THIRD EDITION

Climatic Influence on Health. It cannot be denied that the influence of climate upon health is great, and it is in recognition of this fact that physicians send patients suffering with pul monary diseases to great distances for "change of air." But when the sufferer hances to be now now to get upon the "change of air." But when the sufferer happens to be too poor to act upon the advice his lot is hard, indeed. But it is not necessarily hopeless. Dr. Pierce's Golden Medical Discovery can be had at any medicine store, and to it thousands whose cases were considered desperate ows their lives.

whose cases were considered desperate ows their lives.

Up to a certain point in the progress of Consamption, Dr. Pierce's Golden Medical Discovery is a positive remedy. But delay is dangerous with Consumption. In all the conditions that lead to it, the "Discovery" is the remedy. With severe lingering Coughs or Weak Lauges, nothing acts so promptly. Every disease that can be reached through the blood yields to this medicine. The Scrofulous affections of the lungs that's called Consumption is one of them. For this, and for every other fo m of Scrofula, for all blood taints and disorders and all chronic Bronchial, Throat, and Lung affections, the "Discovery" is the only remedy so certain that, once used, it is always in favor.

Can anything else be "just as good" for you to buy."

Don't you believe it.

May Disband.

It will be a source of much regret to many of our people to learn that its oldtime and much-prized musical organization, the Grant Band, is on the verge of dissolution and unlesf a change occurs in the present course of events the band will soon be a thing of the past. This situstion is due partly to internal troubles, but principally to a lack of public support. The band is under considerable expense for monthly hall rent, payment of leader, etc., and the support received has by no means been sufficient. For example, the band has given concerts in Robbins' opera house and although the price of admission has been placed as low as ten cents the attendances have not been large enough to warrant a continuance of them. In fact one night the members of the band were obliged to go down into their pockets to make up the rent of the hall. In the language of some members of the band, "We have a music loving people-when the music doesn't cost anything."
