When such great physicians as Willard H. Morse, M. D. of Westfield, N. J. and Dr. Robt. W. Lance, of So. Woodbury, Vt., state out of their wide experience that it will surely cure, you can use it with perfect confidence.

When statesmen of national reputa-tion like Hon. ex Speaker Charles J. Noyes, of the Massachusetts Legislature, and Hon. John R. Prescott, of the Maine Legislature, tell you to use it because it curred them, you can use it with absolute certainty of beneficial results.

Great Britain's Claim for Indemnity a Just One. UNCLE SAM WILL NOT INTERFERE. Arranging for the Framing of a New Treaty vith Great Britain Concerning Behring Sea Seizures-Necessity for Action to Pro-

tect the Seals from Extermination. WASHINGTON, March 23.-The cabinot meeting yesterday lasted but two hours, everybody being present except Secretary Carlisle, who was in New York. The session is said to have been uneventful, thus disappointing the expectations of those who looked for some decided aggressive action in foreign affairs. It is also said that there was an entire absence of friction among the members, although the principal subjects under discussion, relating to the various complications into which we have become involved with certain foreign countries, were well calcu-lated to exhibit divergence of individual

It is presumed that the attitude of Great Britain towards Venezuela and Nicaragua was canvassed, but as far as can be gath-ered the secretary of state has no new matter touching this to impart, and it was not believed to be necessary to take any posi-tive action in the absence of an explicit statement of the purposes of Great Britain. As far as the Nicaraguan matter is concerned it is not believed that our govern ment is disposed to take issue with Great Britain as to her right to demand an in-demnity for the unjust treatment of her consular agent and eltizons, inasmuch as the United States has already and repeatedly gone on record as insisting on its right in such cases to secure reparation for improper treatment of its citizens.

The only point upon which there can be a question is as to the method of collect ing the indemnity, but there is reason to believe that in the view of the cabinet the subject need cause no real trouble, as Nicaragua doubtless will agree to mee reasonable demands from Great Britain when it is made clear to her by our do partment of state that she cannot other wise rely upon the moral support of the United States, which might otherwise be disposed to use its good offices to secure an abatement of the amount of the in demnity if the principle of an indomnity is conceded.

In view of the more weighty matters now engaging the attention of the ad-ministration it is stated that foreign ministers in Washington are likely to be, at least for the present, left undisturbed in their relations with our government. No answer, beyond a purely prefunctory one acknowledging the receipt of our com-munication and promising to make in-vestigation, has been returned to Spain to our domand in the Allianca affair, and while under ordinary conditions this might be resented by our government, a dis-position was shown by the cabinet to make all due allowance for the fact that, as a result of the overturning of the Spanish cabinet, the subordinates there dare not do anything to compromise the incoming cabinet

Preliminaries are being arranged for the framing of a new treaty between the United States and Great Britain concern-ing Behring sea seizures. The negotiations will be carried on in Washington. Sir Charles Tupper, minister of marine and fisheries for Canada, and other leading statesmen of the dominion, including probably Minister Foster, will come here to co-operate with Sir Julian Pauncefote the British ambassador, concerning the terms of the treaty. The question of fix-ing the date for the meeting is now under consideration. The projected treaty is rendered neces

sary by the inaction of congress on the Behring sea seizures claims. The original claims, which, with interest, amounted to \$750,000, were scaled down to \$425,000. President veland advised payment in o congress, but an amend-out the president's recomhis mess

His Dying Statement Discredited. BUFFALO, March 23. - The police are now reasonably certain that the Halliday mys-tery was a case of suicide. Halliday declared when dying that he had been as saulted by an unknown man. It has been shown that Hall'day died with lies on his lips in regard to his bank account and his whereabouts before the tragedy, and the police are convinced that the whole of his ante mortem statement was a fabrication
