JEALOUSY AND MURDER.

A Thirteen-Year-Old Girl Killed by a Laborer of Forty.

HYANNIS, Mass., June 11.—Lizzie Coleman, the 13-year-old daughter of William Coleman, of Osterville, while on her way to school, was shot and killed by Henry Ledtke, a German, who next fired two shots at a little brother of the girl, who was with her. Ledtke then shot himself through the head and died instantly.

Jealousy on the part of the man, who was 40 years old, towards the girl for associating with lads of her own age is thought to have prompted the deed. Ledtke has been employed in this vicinity for three years, and has always been on friendly terms with Mr. Coleman. The German had shown a great liking for Lizzie Coleman, but recently her mother had noted signs of displeasure on his part at some slight attentions shown the girl by her boy schoolmates. This became especially marked when, not long ago, Ledtke threatened to shoot a 13-year-old boy living near the Colemans because he had walked home from school with Lizzie. At this not only Mrs. Coleman but her husband and the girl herself became alarmed, and it was decided that her brother Charlie should accompany her to and from school. In pursuance of this plan brother and sister were together yesterday. They had reached a point about 500 yards from the house when Ledtke suddenly appeared and shot at the girl. The girl tried to shield herself by holding her hands before her. The bullet passed through both hands and inflicted a flesh wound in the face.

FOR A PACIFIC CABLE.

It Will Probably be Built Within the Next Eighteen Months.

SAN FRANCISCO, June 11.—The steamer Australia, just arrived from Honolulu, brings the following advice dated June 3: Audley J. Coote, an Australian who is interested in different cables, arrived on the 1st inst. to confer with the Hawaiian government regarding the proposed Pacific cable. He has made a proposition which will be considered by President Dole and his cabinet.

Mr. Coote will be in Washington on Oct. 17. He represents a French company, which is willing to build from Sydney to San Francisco, taking in Auckland, Samoa and Honolulu. He wants the Hawaiian government to pay an annual subsidy, in return for which no charge will be made for official messages. He will make a similar proposition to the United States. Mr. Coote feels confident that both governments will assist his company. He declares that the cable will be built within eighteen months.

W. R. Castle, the new minister to Washington, will leave this country, accompanied by his family, early in August, and expects to reach Washington about Sept. 1.

E. C. Creek pleaded guilty to a charge of conspiracy on the 1st inst. He was sentenced to three years' imprisonment, but the sentence was suspended with the understanding he would leave the country. He left the same day for China by the City of Peking. Creek, along with John E. Rush and Joseph Hawal, were arrested last September.

Bismarck's Advice to Farmers.

BERLIN, June 11.—In an address to a party of agrarians who called to pay their respects to Prince Bismarck at Friedrichsruhe the prince advised the agrarians not to give their votes to any one desirous of becoming a public minister—not to vote for any one whose wife wished to shine in Berlin society. From people of this character come the burrs who stick fast to ministerial posts. It is useless to expect them to champion agricultural interests. "Let us not, therefore, elect ambitious persons," he said, "but rather those of our own flesh and blood. We must stand shoulder to shoulder against the drones who govern us, and who produce nothing but laws."

Buffalo Wants the Journalists.

PHILADELPHIA, June 11.—The fifth annual convention of the National League of Press Clubs was called to order at 10 o'clock this morning in Independence Hall by President Clark Howell, of Atlanta. Delegates are present from all sections of the country, and the meeting promises to be one of unusual interest. The Buffalo delegates, headed by Harry D. Vought, secretary of the league, were accompanied by a score of visitors from that city. They came down on a special train, and they have a boom with them to have next year's convention held in their city.

A Boy Held for Ransom.

CHINOOK, Mont., June 11.—The 12-year-old son of Marcus McKain, a rancher, has been kidnapped by Frank Turner, a hunter, and several other men whose identity is unknown. A note has been sent to McKain by Turner stating that the boy would be held for ransom. The boy's parents are almost distracted. A posse of ranchers and cattlemen started after the robbers, and trailed them some distance into the mountains, but lost the trail. Another posse was organized, and the search is being continued.

Trenton Potters Will Strike Again.

TRENTON, June 11.—All of the ten sanitary ware potteries in this city shut down yesterday, and all day long their 500 workmen were in secret conference, deciding upon a new scale of wages to be demanded of the employers. The men decided to ask on Thursday for an average increase of 30 per cent. over the wages they are now receiving. If the employers refuse to agree to the new scale the men will go on strike.

Bandits in New Mexico.

DENVER, June 11.—Postoffice Inspector McMeachen has received telegraphic information from United States Marshal Hall at Santa Fe, New Mexico, of the robbery of the stage on a road between Triso and Luna, near the Arizona line. It is reported that the state is packed by armed bandits who have been recently operating in Arizona. The amount of plunder secured is not known here.

FRANCE AND RUSSIA.

The Alliance Explained by Foreign Minister Hanotaux.

THE FRENCH SQUADRON AT KIEL

The Recent Policy of France Has Landed Her Again into Her Proper Place Among the Nations of the Earth—The Government's Declarations Approved.

PARIS, June 11.—The question of French policy in the far east was revived in the chamber of deputies by M. Millerand, the Socialist deputy, who protested against France playing what he termed "Germany's game." M. Millerand was supported by other Socialist members of the chamber, who objected to the participation of France in the coming festivities in connection with the opening of the Baltic and North Sea canal.

The minister for foreign affairs, M. Hanotaux, replied, amid Radical interruptions, which were met by Centrist cries of "Silence Communists." M. Hanotaux defended the presence of the French squadron at Kiel by saying that the French sailors would represent not a humiliated, downtrodden France, but a nation confident in her strength and rich enough in glory not to dread comparison with no other power.

Adverting to the question of France's policy in the far east M. Hanotaux made an important statement, declaring that even had French interests been less affected than they were the government would have considered it to be its imperative duty to intervene immediately after Russian interests were threatened. Nobody could be blind, he continued, to the dangers of a reversal of French policy in refusing to support Russia at this delicate juncture. He believed himself to be the faithful interpreter of the feelings of the country when he telegraphed to St. Petersburg that France places her alliances in the first rank of her considerations, and that the government of the republic was therefore disposed to support with all possible efficacy the views of the imperial government concerning the conditions of peace between China and Japan.

Continuing his remarks upon the subject of the presence of the French squadron M. Hanotaux said that the interests of France, too, justified the attitude adopted, and he pointed out the situation in Egypt at the present time as a result of the mistaken policy of abstention which the French parliament had forced upon Gambetta, who foresaw the result of the evils of the policy of restraining the government from actively so far as the Suez canal was concerned. The recent policy of activity and expansion adopted by France had lifted her again into her proper place among the nations of the world, and had brought about the alliance with Russia—an alliance which had given France the position she long needed.

M. Hanotaux concluded by asking for the unequivocal support of all the members of the chamber, for he said a policy of vacillation would only weaken French prestige abroad.

M. Flourens asked if in return for French support in the east Russia would assist France to obtain the freedom of Egypt. M. Goblet demanded the publication of the treaty of alliance with Russia, if one was in existence. At this point M. Ribot interposed, saying: "You know well we cannot publish it."

M. Goblet then continued his remarks, insisting that the visit of the French squadron to Kiel was the unfortunate result of the French co-operation with Russia and Germany in the far east. Frenchmen would never understand any policy of rapprochement with Germany as long as the question of the ultimate disposition of the provinces of Alsace and Lorraine remained unsettled. M. Ribot concluded the debate by endorsing all the remarks of M. Hanotaux.

The order of the day approving the declarations of the government was then adopted by a vote of 392 to 105, and amidst loud cheering the chamber of deputies adjourned.

Want the Constitution Changed.

DENVER, June 11.—The synod of the Reformed Presbyterian church of North America adopted resolutions in favor of changing the constitution of the United States by inserting: "A clear and explicit acknowledgment of Almighty God as the source of all power, of Jesus Christ as the prince of kings of the earth, and of the Bible as the supreme rule in all affairs." Rev. J. C. McFeeters, of Philadelphia, Dr. H. H. George and other speakers declared the country's financial troubles were due to the fact that the supreme power of God was not acknowledged in our constitution.

Destruction of Missions Confirmed.

SHANGHAI, June 11.—The report of the total destruction of the missions at Chengtu, Kiating and Yochow has been confirmed. The local officials refused protection to the missionaries until the mob had completed the work of demolishing the buildings. The mission stations at other places have been threatened. About twenty adults, besides a number of children, have taken refuge at Chengtu and Yamen. Viceroy Lin is blamed for the affair.

Britannia Defeats Allias.

DOVER, Eng., June 11.—In the regatta of the Royal Cinque Ports Yacht club Allias and Britannia started at 12:09 p. m. The Prince of Wales and the Duke of York were on board the former's yacht. The race was won by Britannia on time allowance. In the race for the twenty raters Mr. Howard Gould's Niagara easily defeated the Luna and Stepanie.

Disastrous Cloudburst in Kansas.

SALINA, Kan., June 11.—A cloudburst is reported from Bartondale, a small town southwest of here, in Barton county. The water was about four feet deep and did much damage. A herd of about fifty head of cattle was drowned and several buildings wrecked. No lives were lost so far as has been learned.

Representative Hitt Improving.

WASHINGTON, June 11.—The improvement in Representative Hitt's condition continues. Yesterday, for the first time since his illness began, he was able to sit up for a time in a chair. The condition of Miss Mary A. Dodge (Gall Hamilton) remains unchanged.

Borned the Baby to Death.

MIDDLEBURG, Fla., June 11.—Mrs. Ruth Brookie yesterday left her three younger children in charge of her 9-year-old boy. One of the younger boys deliberately lighted a match and set fire to the baby's clothes, burning the child to death.

THE THEORY OF THE DIGESTION OF FOOD.

The human stomach is a pear-shaped bag into which all food drops at once when swallowed. Three things happen:—the blood rushes into the substance of the stomach (not into its interior) to heat it; thousands of little ducts or pipes pour copiously forth a fluid called the gastric juice; and, then, the stomach begins a wave-like, churning movement which thoroughly mixes the gastric juice with the food, and by-and-by changes the whole into a gray-looking semi-liquid paste called chyme. This is digestion as it takes place in health.

But, look you! If the stomach fails to furnish the gastric juice, or fails to furnish enough of it, the food simply lies in the stomach and turns sour, putrefies, ferments—as it would in a warm, moist air outdoors. This is indigestion, dyspepsia or gastritis. Having no other way of escape the poisons so engendered pass into the circulation and set up a train of results like these: headache; foul taste in the mouth; loss of appetite and nausea; ferrous tongue; disordered heart action; nervous weakness and prostration; chills followed by heat flashes; distress and weight in the chest after eating; fugitive muscular pains, followed in time, by grave local ailments, etc. All this, bear in mind, comes of a more or less complete failure of the stomach to secrete gastric juice.

Having studied this subject for many years the Shakers of Mt. Lebanon, (N. Y.)—famous as medical chemists and herbalists—sought among the plants cultivated by them only for a remedy which should have the distinct and especial effect of stimulating the flow of gastric juice to a normal amount and at the same time of the full, natural digestive strength. No other so-called remedies for dyspepsia have this purpose in view, yet it is the absolutely essential thing. Successful in their efforts, even beyond their hopes, they have placed their discovery on the market under the name of the Shaker Dietetic Cordial. Relief is felt at once and a permanent cure soon follows. It is the sure and scientific remedy for indigestion and dyspepsia.

Confident in their work the Shakers offer retail bottles at the nominal price of ten cents. For sale by nearly all druggist.

SKIRMISHING IN CUBA.

Revolutionists Still Fighting in the Face of Certain Defeat.

HAVANA, June 11.—Lieutenant Ruiz recently met the band of Diaz, the insurgent leader. A skirmish followed. The Spaniards charged with fixed bayonets and the insurgents were dispersed and driven to the mountains of Sabana. The insurgents left one dead and three wounded, while two of their men surrendered after the action.

Lieutenant Colonel Tejada, between Cristo and San Luis, also engaged the insurgents in a stubborn conflict. One of the soldiers was killed and one wounded. Members of the insurgent band commanded by Zayas plundered two stores in the province of Puerto Principe. The citizens became alarmed, as the village was absolutely without troops. Condoval, knowing that he would find some of the insurgents in the Majaguabo district of San Luis, divided his forces into three companies, while Lieutenant Colonel Michelena commanded another. The third company was commanded by Lieutenant Colonel Colague.

When the insurgents were discovered they were attacked by the Spanish troops, but no conflict occurred, the insurgents refusing to fight. Four of the insurgents were left dead, while two were wounded. One prisoner was taken. A regiment from Valladolid, while marching from Guantanamo to Santiago de Cuba, between Tiguabos and Macuriges, fired on a score of insurgents, who dispersed, leaving two dead on the field.

The bands of Miro, Maceo and Sartori have added to their numbers sixty negroes from near Gibara. On this account it is thought that these bands will soon pay a visit to Gibara.

Insurgent General Gomez has passed through the province of Puerto Principe. He has not yet reached Tunas, however. Troops will concentrate in the vicinity of Tunas for the purpose of helping the citizens in case trouble should be threatened. It is reported that the insurgents during the last revolution buried two cannon, and according to recent advices these have been dug up and will be repaired and placed in readiness for future action. Maceo, the insurgent commander, has issued orders commanding the insurgent sharpshooters to kill Colonel Sandoval if the opportunity is presented, out of revenge for the death of Marti.

Protecting Against Paganism.

DALLAS, Tex., June 11.—The Dallas Pastors' association yesterday passed resolutions in substance as follows: "We learn with shame and sorrow that it is proposed to hold in our midst a contest between two noted pugilists. Such contests are brutalizing in an unpeakable degree, and will concentrate in our midst a horde of gamblers, thieves, pickpockets, thugs and barlets, whose presence is a perpetual menace to the welfare of the community, and when concentrated here would debauch our city and state in an unlimited degree. We express our most emphatic disapproval and abhorrence of such an outrageous abomination." They then ask the governor, if he finds the law inadequate, to call an extra session of the legislature to prohibit the fight.

The Rhode Island Strike Lost.

PROVIDENCE, June 11.—The fight between the operatives and manufacturers for nearly two months at the Atlantic mill and half that time at the other mills in Olneyville, is practically nearing its end. It is estimated that 2,000 mill employes have left Olneyville since the fight began. The Riverside loom fixers all went in yesterday, and a decided gain was made at the other mills. Two hundred and twenty-four looms are now running at the Riverside. In the National mills the final stand of the strikers is evidently to be made. The strike leaders assert that they can continue the fight here indefinitely.

Charged with a Monstrous Crime.

WILKES-BARR, Pa., June 11.—Frank Shaffer, Nelson Miller, James Miller, Sarah Miller and Hattie Braze, all negroes, were arrested last night, charged with murder. They are accused of having blown up a Hungarian boarding house on the Wilkesbarre mountain last October with dynamite. The object of the crime was robbery, and five of the inmates were killed outright. In the confusion that followed the perpetrators of the deed robbed the dead and wounded, and made their escape in the darkness. The thieves are said to have secured less than \$100 and a half dozen silver watches.

A CHICAGO LABOR RIOT.

Non-Unionists Brutally Beaten by a Gang of Strikers.

THE STRIKERS GAIN THEIR POINT.

They Refused to Work with Ten Non-Union Painters, and to End the How the Foreman Dismissed the Objectionable Men—No Arrests Made.

CHICAGO, June 11.—Blood has stained the beautiful marble entrance to the \$1,000,000 mansion now being erected by P. D. Armour, Jr., at the southwest corner of Thirty-seventh street and Michigan avenue. A handful of non-union painters, who have been at work on the interior of the building, were attacked yesterday afternoon by a party of union men, and a desperate conflict raged for fully five minutes. Finally, when peace was restored, four non-union men were led away to a neighboring drug store to have their broken heads patched up. One of them, Adam Beyer, was so weak from loss of blood that he could hardly walk. The injured are: Adam Beyer, cut on top of head and right eye badly gouged out; William Bliss, struck on left temple with an iron tool, making a severe gash; two other men were thrown down a flight of stairs and both received severe cuts and bruises. The police were not called to the scene of the fracas and no arrests were made.

The trouble arose because ten painters not endorsed by the Building Trades council were working on the building. For some time the matter has been debated between the trades council and William Jallies, foreman for the New York firm of Herger Brothers, who have the contract for the painting of Mr. Armour's new home and who employed the objectionable workmen. Saturday Alex L. McDonald, president of the Painters' District council, went to Mr. Jallies and told him that if the non-union painters were not off the job yesterday a strike would be declared on the work of all the other trades employed on the residence. The non-union painters were not discharged, and when the strike came fighting quickly ensued.

The union men outnumbered their opponents, and had all the best of the encounter. A terrible war was waged in the five minutes before the foreman and others could induce the participants to cease fighting. Hammers, wrenches and all sorts of tools were used in the combat, and one after another of the men were felled by the blows from a fist or some impromptu weapon, only to bob up again and renew the onslaught. It was only when Foreman Jallies came running up and waved the white flag that the attack of the union men ceased. He signed the agreement presented by the trades council, and immediately afterward discharged all of the objectionable men, ten in number. They went away—those who could walk—but declared they would prosecute both the contractors who had discharged them and the union men who had assaulted them.

THREE KILLED IN A WRECK.

They Were Going with Fire Apparatus to Aid a Stricken Town.

ROSBERT'S ROCK, W. Va., June 11.—A special train which left Wheeling with a fire engine for Cameron jumped the track about two miles east of this place. The engine turned over on its side down an embankment, being completely wrecked. The cab caught fire, and Engineer Duffy was felled inside in the midst of the flames. He was crushed in a shocking manner, and must have died almost instantly. Richard Donahue, Jr., of Wheeling, was on a gondola next to the tender, and when found was dead under the trucks. Charles Litton, of Mondeville, was also on the gondola, and had his breast so badly crushed that he died in a few minutes. All of the occupants of the caboose, seven in number, were more or less seriously injured.

Those most seriously injured are: Brake-man Clayton, will probably die; Charles Litton, Mondeville, W. Va.; W. M. Dean, conductor; John Short, Baltimore and Ohio special officer; Will S. Faris, city editor of the Wheeling Intelligencer. CAMERON, W. Va., June 11.—The fire which started during the night burned itself out in the morning. The entire loss is estimated at \$200,000. The fire started in a hay mow in which some gamblers had been playing, and burned practically everything in the town. Over 100 people are homeless.

The President's Fishing Trip.

LEESBURG, Va., June 11.—President Cleveland had good sport at trout fishing yesterday in the preserves owned by Henry Harrison, about two miles from this place. He was accompanied by Secretary J. Sterling Morton and Mr. Miller, the commissioner of internal revenue. They caught thirty trout before noon, the president hooking a dozen of them himself. The president says that the stream is one of the finest he has ever fished from. Subsequently the party caught over fifty black bass in the Potomac. The president left last night on his special train, and reached Washington shortly after midnight.

Deed in the Woods with Shotguns.

ARCADIA, Fla., June 11.—Dempsy Crews, a most prominent man of this town, was shot and instantly killed at Crownville by J. S. Lucas, a well known citizen. Lucas is in a dying condition from gunshot wounds made by Crews. The trouble has been brewing between them for some time over their cattle. Both men armed themselves with double barreled shotguns and met in the woods. Mr. Crews was heard to remark a few days ago that if the courts of the county failed to protect his property he would protect it himself or die.

A Sailing Party Capsized.

CLEVELAND, June 11.—Near Wycliff, O., a yacht containing Daniel Bently, Samuel Wellner and an unknown man, was capsized on the lake during a squall. Bently was drowned and the other men were rescued with great difficulty, both being insensible when reached by a rescuing party. Bently's body was not recovered.

Winding Up the Iron Hall.

INDIANAPOLIS, June 11.—Yesterday marked the limit of time allowed by the superior court of this county for the filing of claims against the Order of Iron Hall. Fifty claims on matured certificates, aggregating \$32,000, were allowed by the court and ordered paid.

Trotted Twenty Miles in an Hour.

LONDON, June 11.—E. H. Seddon's Lady Combarere yesterday trotted twenty miles at Manchester course, in 39:59.4, or a pace of 290.
