THE bonds sold to the Belmont-Morgan syndicate at 104% are now quoted at 122%, and the average citizen can easily figure out the cost of the Democratic blunder in that relation.

THE fee of \$40,000 which Secretary Hoke Smith has just collected from a railway corporation is not so much as he has frequently taken away from the pensioners in a single day to make a Democratic record of economy.

REV. T. DEWITT TALMAGE, in his sermon last Sunday, commended the bloy cle as a means of physical exercise, which be declares is one help to moral excellence. ONE of the strangest coffine and burials One of the strangest coffins and burials ever told of is that for which the British war department is said to be responsible. The story is that a workingman engaged in casting metal for the manufacture of ordnance at the Woolwich arsenal lost his balance and fell into a caldron containing twe've tons of moiten steel. The metal was at white heat and the man was nuterly consumed in less time than it

takes to tell of it. The war department authorities held a conference and decided not to profune the dead by using the metal in the manufacture of ordnance, and that mass of metal was actually buried and a Church of England clergyman read the service for the dead over it.

ONE of the police officers appointed by the last Democratic Mayor in Chicago never put on a uniform, never performed service, and all of his time was put in as a street contractor. The new mayor, Mr. Swift, a very practical man, discovered this supposed policeman, discharged him from the force and ordered him to return every cent of salary he had drawn. If he refuses, he will be prosecuted.

THAT business is reviving in nearly every branch of industry, and in every section of the country, is clearly shown by the many voluntary concessions in the form of increased wages. There is no surer indication of growing prosperity than this increase of compensation. When reductions were made in wages during the depression it was an absolute necessity. Now that the times are improving and the future has a brighter look, it was the proper thing to do to restore the former rates of wages, and it is greatly to the credit of the many employers that they have done this of their own volition, and not in compliance with the demands of strikers.

GOVERNOR EVANS, of South Carolina. says be will pay no attention to the order of Judge Goff, which prevents the white Democrats from interfering with the negroes who want to register except under the most difficult conditions-conditions that practically bar the colored voters out, and Judge Goff says that the colored man has just as many rights as anybody else, and he must not be interfered with. And the swash buckler who rules South Carolina says that South Carolina will defy the United States. She tried that game thirty-four years ago and was swept by fire and backed by the sword. Is she hunting more of the same kind of trouble?

OPINIONS may differ as to Judge Goff's decision against the validity of the South Carolina election laws, but there can be no two ways of thinking as to the foolishness of South Carolina's Governor in his proclamation to the people concerning it. His talk about the white flag of Anglo Saxon civilization and progress and the black flag of the debased and ignorant African will do more to injure "reprimand" the United States Supreme the cause he has undertaken to defend Court for "insubordination" in uphold- than any decision of the lower courts. The best thing the people of South Carolina can do is to muzzle their hotheaded Governor and calmly await the decision of the United States Supreme Fava. Court as to the right to disfranchise the ignorant blacks.

FAVA'S PROTEST ANSWERED. Italians Not Held at Pocahontas Against

Their Destre. WASHINGTON, May 23.-On Tuesday the department of state, at the instance of Baron Fava, the Italian ambassador, telegraphed the governor of Virginia that it was represented that 125 Italians had conracted in New York to work for the Southwest Virginia Improvement company as stone cutters, and that Baror Fava was advised that they were being ill treated, deprived of food and detained by force at Pocahontas. The company, it was charged, was endeavoring to force the Italians to work in the coal mines in place of striking miners, contrary to their con

tract, and Virginia troops, it was said were coercing them. The department requested the governo to institute a prompt investigation and give due protection in case of need, should their contract be violated. Yesterday the department received a telegram from Governor O'Ferrall saying that he had communicated with the commandant of Virginia troops at Pocahontas and had been informed by him that rations were issued daily to Italians; that they had brought with them a good supply of bread and sausage and seemed to have some money, and that there was no suffering or upon the cars and returned to New York

How to Treat a Wife. (From Pacific Health Journal.)

First get a wife: second, be patient You may have great trials and perplexities in your business, but do not, therefore, carry to your home a cloudy or contracted brow. Your wife may have trials, tracted brow. Your wife may have trials, which, though of less magnitude, may be hard for her to bear. A kind word, a tender look, will do wonders in chasing from her brow all clouds of gloom. To this we would add always keep a bottle of Chamberlain's Cough Remedy in the house. It is the beat and is sure to be needed sooner or later. Your wife will then know that you really care for her and wish to protect her health. For sale by Gruhler Bros. Druggists.

# UNION COLLEGE AGAIN

The Object of Another Assault in the Presbyterian Assembly.

THE ENDOWMENT FUND ASSAILED.

A Committee Instructed to Ascertain What Steps Are Necessary to Gain Possession of Endowments Which That Institution Is Said to Have Stelen.

PITTEBURG, May 23,-The ill success which attended the effort made in the Presbyterian General Assembly on Tues-lay to turn down the directors of Union Cheological seminary, who were proposed or re-election as members of the board of home missions, had a damaging effect upon a similar movement which was proosed concerning three more of those directors whose names came up for election to the foreign mission board yesterday. Among those thus recommended were William A. Booth, father or the moderaor; E. M. Kingsley, treasurer of Union seminary, and Dr. John Balcolm Shaw, a director in the same institution. They vere promptly re-elected.

But the ghost of Union seminary will ot down. A new proposal was adopted equiring the committee of conference with ot down. the theological seminaries to ascertain what stops are necessary in order to gain possession of some of the endowments now held by Union, which she has been declared to have "stolen" from the denomination. It is anticipated that the committee has undertaken a larger con-

ract than its members can handle.

The scene enacted in the assembly when collection was taken for the benefit of alssionary candidates was quite as un-sual as it was successful. It showed at least the practical benevolence of the min-isters and elders present. The predomin-ance of gifts from "liberal" men and churches was remarked by some of the ommissioners, and also the fact that the argest subscriptions came from the east The total amount collected exceeded \$4,000. The great success of the meeting held Tuesday night in the interest of home missions caused the inauguration of an overflow meeting last night in the Second church, at which several foreign mission-

aries spoke.

Most of the day was devoted to special missionary and educational interests of he church, accounts of which are given in

the following reports: Vice Moderator Governor Beaver pre sided at the afternoon session of the as-sembly. The first order was the report of the committee on education, presented by Dr. Martin B. Kneeland, of Boston, Mass. The usual complaint against non-contributing churches was made, coupled with a recommendation that they all be urged to end in their collections, however small. The report recommended that the amount of \$150,000 be raised for educational purooses during next year, and the board was directed to report whether students might be required to spend a year in missionary work after graduation before entering

upon a regular charge. This suggestion was carried further by Dr. White, of Columbus, who proposed that a term of service should be required by all students aided by the board, so that they should render a service equivalent for the aid received. Dr. W. Hodge, then addressed the assembly in the interest of his

The second order of the afternoon was the report of the board of aid for colleges which was presented by Professor W. H. Landon, of the San Francisco Theological seminary. The receipts of the board amounted to \$119,607 and the expenditures to \$114,000. Aid was given to colleges and cademies whose total valuation was over a million dollars. Again complaint was was recommended that \$150,000 be raised luring the next year, and that the Sunday after the day of prayer for colleges be de signed as education day in the interests of this board.

amblers Driven from Essington. STER, Pa., May 23.-Chief of Police Bosslaw, acting under instructions from District Attorney Schaffer, went to Essington yesterday and served notices on the pool sellers that any attempt to continue their business would result in their immediate arrest. When the chief arrived at Essington the pool selling was not in progress, as the men running the business had received private advices that Governor Hastings had signed the anti-pool bill. The gamblers were gathered in little knots, discussing the action of the legislature, and told Chief Bagshaw that they would leave Essington for a less risky place to conduct their business

A Georgia Sheriff Killed.

SAVANNAR, Ga., May 23.—George Dun-ham, sheriff of Montgomery county, and a friend went to William Connell's house to see about reports it was alleged he had circulated about Sheriff Dunham and his wife. Dunham and Connell had a converation, and Dunham asked about the reports. Connell denied making them, the lie was passed, and Dunham rushed at Connell. Connell ran to his house, got his gun, and shot Dunham in the face, killing him instantly. Connell escaped

Caught in the Machinery and Killed. DOYLESTOWN, Pa., May 23.—Thomas T. Pool, aged 47 years, was instantly killed by being caught in the machinery of his Ingham Spring paper mill, about six miles east of here. ENTHUSIASTIC CONFEDERATES.

A Royal Greetley to Miss Winnie Davis

Houston, Tex. May 23.—The first day of the Confederate vaterans' reunion here was marred by rain, but this did not dampen the cuthusinsm of the veterans by General John B. Gordon, and hearing the report of the historical committee Miss Winnie Davis, the "daughter of the Confederacy," was introduced.

A wild shout went up that fairly made the building tremble. Never was then seen such demonstration. Hats were flying

in the air, gray haired men were cheering and yelling, completely drowning th music rande by the band, which was play The Bonnie Blue Fing.

The masses of old veterans were so over-ome with enthusiasm that a wild rush was made for the place where Miss Davis stood, and in an instant she was surrounded by a mass of men, all pushing pell mell to grasp her hand and show how sappy they were to meet her. Realizing the danger of such a crush Governor Lowry and several others came to the scue, extrienting Miss Davis from the crush, and placing her where she could be en by all and bow her acknowledg ments.

At the conclusion of the ovation the crowd dispersed, and Miss Davis was driven to the residence of Judge Masterson, whose guest she is.

South Carolina's Registration Fight. COLUMBIA, S. C., May 23.—There has been a change in the plans of the state administration with reference to Judge Goff's decision that the South Carolina registration laws are unconstitutional The case will be taken on appeal to the federal court of appeals for this district. Chief Justice Fuller and Judges Goff and Simonton constitute that court. Both the latter are disqualified from sitting at the hearing of the appeal, the former because he rendered the decision appealed from and the latter because he helped frame and pass the law declared unconstitu Justice Fuller will name judges to sit in their places, and it is said that these are likely to be Judge Jackson, of West Virginia, and Judge Dick, of North Carolina.

The Memphis Sound Money Convention. MEMPHIS, May 23.—The most notable characteristic of the convention for the discussion of "sound money and better banking facilities," which met here at 2 o'clock this afternoon at the Auditorium, is the total obliteration of party lines in its makeup. The five or six hundred delegates, representing every state and all the principal cities of the south, include men holding all shades of political belief, epresenting every branch of commerce and industry in which the south and the country at large is vitally interested. After the work of organization is perfected the convention will listen to an address by Hon. John G. Carlisle, secretary of the
