

Climatic Influence on Health.

It cannot be denied that the influence of climate upon health is great, and it is in recognition of this fact that physicians send patients suffering with pulmonary diseases to great distances for "change of air."

Can anything else be "just as good" for you to buy?

Give the Trolley a Chance.

From Daily Ashland Local.

It's a mystery to us, how the trolley roads in Schuylkill county are able to make ends meet, when you take into consideration the great amount of capital invested, the trivial and unbusiness like manner in which they are so frequently treated, by those who should consider it a duty to assist, instead of throwing every obstacle in their way. Give the trolley companies a fair chance in their earnest efforts to give the travelling public first class service.

IS HE KNOWN HERE?

A Mysterious Affair in Which a Shenandoah Party is Mentioned.

The Shamokin Dispatch, on Friday, contained the following bit of news in two acts:

Anthony Volock says that he came from Shenandoah last night on the 9:20 Lehigh train and it stopped up at Luke Fidler to allow him to get off, as he desired to go to Springfield, where he had friends. After getting off the train the man was accosted by two men who asked him for a chew of tobacco and after that for ten cents. He shook his head to both requests.

Volock was then jumped on by the men, who beat him and robbed him of all his money, which was nine dollars, an overcoat, under-coat, and shoes from his feet. The attacking party then fled and their victim, Volock, wandered to town in his sad plight and found a policeman to whom he told his story and asked for a place of safety. He was taken to the lockup for the night and this morning was furnished with a pair of shoes, coat and hat, after which he started to find his friends. Thus ended chapter 1st.

CHAPTER 2ND.

Between 12 and 1 o'clock last night a thumping was heard at the side entrance of Dr. E. S. Robin's residence, corner Orange and Sunbury streets. The noise continued quite a while and startled the folks from their sleep, who thought some one was trying to get in the house. As they were about to awaken E. S. Robin, Jr., they happened to look down on Sunbury street from the front window and saw a man in his shirt sleeves, running at a 240 gait up Orange street toward Dewart street. Going down stairs they found a double breasted sack coat, a pair of Congress shoes and a soft brown felt hat, all in good condition, except the coat, which was very muddy.

Before we conclude with this chapter The Dispatch will state that a representative called at the Lehigh station at noon and ascertained that last night's 9:20 train did not stop at Luke Fidler. It being a station all trains stop when passengers desire to get off. There was no stop made last night.

Messrs. William T. Trexise and W. J. Watkins have completed the history of the public schools of town which is to be published in the HERALD's silver anniversary souvenir. It is very exhaustive, containing upwards of 15,000 words, and yet is an interesting recital of all facts in connection with the schools since the incorporation of the borough.

He Smashed Windows.

Spring Medicine

Is a necessity because the tonic of winter air is gone, and milder weather, increased moisture, accumulated impurities in the blood and debilitated condition of the body, open the way for that tired feeling, nervous troubles, and other ills. The skin, mucous membrane and the various organs strive in vain to relieve the impure current of life. They all welcome

Hood's Sarsaparilla

to assist Nature at this time when she most needs help, to purify the blood, tone and strengthen the laboring organs and build up the nerves.
