Evening Herald.

THURSDAY, MAY 9, 1918.

The peach crop down in Delaware still continues unharmed. Glad tidings.

A COUNCILMANIC blow-out, in times past, meant the burying of the hatchet. Will we have peace this year?

ENGLAND has gained her point in Nicaragua, but the fact remains that her way of doing so was undignified and discreditable.

It is difficult to understand where a European nation gets the right to say that Japan shall not accept what China is willing to give.

THE Treasury statement for April is disappointing and discouraging; which is equivalent to saying that it is just like the Democratic party.

TIMES are getting better, if we are to believe an official of one of our local banks. "We are making money, and that is all we care."

The strawberry-box is now abroad in the land as an object lesson on the subject of a currency that doesn't measure up to its alleged value.

THE next President of the United States will be a believer in the Monroe doctrine, which means protection against European competition in American affairs.

THE good times come slowly on account of Democratic hindrances, but they are coming, and nothing can prevent the gradual restoration of general prosperity.

THE Kentucky Republicans have a better chance to carry the state this year than they have ever had before; and there is every reason to believe that they know how to make the most of it.

A MICHIGAN artist has just finished a fine portrait of President Cleveland, and it is painful to think of the number of Democrats in that and other states who would like to turn it to the wall.

THE prices of shoes are to be advanced on account of the increased cost of leather under the new tariff law—a conclusive reason why Democrats who do not go barefooted should vote the Republican ticket.

THE HERALD takes no back seat with any journal in the county when it comes to benefiting the county or its own town, but it will not act as the organ of hypocrites. We will not advocate one thing and mean something else.

WHEN that cyclone entered South Dakota it crossed a railway track twice, was finally attracted back to it, and followed it for two miles. Is that fact to be accounted for by a connection between the electricity in the cloud and the metal of the rails?

THE spring fever is greatly more prevalent than the grip, though not nearly so uncomfortable or likely to prove fatal. When it attacks you, instead of succumbing to its enervating influence, fight it off by getting into some active employment, that will open the pores and start the perspiration freely. A good bath in the evening will hasten and complete the cure.

THE company authorized in New York to move tows by electricity on the Erie canal, after examining many methods has decided on what is called the cable way system. This consists of two strong parallel cables strung along the banks. The upper cable carries the current, and the lower one is connected with it by a shaft and motor. From the latter a towline runs to the canal boats, and draws them along smoothly and steadily. The idea of using propellers or paddle-wheels was abandoned on account of the waves they cause, with resulting injury to the banks. A double section of eleven miles near Buffalo will be in operation this season.

VICTORY FOR PENROSE.

Alleged Philadelphia Corruption to be Investigated.

THE INVESTIGATORS APPOINTED.

William H. Andrews, of Crawford County, will probably be Chairman of the Committee, which will begin its work after the Legislature adjourns.

HARRISBURG, May 9.—In the senate yesterday the Penrose resolution, providing for an investigation of the administration of the municipal affairs of Philadelphia, was reported with a favorable recommendation by Mr. Grady, who had been deputed by the general judiciary committee to perform that task. Mr. Osbourn of Philadelphia, who stated during the discussion of the original resolution when introduced that he would be almost tempted to resign his seat if it were adopted, was the only member who recorded his vote against the resolution. Lieutenant Governor Lyon announced as the committee to make the investigation Messrs. Andrews of Crawford, Grady of Philadelphia, Kennedy of Allegheny, McCarrell of Dauphin, Hardenshough of Wayne and President Pro Tem. Thomas of Philadelphia.

There is a criticism that the committee has no Democratic senator in it. This is explained by Senator Penrose in this way. The committee consists of but five members, and the Democrats do not control one-fifth of the membership of the senate. Consequently, as a party it is not entitled to recognition in this committee. Another reason given to the Democrats why they have no representative on the committee is that this is to be an investigation of a Republican city by a Republican senate. The Democrats are grumbling at the snub, however.

Silas W. Pettit, president of the Union League, will be chosen general counsel, and will have the opportunity to become a judge. The committee will not begin the investigation until after the legislature adjourns.

The chairman will be elected by the committee when it organizes. The chairman of the committee, it is thought, will be Mr. Andrews.

The calendar of bills on third reading and final passage having been cleared the senate took up the second reading calendar, and sixteen bills were passed on second reading, when the senate adopted a resolution to adjourn until next Tuesday afternoon.

The patriotic societies received their first setback in the house by the refusal of that body to pass finally the Landis bill in its original form. The measure, as it passed the senate, required school boards to purchase out of the public funds flags made of American bunting by American workmen, out of American wool, and displayed on the school houses in their respective districts on staffs of American timber. The bill was amended so as to make it permissive, and then laid aside for printing.

The Andrews bill, requiring railroads in Crawford county to build fences along the line of their roads in that county, was killed on final passage by a very decisive vote. This measure has been before the legislature at every session since 1887. Only once it was passed, and then it was vetoed by Governor Pattison. Its friends will endeavor to have it reconsidered and make another fight to pass it.

Chairman Niles reported from the general judiciary committee a statement of its action on the petition of James W. M. Newlin, of Philadelphia, charging Judge Gordon with holding a secret court in violation of the bill of rights, and asking that impeachment proceedings be instituted against the judge. The committee completely exonerates Judge Gordon and dismisses the petition.

Greater Pittsburg Bills Signed.

HARRISBURG, May 9.—Greater Pittsburg is assured. The three annexation bills were approved yesterday by the governor. In honor of this action the Pittsburg members of the house and senate tendered a banquet last night to the legislature, state officials and employees. Over 400 covers were laid and Senator Flinn acted as toastmaster.

Income Tax Rehearing Closed.

WASHINGTON, May 9.—The rehearing of the income tax case in the supreme court was concluded yesterday, and the nine justices took the question of the constitutionality of the act, in whole or in part, under consideration. On the 20th of this month the court will meet, probably for the last time this term, to render its decisions in pending cases, and it is expected that its conclusions upon the income tax will be announced at that time. Mr. Joseph H. Choate, of New York, finished the closing argument which he began on Tuesday. Justice Jackson was one of the most aggressive of the nine men on the bench throughout the hearing.

The Armistice Extended.

YOKOHAMA, May 9.—China has asked for a further extension of the armistice granted by Japan in order that the ratification of the treaty of peace may be exchanged. Japan has consented to extend the time of the armistice five days. Count Myoji, secretary general of the Japanese council of ministers, arrived at Chefoo on Tuesday and met Lord Li, son of Li Hung Chang, and junior Chinese peace commissioner. Count Myoji asks for Viscount Mutsu, the Japanese foreign minister, who is ill, in the exchange of the peace treaty ratifications.

Peace in Hayti.

NEW YORK, May 9.—It was reported on board the Atlas line steamship Andes, which arrived last night from Hayti ports, that just before she sailed for New York, President Hippolyte, of Hayti, with his army, had returned from a tour of the republic, and that peace prevailed. The legislative body was to meet shortly, and it was rumored that inquiries were to be made as to alleged frauds in relation to the public funds.

Newfoundland Will Remain Independent.

ST. JOHN'S, N. F., May 9.—The Daily News (Independent) says it is an open secret that confederation with Canada has been practically abandoned. The government party has decided to repudiate the course of the delegates to Ottawa, and will attempt to carry the colony on by means of retrenchment.

Fatal Explosion of Dynamite.

SAN CARLOS, Mex., May 9.—By the explosion of twenty dynamite cartridges in a store three families are orphaned and several persons badly injured. The wounded were taken to Monterey for treatment.

A PUBLIC BENEFACTOR.

Professor Munyon's Great Work Among the Suffering.

His Medicines Are Marvels in the Way of Effecting Cures.

Mr. George Lodge, the well known real estate dealer, Third and Federal streets, Philadelphia, Pa., is not only one of the most prominent real estate brokers in the city, but is the general manager of the new underground system of electrical propulsion, which is destined to supersede the overhead trolley. Read what he says:

"Ever since 1898 I have been a great sufferer from sciatic rheumatism. There were times when the excruciating pain nearly drove me insane, and I was practically helpless. Upon a friend's advice I was induced to try Munyon's Rheumatism Cure. After taking a few doses the pain left me and I have not had the slightest symptoms of any return of the disease. I have recommended this remedy to several of my friends, who have also been cured."

Munyon's Rheumatism Cure is guaranteed to cure rheumatism in any part of the body. Acute or muscular rheumatism is cured in from one to five days. It never fails to cure sharp, shooting pains in the arms, legs, sides, back or breast, or soreness in any part of the body in from one to three hours. It is guaranteed to promptly cure lameness, stiff and swollen joints, stiff back, and all pains in the hips and loins. Chronic rheumatism, sciatica, lumbago or pain in the back are speedily cured.

Munyon's Homeopathic Home Remedy Company, of Philadelphia, put up specialties for nearly every disease, which are sold by all druggists, mostly for 25 cents a bottle.

Those who are in doubt as to the nature of their disease should address Professor Munyon, 1505 Arch street, Philadelphia, giving full symptoms of their disease. Professor Munyon will carefully diagnose the case and give you the benefit of his advice absolutely free of all charge. The remedies will be sent to any address on receipt of retail price.

It Will Be a Great Day.

One of the events of the year will be the dedication of the mammoth and magnificent temple of the Independent Order of Odd Fellows, just completed, at Philadelphia. The dedicatory ceremonies, which will be of a highly impressive character, will take place in the new building on Tuesday, May 31, and will be supplemented by a great parade of the Order in the afternoon of the same day. The procession will be one of the largest and most imposing civic pageants ever witnessed in this country, and it is predicted that more than 100,000 visitors will pour into Philadelphia from points more or less distant in this and other states. To enable the public at large, as well as Odd Fellows and their families, to enjoy the great spectacle at a moderate expense, the Reading Railroad will sell special excursion tickets from all stations on its lines to Philadelphia at the rate of a single one way fare for the round trip, no tickets, however, to be sold for less than 50 cents. Children between five and twelve will be carried at one-half the special rates. These excursion tickets will be good on all trains going to Philadelphia on May 29th and 31st, and for the return trip until and including May 29th.

Strouse has a fine line of society emblems.

How to Treat a Wife.

(From Pacific Health Journal.)
First get a wife; second, be patient. You may have great trials and perplexities in your business, but do not, therefore, carry to your home a cloudy or contracted brow. Your wife may have trials, which, though of less magnitude, may be hard for her to bear. A kind word, a tender look, will do wonders in chasing from her brow all clouds of gloom. To this we would add always keep a bottle of Chamberlain's Cough Remedy in the house. It is the best and is sure to be needed sooner or later. Your wife will then know that you really care for her and wish to protect her health. For sale by Gruhler Bros. Druggists.

Reduced Rates.

On the occasion of the dedication of the Odd Fellows' Temple at Philadelphia, May 31, 1895, the Pennsylvania Railroad Company will sell, on May 29 and 31, excursion tickets to Philadelphia and return from all points on its system east of Pittsburg and Erie, north of Quantico and south of Canandaigua, inclusive, at a single fare for the round trip, with minimum rate of fifty cents. Tickets will be good for return passage until May 29, inclusive. This rate is open to the public, and offers an excellent opportunity for a visit to Philadelphia at a very small cost. Fast and frequent express trains run from Philadelphia to all principal New Jersey seashore resorts.

Coming Events.

May 30.—Monster picnic at Columbia park by the Gymnasium Club.
May 30.—Ice cream festival in Robbins' hall, under the auspices of the Young People's Working Society of the United Evangelical church.
June 8.—Lecture by Rev. T. Bateman, entitled, "That's the Man," in the P. M. church.

THE DELAWARE DEADLOCK.

Both Higgins and Adickes Described in the Contest.

DOVER, Del., May 9.—The legislature spent all of yesterday, with a night session added, in fruitless efforts to elect a United States senator to succeed Anthony J. Higgins. The contest was made interesting by the introduction of Henry A. Dupont, president of the Dupont Powder company, son of William Dupont by the Republicans, while the Democrats voted for Dr. Ridgely, of Dover.

With the exception of a brief recess between 3 and 4 o'clock, the balloting was kept up until 8 o'clock, when an adjournment was had for consultation. At this time twenty-eight ballots had been taken, the last of which resulted as follows: H. A. Dupont, 6; William Dupont, 13; H. M. Ridgely, 9; Tunnel, 1.

During the recess a great deal of wire pulling was done, and when the balloting was taken up again at 8 o'clock last night it was seen that a combination was on foot by which H. A. Dupont was to be withdrawn and William Dupont substituted. This, however, did not meet with the approval of the Higgins men, who, on the thirty-third ballot again sprung the name of Dr. Hiram B. Burton, who had been brought out by the Adickes men earlier in the day. The balloting was kept up until 10 o'clock, forty-two ballots having been taken during the day and night. On the forty-second ballot Representative Townsend voted for his fellow representative, John W. Jobb, of New Castle, the ballot resulting: Burton, 7; W. Dupont, 11; Ridgely, 9; Tunnel, 1; Jobb, 1. Then a recess was taken until 9 o'clock this morning.

The adjournment was taken on account of the intense heat, but for which there is no doubt the balloting would have been continued all night.

Trying to "Fix" a Murder Jury.

TORONTO, May 9.—A member of the jury which has been empaneled to try Harry and Dallas Hyams, the brothers charged with murder for the purpose of realizing large sums of insurance money, called on County Crown Attorney Dewar and made the statement that he had been approached in connection with the Hyams case. The crown attorney immediately started an investigation which resulted in the discovery that nearly every juror on the panel had been tampered with. A well dressed man would call on a juror and after some conversation about the Hyams trial would remark that there was lots of money going to the jurors who went the right way. The judge will likely dismiss the whole panel and arrange a new one, which will take about four days.

Stabbed in Self Defense.

BLOOMSBURG, Pa., May 9.—The case of Cashier Thomas, aged 70 years, who, on the night of Wednesday, April 17, last, fatally stabbed Walter Hayes, a well known baseball player, was taken before the Columbia county grand jury yesterday. After hearing six witnesses on the part of the prosecution the jury returned the indictment marked "not a true bill," whereupon the court discharged Mr. Thomas and released his surety. The stabbing of Hayes was done in self defense.

Secretary Gresham Rapidly Improving.

WASHINGTON, May 9.—Secretary of State Gresham had a good day, and the improvement in his condition continues. Barring any complications that may arise his progress toward recovery, although necessarily slow, is expected to be steady. For the past few days the condition of Representative Hitt has continued to show a very slight, but perceptible improvement. Admiral Almy is reported to be comfortable. Representative Cogswell is about the same.

That Chicago Confederate Monument.

PHILADELPHIA, May 9.—The proposed unveiling of the Confederate monument in Chicago on Memorial Day has drawn an expression from Anna M. Ross post No. 94, G. A. R., of this city, that "We consider it a gross insult to the memories of our departed comrades and all survivors who fought in the Union cause for the upholding of the principles of this great American republic and the suppression of treason."

Cuban Rebels Again Defeated.

HAVANA, May 9.—A band of twenty rebels have been defeated by the troops at the Matanzas farm, near Torcaes, in the Colon district. One of the rebels was killed, and they lost their arms and horses. The troops are pursuing them. It is rumored that Carlos Castillo desires to surrender with his band to the authorities. Maximo Gomez intends to invade Camaguey, in the province of Puerto Principe.

A Broken Hearted Girl's Suicide.

PLYMOUTH, Pa., May 9.—The body of Frances Raquach was found floating in the Susquehanna yesterday. She had lately arrived from Poland, and was to have been married to Frank Bokhara last night. Tuesday night, however, Frank left town, and the young woman, on learning of her desertion, threw herself into the river.

Two Killed by a Train.

WILKESBARRE, Pa., May 9.—James Delaney, a saloon keeper of Pittston, and Arthur O'Malley, of the mercantile firm of Evans & O'Malley, were instantly killed by an engine at a crossing of the Erie and Wyoming Valley railroad, near Avoca. The couple were driving in a carriage and did not hear the approach of the engine.

Murdered by a Gambler's Wife.

MOXNETT, Mo., May 9.—Mrs. Frank Collins, wife of a gambler here, shot and killed Annie Snodgrass, of Fort Smith, who was walking along the street with Collins. They had registered as man and wife at the Astaway hotel, and when they stepped out upon the street Mrs. Collins was in waiting for them.

The Infants Isabella Released.

TAMPA, Fla., May 9.—The Infanta Isabella has been released from quarantine. The officers came up to this place last evening and had a consultation with the Spanish vice consul. They will await orders from Spain. The officers were accorded many courtesies by the Spanish residents.

Death of Ex-Governor Weston.

MANCHESTER, N. H., May 9.—Ex-Governor James A. Weston died at his home here yesterday, aged 67. Though a Democrat in a Republican stronghold, he was four times elected mayor, and in 1871 was elected governor of the state, and again in 1874.

The Weather.

For eastern Pennsylvania and New Jersey, fair; southerly winds. For District of Columbia, Delaware and Maryland, fair; westerly winds.

THE STRIKING COAL MINERS.

Still No Signs of Disorder—The Railroads Practically Idle.

BLUEFIELD, W. Va., May 9.—About 2,000 of the striking miners met in West Virginia, near Maybary, last evening. The assemblage was orderly, and the whole field is now a unit to accomplish success. General J. A. Holey, adjutant of the West Virginia militia, has been on the ground since Sunday, and has made a practical study of the position. He has conversed with the miners, ridden over the disturbed territory, and as a result says there is no just cause for fear. In the event of trouble the West Virginia troops, he states, would be moved there in less than two hours. Fully 95 per cent. of them are now ready and equipped.

The railroad shops here have practically suspended, only about twenty-five men out of 300 being at work. Many of the employes of the road are leaving. The railroad is doing really no business. The foreign miners are hourly expected on a special train, and this feature of the strike and the adjustment of miners from their homes is the only phase of the condition from which trouble may occur. General Superintendent Hippy, of the Norfolk and Western railroad, is still here and keeps informed thoroughly as to the railroad's interests.

The Eastern Peace Settlement.

WASHINGTON, May 9.—The Japanese and Chinese legations are expectant of final developments on the peace settlement, but no official statement of the exchange of ratifications has been received yet. It is known positively that the treaty formally ratified and exchanged probably is identical with the one originally negotiated at Shimonski. Such changes as Russia and some of the other powers have insisted on will not be incorporated into the present treaty. It is believed here that the indemnity will be increased 100,000,000 taels, and that the occupation of Port Arthur is likely to be for a term of years.

Escaped from a Moving Train.

OLEAN, N. Y., May 9.—Charles Johnson, a postoffice robber wanted in the Indian Territory, escaped from the United States deputy marshals between here and Salamanca early in the morning. He was captured in Brooklyn and was being taken west on an Erie train. He was handcuffed to a seat and was seemingly in safe custody when the train left Olean. Soon after his guards dropped into a doze, and when they awoke at Salamanca it was discovered that their prisoner had slipped his handcuffs and escaped. It is understood there is a reward of \$2,000 upon his head.

The Pittsburg Strikers.

PITTSBURG, May 9.—The puddlers of the Clinton mill have not been granted the \$1 rate and struck early this morning. The night force says it will try to stop the day turn from going to work. The 4,000 men in the National Tube works, McKeesport, were yesterday granted an increase of 20 per cent. The firm reduced the men 20 per cent. last year. The Jones & Laughlin blast furnace men, to the number of 1,500, were also given a voluntary advance of 10 per cent. Part of the furnaces at Sharon have granted the 10 per cent. increase.

The Fair Will Hearing Postponed.

SAN FRANCISCO, May 9.—Yesterday was the day set for hearing the petition for the proslating of the Fair will dated Sept. 21, 1894, to which opposition has been filed by Charles Y. Fair. At the request of the executors a continuance was granted for one week, to enable the executors to consider this proposition. The executors, however, do not concede young Fair's right to contest the will. The Fair children object to be represented among the minor heirs, among whom is Herman Oelrichs, Jr.

Taylor Committed for Trial.

LOSDON, May 8.—Frank Taylor, alias Frank Tarbeck, at one time the leader of the notorious Johnny Irving gang of New York, charged with being concerned with William Carroll Woodward in a cutlass fight near Regent's Park last year, and who is also charged with being implicated in defrauding tradesmen in connection with a man named Minchon, otherwise the Hon. Willard Musgrave, who posed as a rich American senator, was committed for trial yesterday.

Murderer Wilson Resentenced to Death.

SYRACUSE, N. Y., May 9.—Charles F. Wilson, who killed Detective James Harvey in this city on July 31, 1893, was brought to this city from Auburn state prison for resentencing. Justice Wright named the week beginning June 17 as the time for the electrocution. Wilson expects executive clemency. Lucius, alias "Dink," Wilson, a brother of Charles, recently suffered death for the same crime as that for which the latter was resented.

His Wish Will be Gratified.

JERSEY CITY, May 9.—The jury in the case of Paul Genz, who was on trial for shooting his mistress, Clara Arvin, in Hoboken, on Aug. 28 last, brought in a verdict of murder in the first degree after being out all night. The prisoner was committed for sentence. Genz, who was a steamship fireman, killed Miss Arvin in a fit of jealousy. He has frequently expressed a desire to be hanged.

Not Guilty of Murder.

SURBURY, Pa., May 9.—William Taylor, colored, was last night acquitted of the murder of Samuel Frinklin, colored, whom he shot on Nov. 31 last at the Scott colliery, near Mt. Carmel. Taylor alleged self defense.

NUGGETS OF NEWS.

There is a large attendance from all parts of the state at the silver convention which met at Waco, Tex., today.

The bill making the birthday of Abraham Lincoln a legal holiday has passed both houses of the New York legislature.

Dan Brothers has been transferred from the Baltimore Baseball club to Louisville. He will play first base for the colons.

The seventh annual convention of the American Protective association is in session at Milwaukee, and radical action is predicted.

Commodore E. E. Porter, ranking commodore of the navy and governor of the naval home at Philadelphia, retires today on account of age.

Storage rates from New York to Liverpool have been advanced from \$15 to \$17 by the White Star and Cunard lines, and other lines will follow suit.

Advices from Hawaii indicate trouble ahead for the government. The greatest menace is from the Japanese, who are numerous enough to seize the government at any time.

Scrofula From Childhood

"My mother has been afflicted with scrofula in her head since her childhood."

She is now in her 61st year. She has also suffered from weakness in her back for which she never expected any relief, she has faithfully tried Hood's Sarsaparilla and it has freed her system from scrofula, cured burning pains in her feet and limbs and also a pain in her left breast which prevented her from lying on that side for fourteen years. It has made her feel many years younger.
