SECRETARY GRESHAM is learning, to his mortification, that he belongs to a peaceat-any-price Administration.

A VIGOROUS assertion of the Monroe

doctrine, accompanied by activity in the navy yards, would tend to promote the revival of business. MR. OLNEY's opinion in the Central Pa-

cific Railroad matter will displease as many people as were pleased by bis argument in the Debs case. EX-SECRETARY WHITNEY appears to be

the only prominent Democrat whose

blood is of the kind that boils when the

American flag is fired upon. EMPEROR WILLIAM is behaving in the Bismarck matter, not only like a sensible and patriotic ruler, but also like a sagacious and practical politician.

RATES for money are advancing on both sides of the water. The improvement in business is responsible for this. The trade outlook all over the world is bright.

Col. INGERSOLL's phrase, "a storm center of misinformation," applies well just now to the part of Cuba from which the Spanish are sending news dispatches.

THE report that Cleveland has been converted to a belief in the income tax upon to assume a definite position in respect to the extent it would permit the probably signifies that he is determined not to agree with Hill even in that one of the American republics in the recent San Dominican affair, but the United respect.

SECRETARY CARLISLE IS In Kentucky, but refuses to talk on politics. He is probably afraid of being asked to explain how he came to sell bonds for 104% that that the majority of the southern repulwere worth 120.

THE increased production of wheat in the Argentine Republic is likely to keep tention to other crops from which better Costa Rica, it was now proposed to repudireturns are to be expected.

THERE is every prospect that China's treasury will be completely stripped. In addition to paying Japan a large cash war indemnity the Chinese government will now have Li Hung Chang's dector's hill to settle.

THE Monros doctrine does not establish a United States protectorate over the in dependent nations of Central and South America and never was intended to do this. Those countries must be made to understand that we will not and can not protect them from the consequences of any misconduct on their part toward European nations. All that Monroe and Secretary of State Adams meant by the declaration of 1823 was that the United States would consider an assault by any European Power on any nation of this continent an unfriendly act toward herself. This has been sufficient, heretofore, however, to save the Latin-American nations from any encroachment from the gest of the world except in a few inintrazzoen.

IT is important to observe the precise method by which ships have been con tracted for in American shippards. A Republican Congress passed an Ocean Mail bill, by which contracts were entered into with the American Line for a period of years. All the arrangements for securing the building of the new ships were made by the Harrison Administration, and the registry of the Paris and the Now York was provided for by special act. Neither would the ships have been built, mor the two English vessels transferred so the American flag, if a Republican Congress had not put a premium upon snail service by a National Line. If this had not been done, the Iuman Line would have continued to receive from the British government a large sum for the privilege of reserving the Paris and the New York for naval use in an emergency, and the St. Louis and the St. Paul would have meen built in an English shipyard under Einglish names.

Great Britain's Reply to Ambassador's Bayard's Arguments.

BRITISH RIGHTS IN VENEZUELA.

That Government Declares That the Con troversy Is One in Which Our Goverment is Not Interested-The Negotiations May Drag Along for Months.

Washington, April 4.—There is reason to believe that the British government has given our ambassador, Mr. Bayard, to unlerstand, in response to his representa tions in the Venezuelan boundary matter, and his suggestion that it be submitted to arbitration, that it must persist in regard-ing the subject as one in which only Great Britain and Venezuela are concerned. Of course the idea wa out out very diplomat cally and consteously, so as to avoid giv ing offense, as far as possible, while still making it plain that the United States ould not be regarded as having any prope nterest in the matter.

Some it stands the British government still insists upon its absolute right to occupy all of the territory to the eastward of the Schomberg line, while professing a willingness to submit to arbitration its claims to the lands lying west of that line. This was the offer made to Venezuela years ago, and it has not been modified in any respect since, notwithstanding Mr. Bayard's efforts:

It has been intimated that the United States might acquire a right to intervene in behalf of Venezuela by declaring a protectorate over that country, with the as sent of its people, and behind this sugges tion is at least one of the great European powers, who would be glad to have its re lations with the disturbed countries of South and Central America placed on a stable basis, so that it might look to some thoroughly responsible highly civilized government to insure the permanence of trade and prevent frequent revolutions. But to concede the necessity for such a protectorate as a pre-requisite to interfer ing to prevent the acquisition of Ameri ean tarritory by a European power would amount to a renunciation of the Monro doctrine by the United States, and this cannot be contemplated by the adminis-

foreign office officials are willing to dis-cuss this feature of the case with Mr. Bay-ard at length, and so the negotiations may drag along for many months unless a col-lision occurs between the British and Venezuelan forces in the disputed territory or the new Minnesota company forces an issue by beginning operations under the large concessions it has obtained from Venezuela of lands in that section.

It is apparent here that the progress of Mr. Bayard's efforts are being watched with the most intense interest by all of the diplomatic representatives of the South and Central American countries stationed in Washington, for they realize that the issue may be of vital importance to all of them in the future. They had expected that the administration would be called European powers to interfere in the affairs States was enabled to avoid the issue, owresulting in an amicable adjustment of her differences with the Dominicans.

One of these diplomatic representatives, in speaking upon this subject, remarked lies were staggering under foreign debts and were unable longer to meet their obligations. They could not meet the in-terest on these debts, much less could they pay off the principal, owing to the terrible commercial depression. Some of these the price down in the United States, and countries and defaulted on their interest our farmers will do well to turn their at- on foreign debts and in others, notably confronting these countries is whether the United States will stand by and permit the creditor nations of Europe to collect these debts by force

Meanwhile, to strengthen their claims for protection upon the United States there is in progress among the smaller and weaker republics a movement to entangle their interests with our own, so as to make is a matter of deep concern to our people should any European power attack them. The first indication of this policy was seen in the claim of San Domingo to exemption from the French demand upon her revenues, on the ground that these had all been farmed out to an American corporation, which would be ruined by compliance with the French demand. Then there is the recent concession made to an Amer-ican corporation by Venezuela, to force to United States into the Issue between er and Great Britain by motives of direct self interest, and in other countries there has been adopted a policy of farming out to syndicates certain privileges, such as the right to import tobacco and opium and the collection of customs duties.

Fatal Fall of an Elevator.

SPRINGFIELD, Mass., April 4.—The elerator at the store of the Metropolitan Fur niture company of this city fell a distance of twelve feet, carrying with it seven pa ongers, five men and two women. EVENING HERALD NONE OF OUR BUSINESS. WHY AM I SO TIRED?

Why Do I Feel So Miserable in the Spring?

It is Your Poor Condition Causing Spring Wesknesses.

The Spring a Very Critical Time, Especially if You Are Out of Order.

You always feel worse in the spring. You have lost your old-time snap and vim. Work that you used to do with ease, now tires you. You often feel dull, dispirited and without ambition. You pass more or less sleepless nights, wake mornings, tired and unrefreshed, have little or no appetite for breakfast, your head feels dull, there is a bad taste in the mouth, and your bowels are constipated. You go about your employment with a sense of weakness or weariness, and a distaste for taking hold of your work. Besides, you are nervous, irritable, and often "blue" without apparent cause.

Then look to yourself, for weak feeling is the forerunner of exhaustion. Every aleepless moment you pass at night, presages days of prostration; every hour you feel weak, nervous, languid, tired, with shattered nerves, trembling limbs. dull head, disordered stomach and irregular bowels, may be followed by weeks and months of sickness. Every day you neglect these symptoms may mean years of unutterable misery, or those terrible results, nervous prostation, heart failure, paralysis, insanity or premature death.

paralysis, insanity or premature death.

These symptoms are the warnings that you are running on the rocks of disease, and that unless you seek immediate asfety, wreck of brain, nerve and body are inevitable.

W. H. Wakefield, of Montpelier, Vt., writing on this subject says:

This wonderful restorative of brain and nerve, Dr. Greene's Nervura blood and nerve remedy, will give back to the weakened and exhausted system the trength it has lost. It will impart strength and vigor to the brain and nerves, vitalize and invigorate all the physical powers and restors you again to

strength and vigor to the brain and nerves, vitalize and invigorate all the physical powers, and restore you again to that grand degree of justy strength, of bounding pulse, and strong physical and nerve power, which, by overwork, ignorance or folly, you have exhausted.

It is not a patent medicine, but the prescription of the most successful living specialist in curing nervous and chronic diseases. Dr. Greene, of 35 West 14th St., New York City. He has the largest practice in the world, and this grand medical discovery is the result of his vast experience. The great reputation of Dr. Greene is a guarantee that his medicine will cure, and the fact that he can be consulted by anyone, at any time, free of charge, personally or by letter, gives absolute assurance of the beneficial action of this wonderful medicine.

The Telephons and Sweat Shop Bills Pass Second Rending.

HARRISBURG, April 4 .- The Grigsby bill, fixing telephone rates and pronibiting dis-crimination by telephone companies, passed cond reading yesterday in the house Speaker Walton offered a resolution de-

oring the wounding of Hon. John Faunce, and extending sympathy. The resolution was adopted by a rising vote. The Baker "sweat shop" bill went through on second reading on a special or It provides for the appointment of eight additional factory inspectors and the safety of persons employed in tenement houses where clothing, cigarettes, cigars and certain other articles are made.

The bill to provide for the incorporation of institutions of learning with the power to confer degrees in art, pure and applied sciences, philosophy, literature, law and theology, and for their supervision and regulation, excited a long debate. oill, in its original form, was endorsed by the college professors of the state, are provided that before an institution of tearning could confer degrees, etc., it must have an endowment of \$5.0,000. It was amended so as to permit colleges already in existence, with an endowment of \$100, 000, to issue degrees, and then passed see ond rending. Much time of the house was consumer

in discussing the bill to prohibit the sale of intoxicating liquors on Memorial Day, which finally passed second reading.

Indignities to an American Family. Et Paso, Tex., April 4.—E. P. Thresher of Cambridge, Mass., with his family, ar rived here from Aguas Callentes, or Hot Springs, Mexico, where they have served a term in jail. Mr. Thresher is indignant at his treatment, and proposes to make the matter one of international investiga tion. His story, which is said to be veri fled by a conductor of the Mexican Central railroad, is that he stopped at the Palace house, kept by George King. When he prepared to leave King charged him double the rate agreed upon. The guest refused to pay, and King had Thresher his wife and three children put in Jail, where they remained until Consul Dwight Furness, at Gunaguato, interfered. The mayor of the town suddenly discovered then that the whole business was a mistake, and released the Americans with most profuse apologies.

County Commissioners Consured.

WELLSBORO, Pa., April 4.—The grand jury made a report to the Tioga county court, severely consuring the county com-missioners for extravagance in the recent expenditure of \$4,100 for metallic cases and furniture for their offices. The jury says that \$500 spent as they suggest would have met all demands in the commissioners' of floes. They also criticize the manner of letting bridge contracts privately, ever that McKean county buys of the Hayes. nine concern the same sort of bridges for \$16 a running foot, which cost Ploga county an per foot. In behalf of the taxayers they demand an explanation
