HORSE DRIVEN TO DEATH!

Two Young Men Hired the Animal to Drive to Brandonville. But Went to Hazleton and the Animal Dropped Dead.

Frank Cartwright and William Yodkois will be obliged to scrape enough money to make the loss sustained by William Martsonkewicz, who claims to have lost a horse valued at \$200 on account of the young man's recklessness and cruelty to the animal. Cartwright was committed to jail in default of \$500 bail. Yodkois furnished the security. He is a son of Mrs. Yodkois, who keeps a saloon on East Centre street. The young men hired the horse and a buggy on the representations that they wanted to drive to Brandonville. They went as far as Hazleton and speeded the horse on the homeward journey to get home in good time. When at Yatesville the horse dropped dead and the buggy was badly damaged, but the occupants escaped injury. The experience will no doubt be a costly one for the young men and will be a good lesson for them in the future.

Compliments and Sympathy. Probably the handsomest newspaper ever issued in Shenandoah county was the souvenir edition of the Shenandoah Herald on Thursday of last week. The occasion was the Herald's twenty-fifth birthday and in no more fitting way could Editor Boyer have celebrated so auspicious an event. The edition proved the fact that Editor Boyer had one of the best equipped newspaper offices in the county, and we extend to him our heartfelt sympathy for the loss of so valuable a plant by fire on the day following its silver anniversary. May the success of the Herald in the past be trebled in influence and prosperity.—Tamaqua Recorder.

He Ignored Her. Thomas Bielsky was arrested by Constable Giblin and placed before Justice Toomey on a charge of desertion and non-support. William Snyder furnished \$300 bail for him. Mrs. Bielsky came to this country about two months to join her husband. He almost entirely ignored her and failed to provide any means for her support. The woman secured a position as domestic in a family to support herself and now seeks to give her negligent spouse a lesson on American law.

INTERESTING POT-POURRI!

Excellent Work of Borough Officials. Belle Hunters at the Fire Ruins Become Bold on Their Expeditions.

May was a record breaking month for the officials of Shenandoah, especially on the part of the Chief Burgess and the paid police force. It shows that they are paying strict attention to business and no guilty men are escaping. The collections of fines and permits and license fees made by the Burgess aggregated \$186.50. This stands unprecedented. These collections have several times lapped the \$70 mark, but they have rarely approached the \$100 point. Much of the credit for the large amount of collections is due to the vigilance of the paid police force. The fines from the arrests alone amounted to \$81. The police are giving excellent service and their good work shows itself in the absence of depredations. When the force first went on duty a few weeks ago there were several robberies and the perpetrators escaped. This was due mainly to the fact that the police were new and did not have time to give the town's systematic patrols and the duty that an old force gives. Law breakers are always on the alert for such situations and they did not fail to take advantage of the present police force when it was new, but since the officers have become acquainted with the people of the town and their habits the enemy has deemed it advisable to keep under cover. It is consoling to a public to know that it has a police force that is on patrol at all hours during the period of duty and that it has made itself a terror to evildoers.

Well, well, well! That's pretty tough. On Thursday the Hazleton people knocked the wind out of the Pottsville people by securing the passage of the Quay county bill and yesterday the Hazleton base ball club defeated the Pottsville club on its own grounds and it dropped back to fourth place in the State League race. This is, indeed, humiliating.

The bill record in connection with the affairs of the borough is also running up to a high figure. The number of orders approved by the Borough Council for the month of April aggregated 102. The issue approved at the meeting on Thursday night for the month of May numbered 104 and the issue for the first three months of the fiscal year exceed the issue during the same period last year by about 150. The increase for May, last, was due to the large number of men employed to test the hose of the fire companies and to work on the pipe lines to prepare for the test of the public water works.

The ruins of the fire is still an attraction for curious visitors and relic hunters. The latter are quite numerous and some of them are more bold than is in conformity with the law. Some of them would require little encouragement to secure a derrick and remove the boilers and engines that mark the ruins. A junk dealer of town returned over 300 pounds of lead which boys took from the debris and sold to him.

Dealers in fire hose seem to be as alert and persistent as fakers who follow circuses. The Borough Council decided on Thursday night to ask for bids for a supply of new hose and yesterday the town was flooded with agents armed with samples of all makes and grades of hose. Council should not be too hasty in making a selection.

Fire Marshal James S. Williams has been annoyed by the remarks of some people who claim that they could have directed the battle against the fire last Saturday with better success than he did. The Marshal should not allow himself to become annoyed. We can appreciate his feelings because we frequently hear from people who feel that they could run this paper better than ourselves. They are, as a rule, idlers who indulge in criticisms to kill time, regardless of the annoyance they give to people who strive to perform their duty conscientiously.

From Our Exchanges.

Shenandoah sustained a loss of \$60,000 by fire early last Saturday morning, and among the heaviest losers is H. C. Boyer, of the EVENING HERALD. His entire plant was destroyed but this did not deter him from issuing his paper, for he came to Pottsville with his entire force and from the Journal office ran out his paper on time. This certainly shows enterprise.—Orwigsburg News.

The Shenandoah Herald displayed its usual enterprise by appearing Saturday afternoon with a full account of the morning fire that destroyed the plant. The issue was made from the Pottsville Journal office, and reflects snap on the part of Editor Boyer.—Lansford Record.

THE LOCUST DALE WRECK.

A Coroner's Jury Says the Victims Were Responsible.

Deputy Coroner Richard J. Williams held an inquest at Ashland yesterday to ascertain the causes of the wreck on the Philadelphia & Reading railroad at Locust Dale on Thursday morning.

The evidence went to prove that the freight ran past Locust Summit station without orders, and that the operator had tried, but in vain, to signal them, and they ran over the "knuckle" without shutting off steam. It was the impression that the engineer was asleep at his post.

Engineer Gillespie corroborated operator Quirk who said that the red flag was on when the freight passed the station.

The evidence of the brakemen went to prove that the freight went down the grade beyond control.

In view of these facts the jury rendered a verdict, in effect, that the said Elwood Moyer and William Kleese came to their death by reason of their own negligence, and that no blame can attach to the company, or its officials.

Elwood Moyer was the engineer of the train and William Kleese the fireman. A separate jury was empaneled to hold the inquest on the body of Oliver S. Botts, the conductor.

Mr. Gilmore Acquitted.

MEDIA, June 7.—The jury in the case of John P. Gilmore, on trial for forgery, returned a verdict this afternoon of not guilty. The jury rendered its verdict at 3:30 o'clock this afternoon, having been out since 5:10 o'clock last evening. "Now," said Gilmore to his pretty young wife, when the verdict was rendered, "You will not believe all these things the District Attorney has said about me."
