

PAINT cracks.—It often costs more to prepare a house for repainting that has been painted in the first place with cheap ready-mixed paints, than it would to have painted it twice with strictly pure, white lead, ground in pure linseed oil.

Strictly Pure White Lead forms a permanent base for repainting and never has to be burned or scraped off on account of scaling or cracking. It is always smooth and clean. To be sure of getting strictly pure white lead, purchase this brand:

New Jersey Investigators Have Not Yet Finished Their Work.

TRENTON, June 13.—The senate yesterday passed over the governor's veto the following bills: Giving the mayor of Newark power to appoint members of common council and of the board of education in cases of vacancy; giving the mayor of Newark power to vote in council in cases of tie, intended to break an existing tie; reducing the fees of the clerks of the supreme court and court of chancery; repealing the present act giving the governor thirty days after adjournment of the legislature to consider bills. The house concurred in the first two votes.

The governor sent in another veto message, the bill affected being that which requires that applications for pardons must be made thirty days before being acted upon by the pardon board. The chief executive thinks the senate has no right to legislate for a co-ordinate branch of the state government.

It is probable that the house and senate will adjourn sine die this evening. The Republican senators held a conference yesterday afternoon on the question of continuing the senate investigating committee, at which it was decided that the resolution under which the committee came into existence also gives sufficient authority for its continuance. The resolution will not be re-considered, and the committee will resume its work after the legislature has adjourned.

Man and Wife Charged with Murder.

PETERSBURG, Ont., June 13.—On the morning of Feb. 23, 1894, fire destroyed the house of Thomas Gray, at Otonabee, and the body of an old man named David Scollie was found in the ruins, but the head was missing and has not since been found. David Scollie, previous to the fire, had willed his property to Thomas Gray on the condition that Scollie was to be supported for the rest of his life. Detective Murray has since been working on the case, and yesterday three informations were sworn out, one charging Thomas Gray and his wife Bessie with the murder of Scollie, another charging Bessie Gray with firing the dwelling, and the third charging Thomas Gray with getting his wife to commit arson.

A Gang of Girl Thieves.

VASSAR, Mich., June 13.—With the arrest of Della Lockhart, a 13-year-old girl, and her companion of the same name, named Houser, an organized band of girl thieves was discovered. Merchants have been missing goods for months, and all attempts at detection failed until Tuesday, when the Lockhart and Houser girls were detected "bitting" rings from the store of Jeweller Wightman. A search of their homes resulted in the discovery of much stolen property. Then the Houser girl confessed, implicating ten other girls of the same age in the work. All the girls are children of respectable parents.

He Wanted Too Much.

WASHINGTON, June 13.—A. A. Rudder, who served in a Tennessee regiment, was pensioned in 1891 at \$8 per month, was granted an increase in 1891 to \$10 per month. By a clerical error the figures \$10 were mistaken for \$10, and Rudder was paid the latter amount monthly for over two years, and might have continued to receive it indefinitely had he not filed another claim for increase. The error was then discovered and the payment reduced to \$10, while a further amount of \$10 per month will be retained until the amount overdrawn is refunded.

The Transvaal Rebellion Ended.

LONDON, June 13.—A dispatch to the Times says the rebellion in Zouthpansberg is ended. The campaign against the rebellious tribes has lasted only about a month. The insurrection was precipitated by the paramount chief, Magato, dismissing the Transvaal mission from his country. The Makatse tribes subsequently massed at their various strongholds, being armed with modern rifles which they obtained from the adjacent Portuguese coast territory. It was expected that the quelling of the insurrection would take a six months' campaign.

Nearly Murdered by Her Servant.

CHICAGO, June 13.—Mrs. Albert C. Hooke, of 4430 Berkeley avenue, was attacked by her servant girl, Mary Brown, yesterday, and very nearly murdered. Mrs. Hooke was giving directions about the work when the girl seized some kitchen utensils and began belaboring her mistress over the body. Then she carried her up stairs to a folding bed, put her in it and closed the bed. The servant is believed to have gone insane.

Murdered by Arkansas Toughs.

STUTTGART, Ark., June 13.—A fishing party, consisting of a Mr. Thompson and another man, their wives and three children, camping on White river, five miles below St. Charles, were attacked by toughs, their tents shot into, one woman and child killed and a man and boy seriously wounded. John Kemp, one of the toughs, was killed by Thompson. There is no known cause for the outrage.

Thieves "Working" the Brewers.

MILWAUKEE, June 13.—The National Brewers' association is in convention here. Yesterday Isaac Daneburg, president of the New York Brewers' association, was robbed of his pocketbook containing \$70. Another brewer lost a watch and three other diamond pins, and a fourth is looking for his valise and contents. The police are busy looking for the crooks.

A MURDERED STUDENT.

Great Excitement at Princeton Over the Death of Young Ohl.

THE BODY TAKEN TO HIS HOME

The Preliminary Hearing to Take Place on Saturday, and Several Students Who Witnessed the Shooting Will Remain to Aid in Bringing the Murderer to Justice.

PRINCETON, N. J., June 13.—Frederick P. Ohl, the young student who was shot by the negro Collins on Saturday night, died yesterday of peritonitis. His father and mother were up all night with him.

There are many stories about regarding the murder, but from the general evidence and from young Ohl's excellent character it would seem that John Collins, the negro who shot the two students, most certainly has been the aggressor. The dispatches stated that the shooting was the result of a row between Students Cochran and Ohl and the negro. The fray took place in an alley in front of the side entrance to Anderson's hotel. Collins is a laborer, 29 years old. He had had words with the students, and, in a fit of rage, drew a revolver and fired first at Ohl, then at Cochran, and again at Ohl. All the shots took effect. The bullet fired at Cochran struck him in the mouth. Both of Ohl's wounds were in the stomach. The students dropped to the sidewalk and were quickly removed to the College hospital and Collins was arrested.

Stephen Downs, also colored, was lodged in the county jail at the same time. He was in company with Collins immediately before the shooting took place.

The version of the affair told by the students is that as Ohl and Cochran, with some other students, were walking down Witherspoon street a little before 10 o'clock Collins and Downs approached them from an opposite direction, and Collins used insulting language, directing it toward the students. The latter rejoined sharply, and there was considerable profanity. A few minutes later Cochran and Ohl met Collins in the alley. Downs was a few feet away. Collins stood in the door of the hotel and reviled the students, and dared them to enter. They undertook to do so, when the negro whipped out his weapons and began firing.

Collins declared that he was first abused and then assailed by the students, and that he fired in order to frighten them, and not intending to kill them. According to the statement of Downs, however, Collins was the first to use threatening language, and that the students then followed them and started the fight.

The remains of young Ohl were tenderly lifted into the express train at 6:49 last night by his classmates. Mr. Ohl, the father of the unfortunate student, received the sympathy of the faculty and students, and before leaving personally thanked all who had given him their assistance and sympathy. Two of Ohl's fellow students accompany the body to New Castle, Pa.

County Physician Cantwell, who reported the post mortem examination, performed that Ohl met his death from peritonitis resulting from the wound in the stomach. The preliminary hearing in the case will be held on Saturday. The coroner has empaneled his jury from the most public spirited citizens in town. Several students who were witnesses of the shooting have been subpoenaed, and will not leave for their homes until they have done all in their power to bring the murderer to justice.

Cochran's temperature is a trifle higher, and he complains of tenderness in his mouth. Dr. Denton stated that the bullet had not been found, and that there still exists a possibility of its causing blood poisoning, in which case Cochran's recovery would be doubtful. At present, however, he apprehends no such calamity.

Defendant Taylor's Return to Justice. SIOUX FALLS, S. D., June 13.—Attorney General Crawford and H. R. Horner and R. W. Stewart, representing W. W. Taylor, have given out an official statement as to the voluntary return to justice of the defendant state treasurer. Taylor is to make all the restitution possible, leaving comparatively little for the bondsmen to pay, and is to stand trial. The state has given no assurances, except that Taylor is more likely to be leniently treated if he returns and makes no light than otherwise. He will be in Pierre inside of ten days. He has been in Cuba, Mexico, British Guiana, Jamaica and Brazil since leaving the United States, but he is now in a northern clime.

Proposed Retaliation by Canada. OTTAWA, June 13.—Major McLannan, Conservative, asked the house of commons to pass a bill to prevent the letting of government contracts to aliens. He said he had no desire to interfere with aliens coming into Canada to work, but he thought it a crying shame that the United States contractors annually should take hundreds of thousands of Canadian dollars out of the dominion. The United States laws, he said, made it practically impossible for Canadians to get contracts in the states.

Tried Suicide from Brooklyn Bridge. NEW YORK, June 13.—David Cohen, aged 21 years, attempted suicide by jumping from the Brooklyn bridge. He struck the water feet foremost, and as he rose to the surface struck out to swim, the plunge into the cold water having caused him to change his mind. He was picked up by a ferryboat and given into custody. He is apparently little the worse for his leap, which was from nearly the highest point in the span. Cohen is a tailor, and a native of Hungary.

After Philadelphia Railways. HARRISBURG, June 13.—Judge Simonson made an order yesterday, on application of Attorney General McCormick, on a number of Philadelphia passenger railway companies to show cause next Tuesday why their franchises should not be forfeited on the ground that they have failed to begin or complete lines for which they asked privileges.

National Journalists Elect Officers.

PHILADELPHIA, June 13.—The National League of Press clubs, before final adjournment yesterday, passed resolutions urging legislation against hasty and unwarranted suits for libel. Officers were elected as follows: President, Louis N. Merganser of Philadelphia; vice presidents Joseph Howard, Jr., of New York, John W. Kellar of New York, General Felix Agnus of Baltimore, Mrs. Louie M. Gordon of Atlanta, John P. Dampman of Reading and W. V. Alexander of Boston. Treasurer, J. S. McCartney of Philadelphia; secretary, Harry D. Vought of Buffalo. Buffalo was chosen as the next place of meeting.

Collision in New York Harbor.

NEW YORK, June 13.—The Red Star liner Mooreland had just passed the last turn in the channel yesterday afternoon, headed out to sea, when she collided with the German tank steamer Deutschland. A heavy bank of vapor was responsible for the accident. The only thing that saved the Deutschland from being cut in twain was the fact that she was light. Had she been laden deep the keel pro of the Red Star liner would have cut her lower decks pass through paper. As it was, the keel of the heavy side plates were destroyed and other minor damage done. No one was hurt.

A Monster Storm in Rome.

LONDON, June 13.—The Standard's Rome correspondent telegraphs that a terrific thunder storm occurred in that city Tuesday night, and lasted two hours. The rain descended in torrents, and flooded the cellars and did great damage, stopping the operation of all telegraph and telephone lines and extinguishing all the electric lights in the city. Lightning set fire to the Church of Santa Maria del Pianto. The violence of the storm caused a panic in the different theaters in the city.

Charges Against the Collins's Officers.

SAN FRANCISCO, June 13.—The official investigation into the causes that led to the wreck of the steamer Collina, off Manzanillo, Mexico, on May 27, was resumed before the United States Inspectors Talbot and Phillips. Several of the surviving passengers told the story of the storm at shipwreck, stating that although officers realized their precarious position, no attempt was made to lower the boats or distribute the life preservers.

Three More Collina Survivors.

MANZANILLO, Mexico, June 13.—A letter received by the agents of the Pacific Mail here states that two women and one man, shipwrecked passengers of the Collina, landed at Manzanillo, fifty miles south-east of Manzanillo, on May 29, and have been cared for by the Indians. They are now on their way to Manzanillo on mules. The party are all Americans. The story is corroborated by the customs collector here.

All Quiet on Formosa Island.

HONG KONG, June 13.—The Japanese have made a peaceful occupation of Formosa and Tai Pei Fu, in the Island of Formosa. They are administering the customs and trade is resumed. As usual, the Chinese soldiers, before the fight, threw away their arms. No further trouble is expected. Her majesty's ship Rainbow has returned here.

Shot Himself to Avoid Arrest.

CANAN, N. M., June 13.—W. C. Lory, a farmer living near town, quarreled with his wife and fired a pistol at her, the bullet inflicting a wound on her cheek. She fled to a neighbor's and officers were sent to arrest Lory. The latter, when he heard the officers at his door, shot himself in the head. He will probably die.

"Dick" Quay a Benefactor.

PITTSBURGH, June 13.—Richard Quay, son of Senator Quay, was married last night in the Presbyterian church at Sewickley to Miss Elizabeth Loring Waters, daughter of William Waters.

THE FREE SILVERITES.

An Enthusiastic Gathering in the Tennessee Metropolis.

THE SILVER LEADERS PRESENT

The Wild Welcome to Congressman Sibley Who is Regarded as the Probable Nominee of the Silverites in 1896—Senator Turpie as Permanent Chairman.

MEMPHIS, June 13.—Friends of silver representing twenty states of the south and west, began a two days' convention in this city yesterday. Fifteen hundred delegates, comprising Democrats, Republicans and Populists, but with "honest money" as the slogan of all, filled the lower floor and a large portion of the balconies at the Auditorium when the gathering was called to order.

On the stage, besides the officers of the Central Bimetallic League of Memphis, under whose auspices the gathering was held, were, with very few exceptions, all the leading advocates of the free coinage of silver in the United States. They included Senators Bate and Harris of Tennessee, Jones and Barry of Arkansas, George and Walthall of Mississippi, Marion Butler of North Carolina, Senator

Fillman of South Carolina, Turpie of Indiana, Governor John G. Evans of South Carolina, ex-Governor Prince of New Mexico, ex-Governor Eagle of Arkansas, ex-Congressman W. J. Bryan of Nebraska, General A. J. Warner of Ohio, C. S. Thomas and Alva Adams of Colorado, Alex. Delmar of California, and congressmen and bankers from Tennessee and adjoining states by the dozen.

A permanent organization was effected, with Senator Turpie, of Indiana, as chairman, and addresses were delivered by that gentleman and Alexander Belmar, of California, in the afternoon, and by Congressman Sibley, of Pennsylvania; C. S. Thomas, of Denver, and Aaron Walcott, of Indiana, in the evening. Today is to be devoted to speeches by some of the distinguished visitors and the consideration of the report of the committee on resolutions, of which Senator Jones, of Arkansas, is chairman.

Politically the most significant incident of yesterday's proceedings was the clear and emphatic statement of Senator Harris, of Tennessee, who it has been already clearly demonstrated is the controlling spirit in the management of the convention as to the object of the gathering and the single subject to which it is expected to confine its deliberation.
