"Rock Me to Sleep, Mother."

The poem, "Rock Me to Sleep Mother," was written by Elizabeth Akers Allen known otherwise as "Florence Percy," known otherwise as "Florence Percy," It is a general favorite for it is a sweet little touch of home life. But there is another side to the picture. Many a mother rocks her child to sleep who can neither rest nor sleep herself. She is always tired, has an everlasting backache, is low spirited, weary, nervous and all that. Thanks be, she can be cured. Dr. Pierce's Favorite Pre-cription will do the work. There is nothing on earth like it, for the "complaints" to which the sex are liable. Once used, it is always in favor.

Dr. Pierce's Pellets are specific for biliousness, headaches, constipation, plies, and kindred allments.

"Perhaps you would not think so, but a very large proportion of diseases in New York comes from carelessness about catching cold," says Dr. Syrus Edson. "It is such a simple thing and so common that very few people, unless it is a case of pueumonia, pay any attention to a cold. New York is one of the healthiest places on the Atlantic Coast and yet there are a great many cases of marrh and consumption which have their origin in this neglect of the simplest precaution of every day life. The most sensible advice is, when you have one get rid of it as soon as possible by all means do not neglect it." Dr. Edson does not tell you how to cure a cold but we will. Take Chamberlaiu's Cough Remedy. It will relieve the imags, aid expectoration, open the secretions and soon effect a permanent cure. 25 and 50 cent bottles for sale by Gruhler Bros. GREAT BRITAIN INVESTIGATING

The Killing of a Beitleh Saltor by a Spanish Sentry Confirmed.

BALTIMORE, March #8 - At 8 o'clock o the moraling of Macch 10 a spanish sent municrously shot and killed a scannan British meanship Laurestina at badly wounded a Cuban negro at St. Jago Cuba. The British government is invetigating the matter, and complications be tween Great Britain and Spain will proably result. The Laurestina arrived a this port yesterday afternoon from St. Jago, and her officers denounce the shoot ing as a murder. They stated to an Asso thated Press representative that the sea han was John Lowe, aged 35 years, a rest dent of Lewis, who had shipped at Cardiff.

On the night of March 18 the crew wen ashere for a stroll, and walked up from St. Jago, a short distance away. The boatswain, Lowe, and another seaman were in one party, and after a walk abou the town started to return to the ship When nearly there Lowe determined to return to the town, and started back in company with a Cuban negro. En route they had to pass a Cuban fort garrisone by Spanish troops. Suddenly a sentine sprang out of the darkness as they neared the fort and in Spanish commanded then to halt. This demand was refused, and he has made a formal complaint to the British government. An investigation is to be made. The officers of the steamer state that when she left Cuba, March 20, the revolution was progressing quietly.

Ambassador Pauncefote's Views.

WASHINGTON. March 28.-Ambassador Pauncefote has received no news as to the killing of Bostswain Lowe, of the Laures tina by the Spanish soldlers at St. Jago Cuba. After reading the account of the matter given by the officers of the ship he said: "This is evidently a very outrageou ase, and will, of course, be promptly in vestigated. It is not a matter that would ome to this office at all, however, the conplaint being made directly to England. No doubt the captain of the ship will make a deposition as to the facts before the Brit ish consul. Captain Seagrove, at Balti-more, and the latter will forward it to England. I am glad to have my attention called to it, as I can make certain that all the evidence is taken."

Pertinent Counsel Upon Various Subjects of Public Interest.

So many of our townspeople have changed their places of abode, within the past two weeks, that It is a difficult matter to locate them. And the end is not yet. I believe there would be less moving around on the part of tenants if ; landlords would make their dwellings; more attractive and supply the necessary conveniences. Nine-tenths of the properties in the town that are rented are little less than "rockeries," and so long as this state of affairs exist tenants will always be on the lookout for a more convenient house. It would pay the average property owner to supply modern convenences, and where the vessel was lying to the town of thus place themselves in a position to demand higher rents and retain a much better class of tenants.

Shenandoah has never bad a first-class, complete directory of its inhabitants. Every year or two a party comes around, and they are induced to compile a directory of the town, expecting from the business men and others the necessary encouragement, which they should receive. After a short canvass they find out, through the refusal of merchants and others to The next instant the sentinel raised his advertise in or subscribe for the book, musket and fired. Lowe dropped to his that it will not pay them to carry out advertise in or subscribe for the book, their original ideas, and the result is an old directory is consulted for names and residences in order to finish the work in as limited time as possible. This is why we always get an imcomplete and unreliable directory, and the publishers are not to blame.

I understand that Editor Doyle, of the Sunday News, seriously contemplates issuing a daily paper from his office. I will wish him abundant success. Shen andoah is large enough to support two daily papers, since much smaller towns can do so, but the trouble is we have not the reading public that other towns have. If friend Doyle is in cornest about the project, he surely knows

Although opposed to Judge Pershing's re election, I am not one of those who be lieve in driving him from the Bench because of his continued illness and advanced age. During the time be has held the position of Judge he has earned the good opinion of all parties, He has been an upright and fearless Judge, and descrives better treatment at the hands of those who are demanding his retirement on account of his present illness and incapacity from his duties.

It is worth while being enterprising and Shenandoah may as well be "in the swim" as other towns. A few years ago the progressive citizens of Hazleton saw the only way out of obscurity by agitating a city charter for their growing town and at the following election succeeded in carrying the project through. Then followed the agitation of a new county movement with their new city as the county seat. In this they have also suc seeded, as the bill will pass the Legislature finally today and will then only require the signature of the Governor to make it a law.

Shenandoah, perhaps, cannot become a ounty seat, but there is no reason why it should not only be the largest and most enterprising town in the lower anthra cite coal region, but a city as well. It would make real estate boom as it never boomed before, bring a better class of people here to settle and, if anything, make the place solid and permanent.
