NEEDS DECIPLIANCE

The Recent Smart rmanciering of the Porough Council.

The Journal on Saturday called attention to the need of disciplining the Council of Sugnandoah. Since then they has come to light through the me lium o the local press of that town a flagran case of stupid fluenciering, an unpardon able and inexcusable act of downrigh municipal imbecility or deliberative local legislative tooseness, which is going to give that borough's Councilmen no end of trouble to explain.

It has transpired that the Council or it-Water Committee, either or both agave the Jeanesville Iron Works Company a note at 90 days for \$8,000 or thereabouts, and paid for it a discount of \$125, or there abouts, although it appeared from the last report of the borough treasurer, pre sented a week ago, that the borough had on deposit in one of the banks of the town a balance of \$17.605.05. One of the most experienced members, who did not vote for the present organization, and who is, therefore, not responsible for the make up of the committees, asked for information about the matter, but it does not appear that he received any or that his remark were treated with any more respect than If he was the Borough Solicitor, whose advice is often asked but seldom followed.

It seems that most of the members of the Shenandoah Borough Council sit is their seats like a lot of empty Stongliton bottles on a saloon shelf, and when an important matter comes before them they become paralyzed. They are not at Immoral crowd, nor even a bad lot, as such things go in a bacchanallan way. Some of them do not drink ardent spirits st all, and others of the body drink, as Artenus Ward used to say, with impunity or anybody that asks them. No, it is mot drink that alls this remarkable body of local legislators. Is must be suppidity or absolute devilishness.

Among the members are some of the smartest citizens of the town, and among them are some who are not so smart. Taken them collectively they are weak at dinanciering, but immense at effecting a deal, as the recent coup de tat, when the minority captured the organization by separing one of the majority, will suffice so prove. The most of the members, how ever, appear to care more for parcelling out the loaves and fishes by putting their friends in position, than for practicing good government. They take care of their friends by securing them positions, while, with plenty of money in bank, they make some creditors take notes for claims, and others must go to law for their's. Court costs and interest they appear to delight in piling up for the borough to pay some time or other, while they sail along with the organization and the fat offices as if there was no day of zeckouing.

Surely the Shenandoah Council needs disciplining, and it needs it right away. -Miners' Journal.
