected. It was the result of operators of the Peacock mine cutting the rate of one-fourth cent from the contract signed May last for one year for two cents per bushel. As yet but three large mines are affected—Peacock, Minersville and Syracuse—throwing 400 men out of employment, and three salt works. The miners declare all mines will close. A general effort is being made to settle the difficulty without a prolonged strike.

An Exploding Boiler Kills Six.
FORT WORTH, Tex., March 20.—The explosion of a sawmill boiler, near Eight Mile Creek, south of Carthage, is reported to have killed six persons and maimed as many more. The explosion was distinctly heard three miles away. Particulars of the affair have not been received.

The Weather.
For eastern Pennsylvania, New Jersey and Delaware, rain tonight; northeast winds; slightly cooler. For the District of Columbia, Maryland and Virginia, rain; easterly winds; cooler in south Virginia.

From LaGrippe.
How Dr. Miles' Nervine Brought One of Kentucky's Foremost Business Men Back to Health.

NO DISEASE has ever presented so many peculiarities, developed so many aggravating symptoms and baffled so many physicians as LaGrippe. No disease leaves its victims so debilitated, useless, sleepless, nervous, as LaGrippe. It is a disease of the nerves, it saps up the tissue, the vitality, the life-giving nerve force that feeds the brain. There is one remedy that will replace this worn-out tissue; that will restore this lost vitality and restore health. Read what Mr. D. W. Hilton, state agent of the Mutual Life Insurance Co., of Kentucky, one of the best known insurance men in the south, and whose portrait appears above, says about how Dr. Miles' Nervine Restored him to health when all else had failed.

In 1889 and '90 I had two severe attacks of LaGrippe, about eight months and attacking my nervous system, with such severity that my life was despaired of. I had not slept for more than two months except by the use of narcotics that stupefied me, but gave me no rest. For more than eight long weeks I was only conscious of intense mental weakness, agonizing bodily pain and the fact that I was hourly growing weaker.

When in this condition, it seemed like a providential circumstance that I learned of Dr. Miles' Restorative Nervine, for in two days after I commenced using it, I began to improve and in one month's time I was virtually cured, and very much to the surprise of everybody who knew of my condition; for none of them believed I would ever recover. I have been in excellent health since and have recommended your remedies to many of my friends, not one of whom has failed to thank me for doing so, when I have met them again.

But the best remains to be told. Mrs. Hilton had suffered with severe nervous troubles for thirteen years and had been treated by several physicians, who stand high in their profession, without any perceptible improvement. Seeing how the Nervine had so effectually cured me, she commenced using it and is now in excellent health. We never fail to recommend it."

LOUISVILLE, Jan. 22, 1895. D. W. HILTON.

To Sell a Railroad for Taxes.
JACKSONVILLE, Fla., March 20.—In the supreme court a decision was rendered in favor of the state against the Florida Central and Peninsular railroad for back taxes due by said road for years 1879, 1880 and 1881, amounting to \$90,000. The court holds subject to sale for these back taxes the lines of this company. It is thought that an appeal will be taken to the supreme court of the United States.

Infant Burned to Death.
BETHLEHEM, Pa., March 20.—The infant child of Frank Gubich was burned to death yesterday. Mrs. Gubich left her children alone while she went to a store. During her absence they played with fire, and when she returned one child was found burned to a crisp on a rug and an older brother was so badly burned that he will probably die.

One Result of the Brooklyn Strike.
NEW YORK, March 20.—H. J. Morse, of this city, has been appointed receiver of the Long Island Traction company, controlling several lines of street railway in Brooklyn and adjacent towns. The receiver was appointed by a West Virginia court, in which state the company is chartered.

Speaker Peck's Successor Not Yet Chosen.
LONDON, March 20.—It is announced that the Right Hon. H. Campbell-Bannerman, secretary of state for war, has definitely abandoned his candidacy for the speakership of the house of commons. A cabinet council has been convened for next week to decide the speakership question.

NUGGETS OF NEWS.
Four priests, suspected of revolutionary tendencies, have been expelled from Costa Rica.

While beating his wife near Caddo, I. T. Dave Chris was shot and killed by the woman's 15 year-old brother.

The bark Colusa left Tacoma, Wash., for Shanghai 108 days ago, and it is feared she is lost with all on board.

A lumber fire at Burlington, Vt., caused \$300,000 loss and the death of W. L. Millington, a watchman, 65 years old, who fell into the flames.

Miss Anna, invalid daughter of Dr. Miller, superintendent of the Illinois Asylum for Feeble Minded Children at Lincoln, was burned to death by her clothes taking fire.

Charles Denby, Jr., secretary of our legation at Peking, China, and son of Minister Denby, was married at Evansville, Ind., last night to Miss Martha Orr. They start for China at once.

A Dishonest Broker Convicted.
NEW YORK, March 20.—David L. Kellam, a broker who has been on trial before Recorder Goff in Part III of the general sessions for forgery, was adjudged guilty by a jury after three hours deliberation. The complainant was Henry E. Simmons, who gave to Kellam three notes of \$5,000 each to buy whiskey and put it in bond. Instead of buying the whiskey Kellam used the money for his own purposes. The jury recommended mercy. Kellam will be sentenced on Friday.

Massachusetts Manufacturers Fined.
FALL RIVER, March 20.—In the Second Bristol district court the Westamco mill officials were convicted in the two cases of violation of the fifty-eight hour law in employing two miners more than fifty-eight hours in a week and fined \$100 in one case and \$55 in another. An appeal was taken. Officials of the Union mills pleaded guilty in five cases to the charge of violation of the fifty-eight hour law. The corporation was fined \$100 in one case, \$55 in another, and three cases were filed.

Determined Marshal de Campos.
MADRID, March 20.—General Martinez de Campos, captain general of Madrid, summoned the officers of the Madrid garrison to him and said to them: "If there is any further rioting on the part of officers of this garrison they will have to meet me as an opponent." Later he received a deputation of journalists, to whom he said: "If you make any further attacks upon the army which include a renewal of the recent rioting you will undoubtedly be shot."

Sent Up for Carrying Concealed Weapons.
WASHINGTON, March 20.—J. O. Wheeler and Ira Greenhouse, who came here from West Virginia to negotiate with two green goods men, A. P. Hill and J. R. Hickman, were sentenced to six months' imprisonment for carrying concealed weapons. Hickman also received six months for the same offense, but Hill was acquitted. Judge Miller severely rebuked the jury for its verdict, and ordered Hill and Hickman to be remanded for trial.

Li Hung Chang in Japan.
SHIMONOSEKI, March 20.—Viceroy Li Hung Chang and his suite arrived here yesterday in order to negotiate for peace between China and Japan. The envoys from the Japanese foreign office immediately visited the steamer conveying the Chinese viceroy, and later Li Hung Chang, accompanied by Mr. John W. Foster, the American adviser of China, visited the Japanese minister of foreign affairs, M. Mutsu Munemitsu.

A ROYAL BETROTHAL.

The Duke of Aosta and Princess Helene of Orleans Exchange Rings.
PARIS, March 20.—The betrothal of the Duke of Aosta and Princess Helene was conducted with the utmost ceremony. Owing to the recent death of the Count de Paris, all present were attired in deep mourning. The ceremony of betrothal was preceded by a walk in the park, after which all assembled in the salon of the Chateau Chantilly. The princesses alone were seated.

The Duke of Aosta entered the salon and approached the Countess of Paris, the mother of Princess Helene, and said that he had the happiness to believe that he had won Princess Helene's heart, and that his wishes would be crowned if the countess would consent to their marriage. King Humbert's consent, he added, had already been obtained. The countess replied that she was happy to confide her daughter's happiness to the care of a prince whom she personally esteemed and whose august house was already connected by marriage with the house of France.

The duke then kissed the hand of the countess, and afterward kissed Princess Helene's hand and led her to an embrasure of a window, where they exchanged rings. The duke and the princess had been previously engaged, but it was thought due to the dignity of both houses that a formal demand be made for Princess Helene's hand. The acceptance of the proposal was immediately telegraphed to the Italian embassy in Paris.

It is stated that the wedding will be celebrated at Turin in April, and that the ceremony will probably take place in the Della Cisterna palace.

Off for Liberia.
SAVANNAH, March 20.—The Danish steamer Horsa is now well out on the Atlantic with her cargo of 197 negroes, ranging from the infant in arms to old men. The trip down the Savannah river was made with songs of gladness from the decks of the steamer and cheers from crowds of negroes on many of the wharves. It is believed to be the best equipped party that has ever sailed for Africa. They will endeavor to get about 3,000 acres of land together and organize a town government of their own. This is expected to be an intimation of an extensive Liberia case among the negroes all over the south.

An Attili for De Witt.
JAMESTOWN, N. Y., March 20.—The skulls of the two victims of the Bushmurder were examined yesterday, and it was found that the bark posters' spud owned by Claude De Witt, and which led to his arrest, because it was found to fit the indentations in the skull of the Shearman. He also fitted exactly into every clearly defined cut in the skulls of both women. A point, however, has been discovered in the prisoner's favor in the fact that the books of the Jamestown Desk company show that he was at work all day on Dec. 15, when the murder was committed.

A Brutal Captain Arrested.
BALTIMORE, March 20.—Captain Jefferson Meares, of the oyster schooner General Hancock, has been arrested charged with the brutal treatment of Edward Merrill, a member of his crew. The boy was stripped of his clothing when the wind was blowing a gale and the mercury was nearly down to zero, his wrists were crossed and tied firmly together, and he was thus triced up to the rigging and severely whipped. When cut down his thumbs were frozen. The United States authorities are looking for the man who assisted the captain in his brutalities.

To Advance the Price of Window Glass.
PITTSBURGH, March 20.—The combination of the window glass interests of this country is now an assured fact. At a meeting of manufacturers in this city the National Association of Window Glass Manufacturers was formed, which is designed to regulate the production, the price of the production and the wages of the workmen. The capital represented in the association is estimated at \$25,000,000, and the aggregate yearly output at from 6,000,000 to 7,000,000 boxes. A substantial advance in the price of all grades of window glass will go into effect.

Lord Rosebery's Ill Health.
LONDON, March 20.—The Times says it is officially informed that Prime Minister Rosebery's convalescence is much retarded by lack of sleep. Even a change of air from London to the country has produced little effect in this respect, and he is quite unable to attend to any but the most urgent business. Editorially The Times says the gravity of the case must be apparent to every one. The official announcement that Lord Rosebery is only able to attend to the most urgent business shows the necessity of absolute rest.

Another Chance for Local Option.
TRENTON, March 20.—The senate reconsidered the vote by which Senator Rogers' borough local option bill was beaten Tuesday night and the bill is again on the calendar. The house and senate in joint session to elect commissioners of needs elected among others Miss Mary V. Steele, of Somerville, who becomes the first woman in the state to hold the position. Miss Steele is a daughter of ex-congressman Steele.

The Kind that Cures

and we think you will agree with us when you hear his story.
For 10 years Rheumatism had tortured him. Arms and legs all out of shape; and for two years was fed with a spoon like a baby. To walk was simply an impossibility. His flesh left him; his weight falling from 155 to 75 pounds. It was Rheumatism to be sure; but it was Impurity of the Blood all the same. As a climax, Eczema appeared; some of the impurities thus forcing their way to the surface. For this he took DANA'S, knowing its reputation as a blood purifier. The Rheumatism his physician assured him was incurable, what was the result? Not only did the Eczema leave him, but "I can now walk without the aid of crutches or cane."

See that you get DANA'S.
