The music of the future may be something entirely different from what Wagner supposed.

THE announcement is given out from Washington "on the highest authority" that Mr. Cleveland has positively stated that be will not accept, under any circumstances, another nomination for the Presidency. If this declaration was made for the purpose of testing public sentiment the President and the few lonesome cuckoos who still flutter about him will not be long in doubt as to how the country feels on the subject. Mr. Cleveland pos wesses the distinction of being almost as sesses the distinction of being almost as blood. On further examination it was unpopular with his own party as he is found that she had been gagged, the aswith Republicans.

The fact of itself that such local papers are well sustained at home indicates an intelligent, enterprising and public spirited citizenship. Such a newscaper is of itself a most valuable business advertisement in the interest of the whole community, and naturally also, those who have the sagacity to parade their own business before intending to leave for Tacoma, and Miss the public through its advertising the house of Mrs. Voy, near the church. columns enjoy the lion's share of business prosperity. This is as true in the interior of the Emanuel church at Dr. Vogel's towns as it is in the large cities. And it is also true that as a rule, customers find a latch key with her. She never appeared that the best bargains are obtained by there. About this time Durant left his is also true that as a rule, customers find the most liberal advertisers for the good home on Fair Oaks street in the same vireason that their increasing amount of business enables them to give customers the very best terms.

Groussler of a scientific means of tracing II o'clock he left with a party of young the paternity of children who know not their own fathers. It is easy to understand with what alarm the news of such a discovery will be received in a country where illegitimacy is so common as in-France. The announcement may possibly cause some tremors of nervousness even in America. The Paris journalists have speedily recognized that nothing could appeal more directly to the interests of their readers, and they have been interviewing everybody of consequence about the probable truth and effect of the momentous news. It is not surprising that some vehement protests have been printed. It is declared that it is time to call a balt in the relentless march of science when it becomes so presumptuous as to invade domestic secrets which it has no right to expose.

THE uneasiness with which Spain re gards the Cuban insurrection roday is in marked contrast with the swaggering confidence and assumed contempt with which she greeted the first tidings of the revolt in the Pearl of the Antilies. Although the mother country has dispatched boatload after boatload of troops to the scene of hostilities, the Cuban outbreak is more formidable and menacing than ever. Late advices state that insurgents have now appeared in the central part of the island, and the indications are that the insurrection may break out in the western provinces at any day. The American people will watch with sympathetic interest the progress of the insurgents in Cuba. That island is virtually a part of the American continent, and should be such politically. The system of government to which Caba is a victim is an anomaly on American soil. It is a despotism pure and simple, which is founded on and perpetuated by force. Spain makes no pretense of ruling Cuba for the benefit of its people. She uses it simply for the purpose of aggrandizing herself. It is time that this medieval robber was compelled to release her prey. There will be a general hops that the present revolt is the crimson streak which heralds the dawn of Cuban liberty and independence. killed.

Chastly Murder of Two Young Ladies in a Church.

THE ALLEGED MURDERER CAUGHT.

He Is a Medical Student, and Is Believed to Have a Mania for Murder-He Was Also a Sunday School Official, and Highly Respected.

San Francisco, April 15.—The Eman-uel Baptist church, at Bartlett street be tween Twenty-second and Twenty-third, in this city, has been the scene of two of the most atrocious murders ever commit ted in the state. On Saturday the mutilated and murdered body of Minnie Williams was found in the library of the edi-fice. Yesterday the nude body of Blanche Lamont was found in the tower of the same church. The same hand, the author ities believe, slew both girls, and W. H. T. Durant, the young man suspected of both crimes, is now in custody.

Blanche Lamont and Minnie Williams were members of the Emanuel Church and members of the Sunday school class. The former was a student at the normal school, on Powell street, in this city; the latter was a companion in a family in Alabama, across the bay from the city. They both were 21 years old, brunctes, and pretty and modest girls. Both had been the recipients of attentions from a young medical student named W. H. T. Durant, who is also the librarian of the church and the secretary of the young people's society of

On April 3 Miss Lamont disappeared. Dilligent search failed to reveal any trace of her whereabouts, and her aunt. Mrs. Noble, with whom she had been living, was totally unable to throw any light on the affair. Miss Lamont came from Dil-lon, Mon., several months ago, having been in San Francisco for her health and at the same time to attend the normal shool, to perfect herself as a teacher. The last person seen in her company was

young Durant. On Saturday the mutilated body of Minnie Williams was found in the library of the church. The girl had been assaulted and her remains were cut and hacked, the girl having evidently died from loss of sallant tearing part of her underelothing and thrusting it down her throat with a Between the two, the city and the county dailies, the latter, if reasonably well conducted are the most important the latter Minnie Williams, enter the latter Minnie Williams, enter the church. Following this clew, the police at once put the residence of Durant under

> Miss Williams lived with friends in Alameda named Morgan, who gave her a home until she could secure a position. She had been a regular attendant of the Emanuel church, having formerly lived in that neighborhood, but the separation of her father and mother had caused her to move to Alameda. Friday morning the Morgan family packed their household goods

Friday evening she was to have attended house. At 7:15 o'clock she left Mrs. Voy's house to attend the meeting, taking rinity, bound for the same meeting. At 8 o'clock Durant met Philip Perkins and asked him some questions about a trip to Mount Diablo, which the signal corps, of which he was a member, was to make next day. At 9:30 he appeared at Dr. Vo-NOTHING has so agitated Paris for a gel's residence, where the meeting was in progress, and none were merrier during the remainder of the evening than he. At Durant arose early and went with his comrades of the signal corps for Mount

> On Sunday Mrs. Noble, the aunt of Miss Lamont, received through the mails a paper containing the four rings worn by her niece the day she disappeared. On the saper were written the name and address of Theodore Durant. This, together with the fact that Miss Williams, an intimate friend of Miss Lamont, had been heard to say that she knew Blanche had been murdered, but had refused to tell what she knew, led the police to suspect that the same one who had killed Miss Williams had slain Miss Lamont, and that, learning that Miss Williams knew of his crime, at tempted further concealment by committing a second murder.

Late Saturday night the detectives had about decided Durant had murdered Miss Williams, and this theory was further strengthened yesterday after making a ough search of the Emanuel ch The dead and outraged body of Miss Lamont was found concealed in the steeple Death had been caused by strangulation The body was lying just inside the door of the lower room, nude and on the floor Around the neck were blue streaks, the marks of fingers that had been pressed deep into the tender flesh. The mouth was open, showing the regular teeth. features were badly distorted, being drawn

and the tips were swelled and bloodstained. Durant was arrested last evening Walnut Creek, on the road to Mount Diablo. He was caught by Detective Anthony, who left in pursuit of him early in the morning. The police are certain they have the right man.

Durant is about 23 years of age, and was born and raised in the neighborhood in which the murder occurred. He is a graduare of the Cogswell High school, and has been studying medicine for a year. was a member of the Second brigade signai corps, and was assistant superintendent of Emanuel Church Sunday school, The police think Durant is another "Jack the Ripper," with a mania for murder. They state that it is highly probable that Durant is responsible for the killing of Eugene Ward, a young drug clerk, who was found stabbed to death several months ago in the store where he worked. No trace was ever found of the assassin and the theory is that Durant killed him.

Jumped from Brooklyn Bridge to Death. New York, April 15.—A man who said that he was James Duffy, from county Cavan, Ireland, jumped from the Brooklyn bridge and was killed. Duffy was about 27 years old, and a heavy drinker. He spent much of his time in Steve Brodle's aloon on the Bowery. He said that he had made some high jumps in England, and could easily make the Brooklyn bridge jump. He struck the water on his back, however, and was probably instantly What is

THE INCOME TAX FIGHT

No Possibility of a Rehearing Before Next Fall or Winter.

Washington, April 15.—The determination of the appelants in the income tax cases to secure a rehearing before a full bench of the United States supreme court on the points on which the court divided has caused a renewal of interest in the question of Justice Jackson's health and the possibility of his return to the bench at an early day. Late advices from Judge Jackson's home at Nashville say that he is constantly improving, and that, barring a very annoying cough, his physical condition is fairly good. It is also stated from the same source that he expects to be able to resume his duties as a member of the court at the beginning of the October term. There remains only a little more than a month of the present term, and it is not suggested that he may return for this rief period.

In view of this fact there can be no pos-sibility of another argument in the case before next fall or winter. This is equally true if Justice Jackson should decide to retire permanently from the bench, which it is understood he has no thought of do-ing. In that contingency, however, the bench could not be filled before the as-sembling of congress. No instance is known when a man nominated for the supreme bench has taken his seat before he as confirmed by the senate. Congres will not convene until next December, and under no circumstances would the senate be likely to pass upon a nomination of this magnitude until after the Christmas holidays. Action might indeed be post-poned much longer, and it probably would be if the predilections of the nominee should be opposed to the income tax, as the senate is committed to the law. It is also suggested that a justice who had not participated in the first hearing might feel a delicacy in sitting when the case was under consideration the second time.

It is quite possible that the petition for a rehearing may not be granted. The court's rule of procedure in such cases is only to grant such petitions upon the revoted in opposition to the wishes of the

PENNSYLVANIA LEGISLATURE. The House Has Decided to Again Hold

Night Sessions.

HARRISBURG, April 15 .- The legislators have not yet agreed upon the date of final adjournment. Many have grown weary of their duties and are auxious to get away A resolution will probably be offered in the house this evening fixing May 23 for the close of the session. It is thought a compromise will be made on the following Thursday. The last session closed on June 1. The question of the final adjournment was discussed at the conference last Thursday night, at the executive mansion, be tween the state's fiscal officers and others to consider the state revenues and appro priations for the next two years. No date was fixed, but it was the unanimous senti-ment of the gentlemen that the session should not be extended into June.

Beginning this week the senate will ex tend its sessions an hour on Tuesdays Wednesdays and Thursdays, beginning a 10 o'clock instead of 11 as heretofore. Th enators have managed to keep up with the house by holding one session a day and getting away every Thursday. The older members of that body say it will not be necessary to hold more than one session a day until near the close of the term. By prolonging the sessions an hour each day the senators expect to clear their calendar of all the bills which originated in that

The house is expected to hold night see sions beginning tomorrow. The senators insist that the house devote more time to senate bills. It has been the rule hereto-fore with the house to drop about 200 senate bills from the calendar near the clos of the session. The senators are tired of this, and demand that at least a month be devoted to their bills, or time enough to dispose of them. The house has set apart this evening for the consideration of senate bills on second reading.

BRITISH DEFEAT IN CHITRAL

Celonel Battye Killed While Leading Masterly Retreat.

SIMLA, April 15.—The guides and infan try belonging to the brigade of Genera Waterfield, part of the force operating against Umra, khan of Jandol, were de tached from the brigade and crossed the Punjkora river to reconnoiter and to chastise some villagers who had been firing on the British camp. The British met a strong force of the enemy and were compelled to retreat, covered by an artillery fire from the camp. Colonel Battye was killed and several others of the British were wounded. The natives showed great determination, and are still in force on the Punikora river.

The natives kept up a dropping fire on the British while the latter were engaged in constructing a raft bridge over the river. The bridge was finally finished, and Col-onel Battye, who was in command of the guides, crossed over safely, with orders to form a camp in the morning and to de-stroy the native villages. The enemy finding that their fire had not prevented the completion of the bridge, decided to destroy it. During the night they threw immense logs into the river above the bridge. These were caught in the rapid current and carried down with great force apon the frail bridge, soon pounding it to

With the destruction of the bridge Col onel Battye and his party were cut off from the main body of the British force. Colone Battye, however, proceeded into the hill to punish the natives. Soon he signalise across the river to General Water 1 id that two hostile bodies were approaching. Gen-eral Waterfield signaled back orders for Colonel Battye to retreat, General Water field's force covered the retreat with their mountain battery and Maxim guns which were on the bank of the river for this pur pose. The retreat con tinued in an orderly manner. Colone Battye was killed by a bullet just as the British got within halling distance of General Waterfield's camp. The enemy lost heavily. It is now reported that they have dispersed

A Noted Hostelry Destroyed.

Los Angeles, Cal., April 15.—The Hotel Raymond, at Pasadena, ten miles from here, was destroyed by fire at 4:30 yester-day afternoon. Not a stick of the famous resort was left. In less than an hour the huge wooden structure was leveled to th ground. There were about 150 guests in the hotel. Some of the guests saved a fer personal effects, though most of them lost everything. The cost of the building was almost \$500,000, and the furniture cost \$50,000.

Nicaragua Weakens.

LONDON, April 15 .- Nicaragua has sent reply to the ultimatum laid down by Grest Britain as the result of the outrus on the British pro-consul during the Mos quito territory troubles. It is understood that the reply is so satisfactory that the action which the government threatened to take to secure an indemnity will not now be taken.

Beaten by Masked Bobbers.

Oil City, Pa., April 15.—Early in the norming masked men entered the home of Mrs. Hrambach, on the outskirts of town, and bound and gagged her. They secured \$200 in money and then beat her to make her tell where her other savings were concealed. The thieves heard her husband coming and made their escape.

Crucified Judas in Emgy. Youngstown, O., April 15,-The Greek Church here closed Easter in a grove near the city yesterday by crucifying Judas Iscariot in effigy. Then they amused them-selves by shooting at the effigy, which was filled with firecrackers. Finally they set it on fire. After that they had a banquet in the woods.

New York, April 15.—James W. Scott, proprietor of the Chicago Times-Herald and the Chicago Evening Post, died yesterday afternoon at the Holland House, this city. His death was very sudden. He was taken with pains in the left side in the morning and and the first side in the morning and and the side in the morning and a second side. morning, and a doctor was called in. He said the pain arose from a passage of a stone from the bladder, and administered morphine. At I o'clock Mr. Scott became morphine. At I o'clock Mr. Scott became unconscious, and the doctor was hastily summoned again. He found that apoplexy had supervened, probably brought on by the pain, and Mr. Scott died without recovering consciousness. Mr. Scott agrived in this city on Friday last from Chicago with his wife, his niece and his adopted daughter, Miss Grace Hatch. He was apparently in good health and spirits, but said to his friends that he had been overworked and intended to visit Oid Point Comfort and Virginia Beach to take a complete rest for some weeks. Risked Her Life for a Horse,

Sudden Death of a Leading Publisher.

SOMERVILLE, N. J., April 15.—Luther Martin, who has a farm near this place, had his barn burned last night and four valuable horses were lost. Fourteen blooded animals were in the stalls when the fire was discovered, and they were all rescued by the men. But after being turned loose they became crazed by fear, and despite the efforts of the men five of them plunged into the flames again. Among these horses was a favorite of Mrs. Martin. When she saw it enter the burning building she pushed the crowd aside and rushed through the flames after it. After a flerce struggle, in which she was severely burned the brave woman suc ceeded in rescuing the animal.

Marder and Suicide.

NEW YORK, April 15.-Charles Janda. 26 years old, a Bohemian tailor, shot and instantly killed his sister-in-law, Mrs. Camilla Janda, yesterday, at her home and then fatally injured himself by put ting a bullet into his right temple. So far as could be learned there was no possible provocation for the murder of the woman, and it was probably caused by spite which the murderer feit for his brother, the husband of the woman he shot, there having been ill feeling between them.

Arrested for Working on Sunday, TOLEDO, O., April 15.-Twenty-six men who were at work on Water street were arrested yesterday on a charge of violating the ordinance prohibiting manual labor on the Sabbath. These incidents formed the climax to the attempt of the Manufacturers' Rallroad company to lay a line on Water street without the per-mission, it is alleged, of the city engineer. At the police station Bick and Glann, the contractors, gave ball for the twenty-six men arrested.

The Last Body Recovered.

WHEELING, W. Va., April 15 .- At 2 o'clock yesterday afternoon the men at work in the ruins of the Main street buildwork in the rains of the Main street building, which feil last Tuesday, came upon
the body of M. T. Horan, the packer, who
was killed. He was horribly burned from
head to foot. Work on the rains has been
suspended since Horan's body was recovered, he being the last of the six who are
known to have been killed. There are rumors of other victims, however.
