"Our daughter, Blanche, now fit teen years of age, had been terribly afflicted with nervousness, and had lost the entire use of her right arm. We feared St. Vitus dance, and tried the best physicians, with no benefit. She has taken three bottles of Dr. Miles' Nervine and has gained 31 pounds. Her nervousness and symptoms of St. Vitus dance are entirely gone, she attends school regularly, and has recovered complete use of her arm, her appetite is splendid." MRS. R. R. BULLOCK, Brighton, N. DEVERMINED MARKEAL CLOWIN.

He Prepared for an Attack on the Erbel-Hous Halfbreeds, Who Wented Further Time to Hear from Washington, but Were Informed That It Was Too Late,

ROLLA, N. D., May 6 -The half breed rising has been squelebed, and without loss of life. Marshais came here on Sat-urday from St. John in consequence of in-formation received that an attempt might be made to rescue Laspele Langen, who was arrested Saturday noon. Pickets were left on duty all night, but no attempt was

Deputies were astir soon after daybreak restorday, Marshal Cronin having decided that further effort at inducing a peaceful surrender was misplaced, and determined if they would not surrender their fort at Langans to storm it. A posse left here in a wagon soon after 6 o'clock, and drove eighteen miles to the half-breed fort. As it was known that they had mounted scouts watching the direct road the posse struck east, coming on them from an un-

expected direction, so they had no time to gather from the outlying country.

The fort was reached at 9:30 o'clock, the wagons being left half a mile in the rear, and the deputy marshals advanced, spreading out so as to command the north and west sides, those being easiest of access. Spades had been brought and the marshals began preparing shallow rifle pits. Marshal Cronin and Indian Agent Hall, leaving their rifles behind, walked up to the fort, the deputies keeping a sharp lookout for any hostile, movements should the breeds refuse to talk with Cronin, but told Hail they wanted still further time to hear from Washington. Cronin told them to make up their minds quickly, as he mount to attack them at one

By 10:30 o'clock Marshal Cronin was ready to begin, when the breeds sent out a ready to begin, when the breets sent out a message that they wanted to see him. He returned word that they could send one of their chiefs, and they sent Chasseur Lapotreau, who was chief in the raid on the St. John hardware store on Thursday night, when they stole all the guns and ammunition. Lapotreau wanted time to hear from Washington, but was told he was too late. Then he offered to surrender the men for whom warrants were out ex-cept Red Thunder, but Marshal Cronin told him that they must surrender absolutely and give him all arms and ammu-nition, and he should arrestall he wanted. 123 E. Centre St., Shenandoah If he did not like these terms the marshals had come there to fight, and were ready All this time the deputies had been work-ing near by, and now had a temporary cover provided within 150 yards, at which distance the Winchester buliets would

easily riddle the logs.

Soon after 1 o'clock the breeds surrendered unconditionally, though it was 2 o'clock before the prisoners were loaded in wagons. Fifty-four guns were found, most of their Winchesters having been hidden, but they can be found later.

Each man was required to write his name on his gun. Only those for whom warrants were already out were taken to town, the others being allowed to go for the present. They are Red Thunder, Joe Langan, Joe Demarcis, Chasseur Lapot-reau, Francois Langan, Alex Leroque and Daniel Short. Red Thunder made a des-perate resistance when arrested, attacking Deputy Daggett with his knife. It took three men to handouff him. He is 37 years old, but almost crazy and possessing manlacal strength. While negotiations were pending he had tried to kill one of his reeds for favoring surrender. Much credit is due to Marshal Cronin

for the way this has been handled without loss of blood. A repulse of the mar shals would have started serious trouble Agent Hall is also entitled to much credit for his courage in going among the breeds in the fort counseling submission. About fifteen citizens of Rolla and St. John brought out arms and acted with the marshal.

Chief Little Shell was arrested on the reservation and brought in last night. When returning to the agency after the surrender Agent Hall met a band of 150 breeds and Lidians on the way to St. John to reinforce the breeds at Langans. Agent Hall succeeded in persuading them to turn back. If they had arrived while the attack was in progress it might have been unpleasant for the marshals.

The Poverty in Cuba. Maddid, May 6.—General Calleja, for-merly captain general of Cuba, has ar-rived here from Havana. In an Interview he stated that he was aware of the begin ning of the rising in Cuba, and was in formed as to the movements of the fillibus-ters in the United States and the separatists in Cuba. He was, however, power-less to prevent the rising in the eastern and of the biland, ewing to the want of organized troops and the scarcity of war material. He had only 9,000 soldiers and 4,000 raw regretts, a force that was not adequate to garrison the towns, let alone to take the field, against the rebots. The poverty prevailing in Cuba, he declared. had forced many starving men to join the

Stole a Fortune from the Carson Mint. DENVER, May 6,-United States deputy marshals are looking in this state for the assayer who, it is said, escaped from Carson, Nev., with \$80,000 stolen from the mint. It has been learned that a man fully answering the fugitive's description arrived at Kokomo, Col., about five weeks ago, and began investing in mining prop-erty. When this man escaped the officers got on his track.

A Professional Nurse Afflicted With Bright's Disease of the Kidneys Finds a Cure.

(From the Buffalo News.)

Mrs. A. E. Taylor has resided in Buffalo for over 40 years, her address is 250 Her-kin,er Avenue, as a professional nurse she has nursed back to health many a sufferer, Disease in all its varied forms have become as familiar to her as to the regular practitioner. Her occupation is one that taxes the strongest constitution, but the fatigue of long watching and nursing at last brought her to a bed of sickness. Mrs. Taylor speaks of her complaint and cure follows: "After being confined to my bed for some time my disease assumed such a serious aspect that a doctor was called in. He pronounced my ailment Bright's disease of kidneys in the third degree and a very bad case. My limbs swelled up so that I could not walk across the floor, or, indeed, heip myself in any way. My face bloated up and my eyes swelled so that the sight was badly impaired. This condition continued for early two months with a transfer of the condition of the conditi nearly two months without any marked improvement from the doctor's treatment. I have taken quarts of buchu and juniper. I tried battery treatment, but all without any lasting benefit until I felt like finally giving up in despair. Hearing of Doan's Kidney Pills I gave them a trial, and after taking three boxes I was able to get up without assistance and walk, something I und not done in months. I continued without assistance and walk, something I had not done in months. I continued steadily to improve with their use. The awelling in my leg left, the color returned to my face, changing from a chalky color to a bealthy bloom. I now consider myself entirely cured and I shall never rest praising the little pill that saved me.

"Doan's Kidney Pills are certainly a surprising discovery for kidney allments. I shall be glad to tell anyone of the wonderful cure they performed on me."

The Notorious Black Flags of China Again Threatening.

APAN WILL YIELD TO THE POWERS

Willing to Dive Up All Claims to the Island of Formesa on the Payment of a Larger Indemnity-No Hope of Referm

LONDON, May 6 -The Times has a disnatch from Pokin saying the fact that the emperor has ratified the treaty of peace with Japan is known to only a few Chi-ness. No edict in regard to the matter has been Issued. Prince King, president of the Tsung-Li-Yamen, urgod the emperor to ratify the treaty. Many Chinese would have preferred that the Japanese reach Pekin before the peace conditions were agreed to, as the Chinese government would then have been compelled to in-Itiate reforms, whereas, under the present circumstances, there is small chance of any reforms being made.

A Hong Kong dispatch to The Times states that the governor of Formosa says that its cession to the Japanese will pro-duce a rebellion. He declares that he has lost all control of the soldiers, and foreigners must save themselves. The leader of the Black Flags has appealed to his men to carry out his original orders to prevent the Japanese from landing on the island. Pincards written by the literati have been posted in conspicuous places and circu lated among the people, calling upon them to resist the Japanese, and saying that if the island is to be ceded to any nation they prefer that it should be given to Great Beltein. Britain

The Black Flags are predatory, irregu lar forms. They are not on China's pay, though sometimes she has a little author-ity over them. Warfare is their profes sion. They depend upon it for bread, and they raid and rob Chinese and others indiscriminately. They have no law but the commands of their leaders. They are much colder and more warlike than the average Chinaman, and have little fear of death The French were greatly troubled by them in Tonquin.

It is said if the Chinese can turn the Black Fings upon any specially hated enemy they consider it a great stroke of enterprise. It is also said that when the French, during the Tonquin campaign. sent an officer to Tientsin to complain to Viceroy Li Hung Chang against the outrages of the Black Flags, and to demand that he secure their punishment, the viceroy said that he had no more control over them than the French had; they were robber scamps, and China disavowed them. China would be delighted if the French caught them and beheaded them.

A dispatch from Paris says The Temps has a telegram from St. Petersburg stating that Japan has replied to the friendly protest of Russia, Germany and France. Japan agrees to renounce possession of the Liao Tung peninsula, but says she will retain Port Arthur. This compromise leaves intact all the dangers that the pow-ers wished to avoid. Fresh representations have been made to Japan, and the negotia have been made to Japan and the negotia-tions are actively proceeding. Japan will prebably yield Port Arthur, though do-manding to hold the place temporarily, which the powers will concede.

A Berlin dispatch says that nothing has occurred to diminish the hope of an amic-

able settlement of the trouble in connec-tion with the Chinese-Japanese peace treaty, though it would be difficult to say upon what basis it will be. It is probable that the compensation to Japan for fore-going possession of the Lino Tung penin-sula will be the payment by China of an increased Indemnity.

Jabez Balfour's Return to England.

SOUTHAMPTON, May 6 - Jabez Spencer Balfour, the ex-member of parliament who has gained world wide notoristy through his connection with the collapse of the Liberator Building society and other allied concerns, and by the long continued efforts of the British government to secure his extradition from Argentina, whence he fled, arrived here at midnight from Buenos Ayres on board the steamer Tartar Prince. His arrival caused the greatest excitement, and every precaution was taken to protect him, it being feared that some of his many victims who were completely ruined by the failure of the building sectory would attempt to assail him. The dock was closed to the public and Balfour was placed on board a special train and taken to London.
