CLEVELAND'S WARNING

The President's Pertinent Letter to Mississippi's Governor.

THE EVILS OF FREE COINAGE.

The Chief Magistrate Predicts That a Free Silver Platform Would Result in the Defeat, If Not the Disintegration, of the Democratic Party.

JAURSON, Miss., May 4 -Governor Stone gives to the Associated Press a letter ad-dressed to him by President Cleveland under date of April 29. The following is

the full text of the letter: "My DEAR SIR -- Your letter of the 21st inst, is at hand. I do not feel inclined to find fault with your critisism, but think the matters you refer to should be judged in the light of the circumstances existing at the time the things were done. I never had an idea of building up or fostering a should properly influence me in making appointments I have tried to be Domocratic, and not prescriptive.

"I am glad you are frank enough to ad mit your participation in bringing about lition in office hobling which may a coll not be all that could now be desired Whether these appointed to places shall in speech and action behave decently to-wards the administration under which they hold office must remain, to a large extent, a many r of tasts and good breed ing. There are, however, some officials who devote themselves so industriously to vilification and abuse of those unde whom they hold office as to Indients that their fidelity cannot be trusted for the performatics of their daties in a manner creditable to the administration, and who apparently assume that they may spend the time they owe the public service in doing political mischief. In the interest of good government such office holders must not be surprised if they are summarily d alt with

When I received your lotter I had just finished reading a letter of yours in which you explain to the citizens of Mississippi your views on the currency question. It meems to me you have in that letter contributed in the hestpossible style and in a most valuable way to the fund of argument in favor of sound money. I have never ceased to wonder why the people of the south, furnishing so largely as they do products which are exported for gold, should be willing to submit to the disadvantages and loss of silver monometallism and to content themselves with a depreci-ated and fluctuating currency, while per mitting there to reap a profit from the transmution of prices of their production from silver to gold. I hope this letter of yours will be given the widest possible circulation, especially among our southert follow citizens, and that they will be per-mitted to see the pitfall which is directly before than who madly rush towards the phantom light of free, unlimited and in-

dependent silver colonges "If w who profess fealty to the Democratic party are sincere in our devotion to its principles, and if we are right in be-Reving that the assumency of those prin-ciples is a guarantee of personal liberty, universal care for the rights of all, nonsectional. American brotherhood and manly trust in American citizenship in every part of our land, we should study the effects upon our party, and conse-quently discussion auntry, of a committal the national Democracy to the sliver

Dr. R. V. PIERCE : Dear Sir-When about Dr. R. V. PIERCE: Dear Sir-When about three years of age I was taken with mumps, also had fever, finally I had that dreaded disease-Scroftula. The most eminent physicians in this section treated meto no await. I had running scrofnhous sures on left side of neck and take. I was small and weakly when eight or nine years old, and in fact was nearly a skele-ton. Six buttles of Dr. Pierce's Golden Medical Discovery wrought marvelous changes. Although the sores were healed in eight months, I did not quit taking it until I was sure it had been entirely routed from my system. The only signs of the dreadful disease are the scars which ever remind meed how near death's dror I was until rescued by the "Dis-covery." The Duke of Edinburgh succeeded to the throne of Saze-Coburg and Gotha on the death of his uncle, Duke Ernest. The British parliament had voted to him the sum of £25,000 per annum, but shortly after his accession he renounced £15,000 of the sum, but desired to draw the remaining ± 10.00 y ariy. Mr. Labouchers wanted to discuss the question of the payment of this $\pm 10,000$ in the house of commons, but was informed that the opportunity to do so would not be afforded. Mr. Labouchers, then asked leave to move the adjournment of the house in order to debate the intention of the government to continue the payment, but only thirty-eight members supported him. A division was claimed, with the result that leave to move was refused by a vote of 177 to 59. Later in the session the government was
