CONFESSIONS OF BETTIE GOOD TO INFANTICIDE AND MATRICIDE,

On Her Deathbed She Tells of the Horrible Murders She Com-

mitted.

LANCASTER, June 12-A terrible story comes from Brecknock township, county, it being a woman's deathbed con-fession of a double murder committed by 40 years ago. Mrs. Hettie Good, widow, of Bowmansville, last week tried to commit suicide by cutting her throat, but failed. She was a victim of consump tion, however, and died last Friday. She was buried on Monday. Before her death she confessed to a Mennonite preacher that years ago she murdered her grandmother and illegitimate child to get them out of the way.

Mrs. Hettie Good hved in Bowmansville, a small place near here, and was 05 years of age. No shadow of suspicion of an awful crime had ever rested upon her and in the eyes of her neighbors she was an unsuspected woman.

HOW SHE KILLED THE CHILD.

For several years past Mrs. Good has been slowly dving of consumption and knowing her end was drawing near and harassed by the agonies of remorse on Monday after the attempt at suicide she asked that Wm. Griffith, who formerly lived at Bowmansville but is now a resident of Mohraville, Berks county, be sent for, Griffith is said to have been Mrs. Good's lover 40 years ago when she was a fair young woman and to have been the father of her illegitimate child. Griffith obeyed the summons of the woman and to him Mrs. Good confessed that she had beaten out the baby's brains and buried it in the yard of the house.

MURDER OF THE GRANDMOTHER. The crime of infanticide was not the only one that rested in Mrs. Good's conscience on Tuesday. They sent for the Rev. John Horning, a Mennonite preacher of Bowmansville, and to him she confessed that she killed her grandmother, Mrs. Hutchinson, by poisoning. Mrs. Good said that the crime has been committed with the full knowledge and consent of her grandfather, Mrs. Hutchinson's husband-The woman was old and decrepit and in the way. After making her confession of her grandmother's murder Mrs. Good grew rapidly worse and died last Friday. details of the confession only reached here to-day and it is rumored that there will be other startling developments. The woman's grandfather, whom she accused of being a partner with her in the death of his wife, died several years ago-

### Coal Miners' Wages. From Philadelphia Stockholder

The Reading Coal & Iron Company and the Lehigh Valley Coal Company are pay-ing their miners for the last, half of May and the first half of June 10 per cent, below the \$2.50 basis, notwithstanding the fact that the committee from the Schuylkill Coal exchange had determined the rate at 15 per cent, below the basis. This indicates that the Reading and the Lehigh Valley have been selling coal at a very low figure, as miners' wages are rated by the selling price of coal at tide-water. The lower the average price received for coal from certain collieries the lower the miners' wages. The Schuylkill Coal Exchange found that the selling price at tide-water last month ated wages being fixed at 15 percent. below the \$2.50 basis, and the fact that the two companies named were willing to pay per cent, above this figure is a trifle sug-

THE PRESIDENT'S PROCLAMATION.

Speedy Justice Will Overtake All Who Violate the Laws by Aiding Those in Rebellion Against a Friendly Foreign Government.

Speedy Justice Will Overtake All Who as follows.—
Spranp solo, "O, Come Hither," D. J. J. Mason; prize, \$10.
Piano solo, "Tarantelle, Op. 20," S. B. Mills, for persons under twenty years of

is thoroughly determined that the United States government shall do all in its power and all the international law requires to prevent the violation of the United States territory by persons who undertake to make it a base of hostile operations against Spain, with which power it is at peace. Complaints have reached the department of state through the Spanish minister that men are being recruited on American soil. and that armed expeditions are leaving our shores for the purpose of attacking the Spanish forces in Cuba. Whenever the necessary evidence can be procured these infractions of the law of the United States are to be severely punished, for the secretary of state will leave no just ground for complaint that the United States has failed in its obligations to other nations. Meanwhile, however, it has been deemed proper to give formal warning to misguided people of what they may expect, so yesterday afternoon the following proclamation was issued from the state department by the president:

Whereas, the Island of Cuba is now the seat of serious civil disturbances, ac companied by armed resistance to the authority of the established government of Spain, a power with which the United States are and desire to remain on terms

of peace and amity; and, Wherens, the laws of the United States prohibit their citizens, as well as all others eing within and subject to their jurisdiction, from taking part in such disturbances adversely to such established government by accepting or exercising commissions for warlike service against it, by enlistment, or procuring others to enlist for such service, by fitting out armed or procuring to be fitted out armed ships of war for such service, by augmenting the force of any ship of war engaged in service and arriving in a port of the United States, and by setting on foot or providing or preparing the means for military enterprises to be carried on from the United States against the territory of such government;

"Now, therefore, in recognition of the laws aforesaid and in discharge of the obligations of the United States towards a friendly power and as a measure of pre-caution and to the end that citizens of the United States and all others within its jurisdiction may be deterred from subject. The evening session wound up with the ing themselves to legal forfeitures and penalties I, Grover Cleveland, president of the United States of America, do hereby admonish all such citizens and other persons to abstain from every violation of the laws herein before referred to, and do hereby warn them that all violations of such laws will be rigorously prosecuted; and I do hereby enjoin upon all officers of the United States charged with the exe cution of said laws the utmost diligence in preventing violations thereof and in bringing to trial and punishment any of-fenders against the same."

The issuance of the president's proclamation gave rise to considerable discussion as to whether it does not practically amount to a recognition of the rebels as belligerents. Such an interpretation of the proclamation, however, is not correct, according to the opinions of several well known public men. Senator Morgan, of Alabama, who is a recognized authority on international law, when asked about

the matter, said: "No recognition of the rights of beligerency are accorded by the proclamation, but just the reverse is the case. There would have been no necessity for such action if the insurgents were belligerents, for then the citizens of the United States would have the right to sell them muni-tions of war if they could escape the blockade of the Spanish fleets. It is simply carrying out the law on the subject.

Senator Call, of Florida, said the proclamation was rather stronger than he liked. "I am," he said, "in favor of the independence of Cubs, for it is a foregone conclusion that the island will throw, off a wild idea to suppose that this govern-ment can support the tottering government of Spain over Cubs, or that it ought

Another Indemnity Claim Against China-

Washington, June 18.—The confirmation of reports that American missionary property in China has been destroyed makes it probable that the United States government will require China to make suitable indemnity when the facts are officially established. A precedent for such recompense was made when the United States paid China a considerable amount for mob depredations on Chinese in the far northwest. It is said that the indemnity asked will cover not only the actual damage and loss to the American missionaries but also a punitive sum as recompense for the indignity suffered.
