CLEVELAND'S worst enemies must avknowledge that his aims are good so far as ducks are concerned, at any rare.

THERE will be wee among chiropodists if the young women of this day and generation attempt to emulate the leveliness of the Trilby foot. The Trilby foot was never incased in a tight shoe and didn't have corns.

This country is going to prosper all it can under the burdens of a Democratic tariff for the next two years, just to get in craining for a prolonged spurt on the path of advancement when the next Republican President is inaugurated.

THE American flag is an extremely beautiful object, but it commands a much greater amount of admiration sbroad now that it is backed by several hundred modern steel rifles mounted on a fleet of up-to date war ships.

Ar is an interesting reflection that the only popular act of the Cleveland Administration took place while the head of the Administration was away from Washington and devoting his mighty energies exclusively to the slaughter of ducks.

Ir Morton were a few years younger he unight be a man of destiny. His big majority and the excellent government which he is putting up for his state would talk loudly for him in the convention of 1808 If he were on the sunny side of

THE Populists are likely to split on the new party question, but that is of no consequence. Even if they were united in 1805 they could do nothing. Populism ts going to join Greenbackism, Granger Ism and the other dead and discredited follies and lunacies of the past. . .

ENGLAND'S opinion of the efficiency of torpedo boats is shown by the fact that she has built 200 of them to swarm into action with her fifty-five great battle ships and coast defenders The United States at present has but three swift torpedo bosts ready for active service, and only three are building. The disparity is striking and decidedly unsatisfac-

the earth, it is time for Spain voluntarily to loosen her grip on Cuba's throat and allow the hampered island to inhale a full breath of the bracing air of liberty and independence. But there is no evidence that Spain takes a modern view of the situation.

THE increase of the Republican votes In Georgia is simply an evidence of the drift in the same direction which is taking place all over the South. In several of the states of that section the Republicans ded the Democrats in the Congressional pell last November. No such Republi--an demonstration had taken place below Mason and Dixon's line before since the seconstruction days, when a large part of the Democracy was disfranchised and the entire party was disorganized and deoxoralized. The change was hardly due to transient causes, either. Manufactur-Eng has taken a strong foothold in Georgia as well as in most of the other states of its section, and this has driven thousands of voters in every state out of the Demoscratic ranks. Some of them have halted in the half-way house of the Populist party, but most of them have come entirely over to the Republicans. Moreover, the drift is likely to be kept up. Georgia may not be carried by the Republiristis in 1896, but the Democrats will be disposed to put it in the list of doubtful states, while the solid South is likely to the broken in several places in that year. partment.

The Manitoba Provincial Legisla ture Postpones Action

ON THE SEPARATE SCHOOL ORDER.

Meantime Protestant Ontario Upholds the Manitoba Argument, While Catholic Quebee Insists Upon Obedience to Superior Authority.

WINNIPEG, Man., March 27.-The first step in the renewed fight over parochial schools in Manitoba began in the legislature yesterday afternoon, when the first full message was presented from the Dominion government at Ottawa, ordering the Manitoba legislature to give the Catholies their rights as they existed before the abolition of the parochial schools in 1890. Mr. Martin, a French Catholic member

of the logislature, urged that the govern-ment should take immediate action, but Premier Greenway protested, saying that the message should be printed in orde that all members might know what the were dealing with. Here the matter restaand the discussion will now probably not take place till tomorrow. Meanwhile the situation grows more complicated. The Catholics say that Greenway and his followers, if they reject the order from Or-tawa, are rejecting a document ordered and signed by her majesty the queen, and such not would be equivalent to open re-bellion. They say they cannot conceive how the Daminion government could do otherwise than make the formal reques they have made, as they are bound, so far far as lay in power to take immediate action upon the decision of the highest cour and see that the grievances of her majesty! ubjects of the Roman Catholic faith in Manitoba receive redress at the earliest possible moment.

The Greenway government contends, on the other hand, that the present school law is satisfactory to many Catholics if I were not for the agitation by the priests o the church. They say that if Manitoba ! coerced into recreating a dual system dual sm, both in language and education, wil be extended to the territories as well, and thus would be perpetuated in the west the evils which have caused dissatisfaction and stagnation in the province. Among the mombers on the government side it seems to be a matter of opinion that the remedial order will be disposed of during the coming week. Premier Greenway de-nies that he will compromise the matter by introducing a bill making the schools entirely secular.

IN PROTESTANT ONTARIO. The Action of the Dominion Government Very Unpopular.

OTTAWA, March 27.- The news from Winnipeg that Premier Greenway has declared that "the governor general's order will be rejected in its entirety," while not unexpected, has created great excitement in official circles. It is admitted that the situation is pregnant with critical possibilities, and that much depends upon the action of the Dominion government. It is, of course, possible that the Manitoba legislature may shelve the question for a year, as the federal parliament has no jurisdiction till the government of the province acts, or refuses to act on the medial order. But this seems hardly likely to happen, judging from the reports of the feeling among the majority of the people of Manitoba.

The British North American act is in

many ways an elastic affair, and it will be a difficult matter for the Dominion government to decide that it has or that it has not the right to interfere in the educational legislation of the provinces. should decide to interfere it is probable that such interference would make the po-ONE of the last acts of Congress was to litical divisions of Canada coincide with take steps to publish hereafter at the to a series of appeals to the courts, the end of which can sourcely be foreseen.

So far the action of the government has resulted in stirring up a feeling in Onta-rio very hostile to itself, while in Quebec it has had a directly contrary effect. None of the party organs in Ontario dare to commit themselves to any definite state ment as to the course to be pursued to wards Manitoba, but the independent journals, without exception, cry out against any interference by the Dominion in the school affairs of the province. Their cry is "Hands off," and there is no doubt as to that being the sentiment of the great majority of Protestant Ontario.

IN CATHOLIC OFFIRE. The French Papers of That Province De-

nounce "Orangeism."

MONTREAL, March 27 .- The excitement in Quebec over the school question is non-the less real because it is in a measure MEASURED by all the progress of civili-zation and justice among the nations of known what will be the action of the Do minion government on the refusal of Man Itoba to grant remedial legislation to the Catholics, and until it is known there will be no great public outburst. The tone of the French press, however, distinctly indicates what will happen if "Orangelsm, as they term it, triumphs and the Manl tobans are permitted to disobey an order

from supreme authority.

Considerable ill feeling among the French Catholics has been created by a paper read before the Protestant Minis terial association by Rev. W. T. Graham, and whigh has been ordered to be printed in full by the association. Rev. Grahan made a bitter attack on the Jesuits, and called on all loyal citizens to unite to se cure their eviction from Canada, Graham closed his address with the declaration that the right of Manitoba to enact her own school laws must be preserved.

is a certain indication of impure and im- Discharging a watery fluid, and the burnpoverished blood. If your blood could always be rich and pure, full of the red corpuscies upon which its vitality depends, you would never be weak, or

Nervous! Bolls, pimples, scrofula, salt rheum, would never trouble you. But our mode of living, abut in all winter in poorly ventilated homes and shops, depletes the blood and there is loss of appetite, and weakness. Hood's Sarsaparilla is the standard remedy for this condition. It purifies, vitalizes and enriches the blood, overcomes that tired feeling, builds up the nerves and gives perfect health. Read this:

Our daughter, Blanche, when four years of age had a humor break out on her hands and face, which our physician pronounced eczema. If the cold air reached her face or hands they would swell up, look almost purple, and headed blisters would form and break,

ing and itching would drive her nearly wild. Unless we incased her little hands she would tear patches of skin from her face and hands. We tried many doctors and many remedies and at last gave the case up as hopeless. But our daughter Corn tried Hood's Sarsaparilla, to cure a scrofulous lump near the left breast which caused her much pain and after taking 4 bottles it disappeared. Blanche, who is now eleven, had spent seven years of suffering, so I concluded to give her Hood's Sarsaparilla. She took 5 bottles and her face is smooth and soft as a baby's, the color of a rose petal. Her hands are soft and white, where four months ago they were blue and red and calloused nearly like leather. I cannot express my gratitude by pen or mouth. It seems a miracle and our friends are surprised." Mrs. Anna L. Clark, 401 E. 4th St., Duluth, Minn.
