Evening Herald

THURSDAY, MARCH 21, 1906.

GRESHAM, do your duty and all will be forgiven.

With Cuba and Hawaii as states in the American Union, we would all be happy.

The great need of this country just now is a Secretary of State like James G. Blaine.

SPRING arrived on schedule time. The blue birds and tramps are due at any time now.

The new silver party appears to have gone off somewhere for the purpose of avoiding the public gaze.

One of the best things to be said of the "new woman" is that she doesn't name her baby Grover Cleveland.

If the new silver party isn't careful, the people will forget all about it before it gets itself fully organized.

If we are to have good times we must all help to make them by stop grumbling and getting down to business.

The late Congress created the largest demand for chloride of lime in politics that has been known since the war.

The police shake-up in New York has put the "finest" to blush. Byrnes, McLaughlin and Williams, the idols, must go.

THAT gossip about an extra session will not excite anybody. The country will have Congress off its hands until December 2.

SPAIN is probably presuming upon the fact that we have an Administration which tamely submits to all kinds of foreign insolence.

CLEVELAND surpasses all former Presidents in the matter of taking vacations, and letting his office run itself while he plays the part of a sportsman.

The Administration that caused the American flag to be hauled down in Hawaii is not likely to deal very vigorously with Spain for firing upon it.

WHEN China comes to pay that big indemnity to Japan, there will certainly be an increased demand for silver, to the advantage of the United States.

In the little State of Delaware the Republicans are going through the farce of trying to elect a United States Senator. It is time the baby play was over.

The first Governor of Utah ought to and may possibly be our late townsman, Judge George W. Barche. He stands high in Republican councils of the forthcoming new state.

A WAR with Spain just now would be a god-send to the Cleveland Administration. It would make the American people forget all about the stupendous blunders made during the past two years.

CHINA has suffered more than defeat in this war. The fact has been established that it can not fight and this can hardly be said of any other nation. It seems to be an example of the dotage of an ancient race and civilization.

The recent discovery of a rich gold mine in California is encouraging, and there is good reason to believe that many more will be found, now that the prospectors have quit looking for silver and gone to searching for the better metal which has been neglected ever since the carbonate discoveries in Colorado.

A MAGAZINE article says that the American negro dialect, as printed in stories and songs, is in reality the lingo of the poor Southern white trash. There is some truth in this, but it is entirely true that the Yankee dialect found in British stories is purely a British invention. The real Yankee talk escapes the English powers of apprehension.

MEXICO AND GUATEMALA

The Controversy Discussed by Their Ministers.

NEITHER ANTICIPATE A CONFLICT.

Senor Romero Declares That Mexico Will Not Ask Any Unreasonable Indemnity, but Thinks She Should Insist Upon Her Demand for an Apology.

WASHINGTON, March 21.—The statement was published in a local paper here that the Mexican congress would declare war on Guatemala as soon as the congress assembled next month, and a long account of the reasons therefor was given.

It is not true that Guatemala authorities invaded Mexican territory, for the simple reason that we do not like to offend any other nation. It is not true that the responsibility of the delay in the survey of the boundary line rests upon Guatemala, because the Guatemalan boundary commission of engineers has worked always ahead of the Mexican commission during the last eight years.

Senor Romero, the Mexican minister, made a careful and detailed statement concerning the Guatemalan-Mexican dispute, the substance of which is contained in the concluding paragraphs:

"The pending question between Mexico and Guatemala is a very plain one. Each country claims that under the de facto line existing before the treaty of 1852 she was in possession of the disputed territory, and both agree that it belongs to Mexico under the line marked by the treaty. As the treaty line is paramount, Mexico considered the action of Guatemala in sending an armed force to destroy the log camps established there by the Mexicans, who were cutting wood under the grants of the Mexican government, as an unwarranted invasion of her territory, and has asked Guatemala to apologize for it, and to pay an indemnity to the victims of the outrage. If Guatemala wishes to settle the question it is for her to make amends for her conduct. Mexico will not ask any unreasonable indemnity."

Senor Romero said he was sure that his government would not be willing to submit to arbitration the amount to be paid for damages, and that he did not see how Mexico could recede from her demand for an apology.

As for the action of the Mexican congress on the question, Senor Romero said that it would not become him to anticipate it. He thought neither his country nor his government desire a war with Guatemala, as they are fully conscious of its dangers, drawbacks and disadvantages, and therefore he hopes that the negotiations which are now being conducted in the City of Mexico will end in a friendly settlement of the difficulty. He added that he had heard nothing recently which would induce him to believe that there was now any greater danger of a rupture than there has been from the beginning of the controversy.

Hatching a Striking Object Lesson.

CLEVELAND, March 21.—A plan is being perfected among unemployed workmen to form a regiment of 1,000, march to the city hall and demand of the director of public works that he give them employment. If he says he is not able to do so they propose marching in a body to the police court and request the judge to send them to the workhouse, that they may have work, food, clothing and lodging. If the judge refuses they declare that they will deliberately violate some city ordinance, in order to be arrested and sent to the workhouse, probably by tramping on the grass in the public square or taking possession of a freight train. The purpose is to give the public a striking object lesson.

Testimony of an Ex-Turkish Soldier.

LONDON, March 21.—The correspondent in Armenia of The Daily News sends to that paper a story told by a Turkish soldier who took part in the Sassoon outrages, and who has since quitted the army and fled across the Russian border. His story confirms the worst accounts of the outrages. He tells how the Turks sent the Kurds to do the rough work of burning the Armenian villages and murdering the inhabitants. It was Turks, he adds, who set off the fugitives as they were trying to escape.

Vigilantes Hold Up a Town.

FRENCHTOWN, Ind., March 21.—The town of Frenchtown was held up by a crowd wanting Mable Eiler, a saloonkeeper, who, it is claimed, brutally whipped his two daughters, aged 12 and 17, respectively, because they had joined churches and had assisted in circulating a petition in favor of the celebration of the Nicholson bill passed by the last legislature. The officers and cooler citizens controlled the crowd, but Eiler is still considered in danger of whipping or lynching.

Celebrating Neal Dow's Birthday.

PORTLAND, Me., March 21.—General Neal Dow, the father of the Maine prohibition law, celebrated his 91st birthday yesterday. He received hundreds of congratulatory messages from prominent temperance workers of this country and England and was called upon by many of his admirers in this city, who declare that they found him looking as well and hearty as he did ten years ago.

Small Wages for Puddlers.

HARRISBURG, March 21.—The Lechelt Rolling Mill company, issued a notice that a reduction of 10 per cent will be made on April 1 in the wages of all its employees, 260 in number. Under this reduction the puddlers will get but \$2.50 per ton.

To Challenge Spanish Editors.

MADRID, March 21.—The officers of the garrison drew lots in order to decide which of them should demand satisfaction from the editors and authors of the recent published utterances deemed to be insulting to the Spanish army.

HE WORKED TOO HARD.

How a Young Girl Was Broken Down.

Should Not Have Been Allowed to Thus Injure Herself.

But of Course the Best Thing Was Done Under the Circumstances.

Perhaps you think you are not working too hard, but if you feel weak, nervous, tired, fretful, if you have dull-feeling head, sleeplessness, are easily disturbed or excited, you are overtaxing your nerve strength. They are sure symptoms of exhausted nerve power.

Other symptoms soon follow, such as dizziness, trembling, palpitation, dyspepsia, kidney and liver disease, poor blood and cold extremities. They lead to prostration, paralysis, insanity or premature death. Miss Blanche Atwood, of Stowe, Vt., got into just this condition. Her mother, Mrs. S. G. Atwood, writes as follows about her wonderful cure:

"About a year ago, my daughter, Blanche, from too close application to study, became worn out. Her head was all confused, and at times she was almost crazy. She was terribly nervous and did not sleep well at all.

"She was in a frightful condition, and we worried constantly about her. We were obliged to take her from school, for she was not able to attend. She was completely used up and good for nothing.

BLANCHE ATWOOD.

"A friend who had been cured by Dr. Greene's Nervura blood and nerve remedy, advised us to try it. She commenced using it and almost immediately began to improve. Her nerves grew strong, she slept well and her head became clear. She was soon entirely cured of all her troubles and was in perfect health. The medicine benefited her general health also, as she was much better and stronger than before. I recommend Dr. Greene's Nervura blood and nerve remedy to everybody.

If you have overworked in any way and weakened your nerves, or injured your health, you can get well by taking this wonderful medicine. There are thousands of people who are in just this condition. They are not sick with any particular disease, but they are out of order, have weak nerves and tired bodies. They do not eat or sleep well, wake tired mornings, have lost snap and energy, and work becomes an effort. Such people need Dr. Greene's Nervura blood and nerve remedy. It gives health and strength. It should, by all means, be used at this season, for it is the best of all spring medicines.

It is not a patent medicine, but the prescription of the most successful living specialist in curing nervous and chronic diseases. Dr. Greene, of 35 West 14th St., New York City. He has the largest practice in the world, and this grand medical discovery is the result of his vast experience. The great reputation of Dr. Greene is a guarantee that his medicine will cure, and the fact that he can be consulted by anyone, at any time, free of charge, personally or by letter, gives absolute assurance of the beneficial action of this wonderful medicine.

A Guardian of Mrs. "Diamond" Johnson.

NORWICH, Conn., March 21.—Dr. Patrick Cassidy was yesterday appointed conservator of the property of Mrs. "Diamond" Johnson, as the result of proceedings instituted by the latter's husband, Mr. Johnson, who alleged that his wife had given diamonds of great value to her coachman, and had otherwise shown herself incapable of managing her affairs. Mrs. Johnson anticipated the appointment of the conservator and disappeared from the city, and it is believed she has left the state. She took with her \$13,000 in bank notes and \$7,000 in bonds.

Notorious Crooks Sentenced.

HOLLIDAYSBURG, Pa., March 21.—Four notorious offenders were sentenced by Judge Bell in the Western penitentiary in the Blair county courts. Thomas Duke, who robbed the Altoona city treasurer of \$5,000 in bonds, was given eight years. "Thomas" Jasper, was given four years and repudiated son of the famous brother, Joseph Jasper, seven years; James Tubin, highway robber and all round crook, four years, and Cornelius Nagle, burglar, three years.

Governor Marvel Decidedly Better.

LAUREL, Del., March 21.—Governor Marvel's physicians issue a statement saying that the governor is decidedly better. "Having a chronic heart difficulty and an attack of acute nephritis acting him he was at one time a very sick man, but now the acute stage having passed, and with a vigorous constitution to assist him, we see no reason why he will not soon fully recover his average state of health."

Ryan Easily Defeats Tracey.

CHICAGO, March 21.—Tommy Ryan, of Chicago, had easy work with Tom Tracey, of St. Louis, last night. No decision was rendered, chiefly because the managers of the affair were apprehensive of police interference with the Choynski-Credon fight tonight if the affair was carried to the extreme. But for all that Tracey was badly whipped.

Death of a Retired Manufacturer.

BALTIMORE, March 21.—Henry William Elliott, a retired iron manufacturer, died at his home in this city on Saturday night from the family which founded Elliott City, Md. Elliott established in 1858 the Elliott iron furnaces and foundry. He continued in business until 1893, when he retired and the plant was shipped to Philadelphia.

PENNSYLVANIA LEGISLATURE.

State Custodian Bill Goes Through the House on Final Passage.

HARRISBURG, March 21.—The bill establishing a superior court for the relief of the supreme court passed second reading in the house yesterday, after much discussion. The state custodian bill passed finally only by seventeen votes in the negative. The measure now goes to the senate for concurrence in the amendments changing the title of the office from "custodian" to "superintendent." The administration is behind the bill because, it is claimed, it will save the state \$20,000 a year in the purchase of supplies for the departments. The bill legislates out of office Major John Lockhart, of Philadelphia, superintendent of public buildings and grounds. It is believed that simultaneous with his approval of the bill Governor Hastings will appoint Major John C. Delaney, of this city, to the position which it creates.

In the senate these bills passed finally: To remove the limitation in the amount to be paid for animals killed by order of the state to prevent the spread of contagious diseases among cattle; providing for the opening, improvement, enlargement, use, care and protection of school and other grounds for public park and recreation purposes in cities and boroughs by the action of city and borough authorities, corporations, societies, associations or individuals; to enlarge the control of the mother over her minor children.

Among the nominations sent to the senate by the governor were these: J. H. McClelland, Pittsburg, to be a member of the state board of health (reappointed); John Fulton, civil engineer, Johnstown, in place of Howard Murphy; Dr. August Niles, of Wellsboro, to be a member of the board of medical examiners of the State Eclectic society.

Decided Against Artist Whistler.

PARIS, March 21.—The somewhat famous case of Sir William Eden against James McN. Whistler, the well known artist and author of "The Gentle Art of Making Enemies," was decided by the court here yesterday against the artist. The action was brought by Sir William to compel Mr. Whistler to deliver a portrait he had painted of Lady Eden and to pay £40 damages for delaying the delivery. The court commanded Mr. Whistler to restore the picture, the face of which had been painted out; to restore Sir William Eden's check for £150, with 5 per cent. interest, and pay 1,000 francs damages and the costs of the action.

Changes in the Delaware Deadlock.

DOVER, Del., March 21.—The long-expected break in the contest for United States senator came yesterday, but did not result in the election of a senator. Five ballots were taken. The Addeles men and the Massey men remained firm and voted solidly for their respective candidates. All the Higgins men except Mr. Wilson went to Edward G. Bradford, of Wilmington, on the first and second ballots, and on the third and fourth ballots went to Dr. Hiram R. Burton, of Lewes. On the fifth ballot all of the Higgins men went back to Higgins and he received seven votes.

He states that with proper medical treatment the child might have recovered. J. R. Hatton and wife, the Christian scientists, who are charged with manslaughter in this case, are out on bail of \$1,000 each.

INDICTED FOR MURDER.

Twenty-eight New Orleans Strike Rioters Must Stand Trial.

NEW ORLEANS, March 21.—The grand jury came into the criminal district court, and after the usual formalities the foreman presented fifteen indictments charging twenty-eight men with murder committed on last Tuesday morning in the levee troubles. Williams, Thomas Ryan, John Pendergast, William Nelson, Dave Williams, James, alias "Red" Hawkins, Thomas, alias "Stuttering" Fay, Jim Ferrier, Robert Kehoe, Nennin, alias "Meyer" Lightly, Joe Casey, James O'Brien, Martin Owens and Edwin McCue, for the murder of John Payne.

Most of the men indicted have been under surveillance for several days, and it was an easy matter to locate them as soon as the capias were issued. Ten or twelve surrendered at once on learning of the indictments, a few more were in jail awaiting a preliminary hearing and the remainder were arrested.

A Tennessee Boodle Sensation.

NASHVILLE, March 21.—A sensation was caused by the publication of the testimony of W. H. Mitchell before the committee investigating alleged charges in connection with the construction of a new penitentiary. The witness had heretofore testified that the West Nashville Land company had paid him \$2,000 commissions when the state had bought the company's property for a farm, and on being again examined on Tuesday testified that of this sum he had to Adjutant General John A. Fife \$500, and to G. C. Estill, president of the board of railroad tax assessors, \$500. Yesterday these two officials resigned and their resignations were accepted by Governor Turney.
