

"Now good digestion wait on good appetite, And health on both," says the great Shakespeare, but he did not have in mind a coated tongue or torpid liver, with all the symptoms of biliousness, so common in this country. All this, and more, can be cured by Dr. Pierce's Golden Medical Discovery, a purely vegetable compound, which restores the action of the liver, gives tone to the flagging energies of the dyspeptic stomach, and thus enables "good digestion to wait on appetite, and health on both." By druggists.

PAIN BANI HED SLEEP.

A Rheumatic Tells a Wonderful Story.

Less Than Half a Bottle of Munyon's New Remedy Restored Him to Health.

James Buckley, 215 Washington street, Newark, N. J., says: "I have been suffering from rheumatism for a number of years. The pains were exceedingly severe and I could not sleep nights. The remedy I obtained did me little or no good, nor did the doctors whom I consulted. This had gone on, each recurring attack being more painful and prolonged than the previous one. I could not get relief until I commenced taking Munyon's Rheumatism Cure. Less than one half a bottle drove all the rheumatism out of my system and I am as well and strong as I ever was in my life. I consider the remedy a wonderful one and take pleasure in recommending it."

TOPICS OF THE TIMES.

Pertinent Paragraphs From the Reporters' Pens and Pencils.

In a little more than a week from now the season for taking trout will open. The 15th is the day fixed by law and, as usual, trout anglers are making preparations to take advantage of the opportunity to cast their flies and capture the game fish. They will, however, be confronted with snow in the mountains, the melting of which has given the waters of the mountain streams a temperature far from being favorable to trout fishing.

Gov. Hastings has issued a proclamation fixing Thursday, April 11, and Friday, April 20, as Arbor days. It would be expedient in the future, if Arbor days are to count for anything, that the announcement of the time for their observance shall be fixed at an earlier date. The Governor might as well have issued his proclamation a month ago, which would have given those who desire to celebrate the days by planting trees, school exercises bearing upon the subject of arboriculture, etc., time to arrange things so as to make the celebration as effective as possible. Only six days intervene between the proclamation and the time fixed for observance, which is entirely too little.

There is to be no reduction in the price of ice in town this summer, notwithstanding we have had a good ice harvesting season. The local dealers say that on account of the supply running out last summer they were put to great expense to send for ice to keep up their contracts and the losses they met with in that line must be made up this year. One dealer claims it cost him \$4,500 for extra ice last year.

The Lehigh Valley Railroad Company has posted notices to the effect that in the future all mileage books will be good only for one year, and not until used, as heretofore.

Notwithstanding they are elected for a term of three years the Receivers of Taxes are obliged to renew their bonds annually. Many of the collectors in Luzerne county overlooked this requirement and three-fifths have defaulted in filing the bonds. There is danger of the court declaring their offices vacant. The Luzerne county officials are not as wide awake as those of Schuylkill. All the latter have renewed their bonds.

The choral vesper services in the Trinity Reformed church during the season of Lent have struck a popular chord in human hearts, if the size and devotional spirit of the attendants at these is any proof. The following is the order of worship tomorrow evening, being the order for Palm Sunday: Organ prelude; anthem; invocation—apostle's creed; hymn; gospel and epistle lessons; gloria patri; prayers and collects; hymn; announcements; hymn; sermon, "The Royal Entry"; chant—"The Lord's Prayer"; anthem; offerings; hymn; benediction; organ prelude; self denial offerings at the door.

PHYSICIANS NOW ORDER IT.

Paine's Celery Compound the One Spring Remedy That Makes People Well.

Physicians Prescribe It. Use It, and Advise People to Take It in Preference to Anything Else in April and May, Because it Purifies the Blood, Feeds the Brain, and Strengthens the Nerves.

Paine's celery compound is not a patent medicine. No class of professional men are more conservative, more careful in giving advice, or more painstaking in studying out the real facts of a case than physicians. Their recommendation in matters with which they are conversant is trustworthy. When physicians of known repute not only prescribe and use, but also bring home Paine's celery compound for their own families, there can be no doubt of its high standing in the eyes of medical men in general. This is what busy, successful practitioners are doing these spring days all over the country.

Paine's celery compound is prepared, as they all well know, from the formula of the foremost physician of this century, Prof. Edward E. Phelps, M. D., LL. D., of Dartmouth medical school. Among medical men there is an absolute certainty as to just what Paine's celery compound is capable of doing. The careful record of the vast number of cases where it has made people well has been published in the medical journals of the country. Paine's celery compound stands today as the one thoroughly authenticated remedy for weakness and debility due to malnutrition of the nervous system and impure blood.

This hard working, earnest class of professional men have never been slow in accepting Paine's celery compound. They declare that it gives the tired body every possible chance to get back to a healthy condition. It cures nervous weakness, heart palpitation, general lack of strength, and all forms of weakness, rests and restores the jaded, fatigued brain and nerves, because it provides for the abnormal waste of these parts by an unusually prompt supply of appropriate nerve food. It purifies the blood as nothing else can do.

If every man and woman plagued with frequent headaches, and every business man made anxious by pain at the base of the brain and neuralgia twinges, would take Paine's celery compound, the world would be lightened of a vast deal of misery that ought never to be borne. The most advanced medical thought of the latter quarter of the 19th century has prepared Paine's celery compound to meet and overcome these troubles that are due to ill-fed, ill-regulated nerves, and poor, thin blood.

N. N. Leaneard, M. D., of Charlestown, Mass., whose portrait appears above, one of the ablest physicians in the Boston district, a man of character and influence, says: "After using Paine's celery for four or five years in my general practice, I can cheerfully recommend it. For catarrh of head or stomach, for instance, it acts like a charm. For women in many cases it is a blessing. For chronic rheumatism it does give relief. Torpid liver, general debility, constipation, pains in stomach and loss of appetite it relieves, and is the best of remedies in general nervous prostration. I recommend it to many of my patients, believing, as I do, in its real merits. I believe it a public blessing to invalids, and, as yet, not fully appreciated."

J. C. Flynns, M. D., a well-known Michigan physician, is but one of hundreds who prescribe Paine's celery compound because it cures. Writing from Warren in that state he says: "I use the Paine's celery compound freely in my practice as a nerve tonic, blood purifier and general tonic. I find it a fine thing for patients recovering from the grip, especially old people." Dr. J. H. Hanaford, of Reading, Mass., whose writings in the Household, Health and Home, and other journals of national circulation, have endeared him to thousands, says: "I have used Paine's celery compound personally with much benefit. I prescribe it with excellent results." J. H. Thomas, M. D., 230 Liberty street, Pittsburg, Penn., says: "For several months I had been suffering from rheumatism. I had taken all the usual remedies with no real benefit. I took one bottle of Paine's celery compound and found myself much improved. The second bottle is nearly gone and I consider myself cured."

W. W. Hubbard, M. D., of Poultney, Vt., writes: "I was run down from repeated attacks of the grip, and my stomach, bowels, and kidneys were out of order. I had no strength, energy or ambition to think or act, and was excessively nervous and irritable. After taking the first bottle of Paine's celery compound I felt better. The third bottle restored me to my usual health and strength, and I feel 10 years younger than before."

Dr. William Brown, of Fredonia, Kan., writes: "It has wonderfully improved my general health." W. Allen Hubbard, M. D., Boston, Mass., writes: "I have prescribed the remedy in a number of cases where the blood was impoverished and the nerves weakened. The results have been so satisfactory that I do not hesitate to endorse Paine's celery compound."

Similar testimonials literally by hundreds might be quoted. The high, scientific attainments of A. Livesey, A. M., M. D., of Yardley, Penn., have made his statements authority on matters pertaining to health. He gives his personal experience, how he was cured of sleeplessness. J. W. Ferguson, M. D., of Thayer, Kan., tells how it has cured him of dyspepsia, etc., etc. The sum total of the testimony of such men as these, as well as of the more celebrated physicians whose letters have been previously published in these columns, is that Paine's celery compound makes people well!
