ATTENDED BY ROYAL PHYSICIANS.

His Assailant Will Probably be Tried by Court Martial for Treason, and May Lose His Life for His Act of Folly-Peace Nogotistions May be Broken Off.

Konz, Japan, March 26. - Li Hung Dhang is making good progress toward recovery from the effects of the builet wound in his face, inflicted by Koyama Rokunosuki. The wound has developed no dangerous symptoms. The would be assassin is reported to be a lunatic. He has a criminal record, and has served a erns of imprisonment.

Li Hung Chang's wound is not dangerons, except as complications may develop. It is in the fleshy part of the face, but for-tunately no part of the skull has been fractured or any vital organ reached. Prince Lifs advanced age and several con-stitutional disorders which make him al-most an is well. most an invalid, however, may aggravate an otherwise harmless wound. The wound is three continucters deep. Li Hung Chang sleeps well. The conpress of Japan has sent two nurses to attend him. Letters and telegrams expressing regret and sym-pathy are pouring in from all directions. The Chinese terms are the statements of the second The Chinese have taken precontions, against a Japanese attack at Foo Chow, Amoy and Swatow. WILL PROBABLY BE SHOT.

The Jap Who Shot Li Will Doubtless be

Tried for Treason. WASHINGTON, March 26. - Officials of the Japanese legation say that the man

who shot LI Hung-Chang will be charged with treason, as the assault is not only against the person of Li Hung Chang, but also against the Japanese government. It is probable, also, that the trial will be by court martial, if the martial law existing at Hiroshima has been extended to Shimoneseki. Conviction by court martial would mean that the offender would be shot, while hanging would be the penalty If a civil court convicted him, that form of capital punishment having been substituted for decapitation in Japan. In this connection Japanese officials say the lord high executioner of "Mikado" fame never had any existence in fact.

Mrs. John W. Foster, wife of the exsecretary of state, who accompanies Li Hung Chang in an advisory capacity, has not heard from her husband concerning the shooting. She regards this as favorable, as he assured her he would use the cable freely.

Mr. Foster's last letters came from Shanghai prior to joining Li at Tientsin. Apparently Mr. Foster regarded a peaceful settlement as sure to come. The let ters speak of the care the Japanese government took to prevent a popular out-break when the first peace commission met at Kobe. So fearful was the govern-ment that the anti-peace feeling might bring out some shooting, such as that as has occurred to Li, that all school teachers were directed to teach the Japanese children that it was an essential feature of civilization to accord every respect to

Diplomats here are inclined to believe that the entire peace acgotiations may broken off by the assault on Li by afford-ing a pretext for European intervention. Li himself, however, will prevent a failure of peace negotiations if it be possible for him to do so, as the Empress Dowager has so impressed upon him the necessity of returning to China with a peace settlement that failure, it is asserted, will be folawed by his committing suicide Officials here regard it as settled that Aussia and Japan have reached an understanding, by which the former will extend her territory southward from Vladivostock, thus securing a Pacific harbor, open the year round. This has been an acquisition Russia has long sought, as it gives an eastern ocean outlet to the great Siberian railway. The understanding is regarded as so definite and settled that those diplo nats here who are concerned most with the subject say Japan is now assured of Russian support in urging heavy conces-

Colds lead to coughs, coughs to grip, pneumonia and consumption; therefore, it is all important to check a sold before it reaches the lungs. Munyon's Cold Cure will positively break a coid inside of twenty four hours if taken as soon as the cold manifests itself. When the cold reaches the lungs or bronchial tubes the Cough Cure should be used alternately every half hour with the Cold Cure. Anti-Catholics Declare That They Will Not Obey the Order of the Governor General to Restore the Parochial Schools-Premier Greenway Talks Threateningly.

WINNIPEG, Man., March 26 .- The rem edial order of the governor general in council, calling upon the government of Manitoba to restore to the Roman Catholles their parcehial or separate schools, reached this city yesterday. It was ad-dressed to the licutenant governor, and by him transmitted to the legislature, which was sitting in readiness to receive it. The legislature was crowded with an intensely earnest gathering when the imincasely earnest gathering when the important document was delivered. It was voluminous, and reviewed all the evi-dence taken ...fore the privy council of England, which body declared that the Catholics of Manitoba had a grievance, and that the governor general in council had use power and authority to grant re-dress by a remedial order. dress by a remedial order.

The tenor and language of the order leaves no opening for compromise. It is a command to Manitoba to submit, and plainly says that if the legislature does plainly says that if the legislature does not obey, the governor general, or more ac-curately speaking, the Dominion govern-ment, will enforce its authority. No defi-filte action was taken last night. After the order head, is the order had been read it was laid on the table for fur ber consideration.

That the order will be rejected may be taken for certain. Of the forty members of the legislature only four or five will vote against the rejection, these four or five being Catholics and representing purely Catholic constituencies.

Premier Greenway, being interviewed last night, said: "We earnestly desire to act with the constitution, but let all people know this trouble is not of our own mak-ing. We claim the right to make our own have, and this right we will not give up without a struggle. The governor gen-eral's order will be rejected in its entirety. A long step will then have to be made in the perilous journey upon which the gov ornment at Ottawa has set out. The Dominion parliament will then be armee

inet, which has just passed the remedial order, had appointed one of its own mem-bers, Hon. J. C. Patterson, minister of militia, to take the place of Premier Green-way. This change is believed by the Manitoba government to mean that the Do-minian authorities want a man as governor more pliable to their wishes and who will unhesitatingly carry out their man-

Manitoba has always contended that its governor should be a Manitoba citizen, and this unlooked for action has only added fury to the flames. Hugh Macdonald, son of the late distinguished Canadian pre-mier, publishes an appeal for moderation He pleads that conflict be avoided and peace restored by some form of compromise. It is the first appeal of the dead premier's son to be unheeded. The temper of the people of Manitoba is now such that only a courageous man would suggest
