SPAIN has at last made up her mind to proffer that apology. But she has waited so long about it that nobody cares very much whether she apologizes now or not.

THE Spaniards in Cuba report that they have just won another great "victory" over Maceo, the insurgent leader. By day after tomorrow we may learn just how far the Spanish forces have been compelled to retreat in consequence.

THE cap and gown idea for commencement exercises has not found favor with the Honesdale school board. At its session last week the following resolution was presented and unanimously adopted: "Resolved, That the suggested innovation for the graduating class to wear caps and gowns on commencement evening is unanimously disapproved, and that the graduates be requested to dress simply and inexpensively. And we deprecate the custom of publicly making presents to members of the graduating class and also regret the large expense annually incurred for flowers. And we trust that the good sense of the parents and scholars may aid us to check these growing inappropriate and extravagant practices. And, be it further resolved, that all flowers given to the members of the graduating class be placed at the front of the platform before the beginning of the exercises and no flowers presented during the exercises." The graduating class has approved the policy of the board.

WHEN Colonel Waring, the Irish street Commissioner of New York city, says the Carbonate Leader called the members of the Grand Army of the Republic "pension bummers," he probably expressed the sentiment of the kid glove snobocracy of this whole country. The men and the sons of the men who sent substitutes and staid at home and got rich during the war have now only contempt for the humble men who ask their country to give them pensions. Perhaps some pensions have been granted to unworthy men. Ninety-nine hundredths of them have not. At a time when they had all that life offers aspiring youth before them, these young men turned their backs upon it all and went out to fight that this Union might be preserved. They gave up the trades they were going to learn, the education they were going to get, the professions they were about to acquire, the commercial enterprises that were to enrich them, and became soldiers. Some of those who went were older and left families of little children dependent on their daily wages. When gold was at par, in the beginning of the fight, they got \$1 a month pay. Afterward, when it required \$2.50 of our paper money to equal one of gold, the soldiers' pay was \$13 a month. Billed down to a gold basis, this was equal to less than \$5 a month, less than half what the poorest paid laborer in America received. Thousands of them left their bones decaying in unnamed graves on southern battlefields. The men who staid at home raised big crops or manufactured supplies for the army at the highest prices or lent money to the government. The soldier got 40 cents on the dollar, the bondholder lent 40 cents to the government and got back a dollar, with interest. This is cold fact. More fortunes were made during the civil war than at any other time in this country's history. Those who made them handed them down to their children. The soldier's children sometimes went to the poorhouse, sometimes were supported by charitable neighbors. When the war was over, the old boys were turned out to catch on again and pick up a living as they might.

WASHINGTON, May 2.—The monthly public debt statement shows the debt of the United States, less cash in the treasury, to be \$917,539,933, an increase for the month of \$9,709,537. The cash balance in the treasury is \$189,817,916, a decrease during the last month of \$7,000,340.

MONSTER CLOUDBURST IN MINNESOTA. WINONA, Minn., May 2.—There was a terrific cloudburst here yesterday afternoon. Within ten minutes an inch and a half of rain fell, flooding the streets beyond all precedent. Numerous buildings were struck by lightning, but no material damage is reported.

SIX INSTANTLY KILLED

And a Number Injured, Some Fatally, by a Kansas Cyclone.

SWEPT EVERYTHING BEFORE IT.

It Swept Over a Narrow Strip of Land for Sixteen Miles, Demolishing Every House in Its Path—Foregoing Saves Many School Children.

WICHITA, Kan., May 2.—A special from Halstead, Kan., says: About 10 o'clock yesterday afternoon a fearful cyclone devastated a strip of country several hundred yards wide and at least sixteen miles in length, killing six persons outright and severely injuring several others, while many have received slight injuries. The cyclone struck the house of Mrs. Fry, a widow who lived about nine miles southwest of Halstead, completely destroying it and slightly injuring Mrs. Fry. It picked up the house of John Schuitzbach and scattered it in every direction.

The fine two story house of Joseph Weir was entirely swept away, killing Mrs. Joseph Weir, Grace Weir, aged 11; Herman Weir, aged 6, and a 5-weeks-old baby. Mr. Weir had previously left the house, and when the cyclone struck it was about fifty yards away. He clung to a tree, but was badly injured by flying debris, and will die. Joseph Weir, Jr., and his sister, Maud Weir, the only ones in the family who took to the cellar, escaped with only slight bruises.

The home of E. C. Caldwell, which was 100 yards to the west of the Weir home, was unroofed and one side torn away. The family escaped by taking to the cellar. The next house in the path of the storm was William Armstrong's, which was completely wiped from the face of the earth. Mr. Armstrong was killed. Mrs. Armstrong seriously and perhaps fatally injured, and Grandma Chapin, who was there sick in bed, was killed. About a hundred yards east of the Armstrong house the large two story residence of B. E. Frizel was picked up, as was also the large two story house of J. E. Frizel, located just across the road, and both, together with the outbuildings, were completely swept away, leaving only enough debris to show that a house stood there. The families of both the Frizels escaped injury with the exception of Mrs. J. E. Frizel, who was considerably bruised about the head.

The next place visited was the home of Captain William White, which was only partly destroyed, one wing of the house being torn away. Across the road from White's the home of Cyrus Hinkston was entirely carried away. Mr. Hinkston received painful, but not serious injuries. Spencer Ross' house was in the line of the tornado, and was carried away, as were also the homes of A. S. Powell, J. A. Comas, Andrew Thompson and Menno Hago. Miss Daisy Neff, at Powell's house, was badly injured, as was Mrs. J. Comas. At the Hago district school the children had just been dismissed. Mr. Hago saw the storm approaching, and fearing its results hurried the scholars to his cyclone cellar. His foresightedness prevented an awful holocaust, for just as the last child had been safely stowed away in the cellar the cyclone struck the house over them and demolished it. As it was not one of them was even slightly injured. The fury of the storm seems to have done its worst about five miles west of Halstead, where all six of the persons were killed.

Those who first saw the disaster coming say it made very slow progress, traveling not faster than a person could run. It seemed to waver first in one direction, then in another. As far as heard from, covering a distance of eighteen miles across the country from southwest to northwest, twenty residences, nearly all of them large ones, were completely destroyed. The loss will fall not less than \$200,000, besides the six deaths and the injured, two or three of whom will probably die.

Physicians from Wichita went to the relief of the injured and local assistance is given to the suffering families. Everybody in the track of the storm lost everything, and outside aid will probably have to be called for.

PRICE'S Confession of Murder. DEXTER, Md., May 2.—In the trial of Marshall E. Price for the murder of Sallie Dean, Detective Seibold, of Baltimore, testified that Price said to him on the train when under arrest: "I want to tell you about the murder. I can't keep it any longer, for my heart is breaking. I did the deed." Price added, in answer to a query: "So help me God, I did not criminally assault her." The defense objected to the introduction of a type written copy of Price's confession of the murder made in Baltimore.

ONE KILLED, ONE DISMEMBERED. TRENTON, May 2.—Last night Andrew Gromberg, aged 45, of 778 Eleventh avenue, together with an unknown man, jumped from a Pennsylvania railroad freight train, upon which they had been stealing a ride, and started across the track at the Bridge street crossing. They were struck by a passenger train, which killed the unknown and cut off both of Gromberg's legs.

PEACE TREATY NOT YET ESTABLISHED. PEKIN, May 2.—No decision has yet been reached in regard to the ratification of the treaty of peace. Li Hung Chang, the senior Chinese peace envoy, has arrived in Peking and been given an audience with the emperor, but what action was agreed upon, if any, is a court secret. No edict has yet been published concerning the result of the deliberation.

A DEATH SENTENCE CONFIRMED. HAMBURG, May 2.—The board of pardons last night decided to recommend a pardon for Charles Clark, of Allegheny, for assault. The death sentence of Fred McDonnell, the Crawford county boy, was commuted to life imprisonment. The case of Hugh F. Dempsey, the Pittsburg labor leader, was held under advisement.

PUBLIC DEBT STATEMENT. WASHINGTON, May 2.—The monthly public debt statement shows the debt of the United States, less cash in the treasury, to be \$917,539,933, an increase for the month of \$9,709,537. The cash balance in the treasury is \$189,817,916, a decrease during the last month of \$7,000,340.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria is the Children's Panacea—the Mother's Friend.

Castoria is well adapted to children that I recommend it as superior to any prescription known to me. H. A. ACHESON, M. D., 111 So. Oxford St., Brooklyn, N. Y.

AN ALARMING REPORT.

Investigation Proves No Ill Feeling Between Indians and Settlers. FARGO, N. D., May 1.—United States Marshal Cronan received the following dispatch from Deputy Scamander, at St. Johns: "Between 20 and 30 hostiles at Langan are preparing to resist, and citizens are leaving St. Johns through fear. If you come at all, bring assistance enough to quiet the disturbance and protect settlers."

It is stated also that the Indians had burned the houses of settlers who had testified against them. But on running the story down it appears that but one case of that kind has occurred. Sunday the marshal and deputy had a council with the Indians who had rescued a half breed chieftain from arrest, and told that they had come there to arrest the parties, and that they should surely do it. Little Shell, chief of the Turtle Mountain Indians, told them that the government had never paid the Indians for their land, that he had given permission to cut the timber, that he had a right to give that permission, and that they would not allow any one to be arrested for cutting timber under his orders or with his permission.

The marshal reiterated the statement that they had come to make arrests and intended to do it. The Indians asked who they wanted, and on being informed, they called the persons, and when they came in the marshal read the warrant and undertook to make the arrest, but the Indians forcibly resisted. The marshal returned to Fargo and wired the attorney general for instructions. The offense is slight at most, and feeling is general among the settlers that the indictments against settlers and others in that region are more for the purpose of making fees for officers than any other purpose.

There is no probability that anything will come out of the alleged outbreak. There is no feeling between citizens and Indians, but towards Shindler, the deputy who made the arrest, and has made himself obnoxious in other matters, the feeling is bitter.

AFTER Maryland's Congressmen. BALTIMORE, May 1.—Ex-Congressman Isador Raynor, who proposes to make a determined fight for the Democratic nomination for Maryland's governorship, regardless of party machinery, opened the campaign at Music hall last night in the presence of 3,000 people, including hundreds of ladies. The addresses were received with much enthusiasm.

MURDERER GARROTT'S Desperation. LEBANON, Pa., May 1.—Charles Garrett, the wife murderer, who is to be hanged on Tuesday next, sent for District Attorney Seltzer and several newspaper men yesterday, and when they arrived whipped out a big dirk, which he had concealed on his person. It is feared that he intended to kill the district attorney, but that official gave the prisoner to understand that he was afraid of nothing. Garrett displayed some temper, and then declared that the knife had been given him by Jules Ferry, a fellow prisoner, a week after the razor had been found upon him. He called attention to several bars in his cell, which had been cut through and the grooves filled with soap. Then he asserted that his sister, Sallie Garrett, gave Ferry a file, which Ferry had refused to give to him. It is believed that Garrett had intended killing District Attorney Seltzer, but that his nerve failed him. The knife was taken from him, and he will be closely watched.

RUSSIAN boarded the Dutch brigantine Anna off the coast of Morocco, killed the captain and pillaged the vessel.

Governor Greenhalge, of Massachusetts, has appointed a committee to represent the state at the Mexican exposition.

New York's grand jury indicted Solomon H. Mann on a charge of causing the death of Miss Loretta Hannigan by a criminal abortion.

Leo Ward, a West Virginia moonshiner, was killed while resisting arrest. A hundred moonshiners have been arrested in Logan, Wyoming, McDowell and Mercer counties.

A shooting match for \$1,000 a side and the championship of America has been arranged between A. J. Van Dusen, of Winona, Minn., and Fred C. Ross, of Brooklyn.

Fifteen thousand coal miners employed along the Ohio extension of the Norfolk and Western railroad, near Pocomah, Va., are out on strike against a 30 per cent reduction.

An American named Howard is under arrest in London charged with possessing engraved plates for forging Bank of France notes, various railway bonds and American postage stamps.

SPANISH OFFICER EXECUTED.

Lieutenant Gallego shot for Cowardice in a Fortress at Havana.

HAVANA, May 2.—Lieutenant Valentin Gallego, who surrendered fifty Spanish soldiers to the rebels and who was afterwards captured and turned over to the military authorities here, was after trial by court martial, sentenced to be shot. This sentence was carried out yesterday in the fortress of Cabana here. Lieutenant Valentin Gallego should not be commended with Lieutenant Benjamin Gallego, of the Peninsular regiment, who was recently tried by court martial and shot at Santiago de Cuba for allowing the rebels to surprise him in a saloon at Juraguas City.

In approving the sentence of the court martial which condemned Lieutenant Valentin Gallego to death, Captain General Martinez de Campos issued a proclamation in which he said that it was the first time in the history of his military life that he had known a Spanish officer to be executed as a coward.

Lieutenant Valentin Gallego's execution was conducted with the usual military ceremonies, and he personally gave the order for the firing squad to shoot.

The captain general has left here for Matanzas, Cardenas, Santa Clara and Cienfuegos. During the absence of Captain General Martinez de Campos from Havana, General Jose Arderius will act as captain general.

NICARAGUA TROUBLE SETTLED.

Honduras Would Have Sent Soldiers to Aid Nicaragua If Needed.

LONDON, May 2.—In spite of the statement which emanated from the foreign office saying that there has been no change in the attitude of Great Britain towards Nicaragua, it is learned that Great Britain has agreed to the proposed settlement of her dispute with Nicaragua if the payment of the indemnity is guaranteed. In this case the British fleet will immediately withdraw from Corinto. It is not known what guarantee Great Britain demands for the payment of the indemnity, but it is believed in official circles that the affair is practically settled.

MANAGUA, Nicaragua, May 2.—The Honduras government has given assurance to Nicaragua that her troops will be at the disposal of Nicaragua should they be necessary. This is the only tender of troops that has been made by the Central American governments, although the other republics have shown their interest and cooperation in other ways. The offer from Honduras is not likely to be accepted, owing to the present favorable turn of affairs, but at one time there was a prospect of concerted action by the forces of the two countries.

An Alleged Female Dentist in Trouble.

PORT SCOTT, Kan., May 2.—At Hiattsville, a small village near here, over half a dozen people have been poisoned, some of them perhaps fatally, by medicine administered by a traveling woman dentist, who has skipped the town since the condition of her patients became known. The victims are: Taylor Paxton, pastor of the Methodist church; Misses Myrtle Wallace, Nora, Burtwell and Lizzie Liddell, and Mrs. William Clark. Miss Liddell is dying, and it is feared some of the others may succumb. The dentist traveled under the name of Dr. Alberta Oberlin, and advertised herself as a "painless tooth extractor of St. Louis." In the dispatches which have been sent out asking her arrest she is described as "a large, remarkably handsome woman of stylish and prepossessing appearance."

Denying the Beef Trust Story.

CHICAGO, May 2.—Phillip D. Armour denies the assertion that a trust in beef exists, and that it is caused by a combination of the firms of Armour & Co., Nelson Morris & Co. and H. H. Swift & Co., of Chicago. "It is perfectly astonishing," said Mr. Armour, "that this craze is so widespread, and that there are so many believers that there is a beef trust. I say with all sincerity that Armour & Co. did not make any money in the beef business during the year 1894, and up to the present the year 1895 has proved equally bad."

Burned to Death in a Stable Fire.

WILMINGTON, Del., May 2.—Frederick A. Froseny, a 23-year-old colored man, was burned to death in the stables of the Wilmington Transfer company yesterday. The unfortunate man had evidently been asleep in the second story of the building when the fire broke out, and when he awoke he saw that escape by the front door was cut off. Again and again he threw the weight of his body against a barred window, but was unable to break through, and he perished in sight of hundreds who were powerless to help him.

Great Britain's Saub to China.

SHANGHAI, May 2.—The Chinese inhabitants of the Island of Formosa recently sent a deputation to the British representative there, urging him to request the British government to prevent the Japanese from annexing the island, and offering in return for this protection a large share in the profits of the Formosa mines. The matter was referred to the British government, which replied that it could not entertain the proposal.

Secretary Gresham Again Ill.

WASHINGTON, May 2.—Secretary of State Gresham is again confined to his rooms at his hotel suffering from an attack of acute neuralgia of the stomach, with liver complications, very similar to that he experienced about two months ago. His illness was aggravated for a time by the pain due to the passage of a gall stone, though the effects of this have completely disappeared.

Police Men Stoned in Austria.

VIENNA, May 2.—About 30,000 workmen attended May Day meetings here and in the neighborhood yesterday. The usual resolutions favoring eight hours as a legal day's work, freedom of the press and universal suffrage were adopted. In the Meidling district a crowd of people stoned the police, and several arrests were made in consequence.

Lost Stolen Money by Speculation.

EAU CLAIRE, Wis., May 2.—Harry B. McMaster, assistant cashier of the Eau Claire National bank, is an embezzler to the amount of \$25,000, and was arrested last evening. The stockholders here made up the shortage. It is claimed that McMaster lost the money speculating on the Chicago board of trade.

Lacks Courage to Commit Suicide. LEBANON, Pa., May 2.—Charles Garrett, the wife murderer, told Sheriff Stone yesterday that last week he decided to commit suicide and made the attempt Tuesday night by cutting his wrist. After making a slight cut, he said, his courage failed him, and he has now concluded to prepare for death.

RESCUED FROM TORMENT.

Every Joint in His Body Marked by Rheumatism.

Could Not Move His Arm and Was in Constant Pain—A True Story of a Remarkable Cure.

William F. Maier, 18 Park Place, Zanesville, Ohio, writes: "About a year ago I had to quit work on account of rheumatism. I had the disease in my hips, back and arms, in fact, in every joint in my body. The pain was intense, and I suffered the most excruciating agony. My doctor could not do anything for me, and I tried every remedy that could be suggested; none of them did me any good, and finally my joints became stiffened and sore. At times I could not move my right arm, and was in constant pain. I procured a bottle of Munyon's Rheumatism Cure, and within a short while was completely cured. I am free from stiffness and pain, and can cheerfully recommend Munyon's Remedy as the best I have ever known."

Munyon's Rheumatism Cure acts almost instantaneously, curing many obstinate cases in a few hours. It is guaranteed to cure rheumatism in any part of the body. Acute or muscular rheumatism cured in from 1 to 3 days. It never fails to cure sharp, shooting pains in the arms, legs, sides, back, or breast, or soreness of any part of the body in from one to three hours. It promptly cures lameness, stiff and swollen joints, and all pains in the hips and loins, chronic rheumatism, sciatica, lumbago or pain in the back are speedily cured. It seldom fails to give relief after one or two doses, and almost invariably cures before one bottle has been used.

Munyon's Homoeopathic Home Remedy Company, Philadelphia, put up specifics for nearly every disease, which are sold by all druggists, mostly for 25 cents a bottle.
