In the last analysis, all taxes, whether on incomes or personal and real property. fall on the back of the man who works for a weekly wage.

Why the Washington Post wants the next Democratic candidate to come from the South is bard to guess unless the supply of sacrificial lambs at the North is so exhausted as to make it necessary. to pick up something wherever it can be found. To lick a rebel Democrat in a Presidential campaign would not afford enough excitement to call the band out

THE Republican party is emphatically the party to attract and hold young men, for it is the party of progress, of patriotism and of enlightened government. Democexcept a record of chame and disaster and in the United States. racy has nothing for the American youth a collection of unsound and dangerous doctrines with respect to finance, the zariff and our foreign relations. On every, great question of governmental policy the Democratic party is hopelessly un American. Its power is based on ignorance and systematic fraud at the ballot box. Its foreign policy is a scheme of cowardice and surrender. In tariff legiscowardice and surrender. In tariff legis-contract by reason of the continued de lation it consistently favors the South at cline in prices. The owners of the prothe expense of the North and enriches British manufacturers by impoverishing American workingmen, A large majority of its voters are fanatical advocates of a debased and irredeemable currency. When the Democracy attains power in American cities its rule is a menace to representative institutions and its officials are the numble tools of corrupt bosses. As a party of obstruction and negation the Democracy is likely to endure. But the future belongs to Republicanism and the prosperity and advancement of the nation depend upon the triumph of Republican principles.

IT is evident the decision of the United States Supreme Court on the income tax means but a very small return from that source under the existing law. The original estimate of \$30,000,000 of revenue, if the whole law were sustained, has of a single gold standard. Whed you call the attention of the already been cut down one-half and it is said that when the added expense of col- rising prices will make him pay more for lection and the increased unwillingness to pay there will be on the part of those who have been held to be liable only from a bondage in which he has been ununder an eleventh hour decision of an justly placed, and again make him the equally divided court are considered, the government will do well if it gets a clear \$10,000,000 this year from Incomes. The difference of \$20,000,000, along with established a government here that they other probable deficits will have to be met by another bond issue, which added to those already made will bring the total up to at least \$130,000,000. This is only a small part of the price which seriously insisted upon that we must adopt and continue the most pernicious our people will have to pay for the tomfoolery of tariff reform, but these are tangible figures which cannot be gain said. In addition there must be reckoned many hundreds of millions of dollars not capable of exact estimate for loss of wages, and business and depreciation of goods and property.

THEY seem to need a clearer understanding of parliamentary law down in Arkansas. The Government and the Legislature are surely co-ordinate branches of the law-making power in all states where they exist, But in Arkansas, when the Governor, rising to a question of personal privilege, spits in the face of a member of the House, and the honorable member, in a spirit of repartee, spits back, the Governor draws a gun. This is at Wappinger's Falls was robbed of \$40 in destructive of the order and decorum which should characterize the deliberative proceedings of a representative body of gentlemen. The very marrow of such bodies is the equality of all their component members, word for word, vote for vote, spit for spit. A gun is essentially unparliamentary, except, in extreme cases, in the hands of the presiding officer. We are proud to say that no such scene as this reported from Arkansas will disgrace our own state. Governor Hastings has not habitually carried a gun, we believe, since the first rush of officencekers, nor has he once spit upon the countenance of any member of either the House or the Senate. A Bimetallist's Letter to the Chief Magistrate.

INCREASED COST OF THE DOLLAR.

Seventeen Thousand Bushels of Wheat Would Have Paid the President's Salary in 1873-Today it Requires Six Times as Much to Pay Only Double the Amount.

CHICAGO, April 16 -- Mr. W. H. Harvey, chairman of the executive committee of the Bimetallic league, whose headquarters are in Chicago, publishes the following reply to President Cleveland's letter to the Chleago committee of business men:

'In reply to your letter addressed to a ommittee of business men of this city w wish to say that the committee that walted on you and the persons who attached then names to the petition such committee pre-sented did not represent a majority of the business men and citizens of this city who take a deep interest in the welfare of this republic. They represented the class that swins the money and securities payable to money fixed incomes.

"Werespectfully submit that your letter does not present the true merits of this controversy. You call the attention of farmers and wage earners to the fact that rising prices, while enabling them to sell their products and labor at a higher price. will also cause them to pay equally more for what they may purchase, but you neglect to say that your statement is not applicable to debts. With prices coming down regularly and steadily since the demonetization of silver, our merchants manufacturers and the people generally been doing business on a falling market, so that the time intervening be-tween the purchase of their merchandise or raw material and placing it months after on the market has removed the margin they would have otherwise made. This shrinkage in values, added to the ordinary risk and expense of business, has led to an ever increasing volume of debt— to a money lending period—until it has increased all the old debts, public and private, to about \$40,000,000,000, or about two-

"Money, and those debts payable in money, have been steadily increasing in exchangeable value with the property of the people. A debt for \$1,000 that 1,000 bushels of wheat would have paid ten years ago now requires the farmer to give up 2,000 bushels of wheat in exchange for se dollars with which to pay the same debt. The debts now in existence are principally old debts, or renewed debts, or new debts contracted to pay old debts. or debts the people have been forced to ducts must now give up twice as much property to pay their taxes as in 1873. Seventeen thousand bushels of wheat would have paid the president's salary of \$25,000 in 1873, and it now requires 100,000 bushels of wheat to pay your annual salary of

We have constantly pointed the people to the ever increasing interchangeable value of the creditors dollar, and to the reason why it was increasing, but the influence of these creditors have dominated your administration, and you insist on such a currency as they have established as a sound currency. It means the confiscation of the property of the people by the sale of property under mortgage, judgments and executions. It means that fixed incomes will wipe out the interest of stockholders in our railroads and corpora-

"If it is an injustice to restore prices se that people can exchange their property for a sufficient number of dollars to pay their debts and bring happiness and pros perity to our land again, it was a greater injustice to destroy the value of property and enhance the value of money by de-

what he buys you should at the same time call his attention to the fact that it will enable him to pay his debts, free him owner of a home and a free and inde-pendent citizen. It is not more money that we want to borrow, but to pay off what we already owe.

"Our forefathers fled from Europe and might be free from the class legislation of those countries where the masses are the hewers of wood and drawers of water for the rich and few who control the law makmaking power; countries that we justly term plutocracies; and yet it is now being class legislation that the monarchies of Europe have ever fastened upon their help-

By adopting their policy we have increased the demand for gold and its ex-changeable value and all money based thereon with all other property. We have sided them in the adoption of a single metal for primary money, that they can control and corner—that they have cornered-and forced you to go to them and get it at their own price, to sustain the credit of this great and resourceful nation We submit that this policy should be abandoned and our mints again thrown open to silver (as they are now to gold), and our stock of primary money increased

NEWBURGH, N. Y., April 10 .- Davis, one of the man who escaped from Mattenwar asylum, was captured yesterday afternoon near the residence of Mr. W. A. Browster, at Wappinger's Falls. He was in a deplorable condition. George W. Abbott's house money, a gold watch, an overcoat, cont, vest and hat. Mr. Abbott thinks the robbery was committed by Perry.

A Broken Hearted Girl's Suicide. POTTSVILLE, Pa., April 16.-Mary Brensinger, the 20-year-old daughter of 'Squire Augustus N. Brensinger, of Auchy Sta-South Manheim township, pointed in love, committed saicide by hanging herself in the woodshed. She was to have been married has Saturday to Harry Aulenbach, but on Friday he met

her and declared he would not marry. Bismarck in Excellent Realth. BERLIN. April 16 -There is absolutely no truth in the sensational story elren-lated in the United States by a news agency to the effect that Prince Hismarck is seriously iii. The prince is well in scalth, and received a deputation at Friedsicharuhe yesterday.

THE 'FRISCO CHURCH MURDERS Evidence Accumulating Against Young

Durant, the Suspected Student. SAN FRANCISCO, April 16 .- Chief of Po lice Crowley claims to have evidence enough to convict W. H. T. Durant, the dental student, of the murder of Blanche Lamont and Minnie Williams, in Emanuet Baptist church. Durant had been at-tentive to both girls. The young man was librarian of the church and assistant superintendent of the Sunday school. He was familiar with the house, and carried one of the keys to its private door. In per-son he is a strong, well made young man of pleasing and cheerful address, and apparently devoted to his religious duties He was the last person seen in Blanche Lamont's company on the day of her dis-

appearance. The three rings belonging to Blanche Lamont and sent to her aunt on Saturday were wrapped in paper upon which were written the names of George R. King, or ganist of the church, and Professor Shoen stein, who taught her music, and not the name of Durant, as reported. Experts de clare this writing is that of Durant slightly disguised King was also a friend of Binnehe, but Schoenstein is an elderly man and is not suspected. The police think Durant tried to throw suspicion on these two men, that attention might not

be directed to himself. Another young lady, also a member of the Emanuel church, says Durant told her she had a female complaint, and gave her medicine which benefitted her. After-wards he advised her to allow him to make a personal examination. She in-dignantly refused. Durant continued to urge it, saying there was a room in the church to which he had a key where the examination could be secretly and safely made. It is surmised that Durant may have lured the murdered girls into the shurch on a similar pretext.

Cheering the Spanish "Peacemaker." HAVANA, April 16 .- General Martines mpos, who arrived at Porto Rica on Thursday last, sailed at 5 o'clock Sunday afternoon for Gauntanamo, Cuba. The general met with an enthusiastic recep-tion at Porto Rico, and was acclaimed by an immense crowd of people as "the peace-maker." The hopes of the loyalists of the whole island of Cuba are centered on the arrival here of the great Spanish general A dispatch from Gibara aunounces that detachment of troops commanded by Car-tain Aguitar has defeated a body of 16 insurgents under Miro at Palma. Six o the insurgents were killed and several were wounded. The troops are in pursuit of the fugitives.

Militiamen Will Encamp. HARRISSURO, April 16.-The national guard will encamp this summer, unless another change in the program is made, which cannot well be done without con flicting with the military code of the state The act of 1885 provides that the annual encampment must be held. This was overlooked at the conference of last Thurs day night, when it was decided not to hold an encampment this year. Another conference was held last night, and it is likely that the first brigade will go into camp from July 6 to 13 and the second and third brigades from August 3 to 10. The length of the encampment, it will be seen has been shortened by about three days.

The Oil Excitement at Bradford. BRADFORD, Pa., April 16.—Not since the memorable Cherry Grove boom has Brad-ford been the scene of such excitement. Although no exchange is in existence here those inclined to speculate have crowded the brokerage office of W. C. Higgins and have their orders executed on the floor of the Oil City Exchange. The greatest of excitement prevails, and the wires were kept hot. "Buy me five!" was the cry when the market opened, and it continued throughout the day. Field operations were brisk, and the oil well supply firms cannot fill their orders.

Murderer Lambert Must Hang. WASHINGTON, April 16.—Theodore Lammonetizing silver and the establishment of a single gold standard.

"Whed you call the attention of the farmer and wage earner to the fact that the United States yesterday having dis-missed his appeal from the judgment of Judge Dallas refusing to issue a writ of habeas corpus for want of jurisdiction. The case will now be returned to the state and Governor Werts will set a day for the hanging.

> The Shortage at the Carson Mint, WASHINGTON, April 16.-Dr. Preston has eccived a report from Andrew Mason, in spector of United States mints, stating that the actual gold shortage at the Carson, Nev., mint is \$73,490.75. No further shortage is expected to be found. John F. Jones, the assistant melter and refiner, has been arrested and placed under \$35,000 bonds, and other arrests are expected to be made within a short time.

An Accused Murderer's Confession

Boston, April 16 -- Angus D. Gilbert, the alleged murderer of Alice Sterling, as admitted to the police that he buried the body of the child under the barn, where It was found. He declares, however, that he did not kill the child, but found the body in the stable. The autopsy has rerealed that a criminal assault had been committed upon the little one.

The Standard Will Saub the Income Tax. TOLEDO, O., April 16 .- A Toledo gentle can who returned from the east last week and who had exceptional opportunities for learning something of the plans of that great organization, declares that the Standard Oil company will make no re turn of liability for income tax, and the government will then be required to proseed against the company

Still No Truce at Dover.

DOVER, Dol., April 16.-The senatorial conference last night for the purpose of trying to get the Republican members of the legislature to unite upon some candi-date for the United States senatorship, was productive of no results. The conference remained in session for several hours, but when it broke up the end was apparently as far off as when it began.

Sugar Refineries Resume.

NEW YORK, April 18 .- President Have myer, of the American Sugar company, announces that all the idle refineries of the company started up yesterday. From this time on he anticipates a continued large demand for sugars. The question of advancing sugar prices will, he says, depend upon the condition of the foreign

Killed at a Bull Fight.

BARCELONA, April 15 .- In the course of a bull fight here yesterday the enraged bull jumped over the barriers and among the spectators. A wild rush was at once made for the exits, and in the stamped many persons were injured. The em ployes of the bull ring made an attempf to apture the bull, but they could not get im, and finally a civil guard fired at him with his carbine, killing the animal and one of the spectators. As soon as it was known that the buil was dead the spectators hurried back to their seats, and the entertainment proceeded as though nothing out of the ordinary had happened.

A Murderous Bohemian,

CLEVELAND, April 15 .- At 4 o'clock yes terday morning John Sejhar, a Bohemlar laborer, aged 28 years, shot and instantly killed Carl Richter, aged 30, and fatally wounded Albert Richter, aged 22, brother of his first victim. Two hours later the murderer was found dead in a cell at the Central police station, where he had been taken. He had hanged himself with his suspender. The three men had been drink ing all night, and nothing can be learned as to the cause of the shooting. The police claim to have discovered evidence that Sejhar was jealous of the attentions which Carl Richter had paid to his wife.

Tried to Hide Evidence of Murder.

NEW YORK, April 15.-Engineer Warre Hines' engine, which left Perth Amboy station, on the Lehigh Valley railroad, for South Plainfield, struck the body of a man lying across both rails a short distanwest of Weber station and dragged it 150 feet. A careful examination by detectives led to the belief that the man had been murdered and his body placed across the rails. Later in the day the dead man was identified as John Smith, 24 years old, a leather finisher of Newark. The police arrested two men who had been seen with Smith, one of whom, who gave his name as Edward T. Bourke, was badly bruised about the face. The other was Daniel Cobb.

Arrested on a Charge of Arson.

OXFORD, Pa., April 15.—Samuel W. Pierson, of East Nottingham, was taken to prison, charged with arson On the night of April 6 his barn and farmhouse, east of Oxford, were destroyed by fire. Pierson was alone at the time, his family being in various parts of the country. There was an insurance of \$3,150 on the property. An investigation by the insurance company developed the fact that he had removed the most valuable goods and had hidden them in caves. Pierson is a native of Delaware, and at one time was wealthy. He is 65 years of age.
