EDITIONS.

The Chinese government levies a reg-
ular tax on beggars, and gives them in
return the privilege of begging in a
certain district. Just now the govern-
ment itself is doing the begging act.

The report that Worth, the English
milliner of Paris, died in a fit brings
to mind the fact that he used to make
pretty good ones. He will be greatly
missed, but there are still plenty of de-
signing creatures left over there.

A TELEGRAM from New York to Aus-
tralia has to go nearly twenty thousand
miles, fifteen of which are by submarine
cable, and it is handled by fifteen oper-
ators. It is easy to see that sending tele-
grams such a distance takes lots of
money.

Two thieves over in Lancaster county
bound and gagged a half dozen men and
women about the place before they started
to rob the farm house. It was an irre-
pressible small boy who managed to get
free from his bonds and give the alarm,
which led to the arrest of the thieves.

An Arkansas Democrat has been re-
moved from his position in the govern-
ment printing office, and says it was
without cause. It appears that all he did
was to write to other Arkansas Demo-
crats, telling them that President Cleve-
land "is a grand old rascal, and as full of
perfidy as a snowball of water."

The citizens of Montreal, Can., have
decided to have a world's fair in that
city in 1896. A joint stock company will
be formed, with a capital of \$100,000, to
which the Dominion Government and
corporation of Montreal will be asked
to contribute. It is expected that the
fair will be opened May 24, 1896, the
Queen's birthday, and remain open for
five months.

If the town merchant believes in hold-
ing on to the home trade he should set an
example, by getting all his printing done
at the home printing office. In fact he
should be the last person to make pur-
chases elsewhere, that is, if the wares you
are selling are manufactured in Shenan-
doah, make your purchase here, and if
you need anything outside of your busi-
ness, call on your neighbor who keeps it
for sale. The baker, the tailor and the
candle-stick maker should reciprocate
and by so doing you help yourself as well
as your neighbor.

Relief in Six Hours.
Distressing Kidney and Bladder dis-
eases relieved in six hours by the "New
Great South American Kidney Cure."
This new remedy is a great surprise on
account of its exceeding promptness in
relieving pain in the bladder, kidneys,
back and every part of the urinary pas-
sages in male or female. It relieves re-
tention of water and pain in passing it
almost immediately. If you want quick
relief and cure this is your remedy. Sold

Mr. D. P. Davis, a prominent live-ryman
and merchant of Goshen, Va., has this to
say on the subject of rheumatism: "I
take pleasure in recommending Chamber-
lain's Pain Balm for rheumatism, as I
know from personal experience that it
will do all that is claimed for it. A year
ago this spring my brother was laid up in
bed with inflammatory rheumatism and
suffered intensely. The first application
of Chamberlain's Pain Balm eased the
pain and the use of one bottle completely
cured him. For sale by Grubler Bros.

the expedition will go to work with might
and main making explorations and col-
lecting specimens. They will have dog
teams to aid them and will have provi-
sions for three years, although they expect
to return in two. There is a rich and vast
unexplored field for both science and in-
dustry in the antarctic continent. Traces
of human life have been observed there.

THE custom of decorating with frag-
rant spring flowers the graves of de-
parted friends is an old one, but the
observance of Decoration Day, as it is
understood today, is shrouded in some
mystery, in spite of the fact that the
significant national rite is not yet thirty
years old. Towns innumerable, both in
the North and in the South, lay claim to
having originated the day. After sift-
ing, with perfect impartiality, all the
testimony relating to the important sub-
ject, the best authorities are inclined to
accord to Mrs. Charles J. Williams, of
Columbus, Ga., the honor of being the
mother of Decoration Day.

THE slaughter of cheap horses in the
West continues. Three thousand are
said to have been killed at one time in
Oregon. Some of these Western horses
have been slaughtered and their flesh sold
to fertilizing companies. To a small
extent, however, the experiment has been
made of packing the meat and selling it
for human food. France ought to take
considerable of it. Except for the mere
prejudice against it, there is no reason
why horseflesh should not be eaten by
people. It is quite as wholesome as beef.
The horse is a vegetarian and lives on the
same grasses and grains that the ox does.
If people like horse meat as well as pork,
it would be much better than pork, for
the swine is naturally voracious and
devours all manner of abominations,
decaying animal bodies not excepted.

Marvelous Results.
From a letter written by Rev. J. Gun-
derman, of Dimondale, Mich., we are
permitted to make this extract: "I have
hesitated in recommending Dr. King's
New Discovery, as the results were al-
most marvelous in the case of my wife.
While I was pastor of the Baptist church
at Rives Junction she was brought down
with pneumonia succeeding a grippa. Ter-
rible paroxysms of coughing would
last hours with little interruption and it
seemed as if she could not survive them.
A friend recommended Dr. King's New
Discovery; it was quick in its work and
highly satisfactory in results." Trial

Taking Revenge on Corbett.
LONDON, May 15.—The following is the
text of the reply sent by Matchmaker
Fleming of the National Sporting club,
to the dispatch of Manager Brady, ex-
pressing Corbett's willingness to entertain
proposition for a match with Jackson
before that club: "Owing to the insulting
remarks made by Corbett and yourself re-
specting the National Sporting club we
decline to entertain the proposition for a
contest between Corbett and Jackson."

General Harrison Has Not Retired.
INDIANAPOLIS, May 15.—Ex-President
Harrison says regarding the report that
he has permanently retired from jur-
prudence, that it is a mistake. He will
engage in any more jury trials away from
home, and will confine his practice mainly
to arguments before the courts.

How to Treat a Wife.
(From Pacific Health Journal.)
First set a wife; second, be patient.
You may have great trials and perplexi-
ties in your business, but do not, there-
fore, carry to your home a cloudy or con-
tracted brow. Your wife may have trials,
which, though of less magnitude, may be
harder for her to bear. A kind word, a
tender look, will do wonders in chasing
from her brow all clouds of gloom. To
this we would add always keep a bottle
of Chamberlain's Cough Remedy in the
house. It is the best and is sure to be
needed sooner or later. Your wife will
then know that you really care for her
and wish to protect her health. For sale

Is Your Blood Pure

If it is, you will be strong, vigor-
ous, full of life and ambition; you
will have a good appetite and good
digestion; your sleep will be sound
and refreshing; your nerves will be
strong; you will have little need to
fear disease in any form.

But how few can say that their
blood is pure! How many people
are suffering daily from the conse-
quences of impure blood, scrofula, salt
rheum, rheumatism, catarrh, nervous-
ness, sleeplessness, headache, and

Carnegie Company Raises Wages.
PITTSBURGH, May 15.—The board of man-
agers of the Carnegie Steel company de-
cided last night to advance its 25,000 men
50 per cent, the raise to take effect June 1.
(This action is entirely opposed to what
members of the board gave out after Sat-
urday's meeting on the demand for an in-
crease made by the furnace men at Edgar
Thompson furnaces. It is claimed, how-
ever, that Mr. Frick called to Andrew
Carnegie, in England, and that the in-
crease was first suggested by Mr. Carnegie.
It is not known what effect this action
will have on the fight of the Amalgamated
association in other mills.)

Japan's Extra Indemnity Unknown.
BERLIN, May 15.—No information has
yet been received of the amount of the ex-
tra indemnity which Japan demands for
her relinquishment of the Liao Tung penin-
sula. The powers are now conferring,
through their diplomatic agents, upon this
subject. The occupation of Chinese ter-
ritory by Japanese troops is also the sub-
ject of negotiation. In official circles in
Berlin the desire is expressed that the
Japanese occupation should not last any
longer than is necessary. The evacuation
of Chinese territory by Japanese troops is
desired in order to remove any possible
chance of disturbing the peace.

Miners Fired Upon by Indians.
WASHINGTON, May 15.—General Scho-
field received a telegram from the com-
manding officer of the Department of the
Colorado saying that several miners had
arrived at Colfax, Ariz., and reported that
while twenty-five miles southwest of that
place, near old Fort Bowie, they had been
attacked and fired upon by twelve In-
dians. They were able to keep the In-
dians away and returned at once to Wil-
cox. A merchant of that place vouched
for the integrity of the miners. General
Schofield at once ordered an investiga-
tion.

Japan Resents Dictation.
ST. PETERSBURG, May 15.—Despite the
pressure exerted by the powers, Japan per-
sists in declining to fix the date for the
evacuation of points held by her on the
Liao Tung peninsula and Korea. The
Japanese government maintains the right
to hold Fort Arthur until the first half of
the indemnity is paid by China, and to
hold Wei-Hai-Wei until the whole is paid.
The Japanese will not evacuate Korea un-
til a settled condition of affairs is secured
and the independence of Korea is assured.

Electric Bitters.
Electric Bitters is a medicine suited for
any season, but perhaps more generally
needed in the spring, when the languid
exhausted feeling prevails, when the
liver is torpid and sluggish and the need
of a tonic and alterative is felt. A
prompt use of this medicine has often
averted long and perhaps fatal bilious
fevers. No medicine will act more surely
in counteracting and freeing the system
from the malarial poison. Headache,
indigestion, constipation, dizziness yield
to Electric Bitters. Only fifteen cents per
bottle at A. Waseley's drug store.

SEVEN MEN WERE KILLED

By the Explosion of a Sawmill
Boiler at West Bingham, Pa.

FOUR WERE TORN LIMB FROM LIMB

No Attention Was Paid to the Old Boiler
When the Mill Closed Down Temporarily,
with the Result That the Mill Was
Totally Demolished.

WEST BINGHAM, Pa., May 15.—Yester-
day afternoon the bodies of eight men,
horribly mangled, scalded and disfigured
were picked out from among the ruins of
Peck, Haskeel & Cobb's sawmill here,
the victims of the explosion of a boiler in
the mill. Five were dead and two of the
three others have since died.

Those killed outright were: Claude En-
glish, James Mowers, Eugene Merrick,
Lyman Perry and Charles Rover. Those
fatally injured were: Caleb Converse,
badly scalded about the head and chest,
died last evening; Albert De Groat was so
severely mangled by boiler iron that he
soon died. Dell Gridley was injured in-
ternally and sustained a broken leg, but
will recover.

Six of these men were employes of Peck,
Haskeel & Cobb, of Ulysses, Pa., who op-
erated the saw mill. Two of them, En-
glish and Converse, were young men who
happened to be in the mill at the time as
spectators.
The mill was run by steam, generated
in an old 80 horse boiler, which it is re-
ported had been condemned by an inspec-
tor a few days before, because the steam
gauge failed to record accurately the
amount of steam pressure.

Thirteen men were employed in the
mill. They were busy at work when a
boiler broke, necessitating shutting down
operations while it was being repaired.
Nobody paid any attention to the boiler,
which was making steam at a prodigious
rate, for a hot fire had been kindled un-
der it. It was nobody's business in par-
ticular to mend the boiler, for, as in most
sawmills, everybody took a hand occa-
sionally in firing, and except to start or
stop the engine, nobody paid any particu-
lar attention to the steam. Suddenly
there came a boom as of a cannon, fol-
lowed by a cloud of steam, dust and
smoke, which rose high in the air.

Four of the victims were torn limb from
limb, and their remains scattered about
the mill and the immediate vicinity. All
the victims were terribly mangled, hav-
ing their heads crushed to a jelly and
being recognizable only by their clothing.
The dead workmen were all married and
had families.
The mill was entirely demolished, and
parts of the boiler were thrown hundreds
of feet.

Governor Algeid's Veto.

SPRINGFIELD, Ill., May 15.—Governor
Algeid vetoed the bill requiring corpora-
tions to procure the consent of a majority
of property owners in each block of a city
before gas mains, electric wires, street
railway tracks, etc., can be laid. The gov-
ernor also vetoes the bill to prevent ele-
vated or street railways from crossing at
grades and to prevent parallel lines from
consolidating. The vetoes were widely
applauded. Speaking of the bills as a
whole the governor gives his reasons for
vetoing them as follows: "Because their
effect would tend to increase the riches
of some at the expense of others by legisla-
tion; because they would shackle a great
city, I am not willing to help forge a
chain which would bind the people hand
and foot for all time to the wheels of mo-
nopoly and leave them no chance of es-
cape."

An American Counterfeiter in London.

LONDON, May 15.—Mendel Howard, the
American who was arrested here on April
30 last, on the charge of having engraved
plates and other materials for counterfeit-
ing notes and stamps in his possession,
was again arraigned in the Westminster
police court. The sub-manager of the Bank
of France deposed that he had examined
the French notes found in the prisoner's
residence and declared them to be forger-
ies. The prisoner was remanded. The
prosecution will call witnesses from the
United States and from Germany.

Massillon Miners in Conference.

MASSILLON, O., May 15.—Mass meetings
of the miners in this district are being
held today here and at Wadsworth and in
Rogues Hollow, to act upon the sugges-
tion of State President Hatchford that all
the Massillon miners stand by the Colum-
bia agreement rather than attempt to take
independent action. Hatchford has been
here for a few days working with the men,
and there seems to be no doubt that they
will do as he requests. There are 2,000
miners in this district.

New York Police Reorganization Bill Lost.

ALBANY, N. Y., May 15.—In the senate
the motion to strike out the enacting
clause of the New York city police reor-
ganization bill was lost—ayes, 16; noes,
16. The bill was then placed on final pas-
sage. The vote announced in the senate
on the final passage of the bill was ayes,
16; noes, 16; the same as on the motion to
recommit. The bill was declared lost, 17
votes being necessary to pass it. A mo-
tion to reconsider the vote was tabled.

Minnie Palmer's Husband Divorced.

LONDON, May 15.—In the case of John R.
Rogers against his wife, Minnie Palmer,
for absolute divorce, the court rendered a
decision expressing the conviction that
there was no collusion between Sir Wil-
ham Rose, the co-respondent, and Mr.
Rogers, and granting the divorce asked for.
The documents in the case were sent to
the queen's proctor for the purpose of in-
quiry in regard to jurisdiction.

Hugh McCulloch Criticized III.

WASHINGTON, May 15.—Hugh McCul-
loch, formerly secretary of the treasury,
is critically ill at his country house, Holly
Hill, in Prince George's county, Md.,
some miles outside of Washington. His
illness is the result of old age, aggravated
by kidney trouble. He is 80 years old,
and for this reason his family is apprehen-
sive of the worst.

Greater New York Bill Progressed.

ALBANY, May 15.—The greater New
York bill, which was defeated in the sen-
ate last week, was taken up in the assem-
bly yesterday and passed. It is still as-
serted that the bill cannot be passed in
the senate without the referendum amend-
ment.

Mills Closed Down by a Strike.

GREENVILLE, N. H., May 15.—A strike
of the workers of the Phoenix Cotton
mills at Peterboro over a disagreement in
regard to wages has caused the suspen-
sion of the entire works.

PENNSYLVANIA LEGISLATURE.

Big Majority for the New Revenue Bill
in the House.

HARRISBURG, May 15.—The revenue
bill framed by the state tax conference
passed finally in the house yesterday. The
vote was 147 to 14. This is the largest
vote ever received by a revenue bill in the
state legislature. Four years ago the Tag-
gart bill passed with 130 votes in the
affirmative. The passage of the bill is a
personal triumph for Chairman Ritter, of
the ways and means committee, Speaker
Wallon, as a tribute to the successful
chairman, retired from the chair in favor
of Mr. Ritter, who presided over the house
for the rest of the morning session.

The Kunkel bill, making a uniform pol-
icy of fire insurance, was defeated after a
long and exciting debate and then recon-
sidered and postponed for the present.
The bill to protect policy holders from
fraudulent estimates in the rightful ac-
quisition of surplus of tontine policies of
life insurance companies and to prevent
the issue of policies of fire, life, accident,
liability or marine insurance by person-
al, partnerships or other associations not in-
corporated, were killed.

Senator Flinn's street bills went through
on special orders by comfortable majori-
ties. One amends the act of 1891 so as to
enable municipal corporations to lay out,
open, widen, extend or vacate streets or
alleys, upon petition or without petition
of property owners. The other empow-
ers cities to grade, pave, curb, macadamize,
and otherwise improve streets and alleys
within their corporate limits without peti-
tion of property holders and providing
for the payment of the costs, damages and
expenses. The bills have passed the senate.

The bill increasing the salary of the ad-
jutant general from \$2,500 to \$3,000 a year
passed second reading on a special order,
and will be considered next Tuesday on
third reading and final passage.
The postponed house bill for the sup-
pression of lottery gifts by storekeepers
and others to secure patronage was called
up by Mr. Smith, of Jefferson, and de-
feated on final passage.

A communication was received from the
governor giving notice of his disapproval
of the bill permitting chief burgesses to
hold other offices. The veto was sustained.
At the session of the senate the bill to
protect employes and guarantee their
right to belong to labor organizations was
recommitted to the committee on judicary
general to enable parties interested to be
heard.

Noted Bandit Chief Executed.

ALGERIA, May 15.—Arosli, the famous
bandit chief, and five of his companions
were executed yesterday at Aziza. The
band of outlaws to which these men be-
longed terrorized Kabylia for a long time.
They were captured early in the year, and
on Feb. 4 last Arosli and nine of his fol-
lowers were condemned to death. Fif-
teen other members of the band were sen-
tenced to terms of penal servitude.

Exaggerated Stories of Cuban Insurgents.

TAMPA, Fla., May 15.—The Spanish war
ship Infanta Isabella weighed anchor yester-
day and sailed for Havana. The Span-
ish consul here asserts that the revolution-
ists are abating. He says he has kept a record
and thus far the American press has killed
25,000 Spaniards, which he claims to be
absurd, as there are not that many troops
in Cuba.

Murdered by His Brother.

BERKELEY, Ky., May 15.—News has just
reached here that Ned Rose shot and killed
his brother in Dickinson county, Va. The
brothers lived on adjoining farms and the
quarrel resulted over the pasturage of a
horse. Rose escaped, but officers are in
pursuit.

Must Pay Heavy State Licenses.

COLUMBUS, O., May 15.—The supreme
court decided the law constitutional which
requires the Fidelity and Casualty com-
pany, of New York, and similar companies
to deposit \$50,000 with the state treasurer
to do business in Ohio.
