

EVENING HERALD

Published daily, except Sunday by
HERALD PUBLISHING COMPANY,
Publication office and mechanical department,
North Market Street.

The Herald is delivered in Shenandoah and surrounding towns for Six Cents a week, payable to the carriers. By mail, Three Dollars a year or Twenty-five cents per month, in advance.
Advertisements charged according to space and position. The publishers reserve the right to change the position of advertisements whenever the publication of news requires it. The right is also reserved to reject any advertisement, whether paid for or not, that the publishers may deem improper. Advertising rates made known upon application.

Entered at the post office at Shenandoah, Pa. as second class mail matter.

THE EVENING HERALD,
Shenandoah, Penna.

Evening Herald

THURSDAY, APRIL 18, 1895.

It would be well if the Supreme Court could get at all the legislation of the Fifty-third Congress.

The apology from Spain has not come to hand yet, but American ships are no longer molested in Cuban waters.

The large cities of the country are learning one after another that the best kind of an advertisement is a Republican majority.

It is evident that the Democrats who voted the Republican ticket at the November election are resolved to continue being better than their party.

SENATOR HILL is now in favor of a Southern man for the Democratic nomination for the Presidency. David McKee Artemus Ward's bear, is an "amoooin' little cuse."

ONE of the most urgent duties of the Fifty-fourth Congress is the repeal of the emancipated income tax law. Even the Anarchists and Populists who were responsible for the act must be disgusted with it in its present shape.

The leading railroad in Connecticut has applied to the Legislature to prohibit the construction of electric roads between towns now connected by steam lines. A table is submitted showing that the suburban traffic of the steam roads in some cases has been almost entirely lost. The points urged are that the legitimate business rights of the old roads are disregarded, and that the electric roads are infringing on the general highways belonging to the public. The questions raised in Connecticut will soon demand attention in other states, and it is evident that throughout the country new problems in passenger transportation are coming forward for settlement.

A DISPATCH from McKeesport, tells, in a few words, of a tragedy almost unique in the history of the race. A man who was being shaved at a barber's shop was telling a funny story when he suddenly expired. It is not too much to say that this sad event was in opposition to all precedent. If the barber, instead of the customer, had been narrating a sidesplitting story, after the manner of tonorial artists in places like McKeesport, no one would have been astonished at the death of the customer. It is the habit of provincial barbers to act as if they were always scraping an acquaintance. It is probable that the unfortunate McKeesport raconteur died of shock. He had strained his nervous system too far in attempting to get a laugh out of a barber. Perhaps he was attempting to stave off a demand for "a shampoo" or "a hair cut," but whatever was his motive in telling that story, his fate is a warning. When your chin is being shaved repress its music.

An impressive exhibit of the stupidity of socialistic legislation in general is found in the fact that the classes chiefly intended to be hit by the income tax are the very classes that escape it. The great real estate owners in cities and the large landed proprietors and bonanza farmers of the country districts were the men principally aimed at by the Populists and the featherhead element of the Democracy who forced the income tax through Congress, but the Supreme Court's decision releases them from its operation. The tens of millions of dollars of the Astors' incomes from their hundreds of millions of dollars' worth of real estate which the Peffers, Blands, Ailens, Sibleys and the rest of the same culottes in Congress were particularly anxious to assail easily eludes and baffles them. The part of the tax which stands in the part which is ordinarily most difficult to collect. The income from notes, bonds, stocks and the other securities which the tax covers can dodge the collector to a considerable degree, and the larger this income is the larger the proportion of it which can conceal itself.

THE JAPANESE VICTORY

Its Effect Upon the Politics of European Nations.

THE OCCUPATION OF PORT ARTHUR

Japanese Control of That Stronghold is Only Temporary, and the Nations Will Therefore Have No Cause for Intervention on That Score.

TRIESTE, April 18.—Japan's occupation of Port Arthur is temporary, thus securing China's integrity on the mainland of Asia after a term of years, and avoiding the possibility of European intervention.

The latest reports concerning the war indemnity to be paid by China to Japan place the amount at \$3,000,000 taels of silver. The tael is not a coin, but a weight, and consequently varies according to the price of silver. In Peking at present one tael is equal in value to one and a half Mexican silver dollars, or seventy-five cents in American gold. At this rate the indemnity of \$3,000,000 taels is equal to \$450,000,000 in American gold. The silver, in large transactions in the east, is put up in the form of bullion, or ingots, each ingot containing silver to the amount of from twenty to fifty taels. The indemnity is to be paid in five yearly instalments.

LONDON, April 18.—A dispatch to The Times from Hong Kong says it is reported that the cession by China of the Island of Formosa to Japan dissatisfies the British there. The dispatch adds that the Chinese soldiers threaten to kill their commanders if the island is ceded.

A Berlin dispatch says in reference to the Chinese edict that the import duties at the open ports shall not exceed 2 per cent, that a commutation duty of 2 per cent, on the original cost of imports into China represents, to all intents and purposes, a differential duty against Europe in favor of Japan.

Editorially The Times says it presumes that the independence of Korea really means a more or less thorough Japanese protectorate. It adds that when the exact terms of the treaty are known European diplomacy will probably make a show of considering them, but if the Japanese refuse, as they presumably will, to listen to diplomatic exhortations, it is difficult to conceive that any more effective interference with their plans need be seriously apprehended.

A dispatch from Vienna says it is unusual to combine a treaty of peace with a treaty of alliance, and it is probable, therefore, that a separate treaty, not destined for publication, has been signed by the Japanese and Chinese representatives. Whether or not this treaty takes the form of an offensive and defensive alliance matters little, since it is known that Li Hung Chang has always wanted to open his slumbering country to European civilization. It is not likely that he would let slip such an opportunity of doing so with the aid of the Japanese.

A dispatch to The Daily News from Berlin says The National Zeitung declares that all nations interested in commerce in China must lose no time in protecting their interests against a treaty which will completely paralyze European competition against Japan. The dispatch adds that all the papers agree that in regard to the territorial concessions Russia has the first voice.

Clever Postoffice Swindler Captured.
CHICAGO, April 18.—William Hansen, a truckman at the Dearborn Street Railway station, was arrested at Elgin yesterday. Hansen's night duties at the railway station consisted of handling the mail pouches. He would take a handful of letters from a pouch, and especially those addressed to postmasters, and extract the money advice orders. He would then search the pouch for all letters addressed to parties whom the advice named. Taking those letters he would wash off in chemicals the amounts named in the advices and the orders, fill in a higher figure, make the money orders payable to some one else, and have identification waived. The advices he would remail to the post-offices.

A Leading Cyclist Killed.
NEW YORK, April 18.—Robert Center, one of the best known men in the social life of this city, died in Roosevelt hospital from the effects of an accident received while riding his bicycle on the Western boulevard, when he was knocked down and run over by a passing coal wagon. His skull was fractured at the base and the bones in his neck were broken. Frederick Winkel, the driver of the coal wagon, was arrested. Mr. Center was the first to introduce bicycles into this country, bringing the first of the wheels from France.

Fell from a High Cliff to Death.
NORTHAMPTON, Mass., April 18.—The body of Arthur M. Seeley, 35 years of age, son of President Seeley, of South college, was found by a searching party on Mount Tom. The body was at the bottom of a cliff a hundred feet high. It was evident that Seeley had struck directly on the crown of his head. He was probably walking along the precipice, where his path is near the edge, and made a misstep. He was perfectly familiar with the spot, and must have been careless or slipped on the damp earth and leaves.

A Jealous Lover's Double Crime.
CLEVELAND, April 18.—Alexander Turk, 35 years of age, called at the residence of his sweetheart, Miss Julia Fallon, and fired three shots into her body and then turned the weapon upon himself. The murder and suicide were both committed without warning. Death came to each instantly. Jealousy is supposed to be the cause of the tragedy.

Policeman Charged with Burglary.
CHICAGO, April 18.—Charles M. Poole, a police officer, has been suspended from duty pending an investigation of his connection with a well organized gang of house breakers and burglars who have committed several big crimes lately. It is alleged several of the gang are business men who acted as "henchmen."

Burned to Death in Her Bed.
PITTSBURGH, April 18.—Mrs. Mary McCormick, a widow of 60 years, was burned to death at her home on the South Side. In some unknown manner a lamp was upset in the room where Mrs. McCormick was sleeping, and before assistance reached her she was burned to death.

Many Burglaries in Williamsport.
WILLIAMSPORT, Pa., April 18.—Six burglaries were committed in this city and six in Jersey Shore Tuesday night. The post-office at South Williamsport was also robbed. Eight men have been arrested for the burglaries.

Terrible Itching

"I had what the doctors pronounced to be eczema. It was accompanied by severe itching, and my limbs pained me a good deal and were swollen. I became all broken out with pimples. This caused me to scratch, and the eruptions turned into one solid sore. The disease spread all over my body. At length, my attention was called to Hood's Sarsaparilla, and I concluded to give it a trial. This was in April, and I continued faithfully with it until Christmas. At the same time I took the medicine, I ate anything that suited my appetite.

Mr. F. T. Craig

I am now cured and have no signs of the disease except a little inflamed color where the sores gathered. My affliction is healed; I feel like myself again." F. T. CRAIG, Halfway, Va.
Hood's Pills do not purge, pain or grip, but act promptly, easily and efficiently. 25c.

THE 'FRISCO CHURCH MURDERS

Only Circumstantial Evidence Against the Accused Medical Student.

SAN FRANCISCO, April 18.—The Emanuel church murders are still the main topic of discussion on every side in this city. Notwithstanding the fact that one or two newspapers have tried and convicted Durant of the frightful crimes, there seems to be a reaction in favor of the young man. The evidence so far produced against him is only circumstantial, and while the police say they have enough evidence to convict him, it is doubted if any jury would find Durant guilty on less further conclusive proof.

The young medical student does not look like a guilty man, and if he did, it is a remarkable nerve. Last night he slept well and he has a good appetite. He continues to assert his innocence, and his whole demeanor is that of a man confident of proving it when the time comes.

The inquest over the remains of Minnie Williams was continued yesterday. A. E. Williams, the father of the murdered girl, testified that she had said to him that Durant had not treated her right, but she did not go into details. He identified the pocketbook found in Durant's pocket as one he had given his daughter. The testimony of the witness who claimed to have seen Durant and Miss Williams entering the church early Friday evening was rather vague.

The funeral services over the body of Miss Williams were held in the First Baptist church. An immense crowd attended. George King, who says that he found Durant in the church the day Miss Lamont was murdered, was one of the pallbearers. Rev. Dr. Gibson was also in attendance. Rev. Dr. Boyton made a brief address, referring to the murders, and many of the women present wept. The body of Miss Lamont was shipped to her home in Dillon, Mont., yesterday.

Five Young Ladies Poisoned.
NEW YORK, April 18.—Five young women, members of the Church Settlement Society of the Episcopal Church of the Redeemer, are just recovering from the effects of arsenic poisoning. The drug, it is thought, was administered by a young woman who came highly recommended, and was taken into their household to enable her to study their methods of work. Miss Gurney, the head of the society, admits the truth of the foregoing statement. She said: "There is no doubt but that it was the work of a maniac. I will not give the name of the woman we suspect, because if by chance she is innocent I do not wish the public use of her name to injure her."

No Trouble Feared at Nicaragua.
WASHINGTON, April 18.—So far as the state department knows Great Britain has not rejected Nicaragua's proposition, made in answer to the British ultimatum, to submit the claims for indemnity to arbitration. The British embassy and the Nicaraguan legation here are also waiting for information on this point, although they have taken steps to ascertain the truth. It is still believed here that Great Britain will not act hastily in the matter, and at the state department there is an impression that no serious trouble will ensue.

Mill Workers Get an Increase.
PROVIDENCE, April 18.—The first break of Providence manufacturers was made yesterday, when the Dyerville cotton mills announced a 5 per cent. increase in wages. This will prevent the operators from joining the Olivetown pickets. The action was taken after a consultation between a committee of the operatives and Superintendent Mowry, of the mills.

No Hope for Dr. Buchanan.
WASHINGTON, April 18.—The supreme court of the United States denied the application of Robert W. Buchanan, of New York, for a writ of error and supersedeas. The decision was read by Chief Justice Fuller. Buchanan is under sentence of death for wife murder, and unless Governor Morton intercedes Buchanan will be electrocuted on Monday next.

A Detective's Attempt at Suicide.
ROCHESTER, N. Y., April 18.—Detective Thomas Dukelow, of the Rochester police department, while sitting in the detective's private room last night, drew a revolver from his pocket and shot himself in the head four times. It is said he cannot live. He had been suffering with ill health for a long time, and that is supposed to have prompted the act.

Andrew Carnegie's Gift to Pittsburg.
PITTSBURGH, April 18.—The Commercial Gazette announces that Andrew Carnegie has donated \$100,000 to build a monument to Mrs. Mary E. Schenley, of Loudon, Pa. The monument is to be erected under a triumphal arch at the entrance of the park of 400 acres, which Mrs. Schenley presented to this city, and which bears her name.

An Episcopal Bishop Married.
EUFALA, Ala., April 18.—At 8 o'clock P. M. Rev. E. M. Jackson, Episcopal assistant bishop of Alabama, was united in holy wedlock to Miss Carrie Fanny Cochran. The ceremony was performed by Rt. Rev. Bishop R. H. Wilmer. A large and fashionable crowd was in attendance, including Governor Oates, the uncle of the bride.

THE CASE OF EX-CONSUL WALLER

Our Government Will Demand His Release and an Explanation from France.

JOHN L. WALLER.

WASHINGTON, April 18.—The state department says by no means abandoned the case of John L. Waller, the colored ex-United States consul to Madagascar, who is now imprisoned in Madagascar under French sentence.

The facts which the department expects to prove as a basis for this action are: First, that Waller is an American citizen; second, that he was not guilty of any improper interference between the French and the Hovas; third, that even if he were, he had not been accorded the fair trial to which he was entitled, the court martial proceedings being obnoxious in every respect; and lastly that Waller has been harshly treated and has been the object of persecution, because he stood in the way of the holders of concessions.

Wealthy Anarchists Evading Law.
WASHINGTON, April 18.—The internal revenue officials positively decline to make public any statement in regard to income tax returns or to answer any questions relating thereto. It is learned that the real cause of this reticence is the great number of blunders made by the collectors in their telegraphic reports. Who is blameable for this state of things is not stated, but the result is that from what has been received no intelligent estimate can yet be given of the number or amount of the returns filed with the collectors. It is undoubtedly true that a large percentage of the number of persons subject to the law have made no return at all, and in consequence the officials are ahead of them a vast amount of litigation and trouble.

Fighting for Her Children.
CHICAGO, April 18.—A strange case came up before Judge Kohlsaat in the probate court yesterday afternoon. Mrs. Regina Lingle made an application for the removal of her daughter from the guardianship of her own children. The two children, Ruth and Whiting, are entitled to the income from a fund left by their grandmother, now amounting to \$60,000. Mrs. Whiting denied that the society was in the slightest degree an immoral one, and said that her children were given the best of care. Miss Annie Aiken, formerly a member of the colony, gave damaging testimony against the morality of the colony. The case will be bitterly fought.

Minister De Lome Investigating.
WASHINGTON, April 18.—Senator Murrago, the Spanish minister, received a dispatch from Senor de Lome, the new minister to the United States, now at Havana, stating that he would arrive in Washington April 25. De Lome's arrival at Havana marks the opening of Spain's official inquiry into the Alliance incident. Senor de Lome has already visited Guantanamo and Santiago de Cuba, but at Havana he will see the commander of the Spanish gunboat which fired on the Alliance and the other parties having information on the subject.

Justice Jackson Ready for Duty.
NASHVILLE, April 18.—In a published interview Associate Justice Howell E. Jackson, of the United States supreme court, says: "I wrote a few days since to the chief justice, simply expressing my willingness to go to Washington and make a full bench in case the court decides a rehearing of the income tax cases at this term of the court. I have heard nothing since then." Judge Jackson is improving and growing stronger daily, and expects to go to Washington when the court meets in October.

Charged with Insularism.
TORONTO, April 18.—As the result of a recommendation contained in the verdict of the coroner's jury at the inquest to ascertain the cause of the recent Simpson fire, which entailed a loss of about \$1,000,000, Alexander McKee and Joseph Sprott have been arrested. At the time of the fire Sprott and McKee were employed with the Holmes Protection Police and Fire Patrol company, but were suspended by the company's manager when the coroner's jury returned the verdict.

Held Up in Broad Daylight.
BRIDGETON, N. J., April 18.—Two masked men, in broad daylight, held up Walter Cresce and Joseph Carman and robbed them of \$5. They were driving along the outskirts of town. The robbers emerged from a thicket, jumped in their wagon, and with revolvers at their heads robbed them. John Harmon, Nicodemus Brown, John Brown and John Allison, colored, are under arrest as the highwaymen who have been holding up pedestrians.

Nicaragua's New Ministry.
WASHINGTON, April 18.—United States Minister Baker, of Managua, has informed the state department of the formation of a new cabinet in Nicaragua on April 1 last. The composition is as follows: Minister of foreign affairs, Senor Don Manuel Carmel Mateu; war, marine and public works, General Ruben Alonzo; interior, General Francisco Balladarez Toran; finance and public credit, Senor Don Santiago Callejas.

Cuban Rebels Again Routed.
MADRID, April 18.—An official dispatch from Havana says that Colonel Echevarria, commanding a government force, had routed the rebel band led by Miro, killing one and wounding several of the insurgents. None of the Spanish troops were injured. The dispatch adds that perfect quiet is now reported throughout the island, except in the eastern province.

To Arrest Indian Evictors.
PENNER, Neb., April 18.—A new phase in the reservation trouble developed yesterday when the sheriff, with an armed posse, left here to ambush a body of Indian police as they are ejecting settlers from the reservation. The sheriff will attempt to surprise the Indians and arrest them. A fight is expected.

Lincoln's Birthday a Legal Holiday.
TRENTON, April 18.—Governor Werts has signed the bill passed by the recent legislature making Lincoln's birthday, Feb. 12, a legal holiday in this state. The governor has sixteen bills yet in his hands, upon which he has taken no action.

FIGHTING FOR LIFE.

A SUFFERING WOMAN TESTIFIES.

Mrs. Henrietta Burton, of Janvier, N. J., writes: "For a long time I suffered from a disordered stomach. My appetite was gone and what little I ate distressed me terribly. My health failed rapidly. I became very weak and feared I should never be well. After reading your 'Guide to Health' I was encouraged to try Munyon's Dyspepsia Cure. Its action was so prompt that I soon felt like a new woman, and am now completely cured of my disease. MUNYON'S STOMACH AND DYSPEPSIA CURE cures all forms of indigestion and stomach troubles, such as constipation, rising of food, distress after eating, bloating of the stomach, palpitation of the heart, shortness of breath and all affections of the heart caused by indigestion. It soothes, heals and invigorates stomachs that have been weakened by over-eating, or when the lining of the stomach has been impaired by physic and injurious medicines. Price 25 cents.

Munyon's Homeopathic Home Remedy Company, of Philadelphia, put up special formulas for nearly every disease, which are sold by all druggists, mostly for 25 cents a bottle.

Those who are in doubt as to the nature of their disease should address Professor Munyon, 1506 Arch street, Philadelphia, giving full symptoms of their disease. Professor Munyon will carefully diagnose the case and give you the benefit of his advice absolutely free of all charge. The remedies will be sent to any address on receipt of retail price.

NEW JERSEY'S PRINTING BILLS.
Rival Houses Pled to Refrain from Putting in Bills.
TRENTON, April 17.—The senate investigating committee hearing yesterday was devoted to the question of state printing, which was under consideration when the committee adjourned last Friday. Otto Heinz was recalled to the stand. He testified that Lawyer Frank McDermott, who appeared as his counsel on Friday, had not been employed to so act, and that McDermott had rendered him from no advice except to get through the legislature a bill, for which he charged \$2,000.

Mr. Heinz, when questioned as to his failure to bid for printing state reports in German in 1893, said he refrained from doing so in consideration of \$30,000 received from John L. Kuser, who got the contract. Mr. Heinz swore that he afterwards returned to Kuser \$250 of this money because Kuser complained that he had not got all the work he expected to under his bid.

Charles S. Robinson, of Princeton, who bid low on two reports in 1893 testified that he withdrew his bids and that he got the printing of one of the books from Kuser at the higher price of seventy-six cents, his bid having been forty-five cents, and that he got \$700 in consideration of giving up the other bid of fifty-five cents. Editor Krauter, of the Newark Deutsche Zeitung, testified that the same year Kuser paid him \$300 not to bid. The committee will meet again next Tuesday.

Manitoba Catholics Threatened.
WINNIPEG, April 17.—Nothing since the beginning of the Catholic school struggle in this country has created a greater sensation than the announcement of the Catholic archbishop that those Catholics who henceforth lend their aid and influence to those who would abolish Catholic parochial schools will be excommunicated. Many prominent Catholics have, expressed themselves in favor of a national school system, and among these people the above announcement has created the greatest consternation. At first it was thought to be simply a move on the part of Archbishop Langvin, and done without either the authority of Mgr. Satollo or of the pope, but it is learned positively that Langvin's action is based on authority received direct from Rome.

An Alleged Murder at Sea.
NEW YORK, April 17.—Four men, two of them sailors, called at the office of United States Commissioner Shields and said that William Seeger, a fireman on board the steamship Orinoco, had been killed at sea by William Soltan, the chief engineer, on the voyage from New York to Hamilton, Bermuda. Two of the men had been members of the Orinoco crew. The vessel reached her pier Monday morning, and sailed again on the afternoon of the same day. The men said that Seeger died from a beating he received because he was too ill to work. At the office of the Quebec Steamship company, to which the Orinoco belongs, it was said that one of the Orinoco's firemen died at sea, but that death was due to natural causes. The body was buried at sea. An investigation is in progress.

Senator Goebel Acquitted.
LEXINGTON, Ky., April 17.—The trial of State Senator William Goebel for killing Colonel John L. Sanford was held yesterday before Judge Stephens. The charge was manslaughter. A great many witnesses were examined. The predominant testimony was that Sanford accused Goebel first and fired first. Attorney General Hendricks was positive on this point, and his testimony was corroborated by many witnesses and contradicted by none. On the ground that Senator Goebel acted in self defense he was acquitted and the case dismissed.

Defeat for the A. P. A.
ROCKFORD, Ill., April 17.—As a result of the hottest political battle ever fought in Rockford, Edward W. Brown, a candidate of the business men and liberal element, was yesterday elected mayor over Amasa Hutchins, candidate of the A. P. A., by 53 majority vote of 6,000 votes, the largest vote ever polled in the city. The large vote was a surprise to both sides and cut down Brown's expected majority. The A. P. A. was the distinct loser, and money was contributed by lodges all over the state to Hutchins' campaign fund.

AMUSEMENTS.

FERGUSON'S THEATRE.
P. J. FERGUSON, MANAGER.
Two Nights Only.
