Hard times still continue, owing to restricted work at the collieries. When, oh when, will they end?

Perhaps, after all, there was more smoke than fire in the reported damage to the new water dams. We shall see.

That was a beautiful rural sight on Main street, Sunday! Two cows, a sow with a large progeny, and three goats formed the scene

One or two more industries in town would employ much of our surplus labor, but then there is no encouragement for capital to locate here.

It is the desire of Council that no encouragement be given to outsiders to start manufactories in town. Our idle populs tion is permitted, however, to live best it can on what the Reading Coal & Iron Company permits. We never believed our Councilmen

would ever steep so low as to bunce people. Other towns would and do offer better inducements for manufacturers to locate in their midst.

The opponents of the new county expect to get another whack at it today. Our County Commissioners are on the ground at Harrisburg.

The cold rains of the past three days has put a veto on garden making and relieved spring fever patients somewhat.

If Shenaudoah had a Board of Trade, backed by Council with promises that would stand, we might have many more Industries. Cheap fuel, free water and no taxes for a specified time would do the business.

Hazleton, at one time, was owned by a half dozen coal monopolists and the poor miners and others had scarcely the hardihood to ask permission to breathe. Now the town is a hive of industry and busi ness is booming, mostly through the good sense of enterprising borough officials.

If there is to be a change in the admin istration of affeirs for the better in this borough the people must cease to elect Philadelphia & Reading Coal & Iron Company bosses to Council, else the town will go into the hands of receivers, as the company is now, all owing to the same

### A Skeleton in the Closet.

How often do we hear of this in domestic life at this day. But what is more appalling than the living body made repulsive with skin and scalp diseases, salt-rheum, tetter, eczema and soroinlous sores and swellings. Dr. Pierce's Golden Medical Discovery is the positive cure for all of these diseases. If taken in time, it also cures Lung-scrofula, commonly known as Pulmonary Consumption. By druggists

Keyaer, N. C.

Dr. R. V. Pizack: Dear Sir.—When about three years of age I was taken with mumps, also had fever, finally I had that dreaded disease—Scrofula. The most eminent physicians in this section treated me to no avail. I had running scrofulous sores on left side of neck and face. I was small and weakly when eight or nine years old, and in fact was nearly a skeleton. Six bottles of Dr. Pierce's Golden Medical Discovery wrought marvelons changes. Although the sores were healed in eight months, I did not quit taking it until I was sure it had been entirely routed from my system. The only signs left of the dreadful disease are the scars which ever remind me of how near death's door I was until rescued by the "Discovery." I am now eighteen years old and weigh 148 pounds, and have not been sick in five years.

Yours, respectfully.
