MARSHAL CAMPOS is doing more scolding than fighting in Cuba. The amiable cut throat has changed his plans and adopted a financial style of warfare, that is to say, he will, if Spain can borrow the money, buy off the insurgents. This will hardly work with perfect satisfaction. Campos may be able to reach a few mercenaries in this way, but a people fighting for liberty will keep on fighting until they attain it. The present rebellion may fail, but there will be others.

THE Republican County Conventions in Kentucky are declaring in favor of Col. W. O. Bradley for Governor, and the people of the state are saying to them selves that they will take delight in elect ing him. Republican prospects in Kentucky are growing brighter every day and the Democrats themselves are fearful of losing the state. They are broken up into factions and with a candidate like Col. Bradley it is believed they stand a fair chance of carrying the state.

Nervousness

Is only another name for impure blood, for no person is weak and nervous whose blood is perfectly pure.

When the blood is full of the germs of disease, and lacking in the red corpuscles which give it vitality, when it fails to properly nourish the organs and tissues of the body, what can you expect but that tired feeling and nervousness?

Of course Scrofula, Salt Rheum, Catarrh and Rheumatism are universally recognized as blood diseases, for which Hood's Sarsaparilla, as the best blood purifier, is everywhere acknowled the greatest remedy.

Therefore, as Hood's Sarsaparilla cures all blood diseases, it is the best remedy for that condition of the blood which causes Nervousness.

It is a false idea to think you are curing your nervousness when you are taking a preparation which only quiets your nerves! It is like trying to drown" your sorrows in the flowing bowl. They are sure to return.

We wish to make most impressive, then, this truism:

You cannot purify your blood by DEADENING OF QUIETING YOUR BETVES with opiate, narcotic or nerve compounds. If you take such articles you are only TRIFLING with your troubles. There is sure to be a REACrion which will leave you worse than you were before.

Why not then, take the true course, follow the bee-line to the state of health, purify your blood and cure your Nervousness by taking

A NOTABLE GATHERING

Invasion of Philadelphia by Odd Fellows from All Sections.

A HUNDRED THOUSAND BROTHERS

Meet to Participate in the Dedication of the Handsome Temple Erected at a Cost of a Million Dollars-The City Crowded with

PHILADELPHIA, May 21.—The greatest event in the history of Odd Fellowship in this or any other country, the dedication of the magnificent new Odd Fellows Temple, on the southeast corner of Broad and Cherry streets, took place this fore noon, beginning at 10 o'clock, in the audi-

torium of the Temple.

All seeing eyes look down from a wealth of bunning on the crowds in the busy sections of the city. Philadelphia began on Saturday to put on her gain dress to welcome the multitude of strangers who have flocked here to take part in the festivities attending the dedication. A striking feature of the decorations, which nake the city bright with color, is the display of the emblems of the order. the wideawake eye is seen the links representing Friendship, Love and Truth are found. Heal, white and blue bunting is being lavishly displayed on the front of the big hotels and business houses in the center of the city, but the colors peculiar to the various branches of Odd Fellowthip take an important part in the decorlons. The white, blue and scarlet of the odges, the gold and purple of the enesmy ments and the purple and black of the Patriarchs Militant are conspicuous in the holiday active which the city of Penn has donned in honor of the occasion.

From Sunday night until noon today the reception committee was kept busy Their duties demanded their attendance upon the arrival of every train, regular and special, to greet their visiting brethern and escort them to the headquarters assigned them. Very many came accompanied by their wives and daughters.

Special trains from all points of the compass, bearing visiting lodges, encamp ments and cantons, began to arrive at colock yesterday morning. They contin ued to pour their human freights into the Over forty station until noon today. Over forty special trains arrived over the various branches of the Philadelphia and Reading railroad, and an equal number of special trains bearing delegations came here over the Pennsylvania and its connecting lines Delegations arrived yesterday from Pittston. Wilkesbarre and other points in the Lehigh, Wyoming and Lackawanna val-leys; from Williamsport, Milton and numerous towns along the Susquehanne river, while sixty carloads from along the Eric railroad, in the northern sier of counties, relied into the Terminal station be fore sunset.

A large delegation of Patriarchs Milltant reached the city yesterday from Bos ton and Maine, and were escorted to their headquarters at the Bingham House. Can-tons from Connecticut and western Mas sachusetts, the members of which are dom-iciled at the Hotel Hanover, the Bingham and Biebl's hotel Chevaliers from Will-lamsport, Scrunton, Wellsboro and Mil-ten, and 556 Chevallers from New York arrived during the day at the Broad stree station of the Pennsylvania railroad. The quarters of the latter are at the Bruns wick, Keystone and Gordon hotels.

A delegation of Odd Fellows number-ing 1,231 from Maine, New Hampshire and Massachusetts also reached the city vesterday. A delegation from California prived here last night, and another ar rived this forenoon from Texas. The arrivals yesterday were from almost quarter of the state, and from the District of Columbia, New Jersey, Maryland and

On the special trains arriving this mornng were delegations from enandoah, Hagleton, Reading, Harris burg Easton, Scrapton, Eric and several points in Delaware, Chester and Schuyl-kill counties. In addition to those who come on the special trains, many members of the three branches of the triple link or ganization traveled here on the regular rains, to join in the monster demonstra-

Early this morning the cantons of New Jersey, Maryland, Delaware and eastern Pennsylvania reached town. Most of the Chavallers arriving today did not go to hotels, but are being entertained by the Patriarchs Militant in Imiustrial hall. Many of the delegations from lodges and encampment who came today will also be taken care of at various halls throughout the city instead of going to hotels.

During the hustle and bustle of preparations the children of the Home for Or

dans of Odd Fellows were not forgotten Over 500 members and their femin atives and friends joined with Remem-brance Lodge in a visit to the institution at Tiega. They all had a pleasant time, and an interesting address, reviewing the history of the home, was made by C. B. Richardson, its former secretary. The visitors found that the little ones, lighted with their approaching participa-tion in the parade, had already begun preparations for the event. The attendants have found it difficult to get the talk about their coming ride in omnibuses in the Broad street demonstration

It is estimated by Secretary Culin, of the committee in charge of the dedication cerenonles, that fully 190,000 Odd Fellows are in the city, and this crowd is augmented Central America, and was buried at by the presence of 150,000 people who have some to view the monster parade.

The festivities incident to the opension, which will continue until early Bridge morning, were begun last night by a ban quet and recotion of the board of trustees of Odd Felicos' Hali association to Grand Sire John W. Stebbins at the Temple. All of the grand lodge efficers and many other distinguished guests here present. At 9 o'clock this foremon the annual

session of the grand lodge of Pennsylvania convened at St. George's half for the distribution of reports, and half an hour later proceed d to the new Temple. At 19 s'clock the dedication proper of the Temple was held in the presence of the officers of the sovereign grand Todge, the officers of the grand fodge of Pennsylvania, New York and other states, besides the officers of all local and visiting subordinate lodges. The coremonies were held in secret, as they form a part of the ritual of the order

THE SHAKERS' IDEAS OF MEDICINE.

Nowadays when a man goes to his docfor, he is usually told that he has some unheard of disease with a long name, and when he leaves the office he does not know whether it is St. Vitus Dance or consumption that is gradually undermining his health.

It is therefore refreshing to talk with the Shakers, for their very simplicity commands confidence and respect, and we have the further satisfaction of knowing that they have devoted themselves to the study of disease and its cure for more than a hundred years.

The venerable old man whom the writer saw was only too glad to discuss his pet subject. He said that strange as it might seem, very few doctors realized that three-quarters of the most pr valent diseases were all attributable to faulty digestion.

He then went on to say that a child of average intelligence knows that putrid meat or decaying vegetables are poisonous, and must be avoided, and yet these same foods, even if taken into the stomach in the freshest possible condi-Broad street was closed to public travel tion, soon decompose unless digested and absorbed.

In such cases the resulting poisons enter the system, when nobes and pains, weakness and debility soon follow as natural consequence.

It was recognition of this that led the Shakers to devote their energies to the perfection of a product which would stimulate the digestive organs and assist them to perform their proper work. The first symptom of disordered diges-

ion, is loss of appetite, and the Shaker Digestive Cordial is wonderfully efficient in supplying any deficiency in this respect, at the same time it relieves all distress after esting. Furthermore, as was carefully explained by our venerable riend, it is absolutely harmless. Better evidence of the Shakers' confi-

dence in it could not be found, than in the fact that they have placed to cent sample bottles in the hands of all druggists, assured that if once tried it will produce such immediate and marked benefit that it will be continued.
