MONDAY, MAY 13, 1895.

THERE is room for a Penrose committee in this county.

COUNCIL knows as much about successful financing as a mule does.

WITH a Grant on the police board in New York they will fight the Tammany forces "if it takes all summer"—or longer.

ADVERTISING costs money, and so do railroad fares. But as it is cheaper to ride a thousand miles than to walk that distance, so also it is cheaper to advertise than to circulate.—Printer's Ink.

A LITTLE more smart financing on the part of our Councilmen will put the borough on the same plane of the Reading Company—into the hands of the receivers.

WE have often heard of people living on the interest of their debts but we have had no bona fide illustrations of it until the Borough Council had a note discounted, at cost of about \$125, when, at the same time there were \$17,000 to its credit in the bank.

IN Italy the last ten years 947 duels have been fought over newspaper articles, 720 on account of rivalry in love, 377 for political differences, 289 for insulting words, and the smallest number, nineteen, for disputes at cards. According to the figures, journalists are most apt to fight, and actors least of those who fought at all, but there is not a single banker or capitalist in the list. Score another for the journalists.

IT is promptly denied from Washington that Mr. Cleveland gave \$500 or any other sum to the happy parents in Indiana who produced triplets and named them respectively Frances, Ruth and Esther. What Mr. Cleveland did was to write a nice kind letter and send it prepaid, that being the only way he could send it, unless he surreptitiously used an official envelope. This new light from Washington places Mr. Cleveland before the people as the people understand him.

THE Buffalo Express says that buildings are now in course of erection in Buffalo that will cost \$11,000,000; one of which, the Elliott square building, is to contain 600 offices, besides stores, cafes, etc. Buffalo has thirty-six grain elevators, with a storage capacity of over 16,000,000 bushels. She received and distributed last year 7,755,000 tons of iron ore and 2,475,000 tons of anthracite coal. Her bank clearings were nearly \$200,000,000. She imported foreign goods direct to the amount of \$9,085,000, and made 1,396,000 barrels of flour.

GENERAL CAMPOS finds quelling the Cuban insurrection on paper and quelling it in fact two different things. Although he already has about 40,000 Spanish troops under his command in the "Pearl of the Antilles," he has cabled to the home government for 30,000 more. This act is in striking contrast with the contempt with which supercilious highaloids and dons affected to look upon the Cuban uprising at the outset. The insurgents are evidently determined to strike an effective blow for liberty this time, and before the present insurrection is over it is likely to cost the Spanish tyrants dearly.

STATISTICS show that Germany is really now a manufacturing nation, and can no longer be called an agricultural country. The subject has been seriously discussed in the Reichstag, and the statement is made that in many of the factory towns the percentage of young men physically fit for the army has gone down to ten or less, factory operatives not being so robust as young men from the country districts used to be. A like condition of things is declared to exist in France, and this weeding out of a bold peasantry, their country's pride might have important results in the event of either one of these two great powers going to war in the near future.

FATAL RAILROAD WRECK.

Three Men and Ten Valuable Horses Killed.

HONOLULU, N. Y., May 13.—One of the worst wrecks that ever occurred here took place on the western division of the Erie, three miles west of Lanes, yesterday morning. Pass freight No. 92 was thrown in the ditch by a broken wheel and ten cars were piled up in a confused heap. The accident occurred when the train was making fast time, and the cars were on that account completely shattered.

One of the cars that was in the wreck was from Moore, Pa., and contained horses that were being taken east to enter the races. There were eighteen horses in this car that were attended by their grooms. Three men were killed in the wreck, and all of them were grooms. Their names are unknown. Foster, one of the managers of the car of horses, had several ribs, both arms and a leg broken. It is thought that he has sustained internal injuries. The physicians say that he cannot live.

Two other men whose names are unknown were severely injured. Patrick Shanahan, a brakeman, was thrown into the air when the accident occurred. An ankle was broken and his head was badly cut. Ten of the horses that were in the car were killed.

The debris of the wreck was piled on the track so as to block all trains from Corning to Buffalo.

Joaquin Miller Vindicated.

SAN FRANCISCO, May 13.—Joaquin Miller, the "Poet of the Sierras," who was accused of betraying and deserting a young girl at Honolulu, has written a letter to The Chronicle denying the charges, and inclosing a letter from the young woman herself, Arabe M. Oliver. Miss Oliver says: "I am sorry that man has told cruel things about you. He is a plumber. He got mad because I gave up the cottage when you left. But you never wronged me. On the contrary, you treated me as dear as my child, and it was a great help to have you live in my humble cottage. As to my being left to charity, you paid me some money when you left, and the Bank of California and the bank here will show that you sent the balance soon after. The people here have been kind to me, but no body with \$100 is on charity."

"Gail Hamilton" Seriously Ill.

WASHINGTON, May 13.—Miss Mary Abby Dodge, a cousin of Mrs. James G. Blaine, and widely known as a writer under the non de plume of Gail Hamilton, is seriously ill at the residence of Mrs. Blaine in this city. Last Friday morning while in her room she was suddenly overcome by a fainting spell in which she sank to the floor and presumably remained for some time unconscious before found by members of the household. She has rallied since then and her condition is more reassuring. The attack is attributed to the excessive heat. Her advanced age gives cause for apprehension.

Fleeing from Cuban Disorder.

TAMPA, Fla., May 13.—The Plant steamship Maseot, which arrived from Cuba last night, brought 120 passengers, most of whom were Cubans seeking more congenial habitations. The passengers report that there was a small uprising at Cabaiguana, on the north coast, but all the band has surrendered. Mataga is said to have a strong hand near Colon. The report of battles in Santa Clara on March 27, 28 and 29 are said to be false. The arrivals assert that Flor Crombet is dead. Spanish papers deny the engagement at Baracoa, but the passengers confirm the story.

The Big Man Knocked Out.

KANSAS CITY, Mo., May 13.—A crowd of 1,000 sports witnessed a prize fight yesterday afternoon in a field in Leavenworth county, Kan., between Paddy Purtell, of this city, and Jack Larney, "the Iceman," for a purse of \$500. Purtell did all the fighting, knocking Larney down five times and putting him out in the fifth round. Larney received terrible punishment. At the close his face was bleeding and badly cut and one eye was closed. Purtell weighed 140 pounds and Larney 175.

Discretionary Pool Operators Sentenced.

PITTSBURG, May 13.—On Saturday the Delany brothers, convicted in the criminal court on the charge of conspiracy in connection with the discretionary pool operations conducted by W. F. Delaney & Co., were called up for sentence. Charles Delaney was sentenced to nine months in the county workhouse, and Henry Delaney to five days in the county jail.

McLaughlin Gets a New Trial.

NEW YORK, May 13.—The jurors who tried Police Inspector McLaughlin for extorting \$50 from Francis W. Siegrist, Jr., were discharged from further service by Justice Barrett. After twenty-three hours of quarrelsome argument, during the lie was bandied among them, they were unable to agree upon a verdict. A new trial has been ordered for May 15.

A Murderer at Seventy-four.

FINDLAY, O., May 13.—A horrible murder occurred at the county infirmary west of this city. Abe Wise, a semi-paralyzed inmate, aged 40 years, being the victim, and John Karg, another inmate, aged 74 years, being the murderer. The two men quarreled over a trivial matter, and Wise threatened to kill Karg, striking him over the head with a cane. Karg went to his room and secured a butcher knife. Returning, he obtained Wise's cane and then made a rush at him with the knife. Wise was almost helpless, being paralyzed in one side, and was therefore at Karg's mercy. The knife was as sharp as a razor, and with it Karg slashed Wise across the neck and head, nearly severing the head from his body.

The Stricken Leaders.

WASHINGTON, May 13.—During the past twenty-four hours the improvement in Secretary Gresham's condition has been quite noticeable, and he is reported much better. Representative Hitt has been quite comfortable today. Representative Cogswell, of Massachusetts, has not entirely recovered from the setback occasioned by the excessively warm weather of the past few days, and yesterday he was reported as being not so well. Brigadier General Casey, retired, is reported to be resting easily. Rear Admiral Almy had a comfortable Sunday, and is better than for several days.

No Danger of Yellow Fever at Brunswick.

BUNSWICK, Ga., May 13.—The report that Brunswick is in danger from yellow fever is entirely without the slightest foundation. Surgeon R. E. L. Burford, who has charge of the quarantine station here, says that the sanitary condition of the town has never been so good. No infected vessels have entered at quarantine in many months.

HASELTON AND MEADE.

Our Minister to Venezuela Talks of His Recall.

HE IS NOT YET READY TO RESIGN.

The Minister Will Urge a Hearing Before the President in Order That He May Make a Defense—The Admiral's Brouhaha Manner in President Crespo's Presence.

WASHINGTON, May 13.—The diplomatic trouble concerning United States Minister Haselton, resulting from serious charges made by Admiral Meade, is the absorbing theme in naval and diplomatic circles. Mr. Haselton has received a dispatch from Hon. B. B. Smalley, of Vermont, through whose influence he was appointed minister to Venezuela, saying he would arrive in Washington today to give personal attention to the case.

It is now known definitely that Secretary Gresham in a cable dispatch to the minister called for his resignation. The minister desires to see the specific charges, and before tendering his resignation will endeavor to have his side of the case presented to President Cleveland. Assistant Secretary Uhl expected the written resignation to be tendered on Saturday, and asked for it as an interview with the minister in the morning and again at 3 o'clock. But Mr. Haselton asked that action be deferred until the arrival of Mr. Smalley, with a view to putting in a defense to the charges. He says he feels that his future standing is at stake, and this is more to him than the retention of the diplomatic mission, which he will undoubtedly resign.

The correspondence leading up to Mr. Haselton's return has been very brief, and entirely by cable. Secretary Gresham's dispatch stated that facts had come to the knowledge of the president which compelled him to call for the minister's immediate resignation. Mr. Gresham spoke with deep regret of the necessity for this course. No specific charges were mentioned.

Mr. Haselton's dispatch asked permission to come to Washington to resign his position. His purpose was to come here and learn the charges, but by inadvertence he requested that he might return "to resign." This last phrase was construed to mean a resignation, and accordingly Assistant Secretary Uhl has asked that the resignation be submitted in accordance with the dispatches.

Mr. Haselton is much depressed over the condition of affairs. He speaks frankly in defense of himself, although reserved as to departmental matters. He referred to a dispatch to Venezuela, showing, in the judgment of the minister, the animus of the charges. One of those occurrences was in the presence of President Crespo, of Venezuela.

"It has been arranged," said the minister, "that I should pursue the usual course of officially presenting the admiral to the president. When, however, the admiral entered unexpectedly Admiral Meade advanced to him, shook his hand and began speaking to him in Spanish. The president was noticeably surprised, knowing the arrangements made for an official presentation. At the first opportunity I stepped forward and thereupon formally introduced Admiral Meade to the president, and the admiral presented his staff officers. It was evident that the admiral was nettled that his informal greeting to the president had not sufficed, although it was contrary to the honor due a president, and contrary to express arrangements."

Mr. Haselton also speaks of his trip from Caracas to Laguayra on the train bearing the admiral, which time the admiral did not call on the minister. When Laguayra was reached Mr. Haselton says Sunday prevented his calling immediately on the admiral on his flagship, the New York, as the rules of the navy forbid salutes and like courtesies on Sunday.

When he called the next day, Monday, and was asked to the ward room Mr. Haselton says Admiral Meade demanded peremptorily: "Why did you not call yesterday?" The minister says he avoided a controversy by saying he preferred not to call on Sunday, knowing the fleet would remain until Monday night. He says the courtesy shown him on the flagship was so scant that it was evident his departure was desired by the admiral. He received, however, the usual salute of seventeen guns due a United States minister on leaving the ship. Captain Glass, of the cruiser Cincinnati, commanded the gig conveying him to shore, and in the course of the trip Captain Glass stated that the rules of the navy forbade Sunday salutes and like courtesies.

Mr. Haselton will first seek to answer the charges, and if he prevails on the department to withdraw the request for his resignation he will seek a leave of absence.

It is a necessity because the tonic of winter air is gone, and milder weather, increased moisture, accumulated impurities in the blood and debilitated condition of the body, open the way for that tired feeling, nervous troubles, and other ills. THE DELAWARE SENATORSHIP.

The Senate's Probable Action if Governor Watson Approves a Senator.

WASHINGTON, May 13.—The probability that Governor Watson will appoint a man as senator from Delaware to succeed Senator Higgins is considered sufficient to start speculation as to what would be the chances of his being seated. The history of the senate does not furnish a parallel case to that which would be presented in case of such action by the Delaware governor, but it is more like the cases of two years ago presented from the states of Wyoming, Montana and Washington than any others.

It would be similar to those, in so far as it would involve the governor's right to appoint when the legislature has failed to elect, but it would develop other questions, important among which would be the right of the governor to act in the capacity of a state senator while filling the executive office. The cases of the northwestern states also differ from that which would be presented from Delaware, in that there was no counter claimant in any of them.

Nevertheless these cases would doubtless have more or less influence upon the action of the senate in the Delaware question because of the points of similarity, and also because the majority of senators who would act in the Delaware case acted in the other cases. Sixty-six of the senators who voted in the former test case from Montana are still members of the senate, and if they should divide as they did on the first vote in 1883, by voting and pairing, the result would be 30 for seating and 31 against.

Japan Wants to Branch Out.

TOKIO, May 13.—The recent achievements of Japan have led her to turn her attention to securing a treaty with Nicaragua by which she would secure marked privileges in the Nicaragua canal. The subject has been under consideration at Washington between Minister Gutzman, representing Nicaragua, and the representative of Japan. At one time the basis of a treaty seemed to have been reached. Dr. Gutzman feared, however, that the United States might have cause to object to seeing privileges accorded Japan. This objection was met by the representative of Japan by a proposition that Japan should receive the same privileges as other countries with which Nicaragua has treaties, except the United States, it being expressly recognized that the United States is entitled to superior advantages because of proximity to Nicaragua. The negotiations stopped on this point, and the treaty has not as yet been concluded.

Strikers Interfering with Traffic.

CARHONDALE, Pa., May 13.—The conductors and motormen to the number of twenty, employed by the Lehigh Valley Rapid Transit company, went on strike Saturday, and yesterday seriously interfered with the running of the cars. The reason for the strike was the discharge of three employes for what the strikers claim was not good cause. One of the cars was stopped last night midway between here and Mayfield, five miles distant, and the passengers were compelled to get out and walk back. No assaults on the men who have taken the strikers' places have as yet been committed, but trouble is threatened if the company persists in its attempt to run cars.

Rhode Island's Mill Strikers.

PROVIDENCE, May 13.—Sunday was a very quiet day in Olneyville. The union officials were busy arranging for a big demonstration this afternoon, when the 9,500 operatives now on strike will have a parade. They will afterwards hold a mass meeting on Merlono Plaza, where speakers will explain the situation. The Riverside mills are running fifty-five spindles with non union help, on sump work, and several other mills also began making samples. It is stated in Olneyville that Proprietor Fletcher, of the Providence and National mills, will bring non-union help from Waterford.

Ratifying Crespo's Policy.

WASHINGTON, May 13.—Recent advices reaching the Venezuelan legation tell of a popular demonstration at Caracas, at which 10,000 people gathered to approve President Crespo's policy. The demonstration centered at the Yelou House, which is President Crespo's official residence, similar to our White House. The gathering represented all political parties, and was meant as a ratification of the president's course in obliterating party lines and forming a cabinet from all the political elements and parties in existence.

George Gould Ineligible.

LAKKWOOD, N. J., May 3.—Rumor says that George S. Gould, who resides here, is a candidate for United States senator to succeed James Smith, Jr., and that as a preliminary step he will try to get the nomination for state senator in Ocean county. A state senator will be elected in Ocean county this fall, but Mr. Gould is not eligible for the office. Mr. Gould has lived in New Jersey less than two years, while a state senator must have lived in the state at least four years.

Russia-Japan Negotiations.

ST. PETERSBURG, May 13.—Information from official sources is to the effect that negotiations between Russia and Japan are proceeding in the friendliest manner possible.
