ONE of the greatest curses of this coan try is the exorbitant tribute which trusts and combinations levy on producer and consumer alike.

WHECK a railway and retire on your riches. That seems to be a favorite maxim with some managers of American railway systems.

A BILLION-DOLLAR Congress is an evil of Itself, but when it acts in conjunction with a pleayune Administration and a depleted Treasury the burden is doubly wearlsome.

This is no time for strikes of any kind. It is a time for employers and wageearners alike to pull together with a long pull and a strong pull for a complete restoration of confidence and prosperity.

REPORTS of improving business in Europe in consequence of the new American Tariff bill indicate that Professor Wilson may yet rattle down the ages as a man whose statesmanship benefited the industries of all lands but his own.

THE London "Statist" says that if China could be opened up the demand for silver would steadily increase and the value of the metal necessarily rise. It is quite possible that Japan is doing more to solve the bimetallic problem than any other nation.

It is a beautiful spirit of martyrdom States, has been appointed as the successor which some of the Royalist women of at Constantinople of Prince von Radolin. Hawaii are exhibiting. While their liege lords are paying the penalty of their treason by imprisonment, the women purpose doing penance by wearing striped gowns and hats.

THE report that Oscar Wilde and the Marquis of Queensbury had gone to Monte Carlo to settle their quarrel by a duel is unfortunately incorrect. We say unfortunately, because the spectacle of Wilde stabbing Queensbury with an epigram, while the latter deftly retorted They were pursued by cossaeks, and a regular fight followed. The result was a deupper cuts so clearly described in the Queensbury "rules," would have been an pwexhibitating treat for the entire Englishspeaking world.

It will certainly be palpable to any ordinary reader that if a ship is fast enough to run away from a torpedo boat she is not likely to be struck by a torpedo. Good! THE Allianca outrage serves the useful purpose of directing public attention to the Cuban crisis. Ordinarily the revolutionary outbreaks in the island escape sobservation. These movements have been periodical since the close of the disastrous uprising of the patriot war, and they have seldom been anything more serious than momentary flurries. Americans have fallen into the habit of regarding them as sporadic outbursts of revolutionary feeling which required for a brief period unusual precautions in the enforcement of neutrality obligations very much as the annual outbreaks of yellow fever have rendered necessary rigorous meascares of quarantine. The frequency and fulfilty of civil disturbance in the central and eastern provinces of the island have predisposed indifferent spectators to look upon the Cuban cause with synicism and contempt. There has been a lack of faith in the earnestness and sincerity of the revolutionary leaders. There has been a popular conviction that Spain would not give up the last stronghold remaining from itsonce magnificent empire in Amer-Ica without a tremendous effort to retain it, and consequently that the insurrections in the island were doomed to failure.

From LaGrippe.

now Dr. Miles' Nervine Brought One of Kentucky's Foremost Business Men Back to Health.

O DISEASE has ever presented so many peculiarities, developed so many aggravating symptoms and baffled so many physicians as LaGrippe. No disease leaves its victims so debilitated, useless, sleepless, nerveless, as LaGrippe. It is a disease of the nerves, it uses up the tissue, the vitality, the life-giving nerve force that feeds the brain.

There is one remedy that will replace this worn-out tissue; that will renew this lost vitality and restore health. Read what Mr. D. W. Hilton, state gent of the Mutual Life Insurance Co., of Kentucky, one of the best known france men in the south, and whose portrait appears above, says about how Miles' Nervine Restored him to health when all else had failed.

in 1889 and 90 I had two severe attacks of LaGrippe, about eight intervening between them, the last one confining me to my bed for or months and attacking my nervous system, with such severity that my life was despaired of. I had not slept for more than two months except by the use of narcotics that stupefied me, but gave me no rest. For more than eight long weeks I was only conscious of intense mental weakness, agon! bodily pain and the fact that I was hourly growing weaker.

When in this condition, it seemed like a providential circumstance that learned of Dr. Miles' Restorative Nervine, for in two days after I commenced using it, I began to improve and in one month's time I was virtually cured, and very much to the surprise of everybody who knew of my condition; for none of them believed I would ever recover. I have been in excellent health since and have recommended your remedies to many of my friends, not one

f whom has failed to thank me for doing so, when I have met them again.
But the best remains to be told. Mrs. Hilton had suffered with severe ervous troubles for thirteen years and had been treated by several physihas, who stand high in their profession, without any perceptible improveout. Seeing how the Nervine had so effectually cured me, she commeaced ing it and is now in excellent health. We never fail to recommend it." ... LOUISVILLE Jan. 22, 1895. D. W. HILTON.

Diamond Cutters Subject to the Foreign Contract Law.

STATEMENT OF ONE OF THE MEN.

He, with a Dozen Others, Was Engaged it Antwerp to Work in Cincinnati-Prob ably a Hundred and Twenty-five Other Diamond Cutters Will be Beturned.

NEW YORK, March 29.-Not for year have the Eilis Island immigration author ities had such a crowd of immigrants to deal with as they had yesterday. Aside from the 135 detained diamond cutters from the Majestic, thirteen of the same craft were landed from the Westernland, Red Star line, and held. The Majestic's lot was the largest number ever detaine at the island from one vessel. The diamon cutters were set apart in a section by themselves, and Supervising Inspector J J. Quinlan and his staff busied themselve examining the men individually and pre-paring evidence to present to the board of special inquiry, when the detained men were taken before that body.

The thirteen from the Westernland were the first to be examined. It did not take long to dispose of their cases, as the fate of all was decided on the affidavit of one of their number. He was Francis Boesch In his affidavit he set forth that he, with the twelve others, were engaged in Ant werp by the diamond cutting firm of Colt erman & Heinrich to work for their branel establishment in Cincinnati. This branch of the firm is styled Colterman, Heinrich, Keck & Co. He said they were to receive 100 franca per week, and their passage was paid to this city, and they were to be trans-ported on to Cincinnati by the firm.

He furthermore stated that when the vessel reached quarantine on Wednesday evening he was handed a letter giving him instruction to give no information to the immigration authorities as to the true na ture of his business here, but to insist tha he was a tourist. Upon this testimony th board unanimously decided to exclud-

Under the law the importing firm is lia ble to a fine of \$1,000 in the case of each, o \$13,000 for the imported party. Commis-sioner Senner said he could not state as yet whether or not the case against the firm would be pushed.

The cases of the Majestic's passenger

were then taken up, and when the board concluded its labors for the day forty had been barred, twenty diamond cutters as contract laborers and twenty others as paupers liable to become public charges.

Denies the Foreign Contract.

CINCINNATI, March 29.-Keck & Co. of this city, received word that diamond cutters en route to their works here were held in New York. Mr. Keck says Franz Van Reeth, who accompanied the diamond cutters, is to be a member of their company, and that he is a wealthy resi-dent of Antwerp. Mr. Keck admits that his firm recently put in machinery for dia mond cutting, and that it expects to employ skilled cutters, but he denies that it has made contracts for such labor abroad Mr. Keck's attorney declares the firm has not made either verbal or written con tracts for foreign labor, and any such affi davits that may have been made in New York are false.
