ONE THING ACCOMPLISHED.

The Philadelphia Press says the Demo cratic tariff has not increased the revenue. but it has created a large deficit. It has not enlarged the foreign trade of the nation, but it has greatly decreased exports. It has not restored business prosperity, nor has it done anything else that was promised of it, with two exceptions. On the principle of giving the devil his due these two exceptions should be noted in a public manner. They are lower wages and a consequent check to im migration.

In a speech in the House of Representa tives on January 9th of last year, when the Wilson bill was under consideration, General Black, of Illinois, declared that "the gravest charge that can be brought against the protective system" and "the worse effect produced by the system is the fact that it projuces unnatural im migration of great bodies of men " When asked how the system caused this "un natural immigration," General Black re plied that it was due to the "alluring cry dinned in the ear of the laborer in Europe and elsewhere that here he could have higher wages." The Wilson tariff bill, Mr. Black asserted, would stop that "un-street in the ear of the laborer in Europe female, however induced, speedily and permanently cured. Illustrated book sent sealed for 10 cents in stamps. World's Dispensary Medical Association, 663 Main street, Buffalo, N. Y. natural immigration." Asked to explain how that would be done he replied: "I make answer, by the removal of the artificial means by which we create a fictiti ous value of the article of wages and let wages have its natural level, as it does elsewhere."

General Black was roundly applauded by the Democrats for this statement, and | plate or other applicance with the famous he has since been promoted by President Cleveland by appointment to a high this time office. This wise prophecy of the Democratic leader has proved true, and credit should, accordingly, be given to the Democratic tariff act. Wages having been reduced in many cases, perhaps not quite to the European or Asiatic level, as was promised, immigration has accordingly greatly fallen off. Whether it will | July 13; First regiment, of Newark, week stop altogether depends on the fulfilliment of the prediction as to wages dropping still lower. But as far as the matter has gone the Wilson bill has partially accomplished those two ends. For instance, the total number of immigrants for the month of March was 16,047, as compared with 19,533 in the same month a year ago, and more than double that number when the McKinley act was in full force and not threatened with repeal. In the fiscal year ending June 30, 1892, there were 623,084 immigrants landed in the United States, not including about 100,000 who came by way of Canada. For the nine months ending April 1, this year, 153,177 arrived. At this rate the number of immigrants landing in the United States for the current flacal year will be over 400,000 less than for the fiscal year of order for the resumption of work at the 1882. This establishes Mr. Black as a true prophet. Wages have gone down and immigration has stopped accordingly.

When wages get down to the level that Mr. Black promised immigration will probably stop altogether. It is no longer at object for Entopean workmen professional. in many branches of business to come to the United States, because they can get nearly as good wages at hom-, and the course of wages here so far under the Wilson bill promises to fulfill all that Mr. Black promised in that way. Hence European workmen stay at home and manufacture goods in Europe for the As a remedy for all forms of headache Electric Bitters has proved to be the very best. It effects a permanent cure and the most dreader habitual sick headache enormous increase in imports. For the most dreader habitual sick headache aches yield to its influence. We urge all who are afflicted to promise a bottle, and give this remedy for all forms of headache.

Mr. D. P. Davis, a prominent liveryman and merchant of Goshen, Vs., has this to say on the rubject of rheumatism: "I take pleasure in recommending Chamber. It effects a permanent cure and the most dreader habitual sick headache aches yield to its influence. We urge all know from personal exceptence that it will do all that is claimed for it. A year ago this spring my brother was laid up in bed with inflammatory rheumatism and suffered intensely. The first application by the pain and the use of one buttle completely drug by the complete of the most dreader habitual sick headache and merchant of Goshen, Vs., has this to say on the rubject of rheumatism: "I take pleasure in recommending Chamber. I know from personal exceptance that it will do all that is claimed for it. A year ago this spring my brother was laid up in bed with inflammatory rheumatism and suffered intensely. The first application of this medicine. Try it once. Large by the complete of the most dreader habitual sick headache aches yield to its influence. We urge all know from personal exceptance that it will do all that is claimed for it. A year ago this spring my brother was laid up in bed with inflammatory rheumatism: "I have pleased the pain and merchante in recommending Chamber. I have pleased the pain and merchante in the case of rake pleasure in recommending that the most dreader habitual sick headache aches yield to its influence. The rake pleasure in recommending that the most drea

stendily increasing. Why should foreign workmen want to come to the United States under such circomstances! Hence so far as lowering wages and stopping immigration in that way is concerned the Wilson bill is accomplishing what was promised of it.

It is doubtful, however, if American workmen will approve that way of stop ping immigration. And as a business proposition it will hardly strike the pub lic favorably. Sending vast millions of money abroad to pay for goods which could be manufactured at home is not a satisfactory manner of excluding immigrants, especially when at the same time wages in this country are lowered.

An examination of the field at Egypt, N. C., where coal has been mined many years in small quantities shows that there is enough coal there to last 100 years with an annual production of \$50,000 tons. This s a fortunate discovery for that state, for the deposit lies right in the heart of North Carolina, and is easily accessible. What s more, the district is rich in red clay, suitable for brick of superior quality, and is in the heart of a fine cotton raising district. This means that in the development of the coal fields, which is now to be pushed by experienced parties, there will grow up cotton and other industries for building will be cheap, lumber and brick being in abundance, while coal is right at the door. This development will be of greatest importance to that section of the state.

DR. ANDREW WILSON, of London, says that the order of violets, mignonette, tuberoses and heliotrope is injurious to the voice. Vocalisis are especially susceptible to the scent of the flowers. Violets are said to be the worst in their effect. The odorous particles from the flowers seem to irritate the vocal organs, sometimes ut terly destroying them as far as their power to produce musical sounds is con cerned.

Healthy Children

come from healthy mothers. And mothers will certainly be healthy if they'll take Dr. Pierce's Favorite Prescription. Nothing can equal it in building up a woman's strength, in regulating and assisting all her natural functions. It lessens the pains and burdens of child-bearing, supports and strengthens weak, nursing mothers, and promotes an abundant secretion of nourisbment.

It's an invigorating, restorative tonic,

ant secretion of nourishment.
It's an invigorating, restorative tonic, a scothing and bracing nervine, and a remedy for woman's ills and aliments. In every clronic "female complaint" or w akness, it acts so beneficially that, once used, it is always in favor.

Suit Aguinst the Carnegie Company. PITTSBURG, May 29. - A bill of complain was filed in the United States circuit cour iere yesterday alleging an infringemen of patent on the part of the Carnegie Steel Company, limited. It was filled for Schneider & Co., of Paris, France, by their at-torneys, Johnson & Monro, of Washington, D. C. The bill asks that the defer dants be restrained from making arms Niexel steel process, and asks for an in-demnity for the use of the process until

New Jersey Militia Encampments. TRENTON, May 22.-The state military board decided to have the brigade en campments at Sea Girt in regiments, instend of as a brigade, as heretofora. thought that this plan will result in a saving to the state of about \$18,000. dates fixed for the encampments are Fourth regiment, of Jersey City, week of of July 20; Second regiment, of Paterson, week of July 27.

Struck by a Train and Killed.

SHAMOKIN, Pa., May 22.—William H Herpoter, of Buffalo, N. Y., was struck and instantly killed by a Reading locom tive yesterday. Herpoter arrived here an hour before the accident, and was on hi way to the Odd Fellows' demonstration in Philadelphia. When the engine struck him he was waving adjeu to his brother

Shipping Armor Plate to Russia. BETHLEHEM, Pa., May 22.-The first alpment of arm or plate ever made from his country to a foreign government was nade yesterday by the Bethlehem Iron empany. The shipment was a portion of contract of 1,500 tons which the com sany is filling for the Russian navy. The late is for the battleship Petropay ovski.

The Corwin Seires a British Schooner. SEATTLE, Wash., May 22.-The steamer Topeka, just arrived from Sitka, brings ews that the revenue cutter Corwin seized the British scaling schooner Shelby for violating the scaling laws, and brought her in to Sitka. She was turned over to of the mine immediately after the accithe British cruiser Pheasant, who sent her to Victoria. This is the first seizure this

How to Treat a Wife. (From Pacific Health Journal.)

(From Pacific Health Journal.)

First get a wife; second, be patient. You may have great trials and perplexities in your business, but do not, therefore, carry to your home a cloudy or contracted brow. Your wife may have trials, which, though of less magnitude, may be hard for her to bear. A kind word, a tender look, will do wonders in chasing from her brow all clouds of gloom. To this we would add always keep a bottle of Chamberlain's Cough Remedy in the house. It is the best and is sure to be needed sooner or later. Your wife will then know that you really care for her and wish to protect her health. For sale by Gruhler Bros, Druggists.

Notice to Subscribers.

Subscribers to the Evening Herald daughter. General Cogswell had been who are not receiving their paper regularity and people who wish to receive the night came on it was apparent to his fampaper as new subscribers, are requested to leave their addresses at Hooks & Brown's stationery store, on North Main street.

For every quarter in a man's pocket For every quarter in a man's pocket there are a dozen uses; and to use each one in such a way as to derive the greatest benefit is a question every one must solve for himself. We believe, however, that no better use could be made of one of these quarters than to exchange it for a bottle of Chamberlain's Colic, Cholera and Diarrhoes Remedy, a medicine that every family should be provided with. For sale by Grubler Bros., Druggists.

Michigan's Grape Ocop a Total Loss. DETROIT, May 21.—Dispatches from vestern Michigan declare that the destruction of grapes, strawberries and tender vegetables was almost wholly compieted in many sections by last night's frost, and that the damage to farmers and fruit growers has become enormous.

TERRIFIC EXPLOSION.

Probably Caused by Dropping a Can of Nitro-Glycerine.

FOURTEEN INSTANTLY KILLED.

The Fatal Carelessness of a Pole in a West Virginia Coal Mine Results in the Death of Four Men by suffocation-Six Others Seriously Injured.

SAN FRANCISCO, May 29 .- A terrifle re ort and concussion, which was distinctly the all through the cities and towns around the bay for a distance of forty terday, was at first believed to have been aused by an earthquake, but proved to be explosion in the nitro-glycerine house of the California Powder works at Pinola cross the bay. The crew at the glycerine louse, four in number, and the foreman at the mixing house, were all killed, as well as nine Chinese working in the latter department. The explosion occurred in the nitro

glycerine house and was probably caused by the Chinese dropping a can of the explosive. The cause cannot be definitely ascertained, however, as all connected with the building are dead. There were 200 Chinese in the adjacent mixing roon and at the sound of the explosion all ran. The force of the explosion was tremen dous. Huge pieces of wood were thrown

into the bay a distance of half a mile, and nitro-glycerine tanks were hurled a distance of five hundred yards. Hands, legs and other parts of the mutilated remains of the dead were scattered along the road for a mile.

The nitro-glycerine house first went up then the mixing store house and gun cot-ton house followed. The nitro-giveering house, of which not a vestage remains, was a three story frame structure, 120 by 50 feet. It contained 8,000 pounds of nitro glycerine and 2,000 pounds of Hercule

A remarkable feature of the explosion is that, although the store house, containing 1,000 pounds of Hercules powder, is com pietely wrecked, its contents are intact In all 10,000 pounds of explosives went up with a roar and a sheet of flames.

The dead are: Clarence Johnson, fore man of glycerine house; D. A. Daone, of Pinola; M. Minnahon, of Oakland; C. Velegas, of Martinez; W. D. Taylor, foreman of mixing house; nine Chinese.

EXPLOSION IN A MINE. A Pole's Carelesaness Kills Four Men by Suffacation.

WHEELING, W. Va., May 22 .- The first reports of a disastrous explosion at the Monongah mine, near Fairmont, yes-terday, were wildly exaggerated, and a number of very sensational stories have been sent out over the country. The exact facts are as follows:
At 12:30 o'clock a Pole carelessly ig

nited a can of powder in mine No. 4 of the Monongah Coal and Coke company, and a terrifle explosion followed. The accident occurred in the main air course leading to mine No. 2, about 500 feet from the mouth of mine No. 4, and the smoke was thus driven through the different parts of the mine, suffocating four miners. Quite a number of others were scriously but not fatally affected by the smoke.

The doad are: C. L. Bertcher, an old man, who leaves a large family; Snaver, aged 15; Luke Verika and Andrew Dunice. The last two are foreigners The injured are: Harry Leaper, Frank Floyd, James Burcher, William Jones and Antonio Zieska.

dent. The injured will all recover. As soon as the powder smake cleared away it was found that no damage had been done to the mine, so that work will not be interrupted. It is definitely known that the explosion was caused by powder and not by gas or fire damp, as previously reported.

Mine Inspector D. M. Harr is on the ground, and is making an investigation. The Monongah mines are the principal works in the Upper Monongahela coal field, and the company is headed by ex-United States Senator Camden.

Congressman Cogswell Dead.

WASHINGTON, May 22.—Representative William Cogawell, of Massachuseits, died at 1:15 a. m. at his apartments in this city. With him when the end came were Mrs. Cogswell, his wife; Dr. Cogscity. well, his son, and Miss Cogswell, his that he bad but a short time to Much of the time his breath came only in gasps, though the end was calm a poaceful. General Cogswell has been sapacitated for congressional work for about six months, and was not in his se during the last session of the Fifty-third ongress. In the laster part of the fall of 1804 he was . tacked with kidney trouble, which has never since left him. He was nearly 57 years of age.

Warring Elks Reuniting.

BUFFALO, May 22.-The peace convention of the Elks ended with yesterday's The expectation that the two warring factions would be brought together by the conference has only in a measure been fulfilled as yet. The result of the peace conference has been to strengthen the Jamestown faction and correspondingly weaken the other, as nearly all the Atlantic City lodges represented in the conference have joined hands with the Jamestown faction. With this as a nucleu the larger body hopes gradually to gather in a majority of the oppos-

Waller's Military Sentence Annulled. WASHINGTON, May 23.—The French government, acceding to the demand of the United States, has transferred the case of ex-Consul John L. Walier to ordinary civil jurisdiction. This action apparently nullifies the sentence of twenty years' con finement imposed on Waller by a French military court in Madagascar, and indi-sates either his trial by the civil judiciary

THE RUSH FOR HOMES.

Old Settlers Who Have Been Fooled May

Cause Trouble.
ORLAHOMA CITT, O. T., May 29.—The
Kickapoo country, which will be opened to the white settlement tomorrow noon, is full of "sooners," and more are going there every day. They are very bold in their stand, and there can be no doubt that the move of the "sooners" will be practiced on all sides. The news of the president's proclamation has just pene trated beyond the towns on the railroads. In inlead towns and on farms are many people who have been waiting for the opening of the Kickapoo lands, and they hardly received the news in time to get

ready by tomorrow. The people of Chandler and Tecumseh, who several times during the past two nonths were fooled by couriers riding into town with the announcement that the Kickapoo country was open to settlement, and rushed into the reservation and staked off claims, have discovered that under a strict construction of the "sooner" act of 1889 every man who went on these false alarm runs is a "sooner," and barred from taking land. They have found that an or anization of the old Kickapo boomers, who have been camped on the ine for years, have all of their names the date of the runs and the location of the laim, each one staked to be used in prov ing them "sooners," and the false slarms was a little scheme of the old timers to shut off much competition in the real opening. There is much bad feeling over he matter, and there may be trouble to

Providing for Ford's Theater Victims, Washington, May 22.—A joint commit-ce of members of the last congress is siting at the Capitol to assess the persona damages sustained by clerks of the record and pension division of the war depart ment in the Ford's theater disaster in June, 1895. Nearly one hundred claim. have been submitted. Twenty-three clerks were killed in the fall of the building, and the last congress provided for their fami lles by an appropriation of \$5,000 to the eirs of each victim. It has been con eded in the discussions of the committee that a larger sum than \$5,000 may be ecommended to be paid to certain sur vivors who were permanently incapaci

Suit Against Secretary Herbert.

WASHINGTON, May 29.-Ex-Commander John N. Quackenbush, of the navy, yes-terday filed a petition for a mandamus to ompel Secretary Herbert to restore him to the rank of commander In 1874 Mr. Quackenbush was tried by court martial and sentenced to dismissal from the serice. President Grant commuted thesenence to suspension for six years. After erving out the sentence the commander ent on waiting orders, and received pay of his grade until April 1, 1881. In 1893 ecretary Chandler caused Quackenbush's name to be stricken from the rolls.

Mr. Wm. Thornton of 127 W. Market Street Explains How and

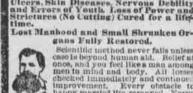

Why He Did It. (From the Elmira Gasette.)

Old age has many infirmities, none of which are more prevalent than kidney disorders. Have you ever noticed how the old people complain of backache, lame back, and general listlessness? And there are many other symptoms of which they do not speak, such as bloating of the limbs, painful and infrequent urination or excessiveness of urinary discharge.
Most people think they are too old to
find relief and cure, but this is not
so. No better evidence than the following, which comes from an Elmira citizen, who has been cured of a very severe case at 77 years of age. Mr. Wm. Thornton of 137 West Market Street, speaks of his case in this way: "I am 77 years old. I have been afflicted with that dreaded complaint before a least the severe as the severe as the severe as the severe afflicted with that dreaded complaint below. (kidney disease) for over ten years, making my old age a burden. I was so bad as to be forced to carry a belt at all times, and, when my suffering became beyond endurance, I would put on the beit drawing it tightly around me and buckle it, thus bringing an extreme pressure over the kidneys; this, undoubtedly, forced the urine out, a function which the kidneys themselves had become too diseased to per-iorm. My condition I put down to a strain I received. I began taking Doan's Kidney Pills. After two or three days I noticed their effect. I was much surprised, as the ailment was so severe and so long standing, while I had tried many remedies without any relief whatever. The pain I have experienced at times from atraining in my efforts to discharge the urine was simply awful. I have done away with the use of my cather belt, and the pain has all gone, and I recommend Doan's Kidney Pills to all afflicted with kidney and urinary disorders.
