## IT MEANS BUSINESS.

The Board of Health Investigates  
Two Violations of Its  
Rules.

NO PENALTIES IMPOSED!

AN UNDERTAKER AND SIXTON WERE  
THE ACCUSED, BUT ACTION  
WAS SUSPENDED.

The Board Inaugurates a Movement  
Against Roaming Dogs and Hogs  
and Will Call Upon the  
Borough Council.

The Board of Health held a special meeting last night to consider violations of the rules of the board by an undertaker and a sexton in causing the burial of a body without the issuance of a permit from the board. The undertaker was William Snyder. He was in attendance at the meeting and stated that one of his employes had tried to secure a permit and failed, that upon calling at the house of President Spaulding he found the place vacant, the doctor having moved.

President Spaulding read the section of the rules applying to the case, which provides that the burial permit must be procured twenty-four hours before the time appointed for the funeral. The penalty is a fine of from \$3 to \$20. Snyder's statement of the case created a doubt in his favor, as Dr. Spaulding changed his residence on the day the employe was said to have called for the permit. After some discussion the undertaker was dismissed with a warning that under no circumstances shall a body be buried without a permit and that the undertaker alone is subject to the penalty for a violation of the rule. Mr. Snyder promised to strictly observe the rules in the future.

The case of the sexton was then taken up. The accused was George Unsrarwitz, who is the sexton of the Lithuanian cemetery. When called upon to state why he allowed an interment to be made without requiring a permit he replied that he always enforced the rules, but on the day in question he was absent from the cemetery and the man who served in his place forgot to require the production of the permit. The penalty in this case is also from \$3 to \$20, but as the sexton told a good story and showed a desire to conform to the requirements of the board he was dismissed with the admonition to see that there is no violation in the future.

President Spaulding thought some action should be taken towards ridding the borough of the numerous worthless curs. He says complaints have never been as numerous as at present. He could not account for the vicious nature of the dogs. It was possible, he said with some humor, that the hard times had prevented the dogs from getting enough to eat.

Mr. Malone said that if he had his way he would kill every dog in the town, irrespective of breed. He doubted that a valuable dog exists in the town. He then told a humorous story of an old Irishman who was High Constable of the town several years ago. The Borough Council had decided that all dogs running at large should be impounded on and after a certain date. On the day fixed the High Constable appeared with a stout cane having on one end an immense ball of lead and every dog that came his way was nailed. It is hardly necessary to state that the High Constable's misconception of the term "impounded" caused considerable excitement.

The nuisance created by hogs roaming about the streets was also discussed and it was finally decided that both the dog and hog nuisances would be brought before the Borough Council at its meeting tomorrow night. The matters are strictly within the jurisdiction of the Council, as it has control of the High Constable and has the power to create a pound for the animals.

Does your head feel as though someone was hammering it; as though a million sparks were flying out of the eyes? Have you horrible sickness of the stomach? Burdock Blood Bitters will cure you.

### Wyatt's Bill Passes.

The bill requiring safety controllers to be put on hoisting engines to prevent loss of life or limb and introduced by Representative Joseph Wyatt, of town, passed third reading in the House at Harrisburg yesterday by a unanimous vote. The bill provides that safety automatic controllers must be applied to any engine by the corporation, company, partnership, or individual owning or using said engines for hoisting from shafts, employes or other persons, and in which men are necessarily hoisted in going to or coming from their places of work, business or employment, or where life or limb may be endangered from being in the immediate vicinity of said hoisting engine or engines, in case of runaway, overthrowing or loss of control of said hoisting engine or engines, by the engineer or one in charge of them. These automatic controllers must be applied within one year after the passage of the act. Failing to comply with the provisions of this act is a misdemeanor punishable by \$300 fine or 60 days imprisonment or both.

### Feast of Good Things.

A week of fun and pleasure was inaugurated at the Frothingham last night. The purveyors are the Metropolitan Comedy Company in charge of J. E. Nugent, an experienced manager, being formerly connected with the Bennett and Monlon Opera Company. The Frothingham was filled to overflowing; and the audience was as enthusiastic as it was large. The play presented was "The Fugitive," a melo-drama that requires first-class talent for its proper interpretation. In this respect there was nothing wanting last night. The company is good and evenly balanced.—Scranton Tribune. At Ferguson's theatre for one week, commencing Monday, April 8th.

### A Breaker Falls.

The old breaker of the Wm. Penn colliery is now a thing of the past. On Monday last a gang of workmen started to tear down the structure and yesterday several of the stays were removed. At about four o'clock yesterday afternoon the remains of the structure suddenly collapsed, but fortunately no person was injured. The debris fell across the Schuylkill Traction Company's track, forcing the trolley and feed wires to the ground and delaying traffic on the line for about two hours.

### War Anniversaries.

C. & I. Policeman George Geiger recalled the fact this morning that thirty years ago today Richmond fell. Mr. Geiger has also been making comparisons and says that in skirmishes during the civil war more men were killed than have been killed up to date in the Japan-China war. Next Tuesday will be the thirtieth anniversary of the surrender of General Lee.

### Shoeman Slattery Robbed.

Burglars broke into the stable of John Slattery, in the First ward, Monday night, and stole about \$300 worth of boots and shoes. Ineffectual search has been made for the goods and thieves. The stock was the remainder of what Slattery had in his East Centre street store and was stored in the stable until arrangements could be made to send it to Philadelphia.

### Married.

Samuel R. Hoffman, of Yatesville, and Miss Margaret E. Frost, of Ellengowan, were married last evening at the parsonage of the United Evangelical church on West Cherry street by Rev. R. M. Lichtenwaller. Charles S. Lawrence was the groomsmen and Miss Mary E. Hoffman the bridesmaid.

### Removals.

Grocer Robert T. Knight has moved his place of business from South Jardin street to the place formerly occupied by Scheider, the confectioner, in the Heisenberger building, on East Centre street.

The beneficent influences of the newly cut pine are condensed and refined in Dr. Wood's Norway Pine Syrup, nature's own remedy for coughs and colds.

### ILLEGAL FISHING GOING ON

TWO MEN HAVE ALREADY MADE SEVERAL LARGE CATCHES, ALTHOUGH OUT OF SEASON.

Revival of the Weights and Measures Laws—The Lakeside Electric Railway Extension Will be Pushed to Completion.

Although the opening of the fishing season is still two weeks distant some people have already baited their hooks and trouble is likely to follow. Two parties have already been spotted and a close watch is being kept upon them. It is said that they have thus far caught one hundred and nine trout in the streams of the Catawissa Valley. The Mahanoy City Fish and Game Protective Association has taken the matter in hand and is said to have accumulated sufficient evidence to make the fish caught cost the guilty party a good round sum. Illegal fishing is to be dealt with severely this year, and it should be at times.

One of the most important bills before the State Legislature is one which provides for the re-creation of the offices of Sealers of Weights and Measures. Unfortunately the bill only affects the city and county of Philadelphia. One should be enacted to cover the whole state. The old law was wiped off the statute books in 1883 because it worked hardships upon small storekeepers and provision dealers. Under that law the sealers were paid by fees received from the storekeepers, dealers and others whose weights they examined. The sealers appointed deputies and from time to time the Deputy Sealers made the rounds and compelled those concerned to show and test their weights and measures and exacted fees whether the weights and measures were properly stamped or not. The extent to which this was carried and the opportunities given for mulcting the storekeepers led to the abolition of the offices. The imposition was so clear that even those whom the law was intended to benefit did not object to the repeal. Of late years housekeepers have been at the mercy of dealers regarding the weight or measure of the various articles of food that must be purchased for household use, and it is complaint from this source that has given rise to the movement to revive the offices. It is proposed to obviate the evils of the old system by paying each of the Sealers a salary and thus prevent the unnecessary harassing of storekeepers and provision dealers for the sake of collecting fees. The people of Shenandoah are in need of the protection which is contemplated by this bill for the people of Philadelphia. Complaints are made by housekeepers that they are often cheated by dishonest dealers who use light weights and short measures. Some of the farmers, they say, are the most bare-faced rogues. Their measures are so brazenly short that none but a hayseeder would use them. The false bottoms of the measures are fixed so close to the centers that many of the farmers blush when they dump the vegetables from them. At present there is no adequate method prescribed by law to remedy the evil, or to bring the offenders to justice.

A report has been abroad that the extension of the electric railway from Mahanoy City to Lakeside had been abandoned. The report is not true. The recent decision of the Supreme Court in the Inter-County electric railway suit has no bearing upon the rights of way of the Lakeside Electric Railway, as the consent of all parties concerned in private and other properties along the route was secured and all matters in that connection were adjusted independent of any of the suits. Hon. D. D. Phillips is now in Philadelphia and tomorrow will return with everything arranged to begin work on the extension by the latter part of this week. The road will be completed to Delano by June 1st, as previously announced, and the Lakeside end of the line will be completed by July 1st. It is also expected that upon Mr. Phillips' return a decision will be reached as to whether the Shenandoah state league base ball club will play on the old grounds, or upon new grounds to be located midway between Shenandoah and Mahanoy City, and in which the railway company will have an interest.

No need to suffer with rheumatism, lumbago, neuralgia, cramps or colic. Dr. Thomas' Electric Oil cures all such troubles, and does it quickly.

### Boards in Jail Now.

Peter Coraes was taken to the Pottsville jail yesterday afternoon by special officer Anthony Alex to await trial for defrauding Charles Paule out of a board bill amounting to \$15. He was committed in default of \$300 bail.
