FRIDAY, APRIL 19, 1895.

THERE is not the least reason to believe that Cleveland wants another term, and not a shadow of a reason to suppose he could get it if he did want it.

THE two laws on which the last Congress spent the most time were the tariff and income tax, and they will be landmarks in political history as elaborate muddles.

THE Florida Senate has fired a shot at the Spanish flig by adopting a resolution of sympathy with the Cuban revolu tionists; and no spology will be made in the case, it is safe to say,

LET us see. The great and serious ob jection which the Democratic party had to the McKinley law was based on the awful unconstitutionality of the thing. Therefore it would be necessary for the Democracy to proceed at once to frame Laws by means of which revenues might the raised by strictly constitutional means. And, lol we have the income tax, and the warying opinions of the members of the Supreme Court thereon.

Two YEARS ago "oil in sight" was over sixteen million barrels. Last year it was mearly ten millions. This year it is rather less than five millions, and this seems to account for the change in price. There was so much in sight formerly tha prices were down and production was dis" soouraged, because there was not much money in It. But now the picture is changed. Upon the enormous difference in the regular supply follows an enormous difference in price. When oil goes from 50 cents a barrel up to \$2 every man whose land lies in the cil-producing region wonders if in this change there may not be something for him and begins to bore holes. This appears to be the state of affairs now in Pennsylvania, Ohio and their ancient hunt for oil in those regions Pottaville at 6 p. m. when oil got to a point at which it would hardly pay to work any but great wells. Now it has begun again, and there is no sloubt that abundant new sources will be

THE last Congress passed several important acts on the subject of pensions, directly in the interest of the old sold diers, and against the nofriendly policy of the present Administration. One of these acts provides that \$6 per month shall be the lowest pension for any form of disability, which means that all pensions of lower amounts will be raised to that figure, and that the mockery of paying only \$3 per month to a veteran who has proved his right to a pension will cease to exist. Another act repeals the prohibition against the payment of pensions to non-residents; and another au-Churkes postmasters to administer oaths in pension cases, thus relieving many pensioners of the trouble and expense of making long journeys to secure their money. But the most advantageous of sail is one which declares a pension to be a vested right. This means that penssions are not to be modified, suspended or abrogated at the caprice of a Comunissioner of Pensions, or for the promotion of political designs. It will not be possible hereafter for a Democratic Ad ministration to repeat the outrage of arbitrarily depriving nearly 20,000 soldiers of their pensions; but in all cases of promosed suspension, thirty days' notice must be given to the pensioner, with the privilege of furnishing testimony to substantiate his claim, the presumption sof the law being in his favor instead of printed on every sack. against him. Not one of these acts was Relief in Six Hours.

Climatic Influence on Health. It cannot be desired that the influence of climate upon health is great, and it is in recognition of this fact that physicians send patients suffering with pulmonary diseases to great distances for "change of air." But when the sufferer cannic of air. But when the sufferer happens to be too poor to act upon the advice his lot is hard, indeed. But it is not necessarily hopeless. Dr. Pierce's Golden Medical Discovery can be had at any medicine store, and to it thousands whose cases were considered desperate owe their lives.

whose cases were considered desperate owe their lives.

Up to a certain point in the progress of Consumption, Dr. Pierce's Golden Medical Discovery is a positive remedy. But delay is dangerous with Consumption. In all the conditions that lead to it, the "Discovery" is the remedy. With severe lingering Coughs or Weak Lungs, nothing acts so promptly. Every disease that can be reached through the blood yields to this medicine. The Scrofulous affections of the lungs that's called Consumption is one of them. For this, and for every other form of Scrofula, for all bloodtaints and disorders and all chronic Bronchial, Throat, and Lung affections, the "Discovery" is the only remedy so certain that, once used, it is always in favor.

Brought to Trial.

LANCASTER, Pa., April 19.—The trial of E: K. Smith, the aged banker of Colum-bia, on the charge of embeazing \$12,500, was postponed under peculiar circum-stances. Congressman Marriott Brosins, one of his attorneys, moved that the panel of jurors be quashed on the ground that it had been Illegally drawn. He showed that when the present jury commissioners were installed, last January, the oath to which they subscribed did not include the phrase that they would "select all jurors without hatred, malice or will," as required by the act of assembly, and that this omission was fatal to their qualifications to draw jurors.

Judge Brubaker regarded the point well taken, and declared Smith's trial off. The defendent, who is nearly 80 years old, was convicted at the last term of court of re-seiving deposits after he knew that his bank was insolvent, the conviction hav-ing been secured mainly by the testimony of his parener, C. E. Graybili. Sentence had not been passed pending a motion for

new trial. There are numerous other indictments against the banker, but Judge Brubaker having intimated that he considered them tefective, the district attorney is engaged in framing new ones. If, however, the present grand jury is incompetent, new indictments will have to go before the next ensuing grand jury, after the com-missioners have been properly sworn. By that that time, however, the statute of limitations would intervene to save Smith from trial

Jones' friends say he has been in Canada or the past month, returning on Wednes day. The secret service men tracked him to Cincinnati, where he wrote to a Chicago newspaper that his stamps were now for sale in Mexico. Mrs. M. T. Captain General Campos Will Punish Only the Leaders.

SENOR DE LOME INVESTIGATING.

The New Spanish Minister to Washington Will Leave Havana Tomorrow, After Inquiring Into the Allianca Affair-Rebels Few in Number and Poorly Equipped.

HAVANA, April 19 .- Captain General Martinez de Campos has issued from San tiago de Cuba a proclamation offering pardon to all insurgents, with the excep tion of the leaders, who will lay dow their arms and surrender. He has mad preparations to immediately pursue the members of the bands who refuse to come in under the proclamation, and the war fare against them will be waged vigor ously.

It is stated here that some of the insur-

gent bands have taken to torturing help less residents of the country districts wh have incurred their displeasures. At Blan quizal, near Manzanillo, a grocer named Miguel Lauredo was surprised at night by Maceo's band. He was cruelly tortured and horribly mutilated, after which he

WENOR ENRIQUE DUPUY DE LOME. was tied to a tree, where he was left for the buzzards to eat. Manuel Iglesia, a grocer of Bueyelto, Manuel Reitor and an old man named Vicana, who fought against the rebels in the last revolution,

have been murdered by roving insurgents The town of Palma Soriana, province of Santiago de Cuba, was attacked by insurgents, who were repulsed and pursued by a body of troops. The rebels found refuge in the mountains. The troops dis-covered the place where their camp had been located, and found a dead rebel ir. it A number of weapons were captured. Evi dence confirming the reports of the death of the rebel chief, Manofrita, was found Three of the government force wounded in consequence of not carrying out the orders that had been given them.

Senor Dupuy de Lome, the newly ap pointed Spanish minister to the United States, arrived here last evening. Seno de Lome made the voyage from Spain with Marshal de Campos and left him at Santiago de Cuba, proceeding to this port on the steamer Maria Christina. It is expected that he will proceed for New York on Saturday, after making an investigation of the company o tion into the Allianca affair.

Private advices from the province Santiago de Cuba show that the forces the insurgents do not amount to nearl the number claimed by the rebels. Amon the leaders of the various bands are En ilio Giral, a white man, who commands 200 men; Alfonso Goulet, mulatto, 500; Bernardo Camacho, white, 100; Victorians Garzen, white, 400; Luis Bonne, mulatto, 200; Eduardo Dominguez, white, 200; Vic-Chitral, an honorable asylum for himself and family and a reasonable number of his followers, in return for his uncondiple. Periz, white, 1,000, a total of 3,900 men. Of this number 1,900 are said to be armed with rifles, while the others use shot guns and machetes as weapons. The rebels do not possess a single piece of artillery.

Considerable excitement has been caused by the fact that the rebels are again resorting to incendiary tactics, which caused such enormous losses to the planters during the last insurrection. The central plantation, Dos Amigos (two friends), the property of Senor Nicolas Castano, situated on the coast near Manzanillo, has been burned by the rebels. Two million arrobas of sugar cane were destroyed. The advices do not show whether the machinery of the plantation was destroyed. These central factories contain very expensive machinery crushers, vacuum pans, centrifugals, and should the rebels burn many of them the loss would be enormous.

It is stated on good authority that the troops commanded by Colonel Santoclide have cooped up a band of insurgents in the mountains in the province of Santiago de Cuba, and that their capture is only a question of a short time. The rebels making a stout defense, and a very hot fire is being exchanged.
