TOPICS OF THE TIMES.

Pertinent Paragraphs From the Reporters' Pens and Pencils.

The continued advance in the price of meats will, no doubt, be an incentive for our Catawissa Valley farmers to go into the cattle raising business. If the farmerwould convert some of their cheap wheat into fat cattle they would get more money for their wheat and consumers would get cheaper beef, and all parties would be benefitted by the operation. This, of course, is upon the supposition that the advance in beef is caused by a searcity of fat cattle and not by a corner got up for the sole benefit of the beef trust. Meauwhile the best way to compel a reduction in the price of beef is for consumers, for the time being, to use more of the product of cheap wheat and other cereals and less high priced beef. The vegetable diet will be quite as nutritious for most people, and a little popular abstinence on this score will bring down the price of beef whatever the cause of its advance. The beef producers and dealers, wholesale and retail, grow and handle beef to sell, and if people won't pay exorbitant prices they will eventually get it at their own price The rise in beef has hardly come to stay, certainly not if beef consumers display a little common business prudence.

An exchange says if you want your town to improve, improve it. Just so, and if you want to make your town lively, make it so. Don't go to sleep but get up and work for it, talk about it and talk favorably. If you have property improve it, paint your house, clean up your alleys and back yards. Make your surroundings pleasant and you will feel better and your property will be worth more in the market. If you are doing reasonably good advise your friends to come and invest near you. Work for your home interests, trade at home; help your dealers: keep your money at home as much as possible and it is likely to help you in return. The successful towns have been made by property owners holding

Pension Commissioner Lochren on which 10,000 Union penaloners have been dropped from the rolls in order to make a nice showing of a reduction-which has already amounted to \$25,000,000-to the injury of the men who sacrificed their health that the Union might be preserved. Corporal Tanner was shamefully abused by the Harrison administration on account of his work in the interest of soldiers. while Commissioner of Pensions. He is the man who first discovered the fact that a two dollar pension is not enough to support an old soldier. He raised pensions of that kind, for the reason, as he gave it, that a pensioner who ought not theatre this evening. to have more than two dollars a month, ought not to have anything. Under his rulings in favor of the men who furnished penditures increased, and this brought the money. As a common, though very Corporal Tanner was ousted from his office. The Water Works.

The celebration in honor of the new works has been indefinitely postponed. To watch the dam of the public water works cost the borough Inst year \$380,75. The dam is there yet, but it leaks,

men assert, why don't they have it repaired and turn on the water ?

The estimated expense to run the new public water works, that has already cost about 40 or 50 fest from A. D. Gable's prothe taxp=yers nearly \$200,000, this year perty, which is nearer the front of his will be \$20,000-a mere trifle (?) and easily borne by the people.

Not counting carriage hire, refreshments, extras, &c., there was expended since two men were cutting and removing on the works last year, outside of the the nuisance on Catherine and Oak contracts, \$3,512.78. Most of this was for streets to make the street passable, which extra labor that should have been included in the contracts.

A Train Incident.

Miss Coffee, of Shenandonh, stepped aboard a Reading train at Tamaqua this morning, and placed a package of shoes near her seat, about two feet long by one wide and as high-the package. One of the trainmen espied the bundle and saying it could not keep company with the fair passenger, removed it to the baggage car. The young woman thought perhaps it was an act of politeness on the part of the trainmen, for everyone knows how polite they are, but on arriving at Mahanoy City she was confronted with a bill of twenty five cents for services rendered by the express company between the two towns. She is a young business woman and "kicked" like a young business man

but it did no good, so she paid the quar ter, and started for Shenandoah, vowing to travel via the Central and Mauch Chunk if it cost her several times as much. This rule of against carrying articles of merchandise in passenger car is one of old creation on the Reading, but it is just recently that it has been so strictly enforced .- Mahanoy City Record.

Mr. Jones Answers.

EDITOR EVENING HERALD :-- I noticed in the HERALD of Friday evening, 19th inst. a complaint was made by A. D Gable before the Council meeting on the previ ous evening about me dumping aulsance If the leak at the dam is of such a behind my stable, corner Catherine and small affair as some of the smart Council Oak streets. I wish the whole Council would make it a point to investigate the property above mentioned, and also investigate the lower end of Oak street, tenement houses than the back of my stable. After they do this I am satisfied Another inspection, by Council, of the they will decide the nuisance is a great more proper for this gentleman to pas would be better for him and less expense for the borough. It is only a few days is but forty feet from his property, right in front of the window of the property he lives in.
