Advertisements charged according to space the arrest of seventy four members of the [calhouse of representatives. They are in contempt of the house for absenting them selves without leave. Their absence prevented the transaction of business yester day, and forced an adjournment until next Monday evening. Syrgeant-at-Arms Shoener went to Philadelphia to arrest the members from that city in contempt His deputies started for other sections of the state with warrants for absent. bers. All that can be found will b brought before the bar of the house or Monday evening, one by one, to be purgeof their contempt.

There was a slim attendance when the house went into session at 9 o'clock. See enty appropriation bills were read the fir-Taon revenue bills were taken n on second reading. The Lawrence bill taking bank stocks four mills on their a tual value, was called up and passed with only two discerting votes. Much time was given to discussing the Cochrane bill, tax ing beer twenty-four cents a barrel of thirty-one gallons. Mr Cochrane amende the bill to exempt exports and beer in demijohns or bottles that is taken from barrels on which the tax is paid. The measure then massed second reading by vote of 38 to dian one remandance M'BDITIONS.

SOUTH CAROLINA'S Governor is quite flery on the subject of the decisions on the United States courts, but the remarks are not tendered with mortar, paixian and petard as in 1861. The fun of jumping on Uncle Sam in that year was wonder fully sobered down four years later.

ONE of the New York "sweaters" testified before a Legislative committee that he paid women from 8 to 12 cents a dozen for making knee-pants, and that some women were enable! to make the enormous sum of \$2.70 per week as wages while others did not make so much. The man told his story without a blush, and there was no shame in him. Less than a cent for making a pair of trousers for a boy! Did anybody ever hear a more shameless story?

THERE is one man in Pintsburg who is not happy. He is a German, and he has not done any work for some years, not ecause he could not find work to do, but pecause he is a loafer. In the meantime his industrious wife had saved up \$450, which represented a great deal of hard work. The other day the husband stole the money and fled. The good wife com plat ed to the police, but they could do nuthing for her. Finally she sent her top, a boy much larger than the father, to hunt the old man, and the latter was found at the station ready to take the train. The son twined his fingers into the old man's collar and dragged him home, where the wife searched his pockets and found \$435 and a steerage ticket for Germany. And the miserable wretch was permitted to remain in the house. But it taught him a lesson, and bereafter the son will be boss of that house.

It is well known cigarettes are more injerious to the system than tobacco alone. But many will be surprised at Professor Laflin's recent statements con cerning the vices. He says: "In 1879 there were 00,000 oigarettee manufactured, and last year there were 1,200,000,000 or 1 333 times as many. Tobacco in any form is bad, but in a signrette there are five poisons. There are the oil in the paper, the oil of micotine, saltpeter to preserve the tobacco, opium to make it mild, and the oil in flavoring. The trouble wi h the cigarette is the inhaling of the smoke, If you blow a mouthful of smake through a handkerchief, it will leave a brown stain. Inhale the smoke and blow it through the nostril, and no stain will appear. The oil and poison remain in the head or body. Cigarettes create a thirst for strong drink, and there should be; anti-cigarette societies, as there are temperance suc.etles."

PENNSYLVANIA LEGISLATURE.

The Quay County Bill May Pass the House This Week.

"Hannissung, May 20.-There is noth Ing left for the lawmakers to do but work if they expect to get away by June 6. The house calendar is crowded with bills, many of which will be dropped to save time and hasten the final adjournment. The senate continues to move along in that leisurely manner which has charac terized its proceedings all through these sion. The calendar is clear of senate bills and crowded with house measures on fina The latter number about 200 and will have to be disposed of before the

representatives will agree to adjourn. The greatest interest centres in the house proceedings. Aside from the affair of to-night, when members will be brough up for contempt, there will be much bust ness of general importance to transact To-morrow will be the busiest day, the first order being the consideration, or third reading, of the congressional, legis cia lative and senatorial apportionment bills Judging from the unanimity with which these measures passed second reading they will pass the flual stage by a comfortable majority. The representatives from counties which lose in representation by the apportionment will oppose the measure They are, however, in the minority, and alwi their only hope is in the senate or a con-

bore ference committee. Γ_1 Should there be a full house on Wed nesday, when the order of business will be senate bills on third reading, the Que tue: AUTE county bill will be called up for final pamou more sage. The beamers of the new county part have more than enough pledges to assure of p the passage of the bill. Their only trouble and has been to get its friends here at or note time.

The World's Iron Ore Production.

Washington, May 20.-Mr. John Birk nbine, the iron ore expert of Philadelphia as prepared for the division of mineral sources of the United States geologica survey an exhaustive report on the iron production of the world of iron ore in 1898 s estimated at about 52,500,000 long tons The total production of iron ore in this country in 1804 was 11,870,679 long tons of 2,240 pounds, as compared with 11,587,62 long tons in 18 %. This is an increase of about 2½ per cent. This production is only 73 per cent, of the maximum production of the United States, namely 16,296,660 long tons, which was the output in 1832.

Trolley Cars Collide.

BROOKLYN, May 20 -A serious collision between troiley cars occurred yesterday afternoon by which several passengers were seriously, if not fatally, injured, and number of others badly bruised. At second avenue and Eighty-sixth street, Bensonhurst, two cars collided. Of the hundreds or more passengers on the two ears the great majority received bruises of a more or less painful nature, and a veritable panic ensued. The motormen and onductors were arrested.

How to Treat a Wife.

First get a wife; second, be parient You may have great trials and perplexi-ties in your business, but do not, there-fore, carry to your home a cloudy or conracted brow. Your wife may have trials tracted brow. Your wife may have trials, which, though of less magnitude, may be hard for her to bear. A kind word, a tender look, will do wonders in chasing from her brow all clouds of gloom. To this we would add always keep a bottle of Chamberlain's Cough Remedy in the house. It is the best and is sure to be needed sooner or later. Your wife will then know that you really care for her and wish to protect her health. For sale by Gruhler Bros. Druggistä.

THE PRESBYTERIANS.

Seminary Control the Great Bone of Contention.

OTHER MATTERS SUBORDINATED.

The Questim as to Whether the General Assembly Shatl Have Absolute Authority Over Presbyterian Educational Institutions Causes Extended Arguments.

PITTSBURG. May 20.-Everything was pushed aside today in the assembly that free scope might be given to the question of seminary control, and the end is not yet. Nearly all of Saturday was consumed in arguments for and against the report pre-sented by Dr. W. C. Young. This was to the effect that the General Assembly had no right to hold property, but that the election of trustees of the seminaries should be approved or rejected by that body. It is proposed to give the General Assembly the same power as possessed by theattorney general of any state to inquire whether or not a corporation is complying with the terms of the charter. The arguments were resumed today and nothing else will be considered until it has been decided whether or not the church shall introl the seminaries.

A proposition looking to a compromise has been made by some of those who oppose what is now technically known as seminary control. This is that all new eminaries should have their charters con-ain what the committee desires placed in he old chargers. Namely, that the church should have a safeguard thrown about the eaching and the property of the several nstitutions. Another concession is that pecific requests hereafter shall conform othis rule. With those two concessions ande the so called liberals think that they in carry the assembly.

Thus far all attempts to limit debate have been voted down overwhelmingly, but word has gone forth that a decison must be reached at 4 o'clock this afternoon. Many, however, doubt the ability of the leaders to put this program through. The attitude of the liberals favors post-ponement in the expectation that if the report of the committee of conference with the seminaries is thoronobly aired it will be weakened and will lose votes every day. The conservatives, on the contrary, want a decision, quick, sharp and overwhelm-

Already the time occupied is so long that comers are reminded of the endless discussions in the Briggs and Smith cases. The result promises to be that the causes of the missionary boards of the church will e pushed aside, and that external quesons will usurp a place which does not

belong to them.

The Pacific coast is here again with a pressing invitation to the assembly to meet in 1896 in Scattle. Two years ago the meeting place was Portland, Ore., and at that time the Briggs case was up. Iteffect upon the church west of the Rocky mountains was not all that had been an ticipated. Now with the burning ques-tions out of the way a more favorable impression is hoped for. Dr. Alexander Alison and Eider W. R. Bailard, from the First Church of Scattle, are engaged in anvassing epinion and in forming sentient in favor of their city.

The question is likely to be one of exense, and it may be necessary for the nekers of Seattle to raise a guaranty fund to make it possible to take 600 commission ers so far and keep them so long. The only other place mentioned is Saratoga, where the assembly met last year, and where the commissioners can be enterained at less expense than anywhere elso a the country.

The large amount of time already con-umed by the seminary discussion seems likely to have a consequence that other matters, such as the treatment of the students of Union seminary, in New York nd of the new mission house on Fift only in the brief intervals between the regular orders of the day.

In some respects it is fortunate for the ssembly that it has a moderator of such great executive ability as Dr. Booth. Thus far be has won golden opinions from many who voted against him.

Churches of all sorts and varieties opened their doors and pulpits yesterday. and it took a long column of small type to set forth all of the appointments made and accepted by the divines of the Pres byterian General Assembly. The greatest interest, however, was felt in the sermon of the moderator, Dr. R. B. Booth, of New York, whe preached, as is customary, in the church where the assembly sits. was greeted by a large audience, which contained a large proportion of assembly commissioners. Dr. Booth was attended in the pulpit by Dr. William McEwin, the pastor of the church, and by Dr. W. E. Moore, permanent clerk of the assembly.

Dr. Booth's subject was the vicarious and atoning death of Christ, and the sermon was clear and powerful. If any of the audience hoped for any utterances on questions in hot debate they were disap cinted as the only thing that could be tortured into such an interpretation was the emphatic statement that "as against infidelity, orthodoxy now has its innings.
