Prof. L. D. Edwards, of Prestor, Idaho, says: "I was all run down, weak, nervous and irritable through overwork. I suffered from brain fatique, mental depression, etc. I be-came so weak and nervous that I tigue, mental depression, etc. could not sleep. I would arise tired, discouraged and blue. I began taking

Dr. Miles' Nervine and now everything is changed. I sleep soundly, I feel bright, active and ambitious. I can do more in one day now than I used to do in a week. For this great good I give Dr. Miles' Restorative Nervine the sole credit.

# It Cures."

Dr. Miles' Nervine is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at \$1,6 bottles for \$5, of it will be sent, propaid, on receipt of price by the Dr. Miles Medical Co., Elkbart, Ind.

The Spirit of War Runs High at a Jacksonville Meeting.

ENTHUSIASTIC DEMONSTRATION.

Stirring Addresses by Gonzalo de Quesada. Secretary of the Cuban Revolutionary Society, Ex-State Superintendent Russell, and Others-American Sympathy.

JACKSONVILLE, April 5 .- The spirit of Cuban mass meeting in behalf of the Cuban cause. The meeting was held in the Metropolitan Light Infantry armory. Cubans from far and wide were there, and on the stage were a number of prominent citizens of Jacksonville, while in the body of the audience were many ladies. The chief Cubans present were: Fernando Figueredo of Tampa, Dr. Fermin Saldes Dominguez and Gonzalo de Quesada of New York and R. J. Martinez, E. M. Delgado and J. P. Cancio of Jacksonville. John G. Cristopher, who is one of the best known business men in Florida, presided, and said that they met in the cause of freedom. He introduced Gonzalo de Quesada secretary of the Cuban Revolutionary So-

clety of New York. Quesnda lifted Ms audience into a state of enthusiasm. "I do not come here to reheave the failure of the revolution of 1868," he said. "I come to say that men of that revolution are in Cuba today with rifles in their hands. The new revolution has begun. It must end in the freedom of the island or else the belligerents and their children must go to the scaffold. Spain already has 82,000 soldiers in the island. Do you think the crown would send an army to overcome 150 bandits, which is declared to be all that is at the bottom of the disturbance?'

"If this struggle fails it will be the fault of you Americans, for why did you teach us lessons of liberty? If we do not succeed yours will be the great crime of not hav-ing given succor. But Americans will not fail us. From every hand comes aid. Dollars have been pouring in, and with these dollars rifles and bullets have been bought American public opinion is saying, 'Let Cuba in her fight have fair play. We hold the stakes."

The speaker paused here for a moment and then said impressively: "Ladies and Gentlemen, I thank you for this reception : It may be the last time I shall see you. The fortunes of my country may take me to the field. My death I may meet there, but I shall take to my country messages of encouragement and love from our friends in America." Demonstrations of wild delight greeted

Quesada's last words.

This enthusiasm was increased when a State Superintendent of Schools A. J. Russell was introduced and after a few preliminary words said: "I am greatly impressed to see so many women here to-night. Let me tell you Cubans that when God and the women of the United States are on your side hell itself cannot prevail against you. But above all I ask the blessing of Almighty God on your cause. You should ask him to aid you, and then you

should use your powder and ball." The band played "Yankee Doodle," and the meeting sent up a cheer. Fernando Figuerdo explained the situa-

Formation regulation explained the situa-tion in these words: "The old mother country, after trying to secure a loan from England and France, has failed. She says she will send 100,000 men against Cuba, but Cubans know and you know that she cannot get the money to send them. She has sent General Campos, her ablest statesman, to Cuba, and when that fails, what then?

A committee of five appointed by the chairman, and composed of Americans prominent in Florida affairs, presented resolutions, which were adopted with great enthusiasm, "sympathizing with the Cuban patriots in their desires and efforts to free Cubs from foreign control and obtain for the people of that island the right of self government, so much prized by us. and that "it is the duty of all lovers of free American institutions to express sympathy with the oppressed people of Cuba and

GREAT INDIGNATION EXPRESSED.

#### Should the Accused Murderers of the Meeks Family Escape Legal Hauging They Will Probably be Lynched by the Enraged Citizans.

CABBOLLTON, Mo., April 5.-The jury in the trial of the Taylor brothers for the murder of the Meeks family sent in word yesterday that they were unable to agree upon a verdict. Judge Rucker oradaptabilities can hope for success. Mr. T. J. Driscoll, of Pittaburg, Pa., is one of these favored few. In the Pennsylvania oil regions he is well known, and the fame dered that they be locked up, and announced that he would keep the jury locked up until tomorrow noon. If they have not agreed by that time he will disoil regions he is well known, and the fame of his ability at piping natural gas spread to Canada. He was engaged by the On-tario Gas Company, to pipe gas for Wind-sor and Walkerville, and while perform-ing this operation, which he successfully accomplished, he made the discovery of a remedy which he speaks of as follows. charge them.

There is now no doubt that the jury has been tampered with. Sidney Miller, pros-scuting attorney of Carroll county, has received a statement from Charles Dick-inson, who was on the panel from which the jury was chosen, which is very dam-aging to the defense. Dickinson swears that on the Monday night before the trial began Jacob S. Williams, cashier of the Bank of Tina, went to sim at his farm house and said that if in case he was se-lected for a juror and would stand out for acquittal there would be big money in it for him, and if he would succeed in hang-ing the investment and the model money ing the jury there would be good money in it. Williams said that he would see Dickinson says, he was approached by Richard Smith, a brother-in-law of Bar-ney Hudson, who is now on the jury, and Smith made the same proposition that had been made by Williams. Dickinson is one of the most reputable men in the county There is great indignation in Carroll ounty that a jury could be found here to

do anything but convict the Taylors, as no one has the slightest doubt of their guilt. Marshal Wilson, of Browning, says that there is the greatest indignation in Tina and Sullivan counties over the manner in which the jury is holding out. Asked if he apprehended danger from mob violence in case the jury should fail to agree he laughed and said: "Well, you cannot tell what will happen.

Bill says if he is acquitted he will return to Browning. Do you think he would?" was asked.

"Well, if he did he would last just as long as it would take us to find a rope to hang him."

Justice Martin's Suit for Slander.

NEW YORK, April 5.—Police Justice Bernard F. Martin has brought an action against Abram C. Bernheim, a member of lage, to recover \$10,000 for slander. Martin alleges that at a meeting of the Chamber of Commerce Bernheim said: "On the police bench at present is Bernard F. Martin, commonly called 'Barney,' who was formerly in the liquor business with 'Red' Leary and his wife Kate, one of the most notorious burglars in the country. His saloon was the resort of the most disreputable classes in the community.

Rainey Coke Works Close Down. CONNELLSVILLE, Pa., April 5 .- The Elm Grove and Mount Braddock plants of the Rainey coke works were closed down indefinitely yesterday, and a portion of the Rainey ovens in the Vanderbilt region have also been blown out. Officials of the Rainey company state that the trouble is caused by drunkenness among the men, who do not report for work regularly. It is believed here, however, that Rainey can not afford to grant the 16 per cent. ad vance given by the other operators, and will let his plants remain idle. This will not affect the other plants in the region.
